Subject: FW: Scope of Services for Park Cell Towers

Mr. Porter: The attached solicitation (RFP) will result in revenue generating contracts for the county. The solicitation requests companies to install cell towers at county sites and sub-lease cell antennas to generate revenue that will be shared with the county. The county will also collect a site lease fee in addition to the sub-lease fees. Please call me if you have questions. Park and Recreations is the leading user department for this solicitation.

Subject: Scope of Services for Park Cell Towers

Good Morning Lily: Please provide insurance requirements for the scope of work attached. The RFP is to have cell towers installed on various county sites after zoning clearances. You can download the entire RFP at the link below if need.
