

Memorandum

Date: December 19, 2024

To: Honorable Chairman Anthony Rodriguez and Members, Board of County Commissioners

From: Daniella Levine Cava *Daniella Levine Cava*
Mayor

Subject: Report on the Annual Review, Audit and Analysis of the Use of Funds Disbursed from the Anti-Gun Violence and Prosperity Initiatives Trust - Directive 211363

Agenda Item No. 2(B)(6)
February 4, 2025

Executive Summary

This report is provided pursuant to Resolution No. R-665-21 sponsored by Senator Rene Garcia, and adopted by the Miami-Dade Board of County Commissioners (“Board”) on July 8, 2021. The resolution directed the Mayor or Mayor’s designee to annually review, audit, analyze, and report to the Board on the use of all funds disbursed in the prior year from the Anti-Gun Violence and Prosperity Initiatives trust fund (“Trust Fund”) pursuant to the annual plan. It also required an evaluation of the efficacy of the endeavors to combat gun violence and provide opportunities for economic prosperity throughout Miami-Dade County funded in prior years with such monies from the Trust Fund. This report and its exhibits provide a review, audit, and analysis of the funds allocated for FY2021-22 and FY2022-23 and highlight the impact of the programming funded under the Peace & Prosperity Plan (“Plan”). A review of FY2023-24 funds and programming are underway.

The Plan prioritizes our youth and communities by addressing gun violence through prevention, intervention, and reentry strategies focused on the neighborhoods and individuals most affected, while tackling the root causes of gun violence and creating opportunities for prosperity across the County. Developed by my Administration and approved by the Board annually, the inaugural Plan was sponsored by Commissioner Keon Hardemon and unanimously approved by the Board on June 8, 2021, through Resolution No. R-577-21.

The Trust Fund, funded from the naming rights revenue of the County-owned arena, is the Plan’s primary funding source. In April 2023, the County entered into a new naming rights agreement with Kaseya US LLC (“Kaseya”), renaming the arena to the Kaseya Center, and continuing its commitment to addressing the root causes of gun violence.

Through the Plan, at-risk and justice-involved youth are engaged in paid internships, participate in positive activities, and are connected to key services through the “No Wrong Door” initiative. Community stakeholders - including residents, grassroots and faith-based groups, and nonprofit organizations - are actively involved in designing, implementing, and leading initiatives. These include creating community gardens, organizing community clean-ups, hosting back-to-school preparation events, and providing assistance to returning citizens to enhance community safety. Additionally, the Miami-Dade Police Department (“MDPD”) has led several initiatives including the Turn Around Police Academy and the hiring of intelligence analysts to investigate and root out cyberactivity that contributes or leads to gun violence, which further expands the reach and breadth of the Plan’s violence prevention and intervention strategy.

Outcomes of the Plan’s programming are highlighted in the Report on the Peace & Prosperity Plan and Supplemental Anti-Gun Violence Initiatives attached as Exhibit “A.”

Report

Audit and Analysis of Allocated Funds

Naming rights revenues deposited in the Trust Fund are used to fund initiatives, programs, and activities that combat violence, including addressing at-risk youth, and provide opportunities for economic prosperity throughout Miami-Dade County. Through September 2023, the County has received a total of \$21,105,000 in naming rights revenue. Of the \$21,105,000, \$11,588,000 has been deposited into the Trust Fund and \$7,426,210 has been expended on Peace & Prosperity Plan programs administered by MDPD, Parks, Recreation, and Open Spaces, and ONS through September 30, 2023. Naming rights funds expenditures in the FY2020-21 Plan totaled \$1,444,045. These expenditures were included in the County’s annual audit as highlighted in the previous report.

Exhibit B highlights Trust Fund dollars that were allocated and expended from the Administration’s 70% allocation along with the District 5 Commission Office allocation during FY2021-22 and FY2022-23. The FY2021-22 Plan Trust expenditures totaled \$4,269,169 which included \$2,982,498 in the flagship Fit2Lead program; \$700,000 for the Summer Youth Internship Program, \$48,750 for the Safe in the 305 grant program, and \$537,881 in various MDPD-led initiatives including expanding the Cyber Crimes Bureau by adding four intelligence analysts to monitor social media for gun violence and other criminal activity indicators.

FY2022-23 Plan Trust expenditures totaled \$1,712,996 of allocated funds and included \$1,487,291 in the Fit2Lead program, \$74,375 in Safe in the 305 grant program, and \$151,330 in various MDPD-led initiatives including the Turn Around Police Academy and the Youth Athletic Mentoring Initiative. These expenditures were included in the County’s annual audits.

Highlights, Impacts and Outcomes of the Peace & Prosperity Plan

Since the launch of the inaugural Plan in 2021, \$7.4 million of the Trust Fund has been expended through September 2023 to combat gun violence through violence reduction strategies and opportunities for economic prosperity, with a focus on at-risk youth. The impact of these investments includes, but is not limited to, (a) 1,521 unique youth served in the Fit2Lead program of which 44 percent participated in two or more afterschool or summer sessions; (b) Fit2Lead interns completed 317,587 hours earning more than \$4.4 million; (c) amplifying the voice of residents and community stakeholder through 88 Safe in the 305 grant funded projects; (d) 900 additional slots added to the Summer Youth Internship Program; and (e) enhanced law enforcement capacity to identify cyberactivity that leads to the prevention and/or disruption of violent crime.

The County furthers its investment in public safety with our Office of Neighborhood Safety (“ONS”) and Office of Management and Budget-led Community Violence Intervention Initiative, administered by and in partnership with the Carrie Meek Foundation; MDPD-led Crisis Response Unit; the Corrections and Rehabilitation Department-led Reentry Plan; and the Juvenile Service

Department-led Anti-Violence/Group-Involved Violence Initiative and Hospital-based Violence Intervention Program.

Additional outcomes of the Plan’s programming along with other County-led anti-gun violence efforts are highlighted in Exhibit A.

Firearm Homicide and Shooting Incidents

The Plan, along with the County’s supplemental anti-violence initiatives, continue to positively impact our community and contribute to the reduction in firearm related homicides in Miami-Dade County. The County experienced 32 percent, or 71 fewer gun-related homicides in the calendar year 2023 (154) than in 2020 (225). From January 1, 2023, to December 31, 2023, shootings in unincorporated Miami-Dade were down 13 percent overall when compared to 2022. Furthermore, when comparing shootings in calendar years 2020 to 2023, overall shootings in unincorporated Miami-Dade were down by 43 percent.

Shootings in Miami-Dade County Police Department Districts January 1 to December 31						
MDPD District	2020	2021	2022	2023	% Change 2022 vs 2023	% Change 2020 vs 2023

**Data Source: Miami-Dade Police Department*

Conclusion

In July 2024, the U.S. General Surgeon issued an Advisory on Firearm Violence, declaring firearm violence a public health crisis in America. Our county’s commitment to addressing the root causes of gun violence is underscored by our bold actions, including the dedication of the naming rights revenue to fund initiatives, programs, and activities that combat violence, address at-risk youth, and provide opportunities for economic prosperity throughout Miami-Dade County

The Peace & Prosperity Plan has laid the foundation for sustained, collective efforts, and will continue to create a safer and more resilient Miami-Dade County. Our Plan along with other County-led supplemental anti-gun violence initiatives have garnered recognition and support at the state and national level, including several National Association of Counties awards and \$963,000 in 2024 Community Project Funding (also known as federal earmark) that was championed by Congresswoman Frederica Wilson. These funds will be used to increase engagement of system-involved, at-risk, and vulnerable youth residing in communities disproportionately impacted by gun-related violence in positive programming through the Fit2Lead program, expand existing scholarship opportunities through the Miami-Dade County Community Violence Intervention Initiative, and provide experiential and educational learning opportunities for approximately 200 youth/young adults.

