Independent Auditors' Report

The Board Public Health Trust of Miami-Dade County, Florida:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the business-type activities, the discretely presented component unit, and the fiduciary activities of the Public Health Trust of Miami-Dade County, Florida (the Trust), a department of Miami-Dade County, as of and for the years ended September 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Trust's basic financial statements for the years then ended as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the discretely presented component unit, and the fiduciary activities of the Trust as of September 30, 2022 and 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with U.S. generally accepted accounting principles.

We did not audit the financial statements of Jackson Memorial Foundation, Inc., which represents 100% of the discretely presented component unit as of and for the years ended September 30, 2022 and 2021. Those statements were audited by other auditors whose report has been furnished to us, and our opinions, insofar as they relate to the amounts included for Jackson Memorial Foundation, Inc., are based solely on the report of the other auditors.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of Jackson Memorial Foundation, Inc. were not audited in accordance with *Government Auditing Standards*.

Emphasis of Matters

Reporting Entity

As discussed in Note 1 to the basic financial statements, the financial statements of the Trust are intended to present the financial position, the changes in financial position, and, where applicable, cash flows of only that portion of the business-type activities, each major fund, the aggregate discretely presented component unit, and the aggregate remaining fund information of Miami-Dade County that is attributable to the transactions of the Trust. They do not purport to, and do not, present fairly the financial position of Miami-Dade County, Florida as of September 30, 2022 and 2021, the changes in its financial position, or, where applicable, its cash flows

for the years then ended, in accordance with U.S. generally accepted accounting principles. Our opinions are not modified with respect to this matter.

Adoption of New Accounting Pronouncement

As discussed in Note 2 to the basic financial statements, in fiscal year 2022, the Trust adopted Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis, Florida Retirement System (FRS) pension information – schedules of employer contributions and schedules of employer proportionate share of net pension liability and related ratios, Supplemental Health Insurance Subsidy pension information – schedules of employer contributions and schedules of employer proportionate share of net pension liability and related ratios, Supplemental Health Insurance Subsidy pension information – schedules of employer contributions and schedules of employer proportionate share of net pension liability and related ratios, schedules of employer contributions, schedules of net pension liability (asset) and related ratios, schedules of changes in net pension asset (liability)

and related ratios, and schedules of investment returns, and postemployment benefits other than pensions – schedules of changes in Trust's total OPEB liability and related ratios, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Trust's basic financial statements. The supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 3, 2023 on our consideration of the Trust's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Trust's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Trust's internal control over financial reporting and compliance.

Miami, Florida February 3, 2023

A Department of Miami-Dade County, Florida Management's Discussion and Analysis September 30, 2022 and 2021 (Unaudited)

Financial and Operating Performance

This section of the Public Health Trust of Miami-Dade County, Florida's (the Trust) annual financial report presents management's discussion and analysis of the financial position and performance of the Trust for the years ended September 30, 2022, 2021 and 2020. This discussion has been prepared along with the basic financial statements and related note disclosures, and should be read in conjunction therewith. The purpose of this section is to provide an objective analysis of the financial and operating activities of the Trust based on currently known facts, decisions, and conditions. Financial and operating data have been prepared on the same basis as the audited financial statements.

Effective October 1, 1973, the Trust was created by county ordinance to provide for an independent governing body (the board of trustees or Board) responsible for the operation, governance, and maintenance of "designated facilities." Currently, the Trust operates seven hospitals: Jackson Memorial Hospital, Holtz Children's Hospital, Jackson South Medical Center, Jackson North Medical Center, Jackson West Medical Center, Jackson Rehabilitation Hospital, and Jackson Behavioral Health Hospital; two skilled nursing facilities, Jackson Memorial Long-Term Care Center and Jackson Memorial Perdue Medical Center; several primary care centers, Jefferson Reaves Senior Health Center, North Dade Health Center, Rosie Lee Wesley Health Center, Dr. Rafael Penalver clinic; as well as multiple specialty care centers; corrections health services for Miami-Dade County; and five urgent care centers, UCC Country Walk, UCC Cutler Bay, UCC Keystone Point, UCC Doral, and UCC North Dade. At September 30, 2022, the Trust operates a total of 2,230 licensed hospital beds and 343 licensed nursing home beds.

Jackson Memorial Hospital, Christine E. Lynn Rehabilitation Center, Holtz Children's Hospital, Jackson North Medical Center, Jackson South Medical Center and Jackson West Medical Center are teaching hospitals operating in association with the University of Miami School of Medicine, which provides staff and services under an annual operating agreement.

The Trust is a department of Miami-Dade County (the County). It is the intent of the Miami-Dade Board of County Commissioners (the Commission) to promote, protect, maintain, and improve the health and safety of all residents and visitors of Miami-Dade County through a fully functioning and sustainable public health trust. The Commission finds that it is in the best interest of the public it serves to take action to preserve the Trust and to ensure its financial sustainability by requiring the Trust to notify the Commission, the Mayor, and the Commission Auditor when certain financial conditions as outlined in Chapter 25A of Miami-Dade County Code of Ordinances occur. During the current year, none of the financial conditions were met that required notification. The Public Health Trust is overseen by a seven-member board that was established to serve as the governing body of the Trust.

As a result of the implementation of GASB Statement No. 87 during the year, the information presented for 2021 has been restated to conform to the new accounting standard. The 2020 amounts were not restated to reflect the adoption of GASB Statement No. 87.

A Department of Miami-Dade County, Florida Management's Discussion and Analysis September 30, 2022 and 2021 (Unaudited)

Total assets increased by approximately \$149.0 million during 2022 primarily due to an increase in current assets of approximately \$138.9 million at September 30, 2022 compared to September 30, 2021. The increase in current assets was due to high collections, approximately \$155 million, in sales tax over the final quarter of the 2022 fiscal year. Other increases to current assets included approximately \$21.5 million in Receivable from Medicaid and approximately \$15.8 million in the Governmental Money Market cash account.

Day's unrestricted cash on hand was approximately 58 days at September 2022 as compared to 53 days at September 2021. Days net in accounts receivable was approximately 55 days at September 2022 as compared to 54 days at September 2021.

At September 30, 2022 and 2021, respectively, the Trust recorded in deferred outflows, approximately \$230.0 million and \$95.6 million, and in deferred inflows, approximately \$40.5 million and \$193.0 million, related to pension in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB Statement No. 71, *Pension Transition for Contributions made Subsequent to the Measurement Date*.

At September 30, 2022 and 2021, the Trust recorded approximately \$20.6 million and \$16.0 million, respectively of deferred inflows related to Postemployment Benefits Other Than Pensions (OPEB) in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. At September 30, 2022 and 2021, the Trust recorded approximately \$18.9 million and \$19.2 million, of deferred outflows related to OPEB in accordance with GASB Statement No. 75.

Total liabilities increased by approximately \$313.8 million during 2022 primarily due to an increase in net pension liability of approximately \$304.4 million at 2022 compared to 2021. The large increase in net pension liability was due to the fair market value decrease of the investments held in the pension funds from September 30, 2021 to 2022.

The Series 2015A Bond and 2017 Bond (collectively, the Bonds) are secured by the gross revenues of the Trust. The Bonds are subject to certain covenants included in Ordinance Nos. 05–49 and Nos. 15–46 (the Ordinance) together with certain ordinances and board resolutions, which authorize and issue the Bonds by and between the Trust and the County. In addition, the Trust must comply with certain covenants included in the related insurance agreements.

The restrictive covenants that must be met by the Trust, include, among other items, the requirement to maintain a minimum long-term debt service coverage ratio, the requirement to make scheduled monthly deposits to the debt service fund, maintenance of insurance on the Trust's facilities, and limitations on the incurrence of additional debt.

At September 30 2022, the Trust was in compliance with the debt service ratio covenant and other covenants contained in the Ordinance.

The Trust reported an increase in net position of approximately \$120.9 million for the year ended September 30, 2022. The net increase consisted of \$691.1 million from operating loss offset by \$36.8 million in capital contributions from Miami-Dade County related to the PHT-GOB 2015 Bond, and \$775.2 million from nonoperating revenues, net, of which, \$386.7 million were in sales tax revenues, and \$237.7 million in Miami-Dade County funding.

A Department of Miami-Dade County, Florida Management's Discussion and Analysis September 30, 2022 and 2021 (Unaudited)

Total assets increased by approximately \$275.6 million during 2022 primarily due to an increase in current assets of \$110.6 million and an increase in capital assets, net, \$109.6 million at September 30, 2021 compared to September 30, 2020. The increase in current assets was due to an increase of receivable from Medicaid in the amount of \$96.9 million. The increase in capital assets, net was due to projects and construction in progress as part of system upgrades, new equipment, and new construction.

Day's unrestricted cash on hand was approximately 53 days at September 2021 as compared to 56 days at September 2020. Days net in accounts receivable at September 2021 and 2020 were 54 days and 48 days, respectively.

At September 30, 2021 and 2020, respectively, the Trust recorded in deferred outflows, approximately \$95.6 million and \$116.0 million, and in deferred inflows, approximately \$193.0 million and \$51.2 million, related to pension in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions and GASB Statement No. 71, *Pension Transition for Contributions made Subsequent to the Measurement Date*.

At September 30, 2021 and 2020, the Trust recorded approximately \$16.0 million and \$17.1 million, respectively of deferred inflows related to Postemployment Benefits Other Than Pensions (OPEB) in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. At September 30, 2021 and 2020, the Trust recorded approximately \$19.2 million and \$20.3 million, of deferred outflows related to OPEB in accordance with GASB Statement No. 75.

Total liabilities decreased by approximately \$125.5 million during 2022 primarily due to a decrease in current liabilities of \$30.0 million and a decrease in net pension liability of \$202.0 million during 2021 compared to 2020, offset by an increase in other liabilities of \$117.7 million. The large decrease in net pension liability was due to the fair market value increase of the investments held in the pension funds. The significant increase in other liabilities was primarily related to draws that PHT made on a line of credit between September 30, 2020 and 2021.

At September 30, 2021, the Trust was in compliance with the debt service ratio covenant contained in the Ordinance.

The Trust reported an increase in net position of approximately \$164.5 million for the year ended September 30, 2021. The net increase consisted of \$518.7 million from operating loss offset by \$84.8 million in capital contributions from Miami-Dade County related to the PHT-GOB 2015 Bond, and \$598.5 million from nonoperating revenues, net, of which, \$310.9 million were in sales tax revenues, and \$222.6 million in Miami-Dade County funding.

A Department of Miami-Dade County, Florida Management's Discussion and Analysis September 30, 2022 and 2021 (Unaudited)

Net Patient Service Revenue

Net patient service revenue for the fiscal years ended September 30, 2022 and 2021 was approximately \$1,524.6 million and \$1,367.7 million, respectively, an increase of approximately \$156.9 million or 11.5%. The increase in net patient service revenue was due to an improved payor mix as well as an increase in organ transplants and other surgeries. The most significant improvements in payor mix included a 5.0% increase in Medicare Managed care and a 6.5% increase in Managed care others. The Trust's surgeries for fiscal 2022 were 26,502 cases, 3,163 more cases than the prior year.

Net patient service revenue for the fiscal years ended September 30, 2021 and 2020 was approximately \$1,367.7 million and \$1,255.4 million, respectively, an increase of approximately \$112.3 million or 8.9%. The increase in net patient service revenue was due to a return to typical patient volumes in the year ended September 30, 2021 compared to the year ended September 20, 2020, where many revenue-generating elective procedures and surgeries were cancelled or postponed to make space to serve COVID-19 patients. The improvement in volume during the year ended September 30, 2021 was specifically related to Managed Care and Medicare Managed Care.

The Trust's net patient service revenue and overall financial results are highly dependent upon the state and federal governments. Over the past several years, rate increases have not kept pace with the overall medical expense increases. The Trust is highly dependent upon patients who are covered by health insurance, which to a large extent is dependent on the employment status of individuals treated at the Trust. Medicaid converted most of the beneficiary population into Medicaid Managed Care. These types of payor mix changes have caused an adverse effect by decreasing the net patient service revenue due to an increase in denials. The Trust management is constantly reviewing and anticipating these adverse changes to adapt and make the necessary adjustments to maintain growth in the organization.

The payor mix below is based on patient days:

	2022	2021	2020
Medicare	12.0 %	12.2 %	14.2 %
Medicare Managed care	23.1	22.0	20.3
Medicaid	5.3	4.8	3.9
Medicaid Managed care	19.6	19.6	19.3
Medicaid pending	6.7	8.9	11.1
Commercial insurance	1.6	1.6	1.2
Managed care others	16.5	15.5	13.8
Self-pay and other	15.2	15.4	16.2
	100.0 %	100.0 %	100.0 %

Net patient service revenue for the Trust includes payments from government programs such as Medicare and Medicaid, from managed care companies under negotiated contracts, from commercial insurance companies with no negotiated contract, and directly from patients.

A Department of Miami-Dade County, Florida Management's Discussion and Analysis September 30, 2022 and 2021 (Unaudited)

Medicare

Medicare is a federal program that provides certain hospital and medical insurance benefits to persons age 65 and over, some disabled persons, and persons with end-stage renal disease and is provided without regard to income or assets. Medicare fee for service patient days as a percentage of total in fiscal year 2022 was 12.0%, which was lower than the fiscal year 2021 percentage of 12.2%. Medicare fee for service patient days as a percentage of total in fiscal year 2020 percentage of 14.2%.

Inpatient

Disproportionate share hospital (DSH) payments are determined annually based on certain statistical information and are calculated as a percentage addition to Medical/Surgical-Diagnosis Related Groups (MS-DRG) payments. The primary method used by a hospital to qualify for Medicare DSH payments is a complex statutory formula that results in a DSH percentage that is applied to payments on MS-DRGs.

Outpatient

Hospital outpatient services paid under prospective payment system (PPS) are classified into groups called ambulatory payment classifications (APCs). Services for each APC are similar clinically and in terms of the resources they require. A payment rate is established for each APC. Depending on the services provided, a hospital may be paid for more than one APC for a patient visit.

Rehabilitation

The Center for Medicare and Medicaid Services (CMS) reimburses inpatient rehabilitation facilities (IRFs) on a Diagnosis Related Group (DRG) basis. Under IRF DRG, reimbursement of patients is based on the patients' acuity and individual hospital characteristics, including classification as a children's hospital, rural hospital, trauma center, and other characteristics that would warrant reimbursement.

Psychiatric

Inpatient hospital services furnished in psychiatric hospitals and psychiatric units of general, acute care hospitals are reimbursed under inpatient psychiatric facility DRG basis. DRG reimbursement of patients is based on the patients' acuity and individual hospital characteristics, including classification as a children's hospital, rural hospital, trauma center, and other characteristics that would warrant reimbursement.

