To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

From: George M. Burgess
County Manager

Subject: Ordinance pertaining to Chapter 26 of the Code entitled "Park and Recreation
Department Rules and Regulations"; criminal background checks

The ordinance pertaining to the criminal background checks will have an initial estimated fiscal impact of \$243,500 to the Miami-Dade County Park and Recreation Department (MDPR). The estimate includes the cost of one staff position in the MDPR Department (\$60,000 in salary and fringes) to implement and monitor compliance with the ordinance and the cost of conducting the background checks. The adoption of this ordinance will have an estimated fiscal impact of \$243,500 every third fiscal year and approximately \$153,100 annually (\$90,400 additional every third year for the re-checking of backgrounds on required full-time MDPR employees). The requirements in the ordinance may deter citizens from providing volunteer services. However, that impact cannot be determined at this time. Furthermore, Parks Programming Partners and other groups providing volunteer related services in Miami-Dade County Parks will be financially impacted due to the requirements of the ordinance.

Subject: Supplemental Information Relating to Ordinance on Park and Recreation Department Rules and Regulations

This supplemental information is provided in response to discussion at the December 10, 2007 Recreation and Cultural Affairs Committee. This report addresses those questions raised regarding: what type of system works to meet the requirements of the ordinance; cost of checking/verifying immigration status and; the overall cost factors.

Current Policy

On June 21, 2005, the Miami-Dade Board of County Commissioners adopted legislation that requires all programming staff, fair and carnival employees or agents, coaches, umpires, and volunteers who will have direct contact with children to show proof of official statewide background checks for substance abuse, family violence and crimes of moral turpitude. The current County Code also requires that the above individuals provide proof of United States citizenship or legal immigration status and wear a picture identification at all times while on County property. The Board later adopted amendments to include national background checks and to include all fair and carnival employees or agents who will have direct contact with children under the age of 18.

Other Jurisdictions

National and statewide background check policies pertaining to employees, volunteers and vendors on parks property have been adopted in Broward, Palm Beach and Alachua Counties. These policies range from the requirement for sexual predator database screening up to and including the securing of a national, state and local background checks for staff, and volunteers. The National Recreation and Park Association (NRPA), reports that over sixty (60) state, county and municipal park and recreation departments and agencies are participating in a volunteer background screening process as a result of adopted or pending legislation.

Proposed Legislation

The proposed legislation would require a nationwide criminal background and sexual predator database check to be completed prior to employment or volunteering for Miami-Dade Park and Recreation Department (MDPR) employees, volunteers and the employees and volunteers of programming partners, community based organizations, vendors (with some exceptions), and child event workers employed by lessees. Additionally, the proposed legislation prohibits felons convicted of a violent crime or of conspiracy to commit a violent crime and the trafficking of narcotics within the past five (5) years, sexual offenders or sexual predators from being employed by or volunteering with MDPR, and their programming partners, community based organizations, vendors.

Under the proposed ordinance, MDPR would be required to secure a nationwide fingerprint criminal background check for park employees and volunteers upon adoption and every three years thereafter. Currently, the department conducts the national fingerprint background check only during the hiring and pre-volunteering process. Programming partners, community based organizations and non-exempted vendors would be required to secure a national background check upon adoption and every three (3) years thereafter. Employers of child event workers and volunteers would be required to secure a national background check upon adoption and every year thereafter.

The proposed ordinance requires that the employers of child event workers maintain background check results for a period of two (2) years from the date that they were secured and for employers of non-exempt park vendors, programming partners and community based organizations to maintain such copies for three (3) years from the date that they were secured. The above are required to maintain these affidavits until the person is no longer a child event worker, park vendor, staff member or volunteer.

Records maintenance and coordination of the national fingerprint background check for MDPH employees and volunteers is to be the purview of the department, however the securing, records maintenance and coordination of required background checks and affidavits for the employees and volunteers of program partners, community based organizations, and non-exempt vendors will be the responsibility of the hiring organization. Statements regarding adherence to all Miami-Dade County Ordinances in their respective agreements will obligate these organizations to comply with the provisions in the proposed amendment.