Miami-Dade County, through its focus on combatting gun violence, its investments in the Peace & Prosperity Plan and other anti-violence initiatives, and its creation of the Office of Neighborhood Safety, became one of 16 jurisdictions across the nation to participate in the White House Community Violence Intervention Collaborative. This participation led to the development, launch and implementation of the Miami-Dade County Community Violence Intervention Initiative, an \$8.9 million dollar investment in community-led anti-violence projects and programs for mental health, victim services, reentry, and violence prevention and intervention. In April of this year, the Office of Neighborhood Safety accepted its invitation to the White House where the office met with the White House Office of Gun Violence Prevention and joined other members of the National Offices of Violence Prevention Network for a convening focused on building a national ecosystem to support gun violence prevention and community violence intervention strategies at the local level.

Through dedicated investments and local, state, and national partnerships, Miami-Dade County is positively impacting and developing at-risk youth, empowering communities, building trust, and supporting residents and businesses in creating safer neighborhoods.

If you have any questions or concerns, please contact Sonia J. Grice, Director, CAHSD, at 786-469-4600.

Per Ordinance No. 14-65, this report will be placed on the next available Board meeting agenda.

ABOUT THIS REPORT

This report, prepared by the Office of Neighborhood Safety, includes a review of the Miami-Dade County Peace & Prosperity Plan funded initiatives between June 2021 and September 2023, with the exception of the Fit2Lead Internship Program, which is included through April 2024. The report also highlights several supplemental anti-violence initiatives, including but not limited to, Operation Community Shield, Miami-Dade County Community Violence Intervention Initiative, and the Hospital-based Violence Intervention Program.

OFFICE OF NEIGHBORHOOD SAFETY

The Miami-Dade County Office of Neighborhood Safety's (ONS) mission is to advance community-driven solutions to build safe and prosperous neighborhoods. Established in August 2021, ONS manages several of the County's anti-gun violence initiatives, including the Peace & Prosperity Plan and the Miami-Dade County Community Violence Intervention Initiative. ONS brings together residents, community stakeholders and County representatives to solve public safety and quality of life issues by engaging directly with historically disenfranchised communities to ensure they help to guide decision-making and deliver innovative solutions.

ONS aims to address gun violence, revitalize public spaces, improve community infrastructure, and minimize the need for residents to interact with the justice system. ONS' work spans across five impact areas: Prevention, Intervention, Reentry, Economic Investment and Community Revitalization.

EXECUTIVE SUMMARY

The Peace & Prosperity Plan (Plan), implemented by Miami-Dade County to tackle the underlying causes of gun violence through strategic prevention and intervention, has demonstrated significant progress in just a few years. The 19-year investment of arena naming rights revenue underscores the County's commitment to building a safer Miami-Dade through community-centered solutions. With this dedicated investment, Miami-Dade County is working to empower communities, build trust, and support residents and businesses in creating safer neighborhoods.

Through the Plan, Miami-Dade County is directly investing in a comprehensive suite of violence prevention programs. The focus on youth involvement is particularly significant, with programs like Fit2Lead, the Youth Athletic and Mentoring Initiative, Turn Around Police Academy, and the Youth Outreach Unit making a tangible connection with youth. Initiatives such as the Safe in the 305 Grant program further amplify the County's commitment to community-driven solutions ranging from neighborhood beautification efforts to mental wellness initiatives to violence prevention programming, all of which contribute to creating safer neighborhoods. Additional efforts, including establishing the Cyber Crimes Bureau Analyst positions, showcase the Plan's adaptability and commitment to addressing the multifaceted nature of gun violence. The Peace & Prosperity Plan has laid the foundation for sustained, collective efforts and will continue to create a safer and more resilient Miami-Dade County.

INTRODUCTION

Addressing firearm violence involves implementing evidence-based strategies aimed at prevention, promoting safety, and fostering community wellbeing. In 2021 – through Resolution No. R-238-21 championed by Commissioner Keon Hardemon and passed by the Board of County Commissioners (Board) – Miami-Dade County (County) government committed to investing nearly \$90 million of revenue generated from the naming rights of the County-owned arena (and home to the Miami Heat) over 19 years to combat gun violence and provide opportunities for economic prosperity. This landmark investment further solidified the County’s focus on the wellbeing and safety of all residents by tackling gun violence through evidence-based and community-centered solutions that empower, build trust, and support residents and businesses. In April 2023, via Resolution No. R-243-23, the County entered into a new arena naming rights agreement with Kaseya US LLC, renaming the arena to the Kaseya Center, and continuing its commitment to address the root causes of gun violence.

After deductions for arena-related contractual obligations, annual net revenues from the naming rights are deposited in the Anti-Gun Violence and Prosperity Initiatives Trust Fund (Trust) of which 70% is allocated to the Administration for the Peace & Prosperity Plan (Plan) for initiatives, programs and activities to combat violence, including addressing youth at-risk for gun violence and providing opportunities for economic prosperity throughout the county. The remaining 30% is allocated in equal distributions to the 13 members of the Board for discretionary use to support anti-gun violence initiatives.

The Miami-Dade County Office of Neighborhood Safety (ONS), established in 2021, manages several of the County’s anti-gun violence initiatives, including the Plan. Developed annually by the Administration, the Plan requires annual approval by the Board. The Plan strengthens the County’s response to address the root causes of gun violence by enriching youth development opportunities, engaging and empowering communities to lead initiatives in their neighborhoods, and fostering relationships with law enforcement.

In developing the inaugural Plan, an exhaustive, detailed review of existing resources and national models focused on addressing gun violence was conducted – identifying specific successful interventions presently operational in the county and innovative new opportunities worthy of investment. The Plan takes a strategic prevention, intervention, and reentry approach that looks at the whole person, family, and community, with a focus on the neighborhoods most affected, and addresses the social and economic disparities at the root of gun violence. Between June 2021 and September 2023, the County invested **\$7,426,170** in Trust dollars into prevention, intervention, reentry, and neighborhood revitalization initiatives via the Plan. This investment has resulted in:

- **1,521** unique youth earned more than **\$4.4 million** while engaging in paid internships, receiving professional mentorship, and participating in prosocial activities via the Fit2Lead Internship program.
- Amplifying the voice of residents and community stakeholders by funding **88 Safe in the 305 micro-grant program community-led projects** focused on prevention, intervention, reentry, and neighborhood revitalization.
- **83%** of enrolled justice-involved youth successfully completed the **Turn Around Police Academy**.
- The growth of the Miami-Dade Police Department (MDPD) Cyber Crimes Bureau by adding four analysts assigned to the **Strategic Innovation and High Technology Crimes Section**, tasked with monitoring social media for indicators of gun violence and other criminal activity to prevent and intervene in criminal activity.
- **900 additional slots** for the Summer Youth Internship Program.

