EXPLANATION:

The First-Tier Meeting was held on February 6, 2007 and on February 28, 2007, the Request to the County Manager for authorization to negotiate with the four top ranked firms was generated. Authorization to negotiate received from the County Manager on March 5, 2007. On April 5, 2007, the project was placed on hold as all six (6) projects were being "master planned" to make better use of the sites and funds. There will be significant changes to the Joe Moretti project and cancellation of the work at Dante Fascell. Negotiations and awards were put on hold and pending departmental restructuring and master planning.

On April 27, 2009, MDPHA reported that the six projects would be cancelled and three new projects would be implemented by developers. In view of current market conditions, and to better utilize scarce resources, MDPHA has analyzed various options and intends to put forth a new resolution for development of 3 projects instead of 6.

This Rejection of Proposals constitutes the formal rejection of the selected consultants.

MINIMUM QUALIFICATIONS EXCEED LEGAL REQUIREMENTS: Yes The selected consultants were to design a minimum of one high-rise housing structure (minimum of 7 stories) of at least 50 units within a seven year period from the date of this solicitation.

On December 9, 2009, members of the Housing & Community Development Committee (HCDC) approved and forwarded to the BCC a resolution to approve significant modifications, additions and deletions to the GOB program with respect to project numbers 242, 244, 245, 246, 247 and 248 based on an “Evaluations Report of GOB Projects” report issued by MDPHA in July 2009 (MDPHA GOB Report).

The MDPHA GOB Report re-analyzed the above-listed projects and made a determination to focus on the three most feasible GOB projects requiring projects numbers 242, 244, 245, 246, and 248 be deleted and to add to new project numbers 242.A and 244.A, and significantly modify project number 247. MDPHA in coordination with the Office of Community and Economic Development (OCED) determined to focus on the three most feasible projects to ensure the most successful utilization of available funds in light of the substantial rise in construction costs.

The MDPHA GOB Report recommendation for projects 242.A, 244.A and 247 is a result of altering the composition of the existing projects, re-alignment of corresponding funding to maximize the use of available funds. Each project was evaluated for its project scope, project characteristics and was identified for individual elements of advantage from other GOB projects.

The selected GOB projects included the following advantages:

- None of the three projects require relocation of residents;
- None of the three projects required re-zoning or Master Use Special Permit (MUSP) requiring additional time and costs;
- All three projects have ease of accessibility to the site for construction activities;
- The three recommended projects can be developed with two stories or less in order to provide approximate number of units more economically and faster than the original six projects;
- Project 244.A has received Demolition/Disposition approval from HUD, Project 247 has received Demolition approval and Project 242.A does not require HUD approval.

The MDPHA GOB Report included additional advantages that were taken into consideration when selecting the recommended projects that included addressing Unsafe Structures Board citations and compliance with Expanded Hope IV Target Area.

All three recommended projects are located within Commission District 3.

The GOB Citizens Advisory Committee (CAC) approved the recommendations set forth in the MDPHA Evaluations Report on April 27, 2009.

Budgetary Impact

There is no fiscal impact on the existing GOB Program allocation of \$32.3 million, it will remain the same. However, the number of units originally estimated with the original six projects will decrease from 341 units down to 296 units.

GOB Project No.	Name/Description of Project	No. of Units	Allocation