The County Attorney's Office has reviewed the proposed amendment and has determined that the County will not assume any additional legal liabilities with the adoption of this ordinance. However, it is important for me to advise you that although MDPH is not responsible for performing the checks for these organizations and verify and manage the data, the perception may be different and the County may be viewed as the responsible party which may lead to more judgements.

Information Reported at Committee

Fiscal Impact to the County

Upon adoption of this ordinance, the total initial estimated fiscal impact to MDPH is \$243,500. Included in this total is the salary and fringe of an additional full-time staff person within MDPH who would coordinate and manage the processing of background checks for Park's employees and volunteers. The implementation of this ordinance must take into account the timeframe necessary for MDPH to hire a background check coordinator and to conduct the FDLE-statewide/FBI-national checks on required current employees and volunteers. The timeliness of the actual processing of the FDLE-statewide/FBI-national checks will be contingent upon the staffing levels and processes within the Human Resource Department. It is recommended that a review of the MDPH records maintenance and background check coordination process required if this ordinance be conducted within one year of adoption to ensure adequate staffing and funding levels.

A fiscal and operational impact resulted with the adoption of the current County Code in June, 2005, when the number of court ordered community service workers fulfilling their obligation on parks decreased by approximately 70%. This decrease is attributed to the requirement for individuals to pay the fee for the background check screening. Court ordered community service workers typically fill operational gaps at metropolitan and regional parks by cleaning restrooms, removing litter and augmenting maintenance crews. In order to make up for this operational shortfall, MDPH re-invigorated initiatives requiring volunteer participation. One example of these initiatives is the "Adopt-a-Park" program. However, the anticipated MDPH cost to secure background checks for "Adopt-a-Park" program participants will have a \$58,500 fiscal impact, the cost of 1500 screenings.

Impact to Programming Partners

All of the twenty-five (25) MDPH programming partners and community based organizations are currently conducting national background checks for their staff and volunteers either directly with a vendor or through a vendor of their affiliated national organization. The current fiscal impact to MDPH program partners and community based organizations is estimated at \$35,000 (based on the average price of \$26 for a background check and ID card for 1,300 coaches and regular volunteers). The operational and fiscal impact due to the broad scope of this ordinance will require these entities to

conduct additional background checks for chaperones, boosters and other non-coaching volunteers, further research into the number of staff and volunteers is required, however preliminary figures estimate this ratio as high as one volunteer for every five participants.

The requirement for these entities to conduct the FDLE-statewide/FBI-national checks will increase costs incurred by programming partners, lessees and community based organizations and may deter volunteerism and ultimately increase the costs to program participants.

Overall System Requirements for Background Checks

The type of system needed and required is one that is compliant with the Fair Credit Reporting Act (FCRA). The FCRA is an American federal law that regulates the collection, dissemination, and use of consumer credit information. It forms the base of consumer credit rights in the United States. While some background screening companies do not create credit reports, they may gather the same type of information and as a result may subject some of their actions to the FCRA.

The systems to be used for full compliance with this ordinance must provide definitive information on a person's criminal background and also immigration status. After researching several background screening services the system which best meets the ordinance requirements is a combination of both the Florida Department of Law Enforcement and the web-based E-verify. The E-verify program, formally known as the Basic Pilot or Employment Eligibility Verification System, is jointly administered by the Department of Homeland Security (DHS) through the United States Citizenship and Immigration Services and the Social Security Administration (SSA). E-Verify is described in detail below under the response; there is no cost for this service. The FDLE check, detailed below, costs \$47 for a state and national check.

Research yielded other vendors for background screening, including one which provides both a nationwide criminal checking and immigration verification, United Screening Services Corporation (USSC). See the attached table for comparison purposes. The USSC is a company which conducts a criminal background check and also provides a service to verify immigrant status, at a cost of \$15 and \$5 respectively. USSC is accredited by the National Association of Professional Background Screeners which provides up to date laws and procedures for background screening companies to follow. This vendor currently conducts background checks for the Miami-Dade County Youth Fair and Santa's Enchanted Forest which both employ hundreds of event workers, vendors and volunteers. The USSC criminal background check complies with the requirements of the ordinance.