Physician Services

Physician services are reimbursed under the physician fee schedule (PFS) system, under which CMS has assigned a national relative value unit (RVU) to most medical procedures and services that reflects the various resources required by a physician to provide the services relative to all other services. Each RVU is calculated based on a combination of work required in terms of time and intensity of effort for the service, practice expense (overhead) attributable to the service, and malpractice insurance expense attributable to the service. These three elements are each modified by a geographic adjustment factor to account for local practice costs then aggregated. The aggregated amount is multiplied by a conversion factor that accounts for inflation and targeted growth in Medicare expenditures (as calculated by the sustainable growth rate) (SGR) to arrive at the payment amount for each service.

A Department of Miami-Dade County, Florida Management's Discussion and Analysis September 30, 2022 and 2021 (Unaudited)

Other

Under PPS, the payment rates are adjusted for the area differences in wage levels by a factor (wage index) reflecting the relative wage level in the geographic area compared to the national average wage level.

Medicaid

Medicaid is a federal-state program, administered by the State of Florida, which provides hospital and medical benefits to qualifying individuals who are unable to afford healthcare. Effective July 1, 2013, the State of Florida moved from a per diem-based payment to a fixed DRG payment per case. Effective July 1, 2014, the majority of Medicaid patients were transitioned into Managed care plans.

Hospitals that provide care to a disproportionately high number of low-income patients may receive Medicaid Direct Payment Program (DPP) and Public Hospital Payment (PHP) payments. The federal government distributes federal Medicaid DPP and PHP funds to each state based on a statutory formula. Florida utilizes a supplemental reimbursement program for the purpose of providing reimbursement to providers to offset a portion of the cost of providing care to Medicaid and indigent patients.

Medicaid Pending

Medicaid pending represents patients that have applied for state funding and are waiting for approval by the state. Once approved, the patients are reclassified to Medicaid. As of September 30, 2022, 2021 and 2020 Medicaid Pending represents 6.7%, 8.9% and 11.1% respectively, of the overall payor mix based on patient days.

Commercial Insurance

Private insurance carriers pay the Trust based upon the hospital's established charges and the coverage provided in the insurance policy. Commercial insurers try to limit the costs of hospital services by negotiating discounts.

Managed Care and Other Discounted Plans

The Trust's managed care agreements offer discounts from established charges to health maintenance organizations, preferred provider organizations, and other managed care plans.

Self-Pay and Other

The primary collection risks of accounts receivable relate to the uninsured patient accounts and patient accounts for which the primary insurance carrier has paid the amounts covered by the applicable agreement, but patient responsibility amounts (deductibles and copayments) remain outstanding. The provision for doubtful accounts relates primarily to amounts due directly from patients.

A Department of Miami-Dade County, Florida

Management's Discussion and Analysis

Other Revenue

Other revenue increased by \$122.7 million for fiscal year ended September 30, 2022 compared to 2021 and increased by \$41.9 million for fiscal year ended September 30, 2021 compared to 2020. Other revenue consists of Directed Payment Program (DPP), Public Hospital Payment (PHP), low income pool revenue (LIP), specialty pharmacy, house staff reimbursements and outpatient physician billing The increase in other revenue

A Department of Miami-Dade County, Florida

Management's Discussion and Analysis

September 30, 2022 and 2021

(Unaudited)

as of September 30, 2022 compared to the prior year is mainly attributed to increases in DPP, PHP & LIP revenue of approximately \$104.6 million and specialty pharmacy revenues of \$14.7 million.

Total Operating Expenses

For the fiscal years ended September 30, 2022, 2021 and 2020, total operating expenses were \$2,677.6 million, \$2,275.8 million and \$2,055.9 million, respectively. Operating costs as a percentage of operating revenue for the fiscal years ended September 30, 2022, 2021 and 2020:

	Fiscal years ended September 30				
	2022	2021	2020		
Operating expenses:					
Salaries and related costs	82.4 %	75.3 %	74.0 %		
Contractual and purchased services	23.1	24.4	25.9		
Supplies and other	22.8	22.9	22.0		
PMATF assessment	0.9	0.9	1.0		
Depreciation and amortization	5.7	6.0	5.1		
	134.9 %	129.5 %	128.0 %		

Grants and Other

During the year ended September 30, 2022, the Trust received and recognized into grants revenue approximately \$4.4 million in financial support through the US Department of Health and Human Services (HHS) CARES Act Provider Relief Fund. During the year ended September 30, 2021, the Trust received approximately \$1.2 million and recognized into grants revenue approximately \$50.7 million, of which approximately \$49.5 million was recognized from prior fiscal year's deferred revenue. The Trust applied guidance from HHS to assess the amount of revenue recognized during the years ended September 30, 2022 and 2021.

Salaries and Related Costs

The Trust employed 13,782, 12,887, and 12,638 full-time equivalents (FTE) at September 30, 2022, 2021 and 2020, respectively. The increase relates to several key operating initiatives to align the staffing needs of the organization to address increases in patient volume as well as the needs of the organization during the COVID-19 pandemic. Salaries and related costs were approximately \$1,632.0 million, \$1,323.9 million, and \$1,189.1 million for the fiscal years ended September 30, 2022, 2021 and 2020, respectively. The increase in salaries relates to an increase in FTEs, to significant utilization of temporary staffing agencies, and to the implementation of several pay raises across the system relating to cost of living adjustments, employee recognition, and the usual merit increase adjustments. For the year ended September 30, 2022, FTE per adjusted occupied bed was 7.31 compared to 7.51 for the prior year. For the year ended September 30, 2021, FTE per adjusted occupied bed was 7.51 compared to 8.03 for the prior year.

A Department of Miami-Dade County, Florida Management's Discussion and Analysis September 30, 2022 and 2021 (Unaudited)

Approximately 90% of the Trust's workforce is represented by Service Employees International Union (SEIU), Government Supervisors Association of Florida (GSAF), or American Federation of State, County, and Municipal Employees (AFSCME) unions at September 30, 2022 and 2021. The Trust, like the healthcare industry as a whole, has experienced a rate of labor inflation that is higher than general inflation. The Trust augments staff with temporary or contract personnel as necessary.

Contractual and Purchased Services

Contractual and purchased services for the years ended September 30, 2022, 2021 and 2020 was \$464.7 million, \$427.9 million and \$415.7 million, respectively, an increase of \$36.8 million and \$12.2 million, respectively, (9% and 3%, respectively) over the same period in the respective prior year. The principal reason for the increase in contractual and purchased services from fiscal year 2021 to 2022 was that Jackson West Medical Center experienced a full year of operation in 2022, compared to only one month in 2021.

Supplies and Other Operating Expenses

Supplies and other operating expenses for the years ended September 30, 2022, 2021 and 2020 was \$451.4 million, \$402.5 million and \$352.8 million, respectively, an increase of \$48.9 million and \$49.7 million, respectively, (12% and 14%, respectively) over the same period in the respective prior year.

The Trust experienced an unfavorable supply expense as a percentage of net patient service revenue in 2022 compared to 2021 and in 2021 compared to 2020, due to increased supplies per adjusted patient day from the respective prior year. For the years ended September 30, 2022, and 2021, inflation in unit cost for supplies resulting from supply chain issues post-COVID and Jackson West Medical Center operating for a full year were the predominant reasons for the increase in supply costs in relation to net patient revenue.

	_	Fiscal years ended September 30

A Department of Miami-Dade County, Florida Management's Discussion and Analysis September 30, 2022 and 2021 (Unaudited)

Capital Assets and Debt Administration

As of September 30, 2022, 2021 and 2020, the Trust had capital assets, net, of \$1,270.0 million, \$1,259.4 million and \$1,149.8 million, respectively. The increase was due to projects and construction in progress as part of system upgrades, new equipment, and new construction. Additional information related to the Trust's capital assets is included in note 9 of the financial statements.

As of September 30, 2022, 2021 and 2020, the Trust had bonds payable outstanding of \$244.0 million, \$254.4 million, and \$265.4 million, respectively. Additional information related to the Trust's long term debt is included in note 11 to the financial statements.

Risk Management

The Trust provides for self-insured funding related to medical professional and general liability claims, as well as workers' compensation claims, which are included in supplies and other operating expenses. The establishment of a self-insurance funding vehicle does not result in any transfer of risk, which occurs when commercial insurance is purchased. The Trust carries commercial excess insurance. Based on the results of an actuarially determined reserve analysis, the Trust increased the liability for medical professional and general liability claims by approximately \$4.8 million and \$1.6 million at September 30, 2022 compared to 2021 and at September 30, 2021 compared to 2020, respectively.

Request for Information

This report is designed to provide a general overview of Trust's finances. Questions or requests for additional information should be made in writing to the Chief Financial Officer at 1611 N.W. 12th Avenue, Miami, Florida 33136.

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

(1) Organization and Summary of Significant Accounting Policies

(a) Organization

Effective October 1, 1973, the Public Health Trust of Miami-Dade County, Florida (the Trust) was created by county ordinance to provide for an independent governing body (the board of trustees or Board) responsible for the operation, governance, and maintenance of "designated facilities." Currently, the Trust operates seven hospitals: Jackson Memorial Hospital, Holtz Children's Hospital, Jackson South Medical Center, Jackson North Medical Center, Jackson West Medical Center, Jackson Rehabilitation Hospital, and Jackson Behavioral Health Hospital; two skilled nursing facilities, Jackson Memorial Long-Term Care Center and Jackson Memorial Perdue Medical Center; several primary care centers including, Jefferson Reaves Senior Health Center, North Dade Health Center, and Rosie Lee Wesley Health Center; Dr. Rafael Penalver Center; five urgent care centers, UCC Country Walk, UCC Cutler Bay, UCC Keystone Point, UCC Doral, and UCC North Dade; as well as multiple specialty care centers, and the corrections health services for Miami-Dade County. At September 30, 2022, the Trust operated 2,230 licensed hospital beds, and 343 licensed nursing home beds.

Jackson Memorial Hospital, Christine E. Lynn Rehabilitation Center, Holtz Children's Hospital, Jackson North Medical Center, Jackson South Medical and Jackson West Medical Center are teaching hospitals operating in association with the University of Miami School of Medicine, which provides staff and services under an annual operating agreement.

The Trust is a department of Miami Dade County (the County). It is the intent of the Miami-Dade Board of County Commissioners (the Commission) to promote, protect, maintain, and improve the health and safety of all residents and visitors of Miami-Dade County through a fully functioning and sustainable public health trust. The Commission finds that it is in the best interest of the public it serves to take action to preserve the Trust and to ensure its financial sustainability by requiring the Trust to notify the Commission, the Mayor, and the Commission Auditor when certain financial conditions as outlined in Chapter 25A of Miami-Dade County Code of Ordinances occur. During the current year, none of the financial conditions were met that required notification. The Trust is overseen by a seven-member board that was established to serve as the governing body of the Trust.

The accompanying financial statements are not intended to be a complete presentation of the financial position of the County and the results of its operations and cash flows of its proprietary fund types, in conformity with U.S. generally accepted accounting principles (U.S. GAAP). Transactions between entities that comprise the Trust are eliminated in the accompanying financial statements. Separately issued financial statements of the Pension Trust Fund are not prepared.

(b) Basis of Accounting and Presentation

The accounting policies of the Trust conform to U.S. GAAP as applicable to governmental agencies. The Trust's accounts are used to account for the Trust's activities that are financed and operated in a manner similar to a private business enterprise. Accordingly, the Trust maintains its records on the accrual basis of accounting. Revenues from operations, investments, and other sources are recorded when earned. Expenses (including depreciation and amortization) of providing services to the public are accrued when incurred.

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

Nonexchange transactions, in which the Trust receives value without directly giving equal value in return, include grants from federal, state, and local governments. On an accrual basis, revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, and expenditure requirements, in which the resources are provided to the Trust on a reimbursement basis.

Jackson Memorial Foundation, Inc. (the Foundation) is a legally separate, tax-exempt component unit of the Trust governed by a separate independent board of directors. The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the Trust in support of its programs. The board of the Foundation is self-perpetuating and consists of community members. Although the Trust does not control the timing or amount of receipts from the Foundation, the majority of resources or income that the Foundation holds and invests are restricted to the activities of the Trust by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the Trust, the Foundation is considered a component unit of the Trust and is discretely presented in the Trust's financial statements.

During the years ended September 30, 2022 and 2021, the Foundation distributed approximately \$6,559,000 and \$13,788,000, respectively, to the Trust, which is included in other operating revenue and in other non-operating income on the Statement of Revenues, Expenses and Changes in Net Position – Trust. Complete financial statements of the Foundation can be obtained from the Foundation at 1500 NW 12th Avenue, Suite 1117E, Miami, Florida 33136.

The Pension Trust Fund is a fiduciary fund used to account for assets held by Northern Trust Bank for the benefit of employees of the Trust who participate in the Public Health Trust Defined-Benefit Retirement Plan (the Plan). The financial statements of the pension trust fund use the full-accrual basis of accounting, whereby employer and employee contributions to the Plan are recognized when due, and benefits are recognized when due and payable to the plan participants in accordance with the terms of the Plan. The Plan operates on a calendar year-end.

For purposes of measuring the Total Postemployment Benefits Other than Pensions (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the single-employer defined-benefit healthcare plan (the OPEB Plan) and additions to and deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, the OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms.

(c) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

(d) Cash and Cash Equivalents

The Trust considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents. The Trust invests its surplus operating funds in money market mutual funds and overnight repurchase agreements. These funds generally invest in highly liquid U.S. government and agency obligations.

(e) Investments

Restricted investments are held in a pool with Miami-Dade County, Florida (the County) and include U.S. government securities, U.S. government agency securities, commercial paper, and U.S. Treasury bills.

(f) Assets Limited as to Use – Cash, Investments and Long-Term

Assets limited as to use include self-insurance trust arrangements; assets set aside in accordance with agreements with third-party payors and the County. Amounts required to meet current liabilities have been classified as current assets in the accompanying statements of net position.

(g) Supplies

Supplies, consisting primarily of pharmaceutical and medical-surgical supplies, are principally determined using average cost or market.

(h) Capital Assets

The Trust capitalizes all items with an initial cost of \$5,000 or greater and an expected useful life of two years or more, or groups of 10 or more like items with a cost of \$1,500 or greater. The Trust's capital assets are stated at cost or if donated, at fair value at the date of donation. Assets under capital leases are stated at the present value of future minimum lease payments at the inception of the lease and are amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Leasehold improvements are amortized on a straight-line basis over the shorter of the term of the respective lease or the life of the related asset. Such amortization is included in depreciation and amortization in the financial statements. Routine maintenance and repairs that do not extend the life of the assets are charged to expense as incurred and major renovations or improvements are capitalized.

Depreciation is provided for using the half-year convention for the first and final years under the straight-line method over the estimated useful lives of the related assets based on the American Hospital Association guidelines as summarized below:

	Use life
Land improvements	2–25 years
Buildings	5–40 years
Fixed equipment	5–20 years
Movable equipment	3–20 years

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

Management evaluates whether there has been a significant unexpected decline in the utility of a capital asset that could indicate an impairment in the capital asset. If there is an indication that an asset may be impaired, the Trust follows GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*, to determine whether an impairment should be recognized. The Trust concluded that no impairment exists for the year ended September 30, 2022. For the year ended September 30, 2021, management identified one asset in which impairment loss should be recognized; thus, approximately \$782,000 in impairment losses were recorded in 2021.

