RESOLUTION NO. R-1014-11

RESOLUTION URGING THE FEDERAL GOVERNMENT
AND THE STATE OF FLORIDA TO REQUIRE GREATER
ENERGY EFFICIENCY FROM TELEVISION SET-TOP
BOXES

WHEREAS, more than 80 percent of U.S. households subscribe to some form of pay television service utilizing approximately 160 million set-top boxes nearly all of which are owned and installed by the cable, satellite, phone or other service provider; and

WHEREAS, these set-top boxes operate at near full power even when the consumer is not watching or recording a television show; and

WHEREAS, in 2010, set-top boxes in the United States consumed approximately 27 billion kilowatt-hours of electricity – the equivalent of the annual output of nine average coal-fired power plants or the annual household energy consumption of the entire state of Maryland; and

WHEREAS, the electricity used by these set-top boxes results in 16 million metric tons of carbon dioxide (CO₂) emissions and costs U.S. households more than \$3 billion each year to operate; and

WHEREAS, U.S. households spend \$2 billion dollars a year to power these set-top boxes when they are not being actively used; and

WHEREAS, current set-top boxes require more electricity to operate than the average energy efficient refrigerator; and

WHEREAS, improvements in the design of set-top boxes could reduce their overall energy consumption from 30 to 50 percent by implementing energy saving designs including requiring set-top boxes to automatically power down to lower power levels when not in use; and

WHEREAS, the United States Department of Energy is currently considering whether to regulate the energy consumption of set-top boxes under the Energy Policy and Conservation Act, 42 U.S.C. 6291, *et seq.*; and

WHEREAS, the State of Florida has made the Florida Department of State the franchising authority for cable television and may require greater energy efficiency in set-top boxes as part of cable television franchise agreements pursuant to Florida Statutes 610.102, *et seq.*; and

WHEREAS, the residents of Miami-Dade County would benefit from greater energy efficiency in set-top boxes,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA, that this Board:

Section 1. Urges the federal government to regulate and require greater energy efficiency in set-top boxes either through new legislation, inclusion of set-top boxes under the Energy Policy and Conservation Act, or through the authority of the Federal Communications Commission.

Section 2. Urges the State of Florida, as a condition of the grant or renewal of a cable television franchise agreement, to require cable operators to provide subscribers with energy efficient set-top boxes.
