RE: Certification and Reporting Compliance for FY 2019-2020

Dear Mr. Betancourt:

In accordance with the certification and reporting requirements of the Interlocal Agreement (revised) between our Municipality and Miami-Dade County regarding Charter County Transit System Proceeds Levied by Miami-Dade County, we certify that:

- For the current fiscal year we are providing at least the same level of general fund support for transportation that we provided in the FY 2001-2002 budget in the amount of \$4,718,932.
- We are using the current year's portion of the Municipal Share received in accordance with the Interlocal Agreement.

As required by the Interlocal Agreement we are including:

- This Certification and Reporting Compliance Letter.
- The link to the City's Proposed Budget for FY 2019-2020.
<http://archive.miamigov.com/Budget/docs/FY20/BudgetBrief.pdf>
- An updated copy of the City's 5-year Transportation Plan.
- A completed Municipal Questionnaire / Annual Report.

Should you require further information, please contact Ms. Sandra Harris, Assistant Director, Transportation Division, Department of Resilience and Public Works at (305) 416-1726 or via email at sandraharris@miamigov.com.

Sincerely,

Emilio T. Gonzalez, Ph.D.

Quarterly Reports

What is the Purpose?

- Monitoring the efficiency of their circulators
- Tracking Capital Projects expenses
- Ensuring municipalities are spending:
 - Minimum of 20% on Transit expenditures, and
 - Within maximum 80% on Transportation expenditures.

Why a New Template?

- The original Quarterly Report Template was created 13 years ago in 2007 (it was past due for an update)
- We welcome your comments and suggestions!

Instructions for New Quarterly Reports: Transit & Transportation

Definitions

Transit - Any initiative that improves mobility for your municipality. This can either be a Capital or Operations & Maintenance (O&M) Project. A minimum of 25% of PPP costs shall be spent in this category. Some cities spend 100% in this category and that's perfectly fine!

Examples of **Transit Capital Projects** are acquisition of transit vehicles (buses, trolleys, etc.) and related accessories such as bus stop signs, bus shelters, bus stops, etc. The acquisition, repair or maintenance of sidewalks is eligible regardless of who is funding the project under the following conditions:

- Sidewalks that are part of a new city block development project, or
- Sidewalks that are part of a new city block development project, or

Examples of **Transit O&M Projects** are the cost to operate and maintain municipal facilities and all expenses associated with the O&M of transit capital projects. Devolved Transportation services may be included in this category as well. Additionally, consultant costs for transit planning as well as other related transit administration expenses are also eligible, included in your Transit costs should be included administration costs, insurance, taxes, building expenses, etc. If there is a change in the Transit costs in your fiscal year or during the year, and if it is not a result of a change in the year, the total cost at the end of the year will be the same, as will be the average cost per quarter.

Transportation - Any public works project that will help improve the state of any and all transportation within your municipality. No more than 25% of your current infrastructure costs should be spent in this category.

Examples of **Transportation Projects** include:

- The installation, repair or maintenance of sidewalks provided they are
- Sidewalks constructed as part of a larger road project, or
- Road along a sidewalk project that is part of a network of sidewalks which provide for urban mobility.
- Landscaping and surface access expenditures for eligible tree plantings on PPP transportation projects.
- Encouraging and integrating projects that are part of a mobility improvement project.
- Any public constructed as part of a larger road project.