(i) Bonds Payable

The Trust is not empowered to borrow funds. Long-term financing is generally accomplished by the issuance of bonds or other debt by the County, which is reflected as long-term debt in the accompanying financial statements.

(j) Bond Premiums, Discounts, and Refundings of Debt

Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method and are reflected as an element of the carrying cost of the debt. For current and advance refundings resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense using the straight-line method over the remaining life of the old debt or the life of the new debt, whichever is shorter. Such deferred amounts on refundings of debt are classified as deferred outflows and deferred inflows of resources in the accompanying financial statements.

(k) Self-Insurance Programs

The provision for estimated self-insured programs – general professional liability claims and workers' compensation – includes estimates of the ultimate costs for both reported claims and claims incurred but not reported. The estimates for self-insured claims are continually reviewed and adjusted as necessary as experience develops or new information becomes known.

(I) Net Position Classification

Net position is classified and displayed in three components:

- Net investment in capital assets consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, notes, or other borrowings and deferred inflows and deferred outflows of resources that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or (2) law through constitutional provisions or enabling legislation. The Trust first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.
- Unrestricted consists of net position that does not meet the definition of "restricted" or "net investment in capital assets."

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

(m) Deferred Outflows of Resources and Deferred Inflows of Resources

The Trust records deferred outflows of resources, which represent the consumption of net position by the Trust that is applicable to a future reporting period. At September 30, 2022 and 2021, deferred outflows of resources represent deferred charge on refunding, pension related items and other postemployment benefits.

The Trust records deferred inflows of resources, which represent an acquisition of net position that applies to future periods. At September 30, 2022 and 2021, deferred inflows of resources represent deferred gain on refunding, pension related items, other postemployment benefits, and leases.

(n) Classification of Revenues and Expenses

All transactions deemed by management to be ongoing, major, or central to the provision of healthcare services are considered to be operating activities and are reported as operating revenue and operating expenses. Investment income, interest expense, sales tax revenue, funding from the County, and peripheral or incidental transactions are reported as nonoperating revenues and expenses.

(o) Net Patient Service Revenue

The Trust has agreements with third-party payors that provide for payments to the Trust at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in the year of final settlement as an adjustment to net patient service revenue in that year's statement of revenues, expenses, and changes in net position. Final settlements under these programs are subject to administrative review and audit by third-party payors. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Adjustments to revenues related to prior periods increased net patient service revenue by approximately \$8,264,000 and \$4,471,000, respectively, for the years ended September 30, 2022 and 2021. In the opinion of management, adequate provision has been made in the accompanying financial statements for adjustments that may result from such reviews and audits.

(p) Charitable Services

In pursuing its mission, the Trust provides services to financially disadvantaged individuals in the community in which it operates, despite the lack, or adequacy of reimbursement for those services.

The Trust maintains records to identify and monitor the level of such services as follows:

The Trust provides care to patients regardless of their ability to pay. All, or a portion, of the charges incurred at established rates are classified as charity by reference to the Trust's established policies. Essentially, these policies define charitable services as those for which no payment is anticipated. In

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

assessing a patient's ability to pay, the Trust uses generally recognized poverty income levels for the community but also includes certain cases where incurred charges are considered to be beyond the patient's ability to pay. Because the Trust does not pursue the collection of amounts determined to meet the criteria under its charity care policy, such amounts are not reported as revenue.

The Trust provides services to other indigent patients under various State of Florida programs that pay healthcare providers amounts that are less than the cost of the services provided to the recipients. The difference between the cost of services provided to these indigent persons and the expected reimbursement is considered to be charitable service.

In addition to the services that are provided to financially disadvantaged individuals, the Trust provides certain community health services at no charge to the public, including various educational programs. Costs related to these services are included in operating expenses.

(q) Other Revenue

Other revenue primarily consists of Direct Payment Program (DPP) revenue, Public Hospital Payment (PHP) revenue, Low Income Pool (LIP) revenue, parking, rent, pharmacy, house staff salary reimbursements and miscellaneous billing and is recognized when earned.

(r) Unpaid Medical Claims

The unpaid medical claims related to employee health insurance benefits are included in accrued salaries and payroll taxes withheld. The unpaid medical claims include accruals for employee medical claims incurred as well as those incurred but not reported. The accrual is based on an actuarial analysis of the incurred, but not reported medical claims at fiscal year-end.

(s) Income Taxes

The Trust is an integral part of Miami-Dade County, Florida, and as such, is not subject to income tax. The Foundation is exempt from income taxes under Internal Revenue Code (IRC) Section 501(a) as an entity described in IRC Section 501(c) (3).

(t) Significant Accounting Policies – Foundation

The Foundation is a private, nonprofit organization that reports under the standards of the Financial Accounting Standards Board (FASB), including Accounting Standards Codification 958-605, *Not-for-Profit Entities Revenue Recognition*. Accounting Standards Update No. 2016-14, *Not-for-Profit Entities* (Topic 958) – *Presentation of Financial Statements of Not-for-Profit Entities* amends the current reporting model for not-for-profit organizations and enhances their required disclosures. As such, certain revenue recognition criteria and presentation features are different from Governmental Accounting Standards Board (GASB) revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the Trust's financial statements for these differences.

In 2022, the Foundation Adopted Accounting Standards Update 2020-07 (Topic 958) – *Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets.* The update amends guidance for not-for-profit entities that receive contributed nonfinancial assets. The update requires
A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

not-for-profits to present contributed nonfinancial assets as a separate line item on the statement of activities, and to disclose information regarding each type of contributed nonfinancial asset. As a result of the adoption, the Foundation segregated "contributions of nonfinancial assets" on the statements of activities and added a related disclosure in their footnotes.

Certain amounts in the 2021 Foundation financial statements have been reclassified to conform to the 2022 presentation.

(i) Contributions

In accordance with an accounting standard issued by the FASB, contributions received or made, including promises to give or pledges, are recognized at fair value in the period in which they are received or made.

Contributions received, including unconditional promises to give, are recognized as revenues when the donor's commitment is received. Conditional promises are recorded when barriers to entitlement are overcome and right of return to the donor no longer exists. Unconditional promises are recognized at the estimated present value of the future cash flows using a risk-adjusted rate. Promises and contributions of noncash assets are recorded at their fair value.

During the years ended September 30, 2022 and 2021, one donor accounted for approximately 41% and 57%, respectively, of total public support.

(ii) Donated Services

Board members and volunteers have donated significant time to the Foundation's activities. However, the value of these services is not reflected in the accompanying financial statements of the Foundation, since such services are not the type that would qualify for recognition.

In June 2018, the Foundation entered into a five-year operating lease with the Public Health Trust for its new office space. Per the terms of the agreement, the Foundation pays the Public Health Trust an annual rental fee of \$1. During each of the years ended September 30, 2022 and 2021, the Foundation recognized \$142,000 as donated use of facilities based on the estimated fair value of the lease.

(iii) Cash and Cash Equivalents

Cash and cash equivalents include money market funds at various financial institutions. The Foundation considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

(iv) Investments

The Foundation reports its investments under an accounting standard issued by the FASB on accounting for certain investments held by not-for-profit organizations. Under the standard, a not-for-profit organization is required to report investments in equity securities with readily determinable fair values and all investments in debt securities at fair value.

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

Purchased securities are stated at fair value based on the most recently traded price of the security at the financial statement date. Donated securities are recorded at fair value and sold immediately. Realized and unrealized gains and losses are recorded in the statement of activities.

(v) Pledges Receivable

Pledges receivable, less a provision for uncollectible amounts, represent uncollected promises and are stated at the estimated present value of the future cash flows using a rate of return appropriate for the expected term of the promise to give at the time initially recognized. The majority of pledges are designated by the donors for distribution to Jackson Health System (JHS). Such amounts subject to collection and fund-raising costs and administration fees, when applicable, are distributed to JHS as designated by the donor. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

Two donors accounted for 68% of pledges receivable and one donor accounted for 59% of pledges receivable at September 30, 2022 and 2021, respectively.

(vi) Property and Equipment

Property and equipment are stated at cost or, if donated, at fair value at the date of donation. Additions and major improvements are capitalized, and repairs and maintenance costs are expensed. Upon retirement or sale, any resulting gain or loss is recognized in the appropriate period. Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

(u) New Accounting Pronouncements

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*, which is effective for reporting periods beginning after December 15, 2019. The objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. This pronouncement has no impact on the Trust's financial statements.

In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. This pronouncement has no impact on the Trust's financial statements.

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

In January 2020, GASB issued Statement No. 92, *Omnibus 2020*, which was originally effective for reporting periods beginning after June 15, 2020. With the extension granted by GASB Statement No. 95, Statement No. 92, *Omnibus 2020*, is effective for all reporting periods beginning after June 15, 2021. This statement establishes accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance-related activities of public entity risk pools, fair value measurements, and derivative instruments. This pronouncement has no impact on the Trust's financial statements.

In March 2020, GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. Some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR) – most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of calendar year 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate, or adding or changing fallback provisions related to the reference rate. The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR. The removal of LIBOR as an appropriate benchmark interest rate is effective for all reporting periods ending after December 31, 2021. This pronouncement has no impact on the Trust's financial statements.

In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As PPP is an arrangement in which a government contracts with an operator to provide public services by conveying control of the right to operate or use a nonfinancial asset for a period of time in an exchange or exchange-like transaction. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). An APA is an arrangement in which a government compensates an operator for services over a period of time in an exchange or exchange-like transaction. The requirements of this Statement are effective for all fiscal years beginning after June 15, 2022. The Trust is evaluating the impact of this Statement.

In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users. A SBITA is defined as a contract that conveys control of the right to use another party's information technology software, as specified in the contract for a period of time in an exchange or exchange-like transaction. Under this statement, a government generally should recognize a right-to-use subscription asset and a corresponding subscription liability. The requirements of this Statement are effective for the fiscal years beginning after June 15, 2022. The Trust is evaluating the impact of this Statement.

In June 2020, GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans.* This Statement updates and clarifies the criteria for certain employee benefit plans with regards to whether or not they should be classified as component units of the government, as well as accounting and financial reporting elements guidance for the plans. This Statement is effective for all reporting periods beginning after June 15, 2021. This pronouncement has no impact on the Trust's financial statements.

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

In October 2021, GASB issued Statement No. 98, *The Annual Comprehensive Financial Report*. This Statement establishes the term "annual comprehensive financial report" and its acronym "ACFR." That new term and acronym replace instances of "comprehensive annual financial report" and its acronym in generally accepted accounting principles for state and local governments. This Statement was developed in response to concerns raised by stakeholders that the common pronunciation of the acronym for comprehensive annual financial report sounds like a profoundly objectionable racial slur. This Statement's introduction of the new term is founded on a commitment to promote inclusiveness. This Statement does not modify any previous accounting or financial reporting guidance and therefore there is no impact on the form or information presented on the Trust's financial statements.

In April 2022, GASB issued Statement No. 99, *Omnibus 2022*. The requirements related to extension of the use of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement 34, as amended, and terminology updates related to Statement 53 and Statement 63 are effective upon issuance. The requirements related to PPPs and SBITAs are effective for fiscal years beginning after June 15, 2022. The requirements related to financial guarantees, as well as the classification and reporting of derivative instruments within the scope of Statement 53 are effective for all fiscal years beginning after June 15, 2023. The objectives of this statement are to enhance comparability in financial reporting and to improve the consistency of authoritative literature. The Trust is evaluating the impact of this Statement.

In June 2022, GASB issued Statement No. 100, *Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62*. The primary objective of this Statement is to enhance financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or accessing accountability. The requirements of this Statement are effective for accounting changes and error corrections made in all fiscal years beginning after June 15, 2023. The Trust is evaluating the impact of this Statement.

In June 2022, GASB issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for all fiscal years beginning after December 15, 2023. The Trust is evaluating the impact of this Statement.

(2) Impact of Adoption of New Accounting Pronouncements

The Trust implemented GASB Statement No. 87, *Leases* in fiscal year 2022. This Statement requires recognition of assets and deferred outflows of resources and liabilities and deferred inflows of resources for leases previously classified as operating or capital leases, based on the payment provisions of the contract.

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

The following schedule reflects the impact of adoption of GASB 87:

Net position – beginning of period, as previously reported Adoption of GASB 87

Net position – beginning of period, as restated

\$ 1,052,031,664 (88,798) \$ 1,051,942,866

(3) Financial Condition

The Trust's net position increased approximately \$120,921,000 and \$164,501,000, respectively, during fiscal years 2022 and 2021, and at September 30, 2022 and 2021, the Trust had a working capital surplus of approximately \$449,552,000 and \$381,997,000, respectively. Day's cash on hand was approximately 58 days and 53 days at September 30, 2022 and 2021, respectively.

Historically, the Trust has relied on funding from the County and sales tax revenue to defray the costs of its general operations. The amount of future funding from the County is dependent, in part, on the availability of ad valorem and non ad valorem taxes, while the level of sales tax revenue is dependent on general economic conditions.

During the year ended September 30, 2022, the Trust received and recognized into grants revenue approximately \$4.4 million in financial support through the US Department of Health and Human Services (HHS) CARES Act Provider Relief Fund. During the year ended September 30, 2021, the Trust received approximately \$1.2 million and recognized into grants revenue approximately \$50.7 million, of which approximately \$49.5 million was recognized from prior fiscal year's deferred revenue. The Trust applied guidance from HHS to assess the amount of revenue recognized during the years ended September 30, 2021.

(4) Cash, Cash Equivalents, and Investments

At September 30, 2022 and 2021, cash, cash equivalents, and investments, including assets limited as to use, at fair value included the following:

	_	2022	2021
Pooled, cash and investments with Miami-Dade County, Florida Cash and cash equivalents and investments	\$	32,567,529 630,634,724	32,763,896 525,530,194
Total cash, cash equivalents, and investments	\$	663,202,253	558,294,090

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

The Trust's and the County's pooled cash and investment accounts are required to be maintained in accordance with legal restrictions. The Trust's equity share of the County's total pooled cash and investments is included in restricted short-term and long-term investments in the accompanying statements of net position.

(a) Deposits

The Trust's investment authority is derived from Chapter 218.415, *Florida Statutes*, and by county ordinance. Time deposits made in banks and savings and loan associations must be made with qualified public depositories in accordance with Chapter 280, *Florida Statutes*. All qualified public depositories, as defined under *Florida Statutes*, are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits times the depository's collateral pledging level. The pledging level may range from 50% to 125% depending upon the depository's financial condition and establishment period. All collateral must be deposited with an approved financial institution. Any losses to public depositors are covered by applicable deposit insurance, sale of securities pledged as collateral, and, if necessary, assessments against other qualified public deposits were entirely covered by federal depository insurance or by collateral pledged with the State Treasurer pursuant to Chapter 280, *Florida Statutes*.