The County continues to take bold actions to ensure that our county is a safe place to live, play, and visit through the implementation of various anti-gun violence initiatives, including the Community Violence Intervention Initiative (CVI) administered by ONS in partnership with the Office of Management and Budget, the Anti-Violence Initiative/Group Violence Initiative (AVI/GVI) administered by the Juvenile Services Department (JSD) in partnership with MDPD, the Reentry Plan administered by Miami-Dade Corrections and Rehabilitation, and the 2023 Anti-Violence State Appropriation funding and various enforcement efforts led by MDPD. When coupled with the Peace & Prosperity Plan, these initiatives help create a safer Miami-Dade County where all residents can thrive. Highlights include but are not limited to:

- In partnership with the Carrie Meek Foundation, the County's CVI Initiative is **supporting 84 organizations** to lead innovative programming in communities impacted by gun violence with a focus on prevention services, reentry, high-risk intervention work, and mental and emotional wellness.
- The **removal of 3,288¹ firearms** from our streets via Operation Community Shield, of which, **2,840** were removed in Unincorporated Municipal Service Areas by MDPD.
- Through AVI/GVI, the Street Outreach Team **responded to 798 shooting incidents** since the program's inception in 2019.
- AVI/GVI **Hospital-based Violence Intervention Program** (HVIP) Master level and Licensed Social Workers provided **1,892 services to 476 individuals** through comprehensive case management, including assessment, intervention, and ongoing support tailored to their individual needs.
- ONS has removed barriers to higher education by awarding **\$135,000 in scholarships to 90 college-bound and/or enrolled youth** residing in low-income households representing **35 colleges/universities** across the United States.
- In the first five months of inception, the MDPD **Crisis Response Unit**, consisting of highly trained police officers, psychiatric nurse paramedics, and licensed clinicians, responded to **495 crisis calls**.
- The inaugural **305 Second Chance Job & Resource Expo** engaged more than **700 attendees** and connected them with **69 employers and reentry/social services providers**.

FIREARM HOMICIDES IN MIAMI-DADE COUNTY

Miami-Dade County, like other communities across the country, has faced the challenging reality of gun-related homicides. The dynamics of these incidents are encapsulated in the provided data for the years 2020, 2021, 2022, and 2023, with 2020 serving as the baseline year. The reported data for homicides by firearm discharge within Miami-Dade County is based on the event date that occurred in Miami-Dade County and reported to the Miami-Dade County Medical Examiner.² The total excludes accidental deaths, Medical Examiner cases where the location in Miami-Dade County cannot be confirmed, undetermined deaths, pending homicide deaths, suicides, and law enforcement-involved deaths.

¹ 448 firearms removed by municipal police departments. Not all municipal police departments participate/and or report.

² Benjamin Mathis, MD, Deputy Chief Medical Examiner. (January 2024). *Gun Shot Wounds-Homicides*, [unpublished raw data]. Miami-Dade County Medical Examiner.

The homicide by firearm count in Miami-Dade County was 225 in 2020, showing a subsequent decrease to 185 in 2021 (17.7% decrease). However, the trend reversed in 2022 with an increase to 204 (10.2% rise), followed by a significant decline in 2023 with 155 homicides (24.0% decrease). From 2020 to 2023, Miami-Dade County experienced a **32% decline in homicides from firearm discharge**, which indicates potential improvements in public safety initiatives (See Table 1).

Table 1: Number of Homicides by Firearm Discharge within Miami-Dade County

Year	Number of Deaths	Annual Trend
2020	225	---
2021	185	17.7% ↓
2022	204	10.2% ↑
2023	154	24.5% ↓
<i>Data Source: Miami-Dade County Medical Examiner Department</i>		

In 2023, Miami-Dade County Commission Districts 1, 2, 3, and 9 accounted for 77% of homicides by firearm discharge within Miami-Dade County based on the incident address (Table 2). The dissonance highlights the importance of localized strategies addressing underlying social determinants of health and violence. Moreover, zip codes 33147 and 33142 ranked highest in firearm-related homicides for 2023, underscoring the necessity for tailored community-level interventions to mitigate these disparities.

Table 2: Number of Homicides by Firearm Discharge within Miami-Dade County by Commission District, 2022 compared to 2023

PROGRAM REVIEW

The Peace & Prosperity Plan (Plan) takes a multifaceted approach that encompasses engaging youth in prevention efforts as a crucial aspect of building safer communities. According to the Florida Department of Health, in 2022, 0.6% of Miami-Dade County youth surveyed reported taking a handgun to school in the past 12 months compared to 0.4% statewide.³

Moreover, in 2022, 4% of youth surveyed in the County reported carrying a handgun in the past 12 months compared to 6% statewide.⁴ Youth programs, such as Fit2Lead, play a pivotal role in addressing the root causes of gun violence by empowering young people through paid internship, social services, community connections, and experiential opportunities.

Fit2Lead Afterschool and Summer Internship Program

Miami-Dade Parks, Recreation and Open Spaces (PROS) administers the Fit2Lead Internship program, the flagship program of the Plan. Fit2Lead is designed to engage and empower system-involved and youth at-risk for system involvement, ages 15 to 19, through paid internships earning \$13.88 per hour, prosocial activities, workplace mentorship, and experiential learning. For the purposes of the Plan, a youth-at-risk is defined as a young person who may face challenges in achieving success as an adult due to various individual traits, environmental characteristics, or social conditions such as juvenile delinquency, truancy, behavioral difficulties, residing in a socially disorganized area, or being a survivor of gun violence, either directly or indirectly. The Plan's programming also promotes protective factors and resilience that reduce the likelihood of adverse outcomes and behaviors in youth, such as fostering positive social skills, providing healthy and safe leisure activities with peers, and promoting healthy activities for youth engagement.⁵

Fit2Lead provides two distinct sessions: an afterschool session spanning up to 35 weeks and an annual seven-week summer session. To further engage youth during critical hours after school and during the summer, the maximum number of hours an intern can work increased from 10 to 15 hours per week for the afterschool program and up to 25 hours per week during summer.

A Quick Glance at the FY2023-24 Afterschool Session

In FY2023-24, the Fit2Lead afterschool session employed **373 interns**, with 42% of youth in the 11th grade and 27% in the 10th grade. The 373 interns worked **137,161 hours**, earning **\$1,903,795**. There are **22 employers** currently hosting Fit2Lead interns, including the following eight County departments: PROS, Community Action and Human Services Department, Miami-Dade Public Library System, Cultural Affairs, Juvenile Services Department (JSD), Public Housing and Community Development, Miami-Dade Police Department (MDPD), and Animal Services. Within PROS, there are 101 internship sites across four divisions: Aquatics, Recreation, Zoo Miami, and Operations. Community partners host interns at 24 locations throughout the County, including the Boys & Girls Club, Overtown Optimist Club, Sant La, and Touching Miami with Love, to name a few.

³ Florida Department of Health. (2022). Florida Youth Substance Abuse Survey. Retrieved November 30, 2023, from FLHealthCHARTS: <https://www.flhealthcharts.gov/ChartsDashboards/rdPage.aspx?rdReport=SurveyData.FYSAS.Dataviewer&cid=0052>

⁴ Florida Department of Health. (2022). Florida Youth Substance Abuse Survey. Retrieved November 30, 2023, from FLHealthCHARTS: <https://www.flhealthcharts.gov/ChartsDashboards/rdPage.aspx?rdReport=SurveyData.FYSAS.Dataviewer&cid=0051>

⁵ A study group comprised of nearly 40 experts convened by the U. S. Department of Justice Office of Juvenile Justice and Delinquency Prevention (OJJDP) identified four domains for risk and protective factors.