A system comparison might suggest that USSC may conduct the same services as using both FDLE and the free immigration service of E-Verify. However, a review of the mechanisms used for criminal background determination indicated that the FDLE and USSC base their checks on completely different methods. USSC verifies backgrounds based on information provided by the individual. FDLE verifies the background using fingerprints. Fingerprints are unique to an individual, and therefore, are accepted as the single factor in determining a person's identity and verifying criminal history. Misinformation may be provided by the very persons that this ordinance is intended to identify through altering a digit in a social security number, date of birth, or name information. For a detailed comparison of services and costs, a Comparison Chart of background screening services is attached.

Verification of Applicant's Immigration Status

To comply with Federal Requirements, all employees, citizens and non-citizens hired after November 6, 1986 and working in the United States must complete form I-9 Employment Eligibility Verification of the Department of Homeland Security (referred to as the I-9 form). The purpose of the I-9 form is to document that each new employee (both citizen and non-citizen) hired after November 6, 1986 is authorized to work in the United States. The I-9 form is filled out by both the employee and the employer. The I-9 form is filled out using a number of selected credentials supplied by the employee.

The I-9 form must be kept on file for three years while an active employee, or one year after the employee is inactive with this employer. The I-9 form is subject to inspection by the Federal Government. There is no cost for the I-9 form itself and it is not mandatory that the information provided be verified.

To have USSC verify the information on the I-9 form is an additional charge of \$5.00 paid to USSC. The information provided on the I-9 form is done on-line and sent to USSC with the rest of the individual's information required for the background check. This confirmation is instant and provided through a web site set up by USSC through the Department of Homeland Security and the Social Security Administration who instantly verifies the individual's social security number and any legal documentation provided.

The benefits of having USSC verify the I-9 form is that it would be compared to the background information they receive of the individual being checked; the verification is instant; it would allow the I-9 form to be electronically stored and able to retrieve active and inactive I-9 forms, providing anytime, anywhere secure paperless access for updating, re-verification and government inspection as dictated by law; receive automated alerts 90, 60, and 30 days in advance of the expiration of employees' work authorization documents, enabling employees to apply for renewal of their work authorizations, greatly increasing the probability that they can legally continue to work without interruption.

The I-9 form can also be verified at no cost through the website E-verify. The E-verify program, formally known as the Basic Pilot or Employment Eligibility Verification System, is jointly administered by the Department of Homeland Security (DHS) through the United States Citizenship and Immigration Services and the Social Security Administration (SSA). This program allows participating employers to verify whether newly hired employees are authorized to work in the United States by checking the information provided by the employees on their I-9 form against both DHS and SSA databases. The results of the verifications are instant. The Department of Homeland Security United States Citizenship and Immigration Services only requires that paid employees complete the I-9 form. To have volunteers complete the I-9 form to verify United States citizen status would be at the discretion of the employer.

MDPR conducts criminal background screening of their employees by using FDLE. FDLE conducts statewide background checks by receiving a potential employee's personal information along with their fingerprints. The cost of this service is \$23.00. For additional national background screening, FDLE sends the fingerprints and personal information to the Federal Bureau of Investigation (FBI) for a cost of \$24.00. The total cost, both by FDLE/statewide screening (\$23.00) and the FBI/national (\$24.00) is \$47.00, per employee. With regard to volunteers, FDLE charges \$36.00 to conduct background checks. This is a combined cost for statewide and national checks. Background checks are completed within 72 hours. To document immigration status, another requirement of the ordinance MDPR requires that employees complete an I-9 form; volunteers are required to provide proof of citizenship (such as a driver's license, passport, or other document which verifies the ability to work in the United States). The information provided on the form is not verified, as described above. It is recommended that this be expanded to include the verification available through E-Verify at no additional cost.

The Miami-Dade County Youth Fair (MDCYF), which employs approximately 700 people with an additional 300 volunteers, complies with the SMA by utilizing the USSC to conduct statewide and national background screening at a cost of \$15.00 per applicant. The 3,000 other vendors and their employees that work at the fair must pay for their own background checks using USSC and must fill out an affidavit stating that they comply with the SMA

ordinance. The vendors and their employees pay \$5.00 to MDCYF for the identification badges. Employees must complete an I-9 form, and this information is not verified.