(i) Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Trust will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Trust's policy requires that bank deposits be secured per Chapter 280, *Florida Statutes*. This requires local governments to deposit funds only in financial institutions designated as qualified public depositories by the Chief Financial Officer of the State of Florida and creates the Public Deposits Trust Fund, a multiple financial institution pool with the ability to assess its member financial institutions for collateral shortfalls if a default or insolvency has occurred. The policy requires the execution of a Custodial Safekeeping Agreement (CSA) for all purchased securities and shall be held for the credit of the Trust in an account separate and apart from the assets of the financial institution.

The carrying value of the Trust's bank deposit accounts was approximately \$464,409,000 and \$373,058,000, respectively, at September 30, 2022 and 2021.

At September 30, 2022 and 2021, the Trust had other investments of approximately \$166,226,000 and \$152,472,000, respectively, which were valued using quoted market prices (Level 1 inputs as described in note 15(b)).

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

(ii) Assets Limited as to Use – Cash, Investments, and Long-term

The composition of assets limited as to use at September 30, 2022 and 2021 is set forth in the following table. Investments are stated at fair value based on quoted market prices.

	_	2022	2021
Assets limited as to use - cash, investments, and long-term:			
By board for agreements with third-party payors and			
the County	\$	155,887,656	140,135,444
By board for self-insurance program		52,546,219	50,909,638
By board for other needs	_	84,263	86,450
Total assets limited as to use		208,518,138	191,131,532
Less current portion	_	(162,779,698)	(147,167,789)
	\$_	45,738,440	43,963,743

(b) Restricted Investments

At September 30, 2022 and 2021, approximately \$32,568,000 and \$32,764,000, respectively, of the Trust's deposits and investments were held in a pooled account at the County. Earnings generated by the investment pool are allocated based on each investing organization's balance as a percentage of total investments held in the pool.

(i) Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The Trust's Investment Policy (the Policy) minimizes credit risk by restricting authorized investments to: Local Government Surplus Funds Trust Fund (the Pool) or any intergovernmental investment pool authorized pursuant to the Florida Inter-local Cooperation Act; money market funds registered with the Securities and Exchange Commission (SEC) that have the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits or savings accounts in qualified public depositories, pursuant to Chapter 280.02, Florida Statutes, which are defined as banks, savings banks, or savings associations organized under the laws of the United States with an office in Florida that is authorized to receive deposits and has deposit insurance under the provisions of the Federal Deposit Insurance Act; direct obligations of the United States Treasury; federal agencies and instrumentalities; securities of, or other interests in, any open-end or closed-end management-type investment company or investment trust registered under the Investment Company Act of 1940, provided that the portfolio is limited to the obligations of the U.S. government or any agency or instrumentality thereof and to repurchase agreements fully collateralized by such U.S. government obligations and provided that such investment company or investment trust takes delivery of such collateral either directly or through an authorized custodian; commercial paper of prime quality with a stated maturity of 270 days or less from the date of its issuance, which has the highest letter and numerical rating as provided for by at least one nationally recognized rating service; bankers' acceptances that have a stated maturity of 180 days

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

or less from the date of their issuance, have the highest letter and numerical rating as provided for by at least one nationally recognized rating service, and are drawn on and accepted by commercial banks and that are eligible for purchase by the Federal Reserve Bank; and investments in repurchase agreements collateralized by securities authorized by the Policy.

(ii) Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributable to the magnitude of investments in a single issuer. The Policy establishes limitations on portfolio composition by investment type and by issuer to limit its exposure to concentration of credit risk. The Policy provides that a maximum of 50% of the portfolio may be invested in the Local Government Investment Pool; however, bond proceeds may be temporarily deposited in the Pool until other investments have been purchased. Prior to any investment in the Pool, approval must be received by the Board; a maximum of 30% of the portfolio may be invested in SEC-registered money market funds with no more than 10% to any single money market fund; a maximum of 20% of the portfolio may be invested in nonnegotiable, interest-bearing time certificates of deposit savings accounts with no more than 5% deposited with any one issuer (investment in agencies containing call options shall be limited to a maximum of 25% of the total portfolio). There is no limit on the percentage of the total portfolio that may be invested in direct obligations of the U.S. Treasury or federal agencies, and instrumentalities; a maximum of 5% of the portfolio may be invested in open-end or closed-end funds; a maximum of 50% of the portfolio may be invested in prime commercial paper with a maximum of 5% with any one issuer; a maximum of 25% of the portfolio may be invested in bankers' acceptances with a maximum of 10% with any one issuer; a maximum of 60% of the portfolio may be invested in both commercial paper and bankers' acceptances.

(iii) Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Policy limits interest rate risk by requiring the matching of known cash needs and anticipated net cash outflow requirements, following historical spread relationships between different security types and issuers, and evaluating both interest rate forecasts and maturity dates to consider short-term market expectations. The Policy requires that investments made with current operating funds shall maintain a weighted average maturity of no longer than one year. Investments for bond reserves, construction funds, and other nonoperating funds shall have a term appropriate to the need for funds and in accordance with debt covenants. The Policy limits the maturity of an investment to a maximum of five years.

(5) Net Patient Service Revenue

The Trust has agreements with third-party payors that provide for payments to the Trust at amounts different from its established rates. Contractual adjustments under third-party reimbursement programs represent the difference between the Trust's established rates for services and amounts reimbursed by third-party payors. A summary of the payment arrangements with major third-party payors is as follows:

Medicare and Medicare Managed Care – Approximately 39% and 40%, respectively, of the Trust's patient service revenue was derived from services rendered to patients under the Medicare program during fiscal years 2022 and 2021. Medicare inpatient services for acute and rehabilitation services are paid at

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

diagnostic related groups (DRG) bases. These rates vary according to a patient classification system based on clinical, diagnostic, and treatment factors. Psychiatric services are also reimbursed based on DRG. Outpatient services are reimbursed on a prospectively determined fee schedule with final settlement determined after audit of the annual cost report submitted by the Trust.

The Trust's annual Medicare cost reports are subject to audit and approval of the Medicare program authorities. In connection with this audit and approval process, the Trust may be required to revise its previous estimate of amounts due to or from the Medicare program. Differences between the Trust's original estimate and estimates based on subsequent determinations, resulting from the audit and approval process mentioned above, are recorded in operations by the Trust in the period the determination is made. The Trust's Medicare cost reports have been audited and settled by the Medicare fiscal intermediary through September 30, 2017. The Trust has filed Medicare cost reports through September 30, 2021. Estimated provisions, if any, have been made for all years through September 30, 2022 and have been reflected in the accompanying financial statements.

Medicaid and Medicaid Managed Care – Approximately 4% and 6%, respectively, of the Trust's patient service revenue was derived from services rendered to patients under the Medicaid program for fiscal years 2022 and 2021. Approximately 10% and 11%, respectively, of the Trust's patient service revenue was derived from services rendered to patients under the Managed Care Medicaid program for fiscal years 2022 and 2021. Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed prospectively for covered services on the basis of historical cost as determined under regulations of the Medicaid program. Effective with admissions on or after July 1, 2013, the Medicaid program changed the reimbursement for inpatient stays to a DRG-based methodology. On July 1, 2017, Medicaid Outpatient converted to EAPG (Enhanced Ambulatory Patient Grouping) payment. The Trust is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the Trust and audits thereof by the Medicaid fiscal intermediary. The Trust's Medicaid cost reports have been audited by the Medicaid fiscal intermediary through September 30, 2010. Estimated provisions, if any, have been made for years through September 30, 2022 and have been reflected in the accompanying financial statements. Effective July 1, 2014, the majority of Medicaid patients were transitioned into managed care plans.

Other – Approximately 43% and 40%, respectively, of the Trust's patient service revenue was derived from services rendered under various other provider agreements during fiscal years 2022 and 2021. The Trust has entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payments to the Trust under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates. The remaining 4% and 3%, respectively, of the Trust's patient service revenue for fiscal years 2022 and 2021 represents revenue derived from self-pay and patients that may qualify for state assistance on the condition that state funding is available.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

Net patient service revenue consisted of the following for the years ended September 30, 2022 and 2021:

	2022	2021
Patient service revenue: Inpatient services Ambulatory services	\$ 4,663,025,953 1,875,324,213	4,486,691,518 1,482,056,954
Total gross patient charges	6,538,350,166	5,968,748,472
Provision for doubtful accounts Contractual adjustments	(690,839,645) (4,322,863,406)	(678,852,211) (3,922,194,091)
Total deductions	(5,013,703,051)	(4,601,046,302)
Net patient service revenue	\$ 1,524,647,115	1,367,702,170

The Charity care revenue forgone at September 30, 2022 and 2021 totaled approximately \$156,212,000 and \$183,984,000, respectively.

(6) Concentration of Credit Risk

Patients' accounts receivable consist primarily of receivables from patients and third-party payors. In the course of providing healthcare services, the Trust grants credit to patients, substantially, all of whom are residents of the County. The Trust generally does not require collateral or other security in extending credit to patients; however, it routinely obtains assignments of (or is otherwise entitled to receive) patients' benefits payable under their health insurance programs, plans, or policies (e.g., Medicare, Medicaid, health maintenance organizations, preferred provider organizations, and commercial insurance policies).

The mix of receivables from patients and third-party payors based on gross patient charges (exclusive of charity care) at September 30, 2022 and 2021 as follows:

	2022	2021	
Medicaid	13 %	15 %	
Medicare	6	6	
Patients	23	25	
Managed care	50	48	
Commercial	8	6	
	100 %	100 %	

The allowance for doubtful accounts represents amounts, which, in the Trust's judgment, will be adequate to absorb write-offs of existing patient receivable balances, which may become uncollectible. Estimation of the allowance for doubtful accounts is based on several factors, which include, but are not limited to, actual

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

cash collections, analytical review of loss experience of the various payor classes in relation to outstanding receivables and judgment with respect to the impact of current economic conditions.

(7) Transactions with the County

Under the terms of the operating agreement between the County and the Trust (the Agreement), the County funded the Trust \$237,687,000 and \$222,563,000 in 2022 and 2021, respectively, from ad valorem and non ad valorem taxes to defray the costs of its general operations. Such amounts have been included in nonoperating revenues in the accompanying statements of revenues, expenses, and changes in net position. The amounts of future funding from the County are dependent, in part, on the availability of ad valorem and non ad valorem taxes.

The County provided various services to the Trust under the terms of the Agreement, such as legal, direct, and indirect costs, which totaled approximately \$3,543,000 and \$4,397,000 during 2022 and 2021, respectively. These services are billed at cost. At September 30, 2022 and 2021, the Trust's accumulated payables to the County for these and other services were approximately \$67,000 and \$77,000, respectively, which is included in due to Miami-Dade County in the accompanying statements of net position.

Amounts due to Miami-Dade County in the accompanying statements of net position at September 30, 2022 and 2021 totaled \$13,894,000 and \$15,076,000, respectively, and include the partial funding of the County's obligation to the State of Florida under the Medicaid program as set forth in the Agreement.

As of September 30, 2022 and 2021, the Trust recorded a receivable from the County of approximately \$66,410,000 and \$81,986,000, respectively, in the accompanying statements of net position for sales taxes receivable.

In November 2013, voters of Miami-Dade County approved a referendum for the issuance of General Obligation Bonds (PHT-GOB) for \$830 million. The PHT-GOB is a general obligation of the County and is payable from unlimited ad valorem taxes on all taxable real and tangible personal property within the County. These funds are utilized for upgrades, new equipment, the expansion of the urgent care centers, and the construction of new hospitals. During the years ended September 30, 2022 and 2021, the Trust recorded approximately \$36,821,000 and \$84,814,000, respectively, in capital contributions in the accompanying statements of revenues, expenses, and changes in net position for PHT-GOB contributions from the County. Such contributions were used for approximately \$1,479,000 and \$2,634,000 in Cerner and other software installations, \$9,803,000 and \$13,356,000 in equipment purchases, and \$25,539,000 and \$68,824,000 in construction during the years ended September 30, 2022 and 2021, respectively.

(8) Sales Tax Revenue

On September 3, 1991, the voters of the County approved a half-cent sales tax to support the operations of the Trust, effective January 1, 1992. During the years ended September 30, 2022 and 2021, the Trust recognized approximately \$386,730,000 and \$310,866,000, respectively, of sales tax revenue, which is included in nonoperating revenues in the accompanying statements of revenues, expenses, and changes in net position.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

The Trust entered into a line of credit agreement for capital purchases with a financial institution, in conjunction with Miami-Dade County, on November 15, 2018, maturing on November 1, 2025. At September 30, 2022 and 2021, PHT had outstanding principal balances of approximately \$165,202,000 and \$200,000,000, respectively, on the line of credit. During the years ended September 30, 2022 and 2021, accrued interest on the line of credit was approximately \$367,000 and \$328,000, respectively. As of November 2021, the Trust can no longer take draws on this line of credit. The short term portion of the line of credit liability is presented as "Other – unrestricted" in the accompanying statements of net position. As of September 30, 2022 and 2021, the short term portion was approximately \$50,201,000 and \$35,213,000, respectively.

Interest on the capital line of credit is calculated using the "Applicable Spread" on the Effective Date, 91 basis points (0.91%), provided, that the Applicable Spread is subject to change upon changes in the Pledged Debt Rating. The Applicable Spread will be adjusted up or down upon each change in the Pledged Debt Rating to the number of basis points reflected in the chart below, provided that the Applicable Spread will never be less than the Applicable Spread on the Effective Date.

Pledged debt ratings			Applicable spread (in basis points)				
Moody's	Fitch	S&P	Above one month LIBOR as index	Above Fed funds rate as index			
Aa3 or higher	A.A- or higher	A.A- or higher	91 bps	106 bps			
A1	A+	A+	111 bps	126 bps			
A2	А	А	131 bps	146 bps			
A3	A-	A-	151 bps	166 bps			
Baa1	BBB+	BBB+	171 bps	186 bps			
Baa2	BBB	BBB	206 bps	121 bps			
Baa3	BBB-	BBB-	256 bps	271 bps			

In addition, the Trust shall pay to the bank a fee per annum computed on the daily amount of the Available Commitment, (the "Unutilized Fee"). On the Effective Date, the Unutilized Fee Rate will be 35 basis points (0.35%), provided, that the Unutilized Fee Rate is subject to change upon changes in the Pledged Debt Rating. The Unutilized Fee Rate will be adjusted up or down upon each change in the Pledged Debt Rating

A Department of Miami-Dade County, Florida

Notes to Financial Statements

(11) Long-Term Debt and Interest Expense

The composition of long-term debt at September 30, 2022 and 2021 is set forth in the following table:

	_	2022	2021
Public Facilities Revenue and Revenue Refunding bonds (Series 2015A), net of amortized bond premium of approximately \$9,818,000 and \$11,094,000 at September 30, 2022 and 2021. Interest rate ranges from 3% to 5%.	\$	178,912,765	188,424,014
Public Facilities Revenue Bonds (Series 2017), net of amortized bond premium of approximately \$7,384,000 and \$8,076,00,000 at September 30, 2022	Φ	176,912,765	100,424,014
and 2021. Interest rate ranges from 3% to 5%.	_	82,249,031	85,121,193
		261,161,796	273,545,207
Less: current portion	_	(10,920,000)	(10,415,000)
	\$_	250,241,796	263,130,207

On July 9, 2015, the County issued Public Facilities Revenue and Revenue Refunding Bonds in the original combined amount of \$205,350,000 (Series 2015A) to (i) refund, defease, and redeem a portion of the County's outstanding Series 2005 Bonds; (ii) pay or reimburse PHT for the cost of certain additions to PHT's healthcare facilities; and (iii) pay certain costs incurred in connection with the issuance of Series 2015 Bonds. The computation performed in accordance with GASB Statement No. 23, *Accounting and Financial Reporting for Refundings of Debt Reported by Proprietary Activities* for the current refunding of the Series 2005A bonds and the partial refunding of the Series 2005B bonds resulted in a gain on defeasance of approximately \$7,166,000, which was recorded as deferred inflows of resources in the 2015

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

statement of net position. This deferred amount is being amortized through 2036 using the straight-line amortization method. The refunding produced an aggregate present value savings of approximately \$21,381,000. The Series 2015A bonds bear interest ranging between 3% and 5% and mature serially through 2036.