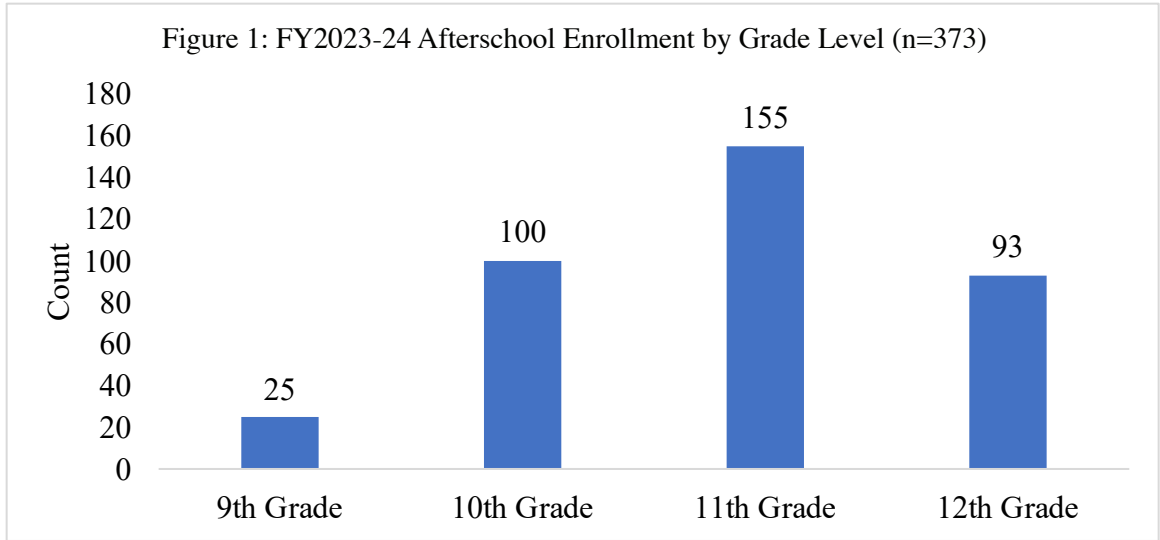

Figure 1 Note: FY2023-24 Afterschool Session reported as of April 7, 2024. The numbers are preliminary and may change upon session closure as enrollment is ongoing

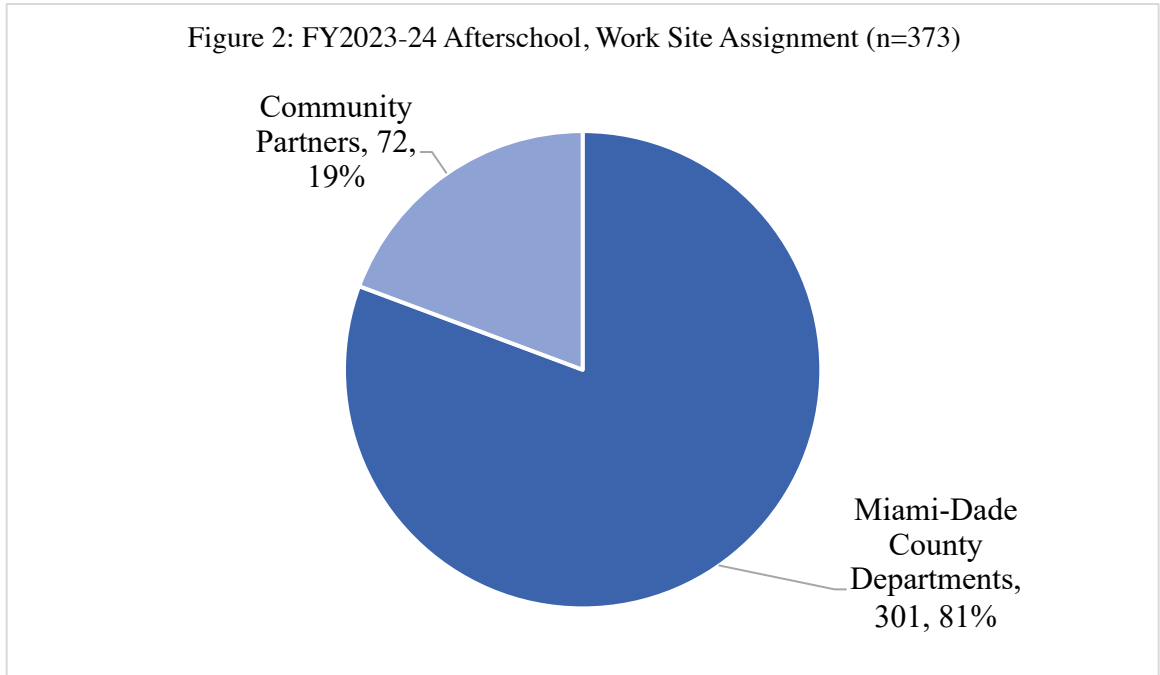

Figure 2 Note: FY2023-24 Afterschool Session reported as of April 7, 2024. The numbers are preliminary and may change upon session closure.

When comparing the FY2022-23 Afterschool session to FY2023-24, the average hours worked weekly per intern rose from **9.93 to 13.34**, with a **12% increase** in the number of interns participating in the FY2023-24 Afterschool session. In the FY2022-23 Afterschool session, the total hours worked were 252.83 compared to FY2023-24 session, where the yielding average is 281.25 total hours per intern. This finding indicates that the increase in total hours worked cannot solely be attributed to the higher number of interns but rather suggests the commitment or productivity of each intern. Furthermore, while lacking empirical evidence, it could imply the intervention support and services provided to youth by staff may assist with overcoming challenges to program participation.

In the Summer 2023 session, interns accumulated an average of 21.9 hours, optimizing the available working weeks. During the Summer 2023 session, an anonymous survey administered by PROS was conducted among youth participants to assess their satisfaction with the internship. **The findings revealed that 88.7% of survey participants enjoyed their internship experience, 91.9% considered the internship site a favorable workplace, and 79.0% found the assigned work aligned with their future career goals.** Below are a few direct quotes from survey respondents.

“The internship gave me a sense of responsibility.”

“This internship positively impacted me by teaching me about taking responsibility for the things I want to do in life.”

“I’ve made great new friends, we also created strong bonds with each other. I also learned new skills I never thought I would learn, while gaining more knowledge from my peers that worked there. Really loved working there and would love to work there again.”

“The internship allowed for me to practice my social skills and help out my community in a positive environment.”

“The internship made me feel more confident with social interactions.”

“It taught me responsibility.”

“I’ve learned to be more organized and how important it is to finish tasks.”

Fit2Lead Enrollment Data: June 2021 to September 2023

Between Summer 2021 and Summer 2023, **1,521 unique youth** participated in Fit2Lead of which **44% participated in two or more sessions** of the program. Of the 1,521 interns, **231** identified as involved or having been system-involved. From Summer 2021 to the end of Summer 2023, **\$5,083,834** in Anti-Gun Violence and Prosperity Initiatives Trust funds have been invested in Fit2Lead, along with other supplemental funding. During the same period, **\$4,408,108** in wages have been paid to Fit2Lead interns for **317,587** hours of work completed.

Miami-Dade Commission District Fit2Lead Intern Enrollment

Table 3 provides the number of Fit2Lead interns enrolled between Summer 2021 and Summer 2023 and the enrollment for the current afterschool session by Miami-Dade County Commission District.

1. FY2023-24 Afterschool Session reported as of April 7, 2024. The numbers are preliminary and will change upon session closure. The Plan provides funding for 200 internship slots (PROS funds the remaining slots).

Fit2Lead Demographics

Table 4 presents demographic data for the Fit2Lead program categorized by age, sex, race, and ethnicity. The average age of youth upon enrollment in Fit2Lead is 16. Between Summer 2021 to Summer 2023, Fit2Lead served more female participants overall, with 925 females (60.8%) compared to 596 males (39.1%). When examining racial demographics, Black participants constitute the largest group across all sessions, with 1,205 (79.9%) in Summer 2021 through Summer 2023. Hispanic participants are lower than non-Hispanics, comprising 9.9% from Summer 2021 through Summer 2023. Of the 1,521 Fit2Lead interns, **441 reside in a Community Development Block Grant area**, of which 91% reside in unincorporated Miami-Dade.

