Mayor
Subject: Status Report on FEMA Reimbursements for Hurricane Irma – Directive No. 182307

Pursuant to a Board directive, attached as Exhibit I is the February 2022 monthly report regarding the status of Federal Emergency Management Agency (FEMA) reimbursements of County expenditures incurred in response to Hurricane Irma. In summary, of \$271 million expended, \$243 million has been obligated to date and \$203 million collected.

Background

On September 10, 2017, Hurricane Irma made landfall in South Florida. In anticipation of landfall, the President of the United States declared a Federal Emergency on September 4, 2017, which allowed Miami-Dade to seek Federal and State grants for reimbursement of actual hurricane-related expenditures. The County anticipates that it will incur about \$271 million of Hurricane Irma expenditures overall. These projected expenditures constitute 223 distinct projects as of February 28, 2022. As FEMA continues its review process, estimate and cost share allocations may change.

As of February 28, 2022, FEMA has obligated \$232 million in federal funding with \$11 million in state funding. FEMA and the State of Florida have actually paid \$203 million to the County.