On June 1, 2017, the County issued Public Facilities Revenue Bonds in the original combined amount of \$81,215,000 (Series 2017) to (i) refund, and redeem all of the County's outstanding Public Facilities Revenue Bonds (Jackson Health System), Series 2005A, (ii) advance refund and defease \$68,570,000 of the County's outstanding Series 2009 Bonds; and (iii) pay certain costs incurred in connection with the issuance of the Series 2017 bonds. The computation performed in accordance with GASB Statement No. 23 for the current refunding of the Series 2005A and 2009 bonds resulted in a loss on defeasance of approximately \$6,459,000 which was recorded as deferred outflows of resources in the 2017 statement of net position. This deferred amount is being amortized through 2039 using the straight line amortization method. The refunding produced an aggregate present value savings of approximately \$9,398,000. The Series 2017 bonds bear interest ranging between 3% and 5% and mature serially through 2039.

The Series 2015A bonds and Series 2017 bonds (collectively, the Bonds) are secured by the gross revenues of the Trust. The Bonds are subject to certain covenants included in Ordinance No. 05-49 (the Ordinance), together with certain ordinances and board resolutions, which authorize and issue the Bonds by and between the Trust and the County. In addition, the Trust must comply with certain covenants included in the related insurance agreements.

The Ordinance contains restrictive covenants that must be met by the Trust, including, among other items, the requirement to maintain a minimum long-term debt service coverage ratio, the requirement to make scheduled monthly deposits to the debt service fund, maintenance of insurance on the Trust's facilities, and limitations on the incurrence of additional debt.

The approximate maturities of long-term debt for the next five years and thereafter are as follows:

	_	Principal payments	Interest payments	Total debt service
Year ending September 30:				
2023	\$	10,920,000	11,882,375	22,802,375
2024		11,460,000	11,337,375	22,797,375
2025		12,040,000	10,764,375	22,804,375
2026		12,640,000	10,162,375	22,802,375
2027		13,270,000	9,530,375	22,800,375
2028-2032		76,935,000	37,032,625	113,967,625
2033-2037		97,035,000	16,416,250	113,451,250
2038-2039	-	9,660,000	730,250	10,390,250
	\$_	243,960,000	107,856,000	351,816,000

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

Interest expense for the years ended September 30, 2022 and 2021 is summarized as follows:

	_	2022	2021
Interest on bonds	\$	11,196,710	10,914,104
Other interest	_	2,533,786	1,310,966
	\$ _	13,730,496	12,225,070

No outstanding amounts previously defeased were held in escrow during the fiscal years ended September 30, 2022 and 2021.

(12) Risk Management

The Trust is exposed to various risks of loss related to professional liability; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Trust manages its risks for professional and general liability internally and sets aside assets for claims settlement.

(a) Professional and General Liability

The Trust established a self-insurance program for professional and general liability claims beginning in 1975. As an agency of a political subdivision of the State of Florida, the Trust has sovereign immunity from such claims, except for the waiver of such immunity, to the extent of \$200,000 per claimant or \$300,000 per incident. The maximum limitation has been considered in estimating the reserve for self-insured claims. The Board, at its discretion, has funded approximately \$52,546,000 and \$50,910,000, respectively, at September 30, 2022 and 2021, of its estimated liability. Such amounts are reflected in the accompanying statements of net position as assets limited as to use.

Incidents that might result in claims are required to be reported to the risk management department of the Trust for investigation. At any one time, claims are in various stages of processing, including being handled by counsel. In addition, claims may not have been presented for all reported incidents. Management of the Trust, based on advice of counsel and its consulting actuaries and determinations made by the risk management department, estimates the reserve necessary to provide for claims based on incidents that have occurred based on the appropriate sovereign immunity limitation. Accrued professional and general liabilities losses have been discounted using a rate of 3% at September 30, 2022 and 2021. The total liability as of September 30, 2022 and 2021 approximated \$25,495,000 and \$21,323,000, respectively, of which approximately \$23,414,000 and \$19,090,000, respectively, is included in long-term estimated self-insured liability, and approximately \$2,081,000 and \$2,232,000, respectively, is included in current estimated self-insured liability in the accompanying statements of net position.

(b) Workers' Compensation

The Trust participated in the County's self-insured workers' compensation program until the first quarter of fiscal year 2008, at which time a third-party administrator began processing claims, and the Trust established its own self-insurance program for workers' compensation. The workers' compensation

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

assessment resulted in a liability at September 30, 2022 and 2021 of approximately \$27,268,000 and \$26,685,000, respectively, of which approximately \$22,204,000 and \$21,907,000, respectively, is included in long-term estimated self-insured liability, and approximately \$5,064,000 and \$4,778,000, respectively, is included in current estimated self-insured liability in the accompanying statements of net position. A stop-loss insurance policy has been purchased for claims exceeding a certain dollar amount.

The changes in the self-insurance programs for the years ended September 30, 2022 and 2021 are as follows:

	Workers' compensation	Professional liability	Total
Balance at September 30, 2021 Claims paid Claims and changes in estimates	\$ 26,684,823 (5,098,643) 5,681,418	21,322,663 (6,329,783) 10,502,545	48,007,486 (11,428,426) 16,183,963
Balance at September 30, 2022	\$ 27,267,598	25,495,425	52,763,023
	Workers' compensation	Professional liability	Total
Balance at September 30, 2020 Claims paid Claims and changes in estimates	\$ 24,956,498 (5,379,334) 7,107,659	21,477,910 (2,410,653) 2,255,406	46,434,408 (7,789,987) 9,363,065
Balance at September 30, 2021	\$ 26.684.823	21,322,663	48.007.486

(13) Leases

In June 2017, the GASB issued Statement No. 87, *Leases*, which requires governments to recognize certain lease assets and liabilities for leases that previously were classified as operating leases and recognize as deferred inflows of resources or deferred outflows of resources based on the payment provisions of the contract. The Statement also establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for fiscal years beginning after June 15, 2021, and all reporting periods thereafter.

(a) Intangible right-to-use lease assets

The population of leases in which the Trust participates as a lessee consists primarily of equipment, such as robotic surgical machines, infusion pumps, imaging equipment, diagnostic systems, supply cabinets, and others. The population includes some building leases for medical office space as well.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

A summary of the Trust's lease asset activity during the years ended September 30, 2022 and 2021 is as follows:

		Balance at September 30, 2021, as restated	Additions	Deductions	Balance at September 30, 2022

(d) Deferred Inflows

A summary of the Trust's deferred inflows related to leasing during the year ended September 30, 2022 and 2021 is as follows:

		Balance at September 30, 2021, as restated	Additions	Deductions	Balance at September 30, 2022
Buildings		\$ 74,188,842	2,042,756	(6,061,468)	70,170,130
	Total deferred inflows	\$ 74,188,842	2,042,756	(6,061,468)	70,170,130
		Balance at September 30, 2020	Additions	Deductions	Balance at September 30, 2021, as restated
Buildings		\$	79,671,511	(5,482,669)	74,188,842
	Total deferred inflows	\$	79,671,511	(5,482,669)	74,188,842

(14) Public Medical Assistance Trust Fund Assessment

The State of Florida's Health Care Consumer Protection Awareness Act (the Act) calls for an assessment equal to 1.5% of hospital net patient revenue, as defined, to be provided for care of indigents in the State of Florida. The Florida Legislative session of 2000 passed the Patient Protection Act of 2000, which provided that the assessment be lowered to 1% for certain services. The assessments are paid to the State of Florida in quarterly increments with the first installment due no more than six months after the Trust's fiscal year-end. The assessment was approximately \$17,535,000 and \$16,459,000, respectively, in fiscal years 2022 and 2021.

(15) Pension Plans

(a) Florida Retirement System

(i) Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) and the Health Insurance Subsidy (HIS) and additions to/deductions from FRS' and HIS' fiduciary net position have been determined on the same basis as they are reported by FRS and HIS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(ii) General Information about the Pension Plan

The Florida Retirement System Pension Plan (FRS Pension Plan) and Other-State Administrative Systems (the Systems) are administered by the Florida Department of Management Services, Division of Retirement, and are a part of the primary government of the State of Florida. The FRS is

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

a section 401(a), Internal Revenue Code, qualified cost-sharing, multiple-employer defined benefit plan for participating public employers and their covered employees.

The State Board of Administration of Florida (SBA) manages the assets of the Florida Retirement System (FRS). The primary investment objectives for the FRS Pension Plan are to provide investment returns sufficient to ensure timely payment of promised benefits and keep plan costs at a reasonable level. The portfolio consists of a highly diversified asset mix of investments, which includes government and corporate bonds, common stock, income-producing real estate, alternative investments, and short-term money market instruments.

The FRS Pension Plan was created in Chapter 12, Florida Statutes in 1970 by consolidating several employee retirement systems. All eligible employees (as defined by the State of Florida) who were hired after 1970 and those employed prior to 1970 who elect to be enrolled are covered by the Plan. Employees in the FRS Pension Plan vest at six years of service if enrolled in the plan prior to July 1, 2011. Enrollment on or after July 1, 2011 requires eight years of service to vest. Members initially enrolled in FRS Pension Plan before July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, regardless of age. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The annual final compensation (regardless of whether it is the highest five or highest eight) is multiplied by a percentage ranging from 1.60% at either 62 or with 30 years of service to 1.68% at age 65 or with 33 years of service. Members are eligible for early retirement after six years of service, however, normal benefits are reduced by 5% for each year a member retires before normal retirement age. Effective January 1, 1996, the Trust ceased participants in the FRS Pension Plan with regard to future employees.

The FRS Pension Plan provides retirement, disability, and death benefits and annual cost-of-living adjustments, as well as supplements for certain employees to cover social security benefits lost by virtue of retirement system membership.

A Deferred Retirement Option Program (DROP) was established effective July 1, 1998. It permits employees eligible for normal retirement under the FRS Pension Plan to defer receipt of monthly benefit payments while continuing employment with a Florida Retirement System employer. An employee may participate in the DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the Florida Retirement System Trust fund and accrue interest.

Eligible FRS members may elect to participate in the FRS Investment Plan in lieu of the defined-benefit Plan. Trust employees participating in DROP are not eligible to participate in the FRS Investment Plan. This plan is funded by employer contributions that are based on salary and membership class. Contributions are directed to individual member accounts and the ultimate benefit depends in part on the performance of investment funds chosen. Employees in the FRS Investment Plan vest after one year of service.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

The benefit provisions and all other requirements of the FRS Pension Plan are established by *Florida Statutes*. The Florida Legislature establishes and amends the contribution requirements and benefits of the FRS Pension Plan.

The contribution rates for the FRS Pension Plan are established by Chapter 121.71 of the *Florida Statutes* and may be amended by the State of Florida. The uniform rates for the FRS Pension Plan fiscal years 2022 and 2021 were as follows:

2022

	2022				
	Percentage of	of gross salary			
Class or Plan	Employee	Employer (A)			
Florida Retirement System, Regular	3.00	10.82			
	20	2021			
	Percentage of	of gross salary			
Class or Plan	Employee	Employer (A)			
Florida Retirement System, Regular	3.00	10.00			

Notes: (A) Employer rates include the postretirement health insurance supplement, which was increased on July 1, 2015 to 1.66%, and fee of 0.06% for the administration of the FRS Investment Plan.

The Trust's contributions to the FRS Pension Plan, net of employee contributions, for the fiscal years ending September 30, 2022 and 2021 was approximately \$8,149,000 and \$7,425,000, respectively. Effective July 1, 2011, all members of the FRS Pension Plan, except for DROP participants and reemployed retirees who are not eligible for renewed membership, are required to contribute 3% of their annual compensation to the FRS Pension Plan. Amounts collected by the Trust and remitted to the FRS Pension Plan, related to employee contributions are not considered employer contributions by the FRS Pension Plan.

Benefits are computed on the basis of age and/or years of service, average final compensation and service credit.

(iii) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Chapter 121.031(3), *Florida Statutes*, requires an annual actuarial valuation of the FRS Pension Plan, which is provided to the Florida Legislature as guidance for funding decisions.

At September 30, 2022, the Trust reported a net pension liability of approximately \$70,885,000 for its proportionate share of the FRS Pension Plan net pension liability. The net pension liability as of September 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The Trust's proportionate share of the FRS net pension liability was on based the Trust's actual contributions to the pension plan relative to the

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

total actual contributions of all employers during the fiscal year ended June 30, 2022. At June 30, 2022, the Trust's proportionate share was 0.1905%, which was a decrease of 0.10% from its proportionate share of 0.1907% measured as of June 30, 2021.

At September 30, 2021, the Trust reported a net pension liability of approximately \$14,405,000 for its proportionate share of the FRS Pension Plan net pension liability. The net pension liability as of September 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2021. The Trust's proportionate share of the FRS net pension liability was on based the Trust's actual contributions to the pension plan relative to the total actual contributions of all employers during the fiscal year ended June 30, 2021. At June 30, 2021, the Trust's proportionate share was 0.1907%, which was a decrease of 11.79% from its proportionate share of 0.2162% measured as of June 30, 2020.