Table 4: Fit2Lead Demographics				
	Summer 2021 - Summer 2023		Afterschool 2023-2024 ¹	
Sex				
Male	596	39.1%	133	35.7%

System-Involved Youth

From Summer 2021 to Summer 2023, **231** Fit2Lead interns were identified as system-involved. Fit2Lead interns identified as system-involved are defined as youth or young adults with prior or present involvement in the juvenile justice system, dependency system, or participating in a JSD prevention program. Of the 231 youth served, 222 were referred by JSD. Youth served through JSD's prevention and diversion programs, including Fit2Lead participants, are presented with the Adverse Childhood Experience (ACE) screening instrument as part of the intake process. The ACE screening tool is a widely recognized and validated instrument that identifies childhood traumas and their potential impacts on a youth's wellbeing. In addition to the ACE, youth are also administered other evidence-based assessment tools, such as the Global Assessment of Individual Needs-Quick (GAIN-Q) and Youth Level of Services (YLS). This multifaceted approach ensures that the youth's individualized needs are identified and addressed. Through individualized case management plans, youth are linked to community-based organizations for services. JSD case managers provide ongoing monitoring and support to youth and their families to ensure the completion of case management goals. Table 6 highlights the number of Fit2Lead interns identified as system-involved by Miami-Dade County Commission District for the above-mentioned period.

Table 6: Number of system-involved Fit2Lead Interns by Miami-Dade County Commission District, Summer 2021 – Summer 2023

Safe in the 305 Grant Program

The Safe in the 305 Grant program, administered by the Office of Neighborhood Safety (ONS), encourages resident leaders and organizations to promote peace and prosperity across communities by funding community-driven actions that make neighborhoods safer. Projects have been diverse in crime prevention methodology – encompassing neighborhood beautification efforts, mental health and wellness, bridging literacy gaps, youth engagement, second chance services, and more. Awards range from \$500 to \$1,500.

ONS has launched five rounds of Safe in the 305 Grant program, of which three have been completed (FY2023-24 fiscal year programming is underway). In the first three rounds, ONS received **280** applications and funded **88** projects throughout Miami-Dade County, investing a total of **\$102,600** in community-focused initiatives.

Round	Application Period	Project Implementation
Round 1	June 6 - July 6, 2022	August 5 - October 31, 2022
Round 2	April 26 - May 26, 2023	July 17 - November 26, 2023
Round 2.1	July 17 - August 2, 2023	September 11, 2023 - January 19, 2024
Round 3	January 29 - March 1, 2024	April 29 - August 30, 2024
Round 3.1	May 1 - May 15, 2024	July 1 - October 31, 2024

**Table 7: Safe in the 305 Project Funding Totals by Commission District
Rounds 1, 2 and 2.1 (2022-2023)**

Miami-Dade County Commission District	Total Number of Funded Projects	Total Funding
1	10	\$11,950.00
2	16	\$18,673.00
3	21	\$23,060.00
4	0	\$0.00
5	3	\$2,245.00
6	5	\$4,550.00
7	4	\$5,500.00
8	9	\$10,446.50
9	15	\$20,775.00
10	1	\$1,000.00
11	1	\$700.00
12	2	\$2,200.00
13	1	\$1,500.00
	88	\$102,599.50

The 88 funded projects focused on five key areas: prevention, intervention, reentry, community revitalization, and economic investment. Figure 3 depicts the number of funded projects in each focus area. There is consistent interest in community revitalization projects, with 21 projects indicating sustained efforts in this impact area. Prevention projects consistently indicate an increasing emphasis on proactive measures to address community challenges. Projects addressing multiple impact areas slightly increased, suggesting an awareness, and implementing of holistic solutions to community issues. The number of projects focused on reentry remained relatively stable across rounds, highlighting ongoing efforts to support individuals reintegrating into the community. Overall, these trends provide insights into the evolving priorities and strategies of the Safe in the 305 Grant program, showcasing a mix of sustained focus areas and adaptability to emerging community needs.

Figure 3: Safe in the 305 Impact Areas, Rounds 1 - 2.1

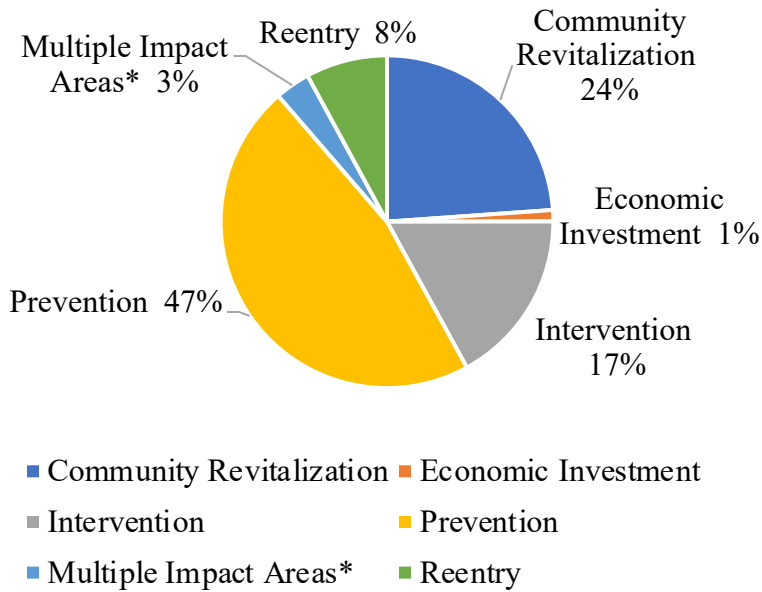

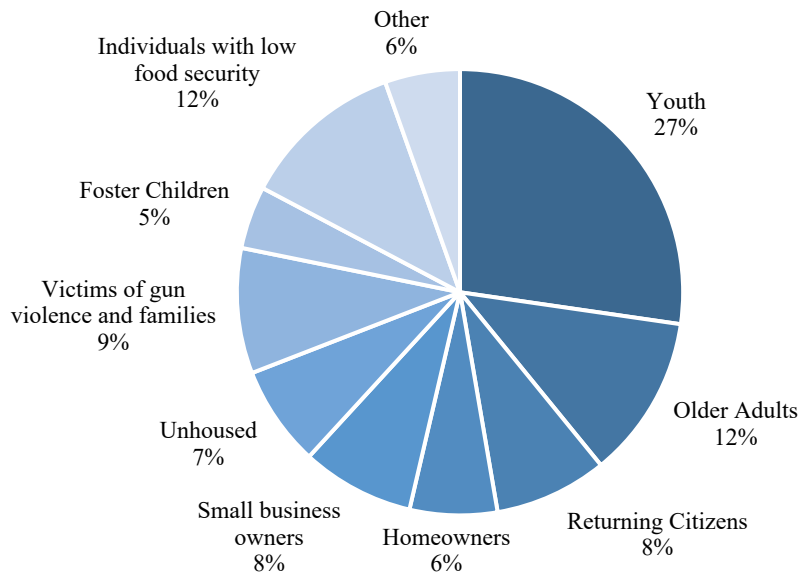

Figure 3 Note: Multiple Impact Areas are projects that overlap multiple impact areas

Figure 4: Populations served by Safe in the 305 projects, Rounds 1 - 2.1

Safe in the 305 Project Highlights

THE SCHOOL PANTRY COALITION- \$1,500 (DISTRICT 12)

Diana H, a 17-year-old high school student at Coral Reef Senior High School, is the youngest Safe in the 305 grant recipient and project organizer establishing six school pantries throughout Miami-Dade County. Diana's initiative empowered students and communities at participating schools by providing improved access to essential academic resources and alleviating financial burdens on students and their families. The participating Miami-Dade County public schools engaged an average of 5 to 15 volunteers per pantry, providing toiletries, school supplies, and other items to an estimated 5,000 students.

