To: Honorable Chairman Dennis C. Moss
and Members, Board of County Commissioners

From: George M. Burgess
County Manager 

Subject: Report Regarding Ordinance Creating the Miami-Dade County Performance and Efficiency Commission

This report provides information regarding the Ordinance Creating the Miami-Dade County Performance and Efficiency Commission. According to Section 2-11.37(b) of the Miami-Dade County Code, the following information is required to be provided to the Board of County Commissioners (BCC) when the BCC proposes a new board.

1. Will the establishment of the board create sufficient betterment to the community to justify the BCC's delegation of a portion of its authority?

The proposed Commission is advisory in nature and therefore does not require a delegation of authority from the BCC.

2. Is there another board or agency, either public or private, which is already in existence that could serve the same purpose?

No. There is no other County board or agency that could serve the same purpose as that of the proposed Commission.

3. The costs, both direct and indirect, of establishing and maintaining the board.

The ordinance creating the Miami-Dade County Performance and Efficiency Commission will have a fiscal impact on the County. However, actual costs of supporting the proposed Commission, inclusive of staff time and other operating expenses cannot be determined at this time. Costs are contingent on a number of factors, including the frequency and location of meetings, printing and distribution costs among others which will be better defined once the Commission is established and operating parameters are defined. Support services will be provided by existing staff from the County Executive Office and the Clerk of the Board which will result in increased workloads for these entities.

4. Is it necessary for the board to enable the County to obtain State or Federal grants or other financing?

No. As proposed, the Commission is not being created to enable the County to seek State or Federal grants or other financing.

5. Should the board have bonding authority?

Based on the duties of the proposed Commission, the Commission does not need to have bonding authority.

6. Explain whether the board should have final authority to enter into contracts and spend County funds, or whether its contracts and expenditures must be ratified by the BCC.

As proposed, the Commission would not have authority to enter into contracts or to spend County funds.

7. Is the creation of a new board the best method of achieving the benefit desired?

While the duties assigned to the proposed Commission are already undertaken as part of the County's resource allocation process, strategic planning activities and performance assessment and improvement efforts, the creation of the Performance and Efficiency Commission can contribute to the development of recommendations regarding efficiency, effectiveness, and best practices for the County.
