The three resulting contracts represent a diverse range of industry expertise in the following service categories: (A) Market Research and Business Planning for Park and Recreation Programs, Facilities and Services; (B) Park, Recreation and Open Space Planning; and (C) Environmental Planning. A work order process will be used to assign projects within the applicable category.

Historically, PROS' Planning Division has used consultants to provide support to staff in the three referenced service categories. The services in the current contracts are the same as the recommended successor contracts. There is an ongoing need for park planning services as these services are essential for the timely progress of planning and research projects to fulfill the needs of park patrons.

ATTACHMENT A

On July 9, 2012 a recommendation to approve an award of contracts for RFQ No. 786, Park Planning Services was presented at the Recreation and Cultural Affairs Committee (RCAC). At that meeting, the RCAC Committee approved a motion to defer the recommendation as several committee members had questions and concerns pertaining to the item. This attachment serves to address the following questions and concerns:

1) Provide a detailed breakdown of the funding sources to be utilized by the Parks, Recreation, and Open Spaces Department (PROS) for these services.

   See attached projected five year work schedule A-1.

2) Why is only one local firm being recommended for award?

   RFQ 786 includes the Local Preference policy approved by the Board of County Commissioners. The County Code provides for a local preference in vendor selection. The word local, as defined in County Code, subsection 2-8.5, "means the vendor has a valid occupational license issued by Miami-Dade County at least one year prior to bid or proposal submission to do business within Miami-Dade County that authorizes the business to provide the goods, services or construction to be purchased, and a physical business address located within the limits of Miami-Dade County from which the vendor operates or performs business. Post Office Boxes are not verifiable and shall not be used for the purpose of establishing said physical address. In addition to the foregoing, a vendor shall not be considered a "local business" unless it contributes to the economic development and well-being of Miami-Dade County in a verifiable and measurable way."

   There are two firms recommended for award that meet this definition. The two firms are AECOM Technical Services, Inc., and Millan, Swain and Associates. AECOM Technical Services, Inc. and Millan, Swain and Associates both qualified for Local Preference as they attested to meeting Local Preference criteria and provided their Miami-Dade County local business tax receipt. AECOM has approximately 200 employees in South Florida, with 136 employees in Miami-Dade County and 62 employees in Broward County, and has had a presence in Miami-Dade County for over 20 years. Millan, Swain and Associates has 20 employees in South Florida, and has had a presence in Miami-Dade County for 23 years.

3) The firm Millan, Swain & Associates, Inc. is a local firm. Why can't this firm along with PROS' staff and community volunteers perform the services requested for a more manageable figure and not involve the national firms?

   PROS is always open to the assistance of community volunteers; however, finding volunteers with the specialized skills and certifications needed to perform these specialized services is rare. Additionally, while PROS has a competent team of planners, there are specialized technical skills needed for certain projects, such as park biological assessments and surveying, archeological and historic preservation surveying and assessments, park platting related to sensitive wetland environments, market research system analysis, park business modeling and forecasting, and national park and recreation trend planning and benchmarking. These specialized skills require the technical expertise available through the planning contracts for certain projects on an as needed basis. It would not be cost effective to retain full-time staff for these specialties that are used on an as needed basis to supplement PROS' in-house planning expertise.

4) In Category B: Park, Recreation and Open Space Planning, the firm Curtis + Rogers Design Studio, Inc., a local firm, was ranked highest prior to oral presentations. After oral presentations, the firm was ranked second.

Oral presentations for Category B: Park, Recreation and Open Space Planning were held as the Evaluation/Selection Committee required further clarification of the submitted proposals for the top three (3) ranked firms. Upon completion of the oral presentations, the Evaluation/Selection Committee re-evaluated, re-rated, and re-ranked the proposals. The firm ranked highest post oral presentations is AECOM Technical Services, Inc. which is also a local firm as explained above, and is being recommended for award.

In addition, the Contractor hereby agrees not to modify the insurance coverage without thirty (30) days written advance notice to the County.

NOTE: MIAMI-DADE COUNTY CONTRACT NUMBER AND TITLE MUST APPEAR ON EACH CERTIFICATE OF INSURANCE.

Compliance with the foregoing requirements shall not relieve the Contractor of this liability and obligation under this section or under any other section in this Agreement.

If the insurance certificate is received within the specified time frame but not in the manner prescribed in this Agreement, the Contractor shall have an additional five (5) business days to submit a corrected certificate to the County. If the Contractor fails to submit the required insurance documents in the manner prescribed in this Agreement within fifteen (15) business days, the Contractor shall be in default of the contractual terms and conditions and award of the Contract may be rescinded, unless such timeframe for submission has been extended by the County.

The Contractor shall be responsible for assuring that the insurance certificates required in conjunction with this Section remain in force for the duration of the contractual period of the Contract, including any and all option years or extension periods that may be granted by the County. If insurance certificates are scheduled to expire during the contractual period, the Contractor shall be responsible for submitting new or renewed insurance certificates to the County at a minimum of thirty (30) calendar days in advance of such expiration. In the event that expired certificates are not replaced with new or renewed certificates which cover the contractual period, the County shall suspend the Contract until such time as the new or renewed certificates are received by the County in the manner prescribed herein; provided, however, that this suspended period does not exceed thirty (30) calendar days. Thereafter, the County may, at its sole discretion, terminate this contract.