#NO LIMITS YOUTH EMPOWERMENT CONFERENCE- \$1,500 (DISTRICT 1)

The #No Limits Youth Empowerment Conference showcased post-secondary education and non-degree career pathways to students through community-led panels retelling firsthand experiences about overcoming adversity and motivational speeches such as "Shape your Mind to Shape Your Future" by Eva Bryant. Students were given unique opportunities to receive mentorship, explore non-traditional careers, and expand their professional network while discussing the importance of mental health and wellness. With the help of partner institutions such as Miami Dade College, Florida Memorial University, and Miami Lakes Technical College, the project reached its goal of serving 93 students representing eight youth organizations throughout Miami-Dade County.

THE START LAB: A COMMUNITY TECHNOLOGY RESOURCE INITIATIVE- \$1,500 (DISTRICT 7)

The Start Lab project aimed to close the digital divide in the West Coconut Grove community by providing youth participants with academic assistance in subject areas such as Reading/Language Arts and Mathematics by state certified teachers. The project helped 35 youth improve their grades as demonstrated through an increase in their Grade Point Average. The gratitude in the community was overwhelming, with parents thanking the program for helping "children [...] achieve their full potential."

Safe in the 305 Project Highlights

THE RE-ENTRY RESOURCES PROJECT- \$1,500 (DISTRICT 3)

The Empowerment Zone Re-entry Initiative (EZRI) assisted returning citizens in overcoming post-incarceration obstacles and providing essential items to unhoused persons in Overtown. The project is credited for facilitating the issuance of six driver's licenses, one birth certificate, and over 140 hygiene kits and snack bags. During their community outreach, EZRI bridged the gap in reentry resources by providing case management assistance for justice-involved individuals and registering unhoused persons with the Homeless Trust.

HEALTH IS WEALTH- FOOD & HEALTH- \$1,500 (DISTRICT 2)

It Takes a Village Academy sought to address food insecurity within their community and provide essential hygiene and health products, such as toothbrushes, body wash, and other toiletries. In their endeavor, It Takes a Village Academy reached over 100 families per drive, covering an expansive six-county zip code area with the help of youth volunteers. One mother, who received items, expressed: "You just don't know how much this is helping me and my kids."

In January 2024, ONS conducted a survey of Round 1 to 2.1 grantees to gather feedback about their experiences throughout the grant life cycle and assess the outcomes of their projects. Key findings from survey respondents indicated:

- **46.51%** felt the Safe in the 305 Grant program influenced their involvement in the community, and **88.37%** reported continuing to have an active role in the community in the last 12 months.
- Grantees self-reported their projects increased awareness and education (**58.1%**), positively impacted youth (**53.5%**), and strengthened community bonds (**51.2%**).
- **93%** of grantees were satisfied with the support provided by the Office of Neighborhood Safety throughout the project's life cycle.
- **93%** of grantees would apply for another round of Safe in the 305 grant funding.

Quotes from Safe in the 305 Grantees

“The flexibility of the grant program was extremely beneficial for our project. The ability to allocate funds to different aspects of our project as needed allowed us to adapt to unexpected challenges and make the most of the funding. Additionally, the application process was straightforward, and the grant administrators were helpful and responsive throughout the entire process. Overall, the grant program provided the support and resources necessary for our project to succeed.”

“The grant allowed my organization to work with several communities that really appreciated the service provided. We were able to connect several providers to community resources for children in their program.”

Miami-Dade Police Department (MDPD) Programming

Turn Around Police Academy

Established in 2021, the Turn Around Police (TAP) Academy is an intensive 11-week program held twice a year in different areas of the County. The program aims to reduce juvenile crime rates among 13- to 17-year-old participants, identified by JSD and the Department of Juvenile Justice, for felony and misdemeanor offenses, such as thefts, batteries, burglaries, carrying concealed firearms, or robberies. Additionally, TAP extends its reach to include youth at an elevated risk of violence already receiving assessment and case management services from JSD and mentoring services from MDPD. The curriculum fosters positive interaction, encourages responsibility, and steers young individuals from further involvement in the judicial system. Through a collaborative approach, TAP employs diverse prevention techniques to deter at-risk behaviors, adopting a holistic approach involving family, school, and law enforcement mentoring services.

- **101** youth served via six TAP cohorts. Of these, **84** (83%) completed the program.
- Of the **84** graduates, 13 (15%) juveniles were re-arrested within a year of completing the program. There were no rearrests from the latest class to graduate in November 2023.
- Through JSD's administration of evidence-based tools, assessment results indicate that **41%** of JSD referred participants have **substance abuse issues**, **46%** have **family issues**, and **54%** have **mental health issues**. As a result, JSD staff developed a treatment plan with each participant and participants have been linked to community-based organizations that addressed their service needs.
- **82%** of TAP participants referred by JSD have received assessments and completed their JSD treatment plans.

Youth Outreach Unit

The Youth Outreach Unit (YOU) is a community initiative strategically deploying police officers to targeted areas within Miami-Dade County, channeling resources to engage and connect with youth ages 11-17 facing an elevated risk of violence, particularly during afterschool hours. The primary objective of YOU is to establish relationships with at-risk youth and their families, aiming to mitigate group violence through communal engagement and participation. The selected juveniles are recruited by MDPD officers or referred to the program by their school, family, friends, and/or the Group Violence Intervention (GVI) program. GVI seeks to reduce group violence with a nexus to homicides and gun violence by identifying individuals at high risk of committing violence and focusing on preventing retaliatory behaviors. After a shooting incident, the GVI Street Outreach Team responds to the victim's home. During this time, if the victim has a sibling or relative living within the same residence, the YOU officers initiate the recruitment and enrollment. YOU participants and members of their household are referred to Citrus Health for mental wellness and support services.

- There have been **101** total YOU participants and **50** youth with shared enrollment between YOU and Youth Athletic and Mentoring Initiative since the program's inception.
- To date, the youth interacting with YOU officers have not committed a crime and display a nearly **90%** attendance every week, demonstrating their buy-in and desire to interact with the YOU officers.

Youth Athletic Mentoring Initiative

The Youth Athletic Mentoring Initiative is a no-cost summer camp initiative designed to engage youth at risk of exposure to gun violence and those from lower-income households.

- In Summer 2022, **47 youth** were enrolled, and in Summer 2023, **41 participants** were enrolled, including three returning enrollees.

Cyber Intelligence Analysts

The MDPD Cyber Crimes Bureau (CCB), established in April 2021, primarily focuses on incorporating an analytical component in cyber operations. The Plan provided \$341,676 to hire four analysts tasked with monitoring social media for gun violence and other criminal activity indicators.

- The CCB remains actively engaged in several ongoing gun-related cases, identifying subjects, with a spider web-like network of connections continuing to grow as more suspects are identified.

Project Green Light Miami-Dade

Project Green Light Miami-Dade (PGL) is a public/private partnership designed to deter, identify, and solve crime through the installation of high-definition cameras at participating businesses which are connected, and video streamed directly into MDPD's Real-Time Crime Center (RTCC). While Peace & Prosperity Plan funding is dedicated to support small businesses in communities with high crime, MDPD has developed protocols to allow medium and large retailers to participate in the program at your own expense and at no cost to the County. MDPD continues its procurement processes as it on-boards new businesses to supply and install the required equipment, including but not limit to, high-definition cameras, video storage, and the flashing green light and signage that signifies that the business is an official partner of Project Green Light Miami-Dade. MDPD has also expanded its PGL to Miami-Dade County departments, such as Transportation and Public Work, PROS, and Seaport by feeding camera footage into the RCCC. This expansion increased support for citizens and offer safety in densely populated areas. For example, the Northside and Overtown Metrorail Stations were equipped with green lights and signage through the expanded PGL.

