

AUGUST FEDERAL LEGISLATIVE REPORT

PLG Actions

In August, the Pittman Law Group engaged with Miami-Dade's Congressional sponsors of the MDC appropriation earmarks to thank them for their work in having appropriation requests included in our assigned silos. We continue to monitor the status of these projects as the Senate and House return from recess and the upcoming fiscal year. Additionally, Attorney Pittman met with Miami Dade County Commissioners Oliver Gilbert and Danielle Cohen Higgins to discuss issues facing the County and their priorities as we look towards next year's appropriation process. Attorney Pittman also attended the Democratic National Convention in Chicago where he was able to meet with Democratic members of the Florida delegation to discuss the priorities of the County and their work on Capitol Hill.

Next week, Attorney Pittman will be attending the Congressional Black Caucus Foundation annual legislative week in D.C. We are in the process of setting up meetings with relevant members, including Congresswomen Wilson and Cherfilus-McCormick, on the appropriation committee and other relevant legislative bodies to discuss the federal priorities of the County and how we can support their efforts in the coming months.
