Amounts are rounded to the nearest dollar amount.

On September 6, 2023, the Board passed Ordinance No. 23-68 which implemented a Countywide mobility fee to replace the road impact fee. The ordinance went into effect on December 31, 2023 with building permit applications received from that day forward being assessed the mobility fee. Given that the report reflects collections rather than outstanding or billed amounts, fees are collected as applicants submit payment. It will take time for all building permits that were assessed road impact fees prior to December 31, 2023 to be paid by applicants and therefore collected by the County. Alternatively, applications may expire, and the road impact fees never collected.

With respect to the five impact fee and the mobility fee programs in the table above, the amounts reflect

gross collections, which do not include refunds. As the Board is aware, boundaries within each program do not align with Commission District boundaries. Therefore, funds must be spent within the same impact fee or mobility fee program district in which it was collected. On a quarterly basis, educational facilities impact fee revenues are transmitted to the Miami-Dade County School Board while police impact fees are transmitted to the Sheriff.

Pursuant to Ordinance No. 14-65, this report will be placed on the next available Board meeting agenda. If you have any questions or concerns, please feel free to contact Lourdes M. Gomez, Director, Department of Regulatory and Economic Resources at 786-229-1008 or at Lourdes.Gomez@miamidade.gov.