For the year ended September 30, 2022, the Trust recognized pension expense of approximately \$3,530,000 and for the year ended September 30, 2021, the Trust recognized pension expense of approximately \$7,503,000 for the FRS Pension Plan. At September 30, 2022 and 2021, the Trust reported deferred outflows of resources and deferred inflows of resources related to pensions for the FRS Pension Plan from the following sources:

	_	2022		
	_	Deferred outflows of resources	Deferred inflows of resources	
Differences between expected and actual experience	\$	3,366,608	_	
Changes in assumptions		8,729,733	—	
Net difference between projected and actual				
earnings on pension plan investments		4,680,500	—	
Changes in proportion and differences between Trust				
contributions and proportionate share of contributions		—	(13,976,356)	
Trust contributions subsequent to the measurement date	_	2,164,621		
Total	\$_	18,941,462	(13,976,356)	

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

		2021		
	-	Deferred outflows of resources	Deferred inflows of resources	
Differences between expected and actual experience	\$	2,469,013	_	
Changes in assumptions		9,856,508	_	
Net difference between projected and actual				
earnings on pension plan investments			(50,254,878)	
Changes in proportion and differences between Trust				
contributions and proportionate share of contributions			(20,349,359)	
Trust contributions subsequent to the measurement date	_	2,144,824		
Total	\$_	14,470,345	(70,604,237)	

The deferred outflows of resources related to pensions of approximately \$2,165,000 as of September 30, 2022, resulting from Trust contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ending September 30, 2023. Other amounts reported for the FRS Pension Plan as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	-	Amount recognized
Fiscal year ending September 30:		
2023	\$	(1,209,875)
2024		(2,874,536)
2025		(4,679,346)

Notes to Financial Statements

September 30, 2022 and 2021

Actuarial assumptions. The total pension liability for the FRS Pension Plan was determined by an actuarial valuation date calculated on the assumptions listed below:

	2022	2021
Valuation date	July 1, 2022	July 1, 2021
Measurement date	June 30, 2022	June 30, 2021
Discount rate	6.70 %	6.80 %
Long-term expected rate of return net of investment		
expense	6.70	6.80
Inflation	2.40	2.40
Salary increase, including inflation	3.25	3.25
Mortality	PUB2010 base	PUB2010 base
	table by category	table by category
	and sex, projected	and sex, projected
	generationally with	generationally with
	Scale MP-2018	Scale MP-2018
Actuarial cost method	Individual Entry Age Normal	Individual Entry Age Normal

The actuarial assumptions that determined the total pension liability of the FRS Pension Plan as of June 30, 2022 and 2021 were based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018.

Long-term expected rate of return. The long-term expected rate of return on pension plan investments was determined using a building-block method for which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

.

Asset class	Target	2022 Annual arithmetic real <u>rates of return</u>	2021 Annual arithmetic real <u>rates of return</u>
Cash	1.00 %	2.6 %	2.1 %
Fixed income	19.80	4.4	3.8
Global equity	54.00	8.8	8.2
Strategic investment	3.80	6.2	5.7
Private equity	11.10	12.0	11.7
Real estate (property)	10.30	7.4	7.1
Total	100.00 %		

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

Discount rate. The discount rate used to measure the total pension liability for the FRS Pension Plan was 6.70% and 8.70% for fiscal years ended 2022 and 2021, respectively. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, components of the pension plan's fiduciary net position were projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Sensitivity of the Trust's proportionate share of the net pension liability to changes in the discount rate. The following presents the Trust's proportionate share of the net pension liability of the FRS Pension Plan at September 30, 2022 calculated using the discount rate of 6.70%. Also presented is what the Trust's proportionate share of the FRS Pension Plan net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.70%) or 1-percentage-point higher (7.70%) than the current rate at September 30, 2022:

	2022		
	Current		
	1% Decrease (5.70)%	discount rate (6.70)%	1% Increase (7.70)%
Trust's proportionate share of the FRS Pension Plan net pension liability	\$ 122,590,009	70,884,581	27,652,691

The following presents the Trust's proportionate share of the net pension liability of the FRS Pension Plan at September 30, 2021 calculated using the discount rate of 6.80%. Also presented is what the Trust's proportionate share of the FRS Pension Plan net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.80%) or 1-percentage-point higher (7.80%) than the current rate at September 30, 2021:

	2021			
	Current			
	1% Decrease (5.80)%	discount rate (6.80)%	1% Increase (7.80)%	
Trust's proportionate share of the FRS Pension Plan net pension liability (asset)	\$ 64,419,425	14,404,843	(27,401,739)	

Pension Plan fiduciary net position. Detailed information about the FRS Pension Plan's fiduciary net position is available in the separately issued FRS Comprehensive Annual Financial Report. The comprehensive annual financial report of the FRS is available by mail at: State of Florida, Division of Retirement, Department of Management Services, 1317 Winewood Boulevard, Building 8, Tallahassee, Florida 32399, by telephone toll free (844) 377-1888 or (850) 907-6500; by e-mail at rep@dms.myflorida.com; or at the Division's Web site (http://www.dms.myflorida.com).

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

(iv) General Information about the Health Insurance Subsidy (HIS)

HIS plan description. The HIS Pension Plan is a non-qualified, cost-sharing multiple-employer defined-benefit pension plan established under Chapter 112.363, *Florida Statutes* to provide a monthly payment to assist retirees and beneficiaries of any state-administered retirement system.

HIS benefits provided. The benefit of the HIS Pension Plan is a monthly payment to assist retirees in paying their health insurance costs. This plan is administered by the Department of Management Services, Division of Retirement. HIS benefits are not guaranteed and are subject to annual legislative appropriation.

Eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of creditable service completed at the time of retirement multiplied by \$5. The payments are a minimum of \$30 but not more than \$150 monthly per Chapter 112.363, *Florida Statutes*.

HIS Contributions. The HIS Pension Plan is funded by required contributions from FRS participating employers. The funds are deposited in a separate trust fund and consequently paid from that trust fund. Employer contributions are a percentage of gross compensation for all FRS members. For the fiscal years ended September 30, 2022 and 2021, the contribution rate was 1.66%, of payroll per Chapter 112.363, *Florida Statutes*. Employees do not contribute to this plan.

The Trust's contributions to the HIS Pension Plan totaled approximately \$1,206,000 and \$1,220,000, respectively, for the fiscal years ended September 30, 2022 and 2021.

(v) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HIS Pensions

At September 30, 2022, the Trust reported a liability of approximately \$21,395,000 for its proportionate share of the HIS Pension Plan net pension liability. The net pension liability as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The July 1, 2022 HIS valuation is the most recent actuarial valuation. The valuation as of July 1, 2021 was an intervening year roll-forward valuation. The Trust's proportionate share of the net pension liability was based on the Trust's actual contributions to the pension plan relative to the total actual contributions of all employers during the fiscal year ended June 30, 2022. At June 30, 2022, the Trust's proportionate share was 0.2020%, which was a decrease of 3.53% from its proportionate share of 0.2094% measured as of June 30, 2021.

At September 30, 2021, the Trust reported a liability of approximately \$25,691,000 for its proportionate share of the HIS Pension Plan net pension liability. The net pension liability as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. The July 1, 2020 HIS valuation is the most recent actuarial valuation. The valuation as of July 1, 2021 was an intervening year roll-forward valuation. The Trust's proportionate share of the net pension liability was based on the Trust's actual contributions to the pension plan relative to the total actual contributions of all employers during the fiscal year ended June 30, 2021. At June 30, 2021, the Trust's proportionate share was

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

0.2094%, which was a decrease of 20.44% from its proportionate share of 0.2632% measured as of June 30, 2020.

For the years ended September 30, 2022 and 2021, the Trust recognized a reduction in pension expense of approximately \$3,563,000 and \$3,433,000, respectively, for the HIS Pension Plan. At September 30, 2022 and 2021, the Trust reported deferred outflows of resources and deferred inflows of resources related to pensions for the HIS Pension Plan from the following sources:

		2022		
		Deferred outflows of resources	Deferred inflows of resources	
Differences between expected and actual experience	\$	649,385	(94,139)	
Changes in assumptions		1,226,368	(3,309,773)	
Net difference between projected and actual earnings on pension plan investments Changes in proportion and differences between Trust		30,975	_	
contributions and proportionate share of contributions		_	(12,926,153)	
Trust contributions subsequent to the measurement date	_	311,063		
Total	\$	2,217,791	(16,330,065)	

	2021		
	_	Deferred outflows of resources	Deferred inflows of resources
Differences between expected and actual experience	\$	859,678	(10,760)
Changes in assumptions		2,018,719	(1,058,525)
Net difference between projected and actual			
earnings on pension plan investments		26,782	—
Changes in proportion and differences between Trust			
contributions and proportionate share of contributions		—	(16,748,558)
Trust contributions subsequent to the measurement date	_	327,224	
Total	\$	3,232,403	(17,817,843)

The deferred outflows of resources related to pensions of approximately \$311,000 as of September 30, 2022, resulting from Trust contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ending September 30, 2023.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

Other amounts reported for the HIS Pension Plan as deferred outflows or inflows of resources related to pensions will be recognized in pension expenses as follows:

		Amount recognized
Fiscal year ending September 30:	_	
2023	\$	(4,449,078)
2024		(3,508,200)
2025		(2,857,382)
2026		(2,227,653)
2027		(1,121,067)
Thereafter	_	(259,957)
Total	\$_	(14,423,337)

Actuarial assumptions. The total pension liability for the HIS Pension Plan was determined by an actuarial valuation as of the valuation date calculated on the assumptions listed below:

	2022	2021
Valuation date	July 1, 2022	July 1, 2020
Measurement date	June 30, 2022	June 30, 2021
Discount rate	3.54 %	2.16 %
Long-term expected rate of return net of investment		
expense	N/A	N/A
Bond Buyer General Obligation 20-Bond		
Municipal Bond Index	3.54	2.16
Inflation	2.40	2.40
Salary increase, including inflation	3.25	3.25
Mortality	Generational	Generational
	PUB•2010 with	PUB•2010 with
	Projection	Projection
	Scale MP-2018	Scale MP-2018
Actuarial cost method	Individual Entry	Individual Entry
	Age Normal	Age Normal

HIS has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. Because HIS is funded on a pay-as-you-go basis, no experience study has been completed for this plan. The actuarial assumptions that determined the total pension liability for HIS were based on certain results for the most recent experience study of FRS for the period July 1, 2013 through June 30, 2018.

Discount Rate. Because the HIS Pension Plan uses a pay as-you-go funding structure, a municipal bond rate of 3.54% in 2022 and 2.16% in 2021 was used to determine the total pension liability for the program.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

Sensitivity of the Trust's proportionate share of the net pension liability to changes in the discount rate. The following presents the Trust's proportionate share of the net pension liability of the HIS Pension Plan calculated using the discount rate of 3.54%. Also presented is what the Trust's proportionate share of the HIS Pension Plan net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.54%) or 1-percentage-point higher (4.54%) than the current rate at September 30, 2022:

	2022			
	Current			
	1% Decrease (2.54)%	discount rate (3.54)%	1% Increase (4.54)%	
Trust's proportionate share of the HIS Pension Plan net pension liability	\$ 24,477,488	21,394,870	18,844,067	

Sensitivity of the Trust's proportionate share of the net pension liability to changes in the discount rate. The following presents the Trust's proportionate share of the net pension liability of the HIS Pension Plan calculated using the discount rate of 2.16%. Also presented is what the Trust's proportionate share of the HIS Pension Plan net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.16%) or 1-percentage-point higher (3.16%) than the current rate at September 30, 2021:

	2021			
	Current			
	1% Decrease (1.16)%	discount rate (2.16)%	1% Increase (3.16)%	
Trust's proportionate share of the HIS Pension Plan net pension liability	\$ 29,701,010	25,690,762	22,405,261	

Pension plan fiduciary net position. Detailed information about HIS Pension Plan's fiduciary net position is available in the separately issued FRS Comprehensive Annual Financial Report. The comprehensive annual financial report of the FRS is available by mail at: State of Florida, Division of Retirement, Department of Management Services, 1317 Winewood Boulevard, Building 8, Tallahassee, Florida 32399; by telephone toll free (844) 377-1888 or (850) 907-6500; by e-mail at rep@dms.myflorida.com; or at the Division's Web site (http://www.dms.myflorida.com).

(b) Public Health Trust of Miami-Dade County, Florida, Defined-Benefit Retirement Plan

The Public Health Trust of Miami Dade County, Florida Defined-Benefit Retirement Plan (the Plan) is a Single employer defined benefit pension plan that was created in 1996. The Plan has a calendar year-end of December 31 and does not issue stand-alone financial statements but is included as a pension trust fund in this report. Section 112 of the Florida State Statues grants the Trust the authority to establish and amend the benefit terms of the Plan. The Plan is administered by a Pension Plan

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

Committee made of seven members which consists of three members of the Trust Board of Trustees, a union representative, a member at large, the Trust President and Chief Executive Officer, and the Trust Executive Vice President and Chief Financial Officer.

Defined-Benefit Retirement Plans

The Trust follows GASB Statement No. 67, *Financial Reporting for Pension Plans*, which specifies the required approach to measuring the pension liability of employers and nonemployer contributing entities for benefits provided through the pension plan. GASB Statement No. 67 requires plans to calculate a net pension liability to be measured as the total pension liability less the amount of the pension plan's fiduciary net position.

GASB Statement No. 68, Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27, requires employers and nonemployer contributing entities to report their net pension liability on their financial statements. While GASB Statement No. 68 changed the amount of the net pension liability that is reported on the financial statements, governments may continue to fund their plans by calculating an actuarially determined contribution and measuring their funded status as it relates to that actuarially determined contribution.

In order to provide the necessary disclosures that are required under the various GASB Statements, the disclosures below are separated into five sections. The first section, General Information about the Defined-Benefit Retirement Plan, offers disclosures about the plan itself – descriptions of the plan and who is covered; an analysis of the membership of the plan as of the end of the fiscal year; and a discussion of benefits provided, and the financial statements. The second section, Deposits and Investments, reports the contents of the investments of the Plan assets, and related economic or market risks. The third section, Fair Value Measurement, required by GASB Statement No. 72, Fair Value Measurement and Application, reports investments at fair value and categorizes fair value measurements within the hierarchy established by generally accepted accounting principles. The fourth section, Net Pension Liability and Disclosures required by GASB Statement No. 67, provides the information that is required by GASB Statement No. 67 - the calculation of the net pension liability; the actuarial assumptions and census data that were used in calculating that net pension liability; the discount rate that was used in the calculations; and the sensitivity of the net pension liability to changes in the discount rate. The fifth section, Pension Expenses and Deferred outflows/Inflows of Resources, required by GASB Statement No. 68, provides information about the pension expense calculation, deferred outflows and inflows balances, and current and future years amortization of the inflows and outflows balances.

(i) General Information about the Defined-Benefit Retirement Plan

Eligibility

All employees working in a full time or part time regularly established position who were hired after January 1, 1996 are covered by the Plan.

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

Contributions

The Trust intends to make contributions to fund the Plan at such times and in such amounts as certified by an independent actuary as being no less than amounts required to be contributed under Chapter 112, *Florida Statutes*; any actuarial gain arising under the Plan shall be used to reduce future Trust contributions to the Plan and shall not be applied to increase retirement benefits to participants. Effective April 1, 2012, all plan members were required to make a 3% pretax employee contribution.

Benefits

Benefits under the Plan vest after six years of service. The normal retirement age for employees hired before April 1, 2012 is age 62 with six years of credited service or completion of 30 years of continuous service. The normal retirement age for employees hired after March 31, 2012 is age 65 with six year of credited service or completion of 30 years of continuous service. All employees are entitled to either an annual retirement benefit payable monthly for life or one lump-sum payment. The lump-sum payment option became effective for plan members as of October 1, 2013. The Plan also provides for early retirement at reduced benefits and death and disability benefits.

