Background:

On July 25th of 2018, the current Professional Services Agreement (PSA) Contract No. E11-PWWM-01 between Arcadis U.S., Inc. (Arcadis) and Miami-Dade County for provision of Bond Engineering Services, pursuant to Ordinance No. 96-168 (Bond Ordinance), will expire. Contract No. E11-PWWM-01 was approved by Resolution No. R-475-13 and extended by Resolution No. R-482-16, until July 25, 2018.

The Bond Ordinance requires that, as long as bonds are outstanding, the County must employ a nationally recognized, independent consultant (Bond Engineer) to provide certain services, analyses, and certifications associated with the operation and maintenance of the System. The 2015 Series of Miami-Dade County Solid Waste System Revenue Bonds have a final maturity date of October 01, 2030.

The Solid Waste System comprises (a) the County's solid waste collection and disposal facilities, all buildings, fixtures, equipment and all property, owned, leased, operated or used by the County in conducting and operating its solid waste collection and disposal facilities and providing services of collecting and disposing of solid waste and (b) contracts entered into by the County for the collection, transportation, storage, treatment, disposal and recycling of solid waste.

Resolution No. R-942-15 approved a list of landfill closure projects eligible for funding through the DSWM and created the framework by which the CLCP could be developed or entered into with certain cities to remediate city-owned former landfill sites under a Comprehensive Landfill Closure Plan. The County has entered into an agreement with several cities to remediate former landfill sites.

The RRF is of high significance and is among the largest and most complex facilities of its kind. The County has entered into a long-term RRFA with Covanta to operate and maintain the facility until the year 2023, with mutual renewal options to the year 2043.
