**Subject:** Resolution Authorizing the County Mayor or County Mayor's Designee to Deposit Fines Collected From Civil Citations Issued by the Miami-Dade Police Department into the Illegal Dumping Trust Fund

---

## Executive Summary

On October 5, 2021, the Board of County Commissioners (Board) adopted Resolution No. R-907-21, creating the Illegal Dumping Trust Fund (IDTF) for use by the Miami-Dade Police Department's (MDPD) Illegal Dumping and Environmental Crimes Unit (IDECU) to conduct operations and investigations that target various environmental crimes plaguing Miami-Dade County (County), including illegal dumping. The IDECU requires a consistent source of funding to effectively target environmental crimes, conduct investigations, and assist with the overwhelming number of complaints regarding illegally dumped debris throughout the County. As such, this item seeks the authority to deposit fines collected from civil citations issued by the MDPD for specified violations of the Code of Miami-Dade County, Florida (Code), as enumerated in Exhibit A to the attached resolution, as well as to deposit future fines received from said citations issued by MDPD between October 5, 2021 and the effective date of this resolution. This item also seeks the authority to transfer funds that were paid in satisfaction of civil citations issued by the MDPD between October 5, 2021 and the effective date of this resolution for specified violations of the Code from the Miami-Dade County Diversion Program into the IDTF.

## Recommendation

It is recommended that the Board approve the attached resolution authorizing the County Mayor or County Mayor's designee to deposit fines collected from civil citations issued by the MDPD for violations of specified sections of the Code, enumerated in Exhibit A to the attached resolution, into the IDTF, to include future fines received from said citations issued by MDPD between October 5, 2021 and the effective date of this resolution. This item also seeks the authority to transfer funds that were paid in satisfaction of civil citations issued by the MDPD between October 5, 2021 and the effective date of this resolution for specified violations of the Code from the Miami-Dade County Diversion Program into the IDTF; and to execute all documents necessary to effectuate the purposes of the attached resolution, including documents required for the receipt and expenditure of IDTF funding, as well as to exercise any provisions contained therein provided that such provisions are consistent with the purposes of the IDTF.

## Scope

This item will support Countywide services.

## Delegation of Authority

The County Mayor or County Mayor's designee is authorized to deposit fines collected from civil citations issued by the MDPD for violations of specified sections of the Code, as enumerated in Exhibit A to the attached resolution, into the IDTF, including future fines received in satisfaction of citations for those violations that were issued by MDPD between October 5, 2021 and the effective date of this resolution. The County Mayor or County Mayor's designee is further authorized to transfer funds from the Miami-Dade County Diversion Program into the IDTF that were paid in satisfaction of civil citations issued for violations of the Code, enumerated in the exhibit to the attached resolution, between October 5, 2021, and

the effective date of this resolution. The County Mayor or County Mayor's designee is also authorized to execute documents required for the receipt and expenditure of IDTF funds, as well as to exercise any provisions contained therein provided that such provisions are consistent with the purposes of the IDTF.

**Fiscal Impact/Funding Source**

This item will not create a negative fiscal impact.

**Track Record/Monitor**

Assistant Director Gustavo Knoepffler, of MDPD's Fiscal & Departmental Services, will oversee the administration of the IDTF.

**Background**

On October 5, 2021, this Board approved Resolution No. R-907-21, closing the Florida Environmental Task Force Trust Fund, and disbursing its funds into the newly created IDTF. At that time, a total of \$1.4 million was deposited into the IDTF for use by the IDECU. Pursuant to Resolution No. R-907-21, the IDTF is authorized to receive funds from public and private donations, grant awards, settlement agreements, court awarded payments, and other funding authorized by this Board.

Since the establishment of the IDTF, the IDECU has issued 805 civil citations totaling \$762,200, of which \$185,650 has been paid by offenders, and made 307 arrests for illegal dumping, environmental pollution, operation of illegal transfer stations, illegal truck parking operations, and other environmental related crimes and violations of County ordinances.

The IDECU uses the IDTF to support surveillance operations in areas of the County most vulnerable to illegal dumping, which include agricultural and rural areas in the south and west portions of the County. The IDECU has also conducted investigations throughout the entire County. For example, the IDECU conducted investigations into littering from vessels in Biscayne Bay that have led to numerous arrests and citations issued to offenders. Additionally, the IDECU has conducted investigations into the operation of illegal waste transfer stations located around the County, including residential areas in the northeast portion of the County.

The use of social media by the IDECU has been a valuable tool in identifying and solving many illegal dumping cases. The IDECU has regularly responded to social media posts depicting individuals committing environmental crimes and issued citations to the offender(s). This use of social media by the IDECU has allowed the MDPD to take swift action on several high-profile cases where there was public outcry over brazen and overt illegal dumping crimes.

To maintain its current level of service, the IDECU requires on-going support from the IDTF. Currently, monies received in satisfaction of civil citation fines issued by the MDPD are deposited into the Miami-Dade County Diversion Program, leaving the IDTF with insufficient funding to continue its operations. To ensure that the IDECU can continue to protect the County's land, water, and air from harm, it is recommended that the Board approve this resolution.