Summer Youth Internship Program

The Summer Youth Internship Program (SYIP) is a partnership between the Children's Trust, Miami-Dade County, Miami-Dade County Public Schools, the South Florida Workforce Investment Board d/b/a CareerSource South Florida, and the Foundation for New Education Initiatives, which sponsors student internships annually at a variety of organizations and businesses over the course of the summer. Trust funds allocated via the Plan supported an additional 500 SYIP slots in Summer 2021 and 350 additional slots in 2022. Summer 2022 SYIP highlights include:

3,484 students applied

2116 (77%) qualified for free/reduced lunch and **808 (29%)** were youth with exceptionalities

341 youth were dual enrolled and received Miami-Dade College or Florida International University credit

2,738 were enrolled and completed **418,843** hours

695 employers

65 schools participated

Summer 2022 student demographic information includes: **43%** of the participants were sixteen, **55%** were in the 11th grade, **33%** were Black, and **60%** identified as female. Additionally, **44** youth interns were homeless, **120** were English Language Learners, and **20** were in foster care.

Since the collaboration's inception, Miami-Dade County has invested \$1,000,000 to SYIP annually. Although not supported with additional Trust fund dollars in Summer 2023, the program did receive \$1,000,000 from the Ken Griffin Charitable Foundation. Summer 2023 highlights include:

- **4,657** youth applied;
- **3,060** were enrolled and completed **418,843** hours;
- **2,218 (73%)** qualified for free/reduced lunch and **937 (31%)** were youth with exceptionalities;
- **473** youth were dual enrolled and received Miami-Dade College credit, the highest number since the inception of SYIP; and
- **79** schools participated, including **14** Charter Schools (the first-year charter schools were included in the program).

SUPPLEMENTAL ANTI-GUN VIOLENCE INITIATIVES

Office of Neighborhood Safety Scholars Program

The Office of Neighborhood Safety (ONS) partnered with Family and Community Services, a division within the Community Action and Human Services Department, to launch the ONS Scholars program and has provided **90 \$1,500 scholarships** to youth in communities disproportionately affected by gun violence and residing in households that meet Community Services Block Grant federal poverty guidelines. In 2022, 40 educational scholarships were awarded, and 50 were awarded in 2023 to youth enrolling in/or currently attending postsecondary institutions. The 90 scholarship recipients represented 35 colleges/universities.

Table 8: Highlights institutions of higher learning attended by the 90 scholarship recipients:

Alabama State University (3)	Florida Gulf Coast University (1)	Southern University and A & M College (1)
Albany State University (1)	Florida International University (3)	St. Thomas University (1)
Barry University (1)	Florida Memorial University (2)	Tennessee State University (1)
Bethune Cookman University (5)	Florida State University (7)	University of Central Florida (3)
Broward College (2)	Georgia State University (1)	University of Florida (1)
Davidson College (1)	Grambling State University (1)	University of Miami (2)
Delaware State University (1)	Howard University (2)	University of Mount Union (1)
Eastern University (1)	Jacksonville University (1)	University of North Florida (2)
Edward Waters University (1)	Miami Dade College (29)	University of South Florida (1)
Embry-Riddle Aeronautical University (1)	Morgan State University (1)	University of Southern California (1)
Florida A&M University (5)	Palm Beach Atlantic University (1)	Yeshiva University (Stern College for Women) (1)
Florida Atlantic University (3)	Santa Fe College (1)	

Operation Community Shield

Operation Community Shield, led by the Miami-Dade Police Department (MDPD) is a joint gun violence reduction initiative in partnership with local, state, and federal law enforcement and prosecutorial agencies. Launched in June 2021, the initiative has yielded the following results across Unincorporated Miami-Dade County through September 2023:

- Removal of **2,840 firearms** from the streets
- Generated **1,886 investigative leads** based on firearms evidence, **recovered \$3,221,540.65** in currency, 1,076 stolen vehicles, and significant quantities of illegal substances, such as cocaine, heroin, marijuana, and methamphetamine.
- Between January 1, 2023, and September 2023, overall **shootings were down by 13%**.
- When comparing 2023 to the same period in 2021, overall shootings were down 24% overall, with a decrease of 1% in the Northside District, 14% in the Intracoastal District, and 48% in the South District.

Anti-Violence Intervention/Group Violence Intervention

Implemented in 2019 with oversight by the Juvenile Services Department (JSD), the Miami-Dade Anti-Violence Initiative (AVI)/Group Violence Intervention (GVI) Program focuses on reducing violence through four key components: Prevention, Intervention, Suppression, and Reentry. The GVI approach aims to minimize community harm, enhance law enforcement-community relationships, and decrease homicide and gun violence. AVI/GVI outcomes include:

- The Street Outreach Team **responded to 798 shooting incidents** since the program's inception.
- Walking One Stop brings together elected officials, faith leaders, service providers, and law enforcement to address gun violence and has **connected over 1,562 households to resources** since March 2019.
- With support from MDPD, the Street Outreach Team, AVI Project Manager, Faith-based Coordinator, and others have **conducted 121 custom notifications to potential gang members** or individuals instigating violence.
- **5,557 inmates** have participated in Positive Peer Leadership mentoring.

Hospital-based Violence Intervention Program

Introduced in December 2021 as an integral element of AVI/GVI, in partnership with Jackson Health System and Ummah Futures International LLC, the Hospital-based Violence Intervention Program (HVIP) emerged as a crucial lifeline for those affected by group violence. The HVIP model meets victims of gun violence and their families in the hospital to provide support and to intervene and disrupt potential retaliatory acts of violence.

Expanded in December 2022, the program now includes a Registered Nurse providing compassionate, personalized care in the homes of gun violence victims. The nurse collaborates with a multi-disciplinary team of professionals at Jackson Health System Ryder Trauma, focused on discharge planning, wound care, education, and facilitating follow-up medical appointments. HVIP outcomes include:

- **101 in-home visits** by the nurse to 30 victims of gun violence
- **1,892 services provided to 476 individuals**, including **94 relocation assistance** to clients threatened with victimization or re-victimization, **24 Fit2Lead placements**, **144 psychosocial assessments**, **393 mental health linkages**, **128 mental health assessments**, and **assistance with 1,546 applications for various support services**, addressing the multifaceted challenges faced by those affected by gun violence.

305 Second Chance Job & Resource Expo

ONS, in partnership with the Florida Rights Restoration Coalition and CareerSource South Florida, hosted the inaugural 305 Second Chance Job & Resource Expo, which attracted more than **700 attendees with 69 employers, rights restoration organizations, social services and education providers, government entities, and reentry community partners participating**. The 305 Second Chance Job & Resource Expo provided returning citizens with job opportunities and the resources and support needed to reintegrate into the community. Attendees met with second chance employers representing various sectors, including government, hospitality, social services, food service, and labor. Resources include assistance with fines and fees, voter registration, sealing & expungement review, housing, utility and basic needs assistance, health and wellness resources, and much more. The Miami Dolphins Foundation and Starbucks were sponsors of the event. Further amplifying services and opportunities for returning citizens, the Miami Dolphins sponsored lunch for all attendees by funding food trucks owned and operated by second chance citizens. A second expo was held in April 2024, which served 988 attendees.

MIAMI-DADE COUNTY

305 Second Chance Job & Resource Expo

This free event connects formerly incarcerated individuals to employment opportunities, support services and resources, including:

- Job opportunities with government and private sector employers
- Educational and vocational training information
- Florida Rights Restoration Coalition (Voter rights and Fines & Fees)
- Sealing and Expungement
- Identification and documentation recovery
- Housing and basic needs assistance
- Health and wellness resources
- Veterans Services
- Family assistance and youth programs
- And much more!

