Mission Outcome and Follow-up

The distinct interest and awareness shown by French firms towards Miami-Dade County underscore this dynamic. With a robust and favorable brand perception of our community in France, the engaging presentations and materials shared during our meetings were positively received by the attending companies, fortifying their optimistic outlook on our community.

During the 2023 mission to France, the leadership met with BNP Paribas Securities Corp, who announced plans to open a new office in Miami that will support the continued growth of its Global Markets business in the US, and the increasing number of clients with a foothold in South Florida. As a follow-up to the meeting with CMA CGM, PortMiami is working with them on their expansion plans of ZeBox, the incubator for fostering innovation in the supply chain and logistics sectors.

The leadership met with John Holmes, CEO, AAR Corp to discuss their plans for growth in Miami-Dade County and offered the County's support for their expansion. AAR recently announced an expansion in Miami-Dade County - a new 3-bay \$50M hangar supporting 250 new aviation jobs.

One of the important linkages was with the fashion industry. These connections are vital in developing the fashion industry in Miami-Dade County.

These interactions have set the stage for a marked increase in prospective projects and collaborations originating from France, as a result of the Mission. Follow-up actions are being conducted by ITC with the various firms engaged during the Mission.