Deferred Retirement Option Program (DROP)

Any employee who has attained Normal Retirement Age by January 1, 2020 or attains Normal Retirement Age between February 2020 and December 2024 has the option to participate in the DROP. Employees who elect to participate in the DROP must:1) Declare a date, which is within the three-year period beginning with the Member's Normal Retirement Age to participate in DROP ("DROP Date"), that they will terminate employment (the time from the Member's DROP Date and the Member's termination of employment is the "DROP Period"), 2) Agree that their Plan benefit will be frozen as of the DROP Date and that no additional benefits will accrue beyond the DROP Date, 3) Agree that their contributions to the Plan shall continue through the DROP Period, and 4) Provide information to the Plan that may be necessary to determine the amount of annuity payments that would be paid to the DROP Member if the Plan were to pay the DROP Member a single life annuity, based on the DROP Member's Accrued Benefit, at the DROP Member's DROP Date.

At the end of the DROP Member's DROP Period, the DROP Member shall terminate employment and have the opportunity to elect a form of payment for the frozen Plan benefit as described in the Retirement section above. In addition, the DROP Member will be eligible to receive a one-time, lump sum payment that is the sum of: 1. The monthly single life annuity amounts, as if said amounts had accumulated without interest throughout the DROP Period; and 2. The DROP Member's contributions that were contributed during the DROP Period.

Payment of Expenses

Expenses associated with administering the Plan will be paid out of the Plan's assets unless, at the discretion of the Trust, will be paid by the Trust.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

Plan Termination

The Board of Trustees of the Plan has the right to terminate this Plan at any time. In the event of such termination, all affected participants shall be 100% vested.

Membership

Membership of the Plan consisted of the following at January 1, 2022 and 2021:

	-	2022	2021
Retirees and beneficiaries currently receiving benefits	\$	1,150	1,103
Terminated plan members entitled to but not yet receiving benefits		1,482	1,208
Active plan members	_	10,149	9,776
Total	\$	12,781	12,087
Number of participating employers		1	1

(ii) Deposits and Investments

The Plan's investment authority is derived from the authorization of the Board and is in accordance with Chapter 215.47, *Florida Statute* (the Statute) and the Employment Retirement Income Security Act of 1974, as amended.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

The following is a summary of the fair value of assets held in the pension trust fund at September 30, 2022 and 2021:

	-	2022	2021
Cash	\$	13,233,834	7,358,317
Investments:			
Domestic:			
Mutual funds		74,094,333	86,755,871
Equities		494,997,219	634,251,128
Corporate debt securities		43,866,438	50,746,200

Real estate		108,101,123	83,855,629
Commingled Funds – Fixed Income	-	70,147,006	70,785,642
Total assets	\$	916,903,615	1,083,161,043

Credit Risk

The Plan's investment policy (the Investment Policy) is designed to minimize credit risk by restricting authorized investments to only those investments permitted by the Statute, subject to certain additional limitations. These additional limitations consist of prohibitions against investments in derivative securities, options, futures, or short positions; however, the Investment Policy allows for investments in mortgage pass-through securities. Generally, the Statute permits investments in the Florida State Board of Administration Pooled Investment account (the SBA Pool), U.S. government and agency securities, common and preferred stock of domestic and foreign corporations, repurchase agreements, commercial paper and other corporate obligations, bankers' acceptances, state or local government taxable or tax-exempt debt, real estate and real estate securities, venture capital, private equity, hedge equity, multimanager/multistrategy funds, and money market funds. With the exception of obligations directly issued or guaranteed by the U.S. government, investments in the SBA Pool, and certain state or local government debt instruments, the Statute provides limits as to the maximum portion of the Plan's portfolio that can be invested in any one investment category or issuer.
A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

At September 30, 2022, the Plan's investment securities had the following credit ratings:

	2022

Custodial Credit Risk

GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, requires governments to disclose deposits and investments exposed to custodial credit risk. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government may not be able to recover the value of investment or collateral securities that are in the possession of an outside party. As of September 30, 2022 and 2021, the Plan's investment portfolio was held with a single third-party custodian.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

Concentration of Credit Risk

The Investment Policy establishes limitations on portfolio composition by investment type and by issuer to limit its exposure to concentration of credit risk. The Investment Policy in place at September 30, 2022 and 2021 was as follows:

	2022 Policy target	2021 Policy target	Allowable range
Equity securities	60 %	60 %	+/-12%
Fixed income	30	30	+/-9%
Real estate	10	10	+/-2%

At September 30, 2022 and 2021, the composition of the Plan's investments by investment type as a percentage of total investments was as follows:

	Percentage of portfolio		
	2022	2021	
Domestic investments:			
Mutual funds	8.1 %	8.0 %	
Equities	54.0	58.6	
Commingled Funds – Equity	5.1	5.7	
Commingled Funds – Fixed Income	7.7	6.5	
Corporate debt securities	4.8	4.7	
U.S. government and agency obligations	1.3	1.3	
Real Estate	11.7	7.7	
International investments:			
Mutual funds	4.6	4.7	
Equities	0.7	1.6	
Corporate debt securities	0.6	0.5	
Other:			
Cash and short-term investments	1.4	0.7	

There were no individual investments in excess of 5%.

Interest Rate Risk

The Plan manages its exposure to rising interest rate risk in fair value by forecasting cash outflows and inflows. To the extent possible, an attempt will be made to match investment maturities with known cash needs and anticipated cash flow requirements.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

As of September 30, 2022 and 2021, the Plan had the following investments with the respective weighted average maturity in years:

	2022	2021
Domestic investments:		
Corporate debt securities:		
Corporate bonds	9.72	9.27
U.S. government and agency obligations:		
Federal National Mortgage Association	19.39	21.60
Federal Home Loan Mortgage Corporation	16.06	17.30
Federal Home Loan Banks	3.10	
U.S. treasury bills	6.88	6.14
U.S. treasury notes	6.15	2.48
International investments:		
Corporate debt securities	5.84	4.34

Foreign Currency Risk

GASB Statement No. 40 requires governments to disclose deposits or investments exposed to foreign currency risk, the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

(iii) Fair Value Measurement

The Trust categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the inputs used in valuation and gives the highest priority to unadjusted quoted prices in active markets and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the hierarchy is based on whether the significant inputs into the valuations are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest level, Level 1, is given to unadjusted quoted prices in active markets and the lowest level, Level 3, to unobservable inputs.

Assets are measured based upon the market approach valuation technique, whereby prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities is used:

Level 1 – Valuations based on unadjusted quoted prices for identical instruments in active markets that the Trust has the ability to access.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

- Level 2 Valuations based on quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable.
- Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each investment. The tables below show the fair value leveling of the Trust's pension trust fund investments as of September 30, 2022 and 2021. The Trust's pension trust fund investments measured at net asset value (NAV) include commingled funds – fixed income, commingled funds – equity, and real estate.

Commingled funds – fixed income. The Trust makes investments in fixed income securities that include, among other things, U.S. Treasuries, Corporate Bonds, Asset Backed Securities, Mortgage Backed Securities, high yield securities, bank loans, non-U.S. investments, etc. The Trust owns shares in commingles fund vehicles that purchase and sell the fixed income instruments. The commingled funds may be passive (tracking an index) or actively managed by a fixed income manager. The commingled funds often offer daily or monthly liquidity for the Trust.

Commingled funds – *equities.* The Trust makes investments in public equity securities that include, U.S. stocks and non-U.S. stocks. The Trust owns shares in commingled fund vehicles that purchase and sell the equities. The commingled funds may be passive (tracking an index) or actively managed by an equity manager. The commingled funds often offer daily or monthly liquidity to the Trust.

Real Estate. The Trust's investments in real estate are executed through limited partnerships or commingled funds. The Trust owns shares in the limited partnerships/commingled funds. The Trust's investments are valued at NAV per share. The limited partnerships/commingled funds purchase and operate hundreds of properties across the United States focused on high quality income generating assets including multifamily, industrial, retail and office. The limited partnerships/commingled funds typically have quarterly liquidity.

A Department of Miami-Dade County, Florida

(iv) Net Pension Liability (Asset) and Disclosures

The Trust recorded the net pension liability as a long-term liability on the statements of net position.

The components of the net pension liability (asset) at September 30, 2022 and 2021 are as follows:

	-	2022	2021
Total pension liability	\$	1,132,282,420	1,046,324,173
Less: Plan fiduciary net position	_	(916,903,615)	(1,083,161,043)
Net pension liability (asset)	\$	215,378,805	(36,836,870)
Plan fiduciary net position a percentage of total pension liability		81.0 %	103.5 %

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of January 1, 2022 and 2021, respectively, using the following actuarial assumptions, applied to all periods included in the measurement:

	2022	2021
Valuation date	January 1, 2022	January 1, 2021
Measurement date	September 30, 2022	September 30, 2021
Actuarial cost method	Entry Age Normal, Level	Entry Age Normal, Level
	Percent of Pay	Percent of Pay
Inflation assumptions	2.5 %	2.5 %
Investment rate of return	7.2 %	7.2 %
Projected salary increases	4.0% per year for employees with less than 10 years and 3.0% for employees with more than 10 years	4.0% per year for employees with less than 10 years and 3.0% for employees with more than 10 years
Assumed annual rate of cost-of-living increases	3.0% for benefits earned prior to April 1, 2012	3.0% for benefits earned prior to April 1, 2012

The actuarial assumptions used in the January 1, 2022, valuation was based on the results of an actuarial experience study conducted in 2020. Actuarial valuations attempt to estimate costs associated with the plan based on a number of demographic, economic, and retirement experience assumptions. To the extent assumptions are at variance to experience, this can result in actuarial gains and losses ultimately impacting contribution rates and the development of the actuarially required contribution. Experience studies are performed every three years to review actual experience in comparison to these assumptions and to provide recommended changes to assumptions.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

The long-term expected rate of return on pension plan investments was determined using best-estimate ranges of expected future nominal rates of return (expected returns, net of investment expense, and inflation) developed for each major asset class using an econometric model that forecasts a variety of economic environments and then calculates asset class returns based on functional relationships between the economic variables and the asset classes. These best estimate ranges were combined to produce forecasts of the short-, intermediate-, and longer-term horizons by weighting the expected future nominal rates of return by the target asset allocation percentage. The various time horizons in the forecast are intended to capture more recent economic and capital market conditions as well as other plausible environments that could develop in the future over economic cycles. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of September 30, 2022 and 2021 are summarized in the following table:

	2022				
Asset class	Target asset allocation	Long-term expected real rate of return			
Equity	60.00 %	5.1 %			
Fixed income	30.00	0.8			
Alternatives	10.00	4.8			
Inflation rate	_	2.6			

	2021				
Asset class	Target asset allocation	Long-term expected real rate of return			
Equity	60.00 %	5.0 %			
Fixed income	30.00	0.3			
Alternatives	10.00	4.8			
Inflation rate	—	2.1			

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

Total Pension Liability

Cc Administrative expense	(1,976,325)	(2,029,797)
Net change in plan fiduciary net position	(166,257,428)	205,952,724
Plan fiduciary net position, beginning of year	1,083,161,043	877,208,319
Plan fiduciary net position, end of year	916,903,615	1,083,161,043
Net pension asset (liability), end of year	\$ (215,378,805)	36,836,870

Discount Rate

The discount rate used to measure net pension liability was 7.2% as of September 30, 2022 and 2021. The projection of cash flows used to determine the discount rate assumed that contributions will continue to be made in accordance with the current funding policy. Based on these assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments to current Plan members. Therefore, a blended rate incorporating a municipal bond rate is not needed.

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

The annual money-weighted rate of return on pension plan investments calculated as the internal rate of return on pension plan investments, net of pension plan investment expenses for the years ended September 30, 2022 and 2021 was (16.7)% and 21.8%, respectively. A money-weighted rate of return expresses investment performance, net of pension plan investment expense, adjusted for the changing amounts actually invested.

The discount rate was chosen based on market information on the measurement date. The discount rate reflects the estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions. Use of this assumption implies that the sponsor continues to make contributions in the future consistent with the actuarial cost method selected as the basis of its funding policy.

Sensitivity of the Net Pension Asset (Liability) to Changes in the Discount Rate

The following presents the net pension asset (liability), calculated using the discount rates determined above, as well as what the Plan's net pension asset (liability) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	_	2022	2021
One-percent decrease:	_		
Discount rate		6.2 %	6.2 %
Net pension liability	\$	(330,932,094)	(68,544,300)
Net pension asset (liability), as reported:			
Discount rate		7.2 %	7.2 %
Net pension asset (liability)	\$	(215,378,805)	36,836,870
One-percent increase:			
Discount rate		8.2 %	8.2 %
Net pension asset (liability)	\$	(116,284,462)	113,408,147

Funding Policy

The Trust's funding policy provides for actuarially determined rates deemed sufficient to pay benefits as due; the rate was 6.43% at January 1, 2022 and 6.52% at January 1, 2021, of covered payroll. Effective April 1, 2012, employees were required to contribute 3% of the required contribution, thus the employer contribution rate was 3.43% and 3.52%, respectively, for the years ended September 30, 2022 and 2021. The assumptions used to compute the contribution requirements are the same as those used to compute pension benefits earned. The Trust has traditionally contributed the annual required contribution.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

(v) Pension Expense and Deferred Outflows (Inflows) of Resources

In accordance with GASB Statement No. 68, changes in the net pension liability are recognized in pension expense in the current measurement period, with some exceptions. For each of the following, a portion is recognized in pension expense in the current measurement period, for which the Trust decided to use a measurement date of September 30, 2022 and 2021, and the balance is amortized as deferred outflows or deferred inflows of resources using a systematic and rational method over a closed period, as defined below:

- Differences between expected and actual experience with regard to economic and demographic factors and changes in assumptions and other inputs amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employees).
- Differences between expected and actual earnings on pension plan investments amortized over five years.

Pension Expense

	 2022	2021
Service cost	\$ 42,823,998	41,525,890
Interest cost	76,612,180	71,874,150
Administrative expense	500,000	500,000
Expected return on assets	(76,163,419)	(64,686,498)
Recognition of deferred amounts	 43,021,624	(16,115,422)
Pension expense	\$ 86,794,383	33,098,120

Contributions to the pension plan from employees are not included in collective pension expense.

(16) Postemployment Benefits Other than Pensions (OPEB)

(a) Plan Description

The Trust administers a single-employer defined-benefit healthcare plan (the OPEB Plan) that provides postretirement medical and dental coverage to retirees as well as their eligible spouses and dependents. Benefits are provided through the Trust's group health insurance plan, which covers both active and retired members. The OPEB Plan does not issue a publicly available financial report.

Eligibility – To be eligible to receive retiree medical and dental benefits, participants must be eligible for retirement benefits under the System or the OPEB Plan and pay required contributions.

