Estimated Cost of Project/Bid: \$123,000.00

Description of Project/Bid: The work is required to address and repair the sewage exfiltration due to pipe segment joint damage involving highly specialized work (i.e., cured-in-place pipe lining) which is beyond the capabilities and expertise of the current MDAD Maintenance Shops and/or contract mechanisms. Nevertheless, these unforeseen/unanticipated emergency repairs need to be completed without delay to safeguard the public health, safety and welfare and to prevent enforcement action from the Department of Regulatory and Economic Resources (RER) Environmental Resources Management (DERM). Accordingly, it is critical to secure the services of a qualified emergency contractor capable of implementing the required repairs.
