

Memorandum

Date: June 3, 2026

Agenda Item No. 2(B)(4)
July 21, 2026

To: Honorable Chairman Anthony Rodriguez
and Members, Board of County Commissioners

From: Daniella Levine Cava *Daniella Levine Cava*
Mayor

Subject: Report on All County Job Classifications for which it is Feasible to Substitute Active-Duty Military Experience for Traditional College Degree Requirements - Directive No. 251885

This report is in response to Resolution No. R-1089-25 (Resolution), sponsored by Commissioner Roberto J. Gonzalez and adopted by the Board of County Commissioners (Board) on November 4, 2025. The Resolution directs the County Mayor or Mayor's designee to (1) identify all County job classifications within the classified service for which it is feasible to allow veterans seeking such positions to substitute their active-duty military experience for traditional college degree requirements; and (2) take any actions, including establishing or amending County job descriptions, rules and procedures, that are deemed necessary and prudent to allow veterans seeking such positions to substitute active-duty military experience for college degree requirements; and requiring a report detailing all job positions identified and actions taken pursuant to sections 1 and 2 above.

Executive Summary

The People and Internal Operations Department (PIOD), Human Resources Division (HR), identified 485 job classifications within the classified service system for which it is feasible to allow veterans to substitute their active-duty military experience for traditional college degree requirements, as detailed in Attachment 1. In addition, PIOD identified 683 classified service job classifications that do not require a college degree, as outlined in Attachment 2.

Under the current Administration's direction, PIOD has taken various actions to expand hiring opportunities by reviewing job classifications in which relevant work experience, including active-duty military experience, may substitute for the college degree requirement. These efforts align with the commitment of the County to attract and retain a highly skilled workforce by valuing practical experience and transferable skills.

Background

The County has employed various strategies to modernize our recruitment practices and expand hiring opportunities and applicant pools to fulfill essential roles needed to deliver quality services to County residents. The County continues to apply its longstanding veterans' preference policy which gives preference to eligible veterans in the filling of certain vacant classified service positions.

In 2022, HR conducted a comprehensive review of over 100 entry and mid-level professional classifications requiring a college degree. As a result, these classifications requirements were updated to allow relevant work experience, including active-duty military experience, to substitute for the college degree requirement, enabling more candidates to qualify for vacant positions.

In July 2023, a further study identified an additional 97 professional, managerial and executive job classifications for which work experience substitution could be feasible. Since then, PIOD has continued to review the feasibility of removing the four-year college degree requirement for job classifications. Approximately, 200 additional job classifications, comprised of entry to mid-level

professional and managerial positions, have been approved for work experience substitution in lieu of a college degree requirement.

Additionally, PIOD implemented a review process for proposed minimum qualification requirements for new positions. This process evaluates whether substituting work experience for a college degree requirement is feasible. Furthermore, PIOD's HR Recruitment Unit reviews all relevant applicant work experience, including applicable military experience, when determining eligibility.

Findings

The County has a total of 2,403 job classifications, both in classified service and exempt status, of which 1,443 (60%) have work related experience substitution for a college requirement and/or do not have a college degree requirement. Of the 1,443 job classifications, 1,168 are in the classified service system. In total, PIOD identified 485 job classifications that permit military experience to substitute for a college degree and separately identified 683 additional classifications that do not have a degree requirement. The positions listed exclude department directors, physicians, and any roles exempt from the classified service system under state law or local ordinance. Also excluded are positions filled by officers elected by popular vote or by individuals appointed to fill vacancies in those offices; members of boards and commissions; temporary employees without benefits; positions requiring membership in the Florida Bar; and any other roles for which substituting military service for a college degree would be inconsistent with federal or state law or local ordinance, as determined by the Director of PIOD.

Veterans interested in these classified service positions may apply by using their documented active-duty military experience to satisfy the college degree requirements. For the 485 eligible job classifications, veterans must demonstrate that military work performed and corresponding assigned duties and responsibilities, as well as operational experience, meets or exceeds the competencies typically associated with a traditional four-year college degree.

Next Steps

Pursuant to the Resolution, PIOD is providing the required information on all County job classifications in which relevant work experience, including active-duty military experience, may substitute for college education requirements. PIOD will continue to systematically review classifications to determine the feasibility of accepting relevant work experience in lieu of a college degree.

This report will be placed on the next available Board Agenda without committee review pursuant to rule 5.06(j) of the Board's Rules of Procedure. Should you require further information please contact Eneldo Hernandez, Chief, HR Compensation and Job Analysis, PIOD, at 305 375-2765 or Eneldo.hernandez@miamidade.gov.