Regular class (all employees not identified as members of the special risk class):

- Eligibility for unreduced pension benefits
 - Age 62 with 6 years of service if eligible prior to April 2012
 - Age 65 with 6 years of service if eligible following April 2012
 - 30 years of service (no age requirement)
- Eligibility for reduced pension benefits
 - 6 years of service

Benefits – The medical plans offered are single-employer defined benefit healthcare plans that provide hospital, medical, and pharmacy coverage. The Trust is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed. There

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

are no automatic post-employment benefit changes; including automatic COLAs. Pre-65 retirees are able to select from the medical plans as follows:

- AvMed Jackson First HMO
- AvMed Select HMO
- AvMed POS

Post-65 retirees are able to select from the medical plans as follows. The Trust only contributes to post-65 retirees electing an AvMed Medicare Supplement Plan.

- AvMed Medicare Supplement High Option with RX
- AvMed Medicare Supplement High Option without RX

Medicare eligible retiree premiums now equal cost, thus retirees must pay 100% of the premiums. The retiree's share of benefit related costs, for pre-65 retirees, ranges from 61% to 80% for the year ended September 30, 2022 and 2021.

Participation in the OPEB Plan consisted of the following at September 31, 2022, the date of the latest actuarial valuation:

	2022	2021
Actives	12,338	11,376
Retirees age 65 and over	104	179
Retirees under age 65	271	591
	12,713	12,146

(b) Funding Policy

The Trust contributes to both the pre-65 and post-65 retiree medical coverage as of September 30, 2019. Thereafter, Medicare eligible retirees pay the full cost of medical and dental coverage and the Trust no longer makes an explicit contribution for pre-Medicare retirees.

The pre-65 retirees also receive an implicit subsidy from the Trust since they are underwritten with the active employees. The implicit contribution is approximately 43% of the cost. The pre-65 cost is approximately 63% greater than the combined pre-65 and active cost.

For the years ended September 30, 2022 and 2021, the Trust contributed approximately \$2,236,000 and \$4,251,000, respectively, to the OPEB Plan.

The postretirement medical and dental benefits are currently funded on a pay-as-you-go basis (i.e., the Trust funds on a cash basis as benefits are paid). No assets are accumulated in a Trust that meets the criteria of paragraph 4 of Statement 75.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

(c) Total OPEB Liability

The Trust's total OPEB liability of approximately \$50,146,000 and \$52,158,000 as of September 30, 2022 and 2021, respectively, was measured as of those respective dates. The September 30, 2022 total OPEB liability was determined by an actuarial valuation as of the same date. The September 30, 2021 total OPEB liability was determined by an actuarial valuation as of September 30, 2020 and update procedures were used to roll forward the total OPEB liability from the valuation date (September 30, 2021).

The current portion of the OPEB liability as of September 30, 2022 and 2021 is approximately \$2,782,000 and \$4,055,000, respectively.

(d) Actuarial Methods and Assumptions

The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

	2022	2021
Actuarial valuation date	September 30, 2022	September 30, 2021
Actuarial assumptions:		
Discount rate	4.02 %	2.15 %
Inflation rate	3.0 %	3.0 %
Payroll growth assumption	3.0 %	3.5 %
Healthcare cost trend rates	7.0% (6.00% for post-Medicare)	5.5% select; 4.5% ultimate; 0.5%
	select; 4.0% ultimate; 0.25%	reduction per year
	reduction per year	
Mortality table	Pub-2010 mortality table with	Pub-2010 mortality table with
	generational scale MP-2021	generational scale MP-2019

The participation percentage for September 30, 2022 and 2021 is the assumed rate of future eligible retirees who elect to continue health coverage at retirement. The participation assumption for September 30, 2022 and 2021 is 20% for pre-55 retirees and 60% for pre-65 retirees. This is based on the subsidies available to retirees. This assumes that a one-time irrevocable election to participate is made at retirement.

The Trust's actuary followed previous actuarial experience studies from the Florida Retirement System. The Trust agreed it could be applied to OPEB liability.

Furthermore, the valuation assumes that the Trust will continue to fund the liability on a pay-as-you-go basis. The Trust has discontinued the per capita contribution for retiree benefits that was established in 2008 and had remained flat since then. As a result, the retiree contributions will be increased to the extent necessary so that they are sufficient to pay the full premium equivalent rate.

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

(e) Discount Rate

The discount rate used to measure the Trust's total OPEB liability is 4.02% and 2.15% as of September 30, 2022, and 2021, respectively,. This translates to an increase of 86.98% in the discount rate in 2022 compared to the previous year. The discount rate is based on Bond Buyer 20-Bond GO index.

(f) Changes in the Total OPEB Liability

The following presents the change in OPEB Liability for the fiscal years ended September 30, 2022 and 2021. Changes in assumptions or other inputs reflect a change in the discount rate to 4.02% as of September 30, 2022 from 2.15% as of September 30, 2021, and a change in the healthcare cost trend rate to 7.0% select; 4.0% ultimate; 0.25% reduction per year, as of September 30, 2021 from 5.5% select; 4.5% ultimate; 0.5% reduction per year, as of September 30, 2021.

		2022

September	[.] 30, 2021	1% Decrease		\$ 46,478,000
September	[.] 30, 2021	Current Trend		52,158,000
September	30, 2021	1% Increase		59,031,000

(h) Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended September 30, 2022, the Trust recognized OPEB expense of approximately \$5,092,000. At September 30, 2022, the Trust reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	_	202	2
	_	Deferred outflows of resources	Deferred inflows of resources
Differences between expected and actual experience Changes of assumptions/inputs	\$	4,655,486 14,283,220	(8,784,042) (11,841,915)
	\$	18,938,706	(20,625,957)

A Department of Miami-Dade County, Florida

Notes to Financial Statements

September 30, 2022 and 2021

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended September 30:		
2023	\$	(52,562)
2024		(52,562)
2025		(52,562)
2026		(52,562)
2027		(52,562)
Thereafter	_	(1,424,441)
	\$	(1,687,251)

For the year ended September 30, 2021, the Trust recognized OPEB expense of approximately \$5,184,000. At September 30, 2021, the Trust reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	_	202	1
	_	Deferred outflows of resources	Deferred inflows of resources
Differences between expected and actual experience Changes of assumptions/inputs	\$	3,805,609 15,356,387	(9,413,465) (6,567,152)
	\$_	19,161,996	(15,980,617)

(17) Commitments and Contingencies

(a) Construction and Equipment

The Trust has several construction projects in progress at September 30, 2022 and 2021. The estimated total cost to date and cost to complete such projects is approximately \$189,851,000 and \$388,483,000, respectively, as of September 30, 2022, and \$104,712,000 and \$164,546,000, respectively, as of September 30, 2021. Total commitments for approved construction projects not yet commenced for the same periods are approximately \$84,070,000 and \$65,890,000, respectively.

(b) Annual Operating Agreement

In accordance with the annual operating agreement between the Trust and the University of Miami (the University), the Trust pays certain amounts for staff and services provided by the University to the Trust. Under the annual operating agreement, costs incurred by the Trust for the years ended September 30, 2022 and 2021 were approximately \$53,587,000 and \$53,073,000, respectively, and are included in contractual and purchased services in the accompanying statements of revenues, expenses, and changes in net position. At September 30, 2022 and 2021, the Trust had a liability to the University related to the annual operating agreement of approximately \$19,370,000 and \$9,195,000, respectively.

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

(c) Litigation

There is a recoupment claim for Medicaid funds in connection with the Low-Income Pool (LIP). Pursuant to an audit filed in August 2019 of the Medicaid cost reimbursement to the Trust under the LIP program performed by the U.S. Department of Health and Human Services Office of Inspector General (OIG), the OIG alleges that of the \$1.8 billion in LIP payments made to Jackson Hospital by the State of Florida from 2010-2014, the state claimed Medicaid reimbursement of approximately \$729 million (\$436 million Federal match) in excess of the Trust's allowable costs under the LIP program. According to the Miami-Dade County Attorney, recovery of a sum in excess of \$436 million is reasonably possible. Management disagrees with the findings in the OIG audit report.

(d) Healthcare Industry

The healthcare industry is highly regulated, and there can be no assurance that the regulatory environment in which the Trust operates will not change significantly and adversely in the future. In general, regulation of healthcare providers and companies is increasing.

Federal and state laws regulate the healthcare industry, the relationship between hospitals and physicians, and the relationship among physicians and other providers of healthcare services.

Several laws, including fee splitting, anti kickbacks laws, and prohibition of the corporate practice of medicine, have civil and criminal penalties and have been subject to limited judicial and regulatory interpretation. They are enforced by regulatory agencies vested with broad discretion in interpreting them. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Although the Trust believes that its operations are conducted so as to comply with all of the applicable laws, there can be no assurance such operations will not be challenged to be in violation of one or more of such laws.

There have been numerous initiatives at the federal and state levels for comprehensive reforms affecting the availability of, and payment for healthcare. The Trust believes that such initiatives will continue during the foreseeable future. Certain proposed reforms could, if adopted, have a material effect on the Trust.

(e) Novel Coronavirus (COVID-19)

The current COVID-19 pandemic has had numerous and varied medical, economic and social impacts, any and all of which have and may again adversely affect the Trust's business and financial results. In March 2020, the Florida Governor issued an executive order prohibiting certain medically unnecessary, non-urgent or non-emergent procedures and surgeries as a result of the COVID-19 pandemic. The restrictions were lifted in May 2020. The effect of COVID-19 could further and severely affect the Trust's ability to conduct normal business operations, and, as a result, the future operating results of the Trust could be materially adversely affected.

A Department of Miami-Dade County, Florida

Notes to Financial Statements September 30, 2022 and 2021

In March 2020, the Coronavirus Aid, Relief and Economic Security Act (CARES Act) was signed into law providing among other provisions, financial relief to hospitals and healthcare providers during the COVID-19 pandemic. The CARES Act Provider Relief Fund provides funding from the U.S. Department of Health and Human Services (HHS) to support healthcare-related expenses or lost revenue attributable to the COVID-19 pandemic.

During the years ended September 30, 2022 and 2021, the Trust had received approximately \$4,396,000 and \$1,146,000, respectively, in Provider Relief Fund disbursements related to the CARES Act. The funds received under the CARES Act Provider Relief Fund represent payments that do not need to be repaid as long as the Trust complies with certain terms and conditions imposed by HHS, including reporting and compliance requirements. Such payments are accounted for as government grants and are recognized as grants and other income once there is reasonable assurance that the applicable terms and conditions required to retain the funds will be met. During the years ended September 30, 2022 and 2021, the Trust recognized approximately \$4,396,000 and \$50,728,000, respectively, within grants and other revenues on the accompanying statements of revenues, expenses, and changes in net position.

The contribution rate for normal cost is determined using the aggregate actuarial funding method. Under this method, the excess of present value of projected benefits over the actuarial value of assets is spread evenly over the expected future compensation of active participants presently under normal retirement age. Gains and losses resulting from fluctuations in Plan experience are similarly amortized as part of the normal cost.

Notes to Schedule:

Changes of benefit terms. From September 30, 2019 to September 30, 2020, the subsidy that PHT provided to retirees toward health premiums has been eliminated. Retirees now contribute 100% of the premium rate. Employees retiring after January 1, 2021 will not be covered by the post Medicare plan. Changes of assumptions. From September 30, 2021 to September 30, 2022, the discount rate used to measure the Trust's

total OPEB liability increased from 2.15% to 4.02%.

Changes of assumptions. From September 30, 2020 to September 30, 2021, the discount rate used to measure the Trust's total OPEB liability decreased from 2.21% to 2.15%.

Changes of assumptions. From September 30, 2019 to September 30, 2020, the discount rate used to measure the Trust's total OPEB liability decreased from 2.7% to 2.21% and the pre-Medicare trend rate decreased from 6.5% to 6.0%.

Changes of assumptions. From September 30, 2018 to September 30, 2019, the discount rate used to measure the Trust's total OPEB liability decreased from 4.2% to 2.7% and the pre-Medicare trend rate decreased from 7.0% to 6.5%.

Changes of assumptions. From September 30, 2017 to September 30, 2018, the discount rate used to measure the Trust's total OPEB liability increased from 3.6% to 4.2%.

Note: Schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

See accompanying notes to required supplementary information.

A Department of Miami-Dade County, Florida

Notes to Required Supplementary Information – Methods and Assumptions for FRS, HIS, PHT Pension and OPEB

September 30, 2022 and 2021

The following are relevant to the Florida Retirement System (FRS), Health Insurance Subsidy (HIS) Program, PHT Defined Benefit Retirement Plan and Other Postemployment Benefits (OPEB):

- (1) Actuarial assumptions for defined-benefit plans are reviewed annually for FRS. The FRS pension plan has a valuation performed annually whereas the HIS program has a valuation performed biennially, and is updated for GASB reporting in the year a valuation is not performed.
- (2) Methods and assumptions used in calculation of actuarially determined 2022 contribution for the FRS pension plan:

Valuation date	July 1, 2022
Actuarial cost method	Individual Entry Age Normal
Discount rate	6.7 %
Investment rate of return	6.7 %
Salary increases projected	3.3 %
Inflation	2.4 %
Mortality	PUB2010 base table by
	category and sex, projected
	generationally with Scale
	MP-2018

- (a) Changes of assumptions and other inputs reflect a change in the discount rate from 6.8% in 2021 to 6.7% in 2022.
- (3) Methods and assumptions used in calculation of actuarially determined 2022 contribution for HIS program:

Valuation date	July 1, 2022
Actuarial cost method	Individual Entry Age Normal
Discount rate	3.5 %
Investment rate of return	N/A
Salary increases projected	3.3 %
Inflation	2.4 %
Mortality	Generational PUB-2010 with
	Projection
	Scale MP-2018

(a) Changes of assumptions and other inputs reflect a change in the discount rate from 2.16% in 2021 to 3.54% in 2022.

A Department of Miami-Dade County, Florida

Notes to Required Supplementary Information – Methods and Assumptions for FRS, HIS, PHT Pension and OPEB

September 30, 2022 and 2021

(4) Methods and assumptions used in calculation of actuarially determined 2022 contributions for PHT Defined Benefit Retirement Plan:

Valuation date	January 1, 2021
Actuarial cost method	Entry Age Normal, Level Percent of Pay
Discount rate	7.2 %
Investment rate of return	7.2 %
Salary increases projected	4.0% per year for employees with less
	than 10 years and 3.0% for employees
	with more than 10 years
Inflation	2.5 %
Mortality	Generational PUB-2010, projection using scale MP-2020

- (b) Changes of assumptions and other inputs reflect no change in the discount rate, as it remained at 7.2% in 2022.
- (5) Methods and assumptions used in calculation of actuarially determined contributions for Other Postemployment Benefits:

Valuation date	September 30, 2022
Actuarial cost method	Entry Age Normal
Discount rate	4.0 %
Healthcare Cost Trend Rate	7.0% select (6.00% for post-Medicare) select;
	4.0% ultimate; 0.25% reduction per year
Investment rate of return	N/A
Salary increases projected	3.0% per year
Inflation	3.0% per year
Mortality	Generational PUB-2010, projection using
	scale MP-2021
