SUMMARY OF MIAMI-DADE INTERNATIONAL TRADE

International trade remains one of Miami-Dade County's most important sectors. The U.S. Bureau of Labor Statistics reports that in 2012 the international trade and logistics industry cluster directly employed approximately 30,000 workers in Miami-Dade. International trade supports an additional 41,600 jobs across the County through indirect and induced effects. This sector contributed approximately US\$6.4 billion to Miami-Dade's GDP and US\$4.3 billion to labor compensation and proprietor's income in 2012. The median wage in this industry cluster was US\$47,100. The median wage in Miami-Dade for all workers is US\$30,700, according to U.S. Bureau of Labor Statistics estimates for 2012.

Trade and logistics led the local economic recovery beginning in 2010, and by 2011 the annual increase in the total value of international trade reached 19.7%. International trade in 2012 grew at a rate of 10.7% per year. As the U.S. and global economy experienced a deceleration in the pace of economic growth, Miami-Dade's international trade activity also slowed. The pace of growth of trade in the first half of 2013 has lost much of its previous momentum, registering an increase of just 2.6% compared to the first half of 2012.

The value of total trade through the first 6 months of 2013 reached US\$47.0 billion, up from US\$45.9 billion for the first half of last year. Trade with South America totaled US\$20.6 billion in the first half of
