

SBD - CM REVIEW FORM

To: Business Opportunity Support Division - A/E

From: SBD CM - Vivian Forhat-Diaz

Department: WASD

Contact: Patty David

Date: 08/27/13

RESUMITTAL: N/A

PROJECT NUMBER: E13-WASD-03

PROJECT TITLE: Non-exclusive Professional Services Agreement for Design services for the Implementation of a Pump Station Improvement Program

PROJECT LOCATION: Various Locations

SCOPE OF WORK/DESCRIPTION: Professional engineering services to provide design services for the implementation of a Pump Station Improvement Program (PSIP). The Consultant will complete all design work and construction documents required to complete the pump station remedial action plans as required by the Consent Decree between Miami-Dade County and United States Environmental Protection Agency (EPA), the United States Department of Justice (DOJ) and the State of Florida Department of Environmental Protection (FDEP). The scope of services required by the Consultant includes, but is not limited to the following:

- Preparation of all documents required for construction such as: Property Surveys, Geotechnical reports, Engineering drawings, Technical specifications, Cost estimates.
- Obtain all permits required to carry out the projects.
- Review all shop drawing submittals associated with the projects
- Process requests for information and change order requests during the construction phase.
- Provide support, including site visits, during the construction phase.
- Perform final project certification with the permitting agencies once the project is completed

SPECIAL REQUIREMENTS: Prime Consultant is required to have experience with the design of a least five (5) pump station projects, to include one (1) that involved a combination pump station and force main project, and two (2) pump stations designed per WASD standards within the past eight (8) years that has been constructed for or conveyed to WASD.