BRING COPIES OF YOUR RESUMÉ

Friday, June 10, 2022

9:30 a.m. to 2:30 p.m.
Miami-Dade County Main Library
101 West Flagler Street, Miami, FL 33130

- Take Metrorail or Metromover to the Government Center station.
- Metrobuses also stops north of the Main Library in front of the Stephen P. Clark Center.
- Discounted parking is available for \$5 (with ticket validation) at the Miami-Dade Cultural Center Garage at 50 NW 2nd Avenue. (Must enter after 9:30a.m.)

NO REGISTRATION REQUIRED

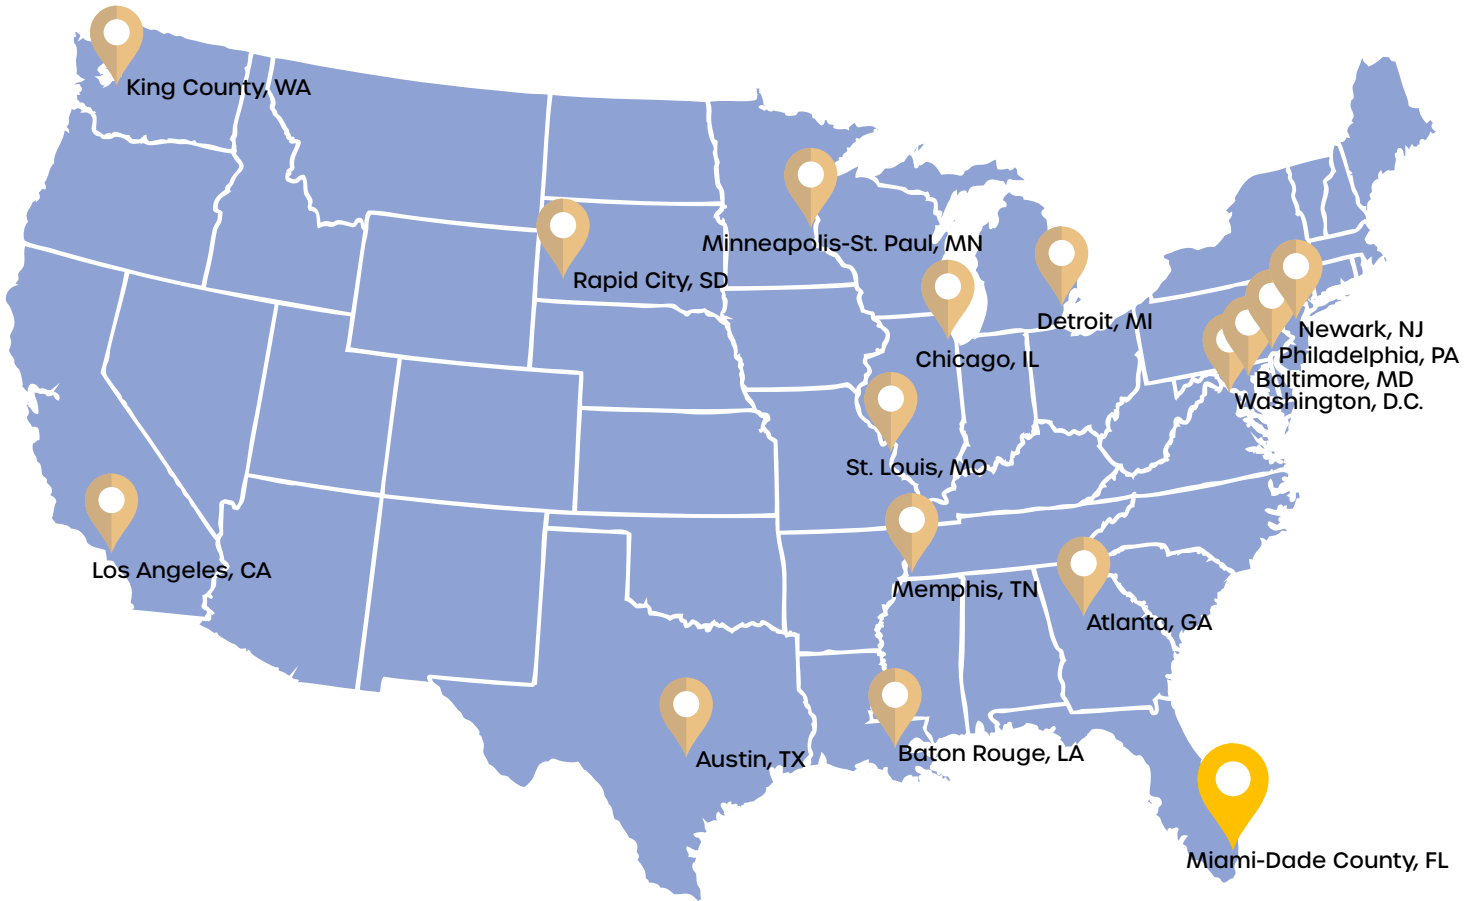

Logos for CareerSource South Florida, Florida Rights Restoration Coalition, OIC, and ONS are displayed at the bottom.

Crisis Response Unit

The MDPD's Crisis Response Unit (CRU), established in May 2023, consists of highly trained officers offering specialized assistance during mental health crises, psychiatric nurse paramedics, and licensed clinicians who respond to mental health calls and support affected individuals and families. The CRU aims to safely de-escalate, assess, and divert crisis individuals to behavioral health services. In the first five months, CRU officers responded to **495 crisis calls**, resulting in a **48% involuntary hospitalization** rate under the Florida Mental Health Act. This contrasts with patrol officers' 83% involuntary hospitalization rate, highlighting the CRU's effectiveness and co-response model. The CRU provided **165 referrals to Behavioral Health Services** during the same period.

White House Community Violence Intervention Collaborative

MDC was one of the 16 jurisdictions that participated in the White House Community Violence Intervention Collaborative, an 18-month anti-gun violence capacity building and technical assistance effort. ONS led this initiative at no additional cost to the County, with four organizations leading and supporting the County’s GVI strategy. This experience provided the hands-on experience and subject-matter expertise needed to develop, implement, and launch the Miami-Dade County Community Violence Intervention Initiative.

Miami-Dade County Violence Intervention Initiative

Miami-Dade County Community Violence Intervention (CVI) is a countywide and community-led strategy that further strengthens the County’s existing anti-gun violence efforts. The CVI Plan invests **\$8,943,000** in community centric services of which **\$8,135,560** is being administered by the Carrie Meek Foundation through September 2025 with oversight by the Office of Neighborhood Safety and Office Management and Budget. CVI is **funding 84 organizations** to lead innovative programming in communities impacted by gun violence with a focus on prevention services, reentry, high-risk intervention work, and mental and emotional wellness. Additionally, **two organizations** are providing capacity building and technical assistance to several grassroots groups funded via CVI.

FY2023-24 PEACE & PROSPERITY PLAN

Commenced on October 1, 2023, and concluding on September 30, 2024, the FY2023-24 Plan continues to champion anti-gun violence initiatives, emphasizing the engagement and employment of youth alongside community-level investments. This strategic plan aims to continue addressing and mitigating the impact of gun violence through targeted funding and programming, including developing the Miami-Dade County Reentry Resource Guide. The total approved FY2023-24 Plan investments is \$3,254,282. For further details on the FY 2023-24 Plan initiatives, you are encouraged to visit the [Peace & Prosperity Plan - Fiscal Year 2023-2024](#).
