Date: June 30, 2015
To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners
From: Carlos A. Gimenez
Mayor 
Subject: Resolution Approving an Interlocal Agreement between the City of Hialeah and Miami-Dade County for Water Quality Sampling and Analysis, and Authorizing its Execution

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution approving and authorizing the Mayor or Mayor's designee to execute an Interlocal Agreement whereby the City of Hialeah will pay the County approximately \$109,001 over five (5) years for surface water quality sampling, analysis, and data reporting conducted in and near the City of Hialeah. This Agreement replaces a previous five (5) year agreement for similar services.

Scope

This Agreement involves water sampling at sites within Commission District 12, which is represented by Commissioner Jose "Pepe" Diaz, and District 13, which is represented by Commissioner Esteban Bovo, Jr.

Fiscal Impact/Funding Source

Under this Agreement, the City of Hialeah will pay Miami-Dade County a total of \$109,001 over five (5) years for water quality sample collection, analysis, and data reporting. The City of Hialeah will pay all costs incurred by the County under this Agreement and no matching funds are required by the County. This Agreement has no fiscal impact on current and future annual County budgets.

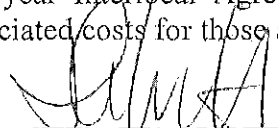

Track Record / Monitor

The Restoration and Enhancement Section Chief, Stephen Blair, within the Department of Regulatory and Economic Resources' Division of Environmental Resources Management (RER-DEEM) will monitor the activities performed with these funds.

Background

The federal Clean Water Act requires that all municipal, industrial, and commercial facilities that discharge wastewater or stormwater into waters of the United States (such as a lake, river, or ocean) must obtain a National Pollutant Discharge Elimination System (NPDES) permit. These federal permits ensure that the receiving waters meet applicable water quality standards

The City of Hialeah's NPDES permit requires that surface water quality samples be collected and analyzed from six (6) canal locations in and adjacent to the City of Hialeah. As the County has extensive experience in surface water quality collection and analysis, the City of Hialeah has requested the County perform these services for the City of Hialeah. The County has provided these services for the City of Hialeah for more than 10 years under prior similar agreements. The proposed five-year Interlocal Agreement establishes the locations and parameters to be sampled and the associated costs for those activities.

ATTACHMENT A

INTERLOCAL AGREEMENT **Between The City of Hialeah and Miami-Dade County for Surface Water** **Quality Sampling and Analysis**

This Interlocal Agreement by and between the City of Hialeah, Florida (hereinafter referred to as the "City") and Miami-Dade County (hereinafter referred to as "the County") is entered into to provide the City with services and information necessary to comply with the requirements set forth in the City's NPDES Permit (No. FL000023) Monitoring Plan.

- I. The City agrees to compensate the County for costs associated with conducting water quality sampling and analysis at six (6) stations in and adjacent to the City of Hialeah, as required in the monitoring plan mandated under the City's NPDES Permit.

Water quality samples will be collected quarterly on the same day (e.g., no more than 24 hours between collection of the first and last sample) by staff from the Miami-Dade County Department of Environmental Resources Management (DERM). One sampling event shall occur within each of the following periods: January 1st to March 31st, April 1st to June 30th, July 1st to September 30th and October 1st to December 31st of each calendar year. To the extent practicable, the date of sampling within each period should be consistent (+/- two weeks) from year to year.

- II. Period of Agreement. The Agreement will commence upon final execution by both parties and end September 30, 2019, unless modified as provided for herein.

- III. The following water quality parameters and methods will be used. The method used must have resolution minimally equivalent to the Method Detection Limits (MDLs) listed below:

Parameter	Method	MDL/units
Temperature	SM 2550B	(C°)
pH	SM 4500 H+B	(units)
Specific Conductivity	SM 2510A	(µS/cm)

INTERLOCAL AGREEMENT

Between The City of Hialeah and Miami-Dade County for Surface Water Quality Sampling and Analysis

The City will be notified in writing 30 days in advance of any project-related changes related to parameter MDLs. All analyses will be performed by the DERM laboratory or by other laboratories contracted with the County that hold NELAC certification for that analysis/method.

- IV. For all sample collection, handling, documentation and verification, the County shall comply with Florida Department of Environmental Protection (FDEP) Quality Assurance Rule (Florida Administrative Code (FAC) 62-160 and the FDEP Standard Operating Procedures for Field Activities (FDEP SOP 001/01, Dec. 3, 2008). Additionally, the County shall, in accordance with the FDEP SOP 001/01 Section FA3300, maintain a Field Quality Manual. If there are to be any variances from the minimum requirements under FAC 62-160 or the FDEP SOP, the County must provide proof, in writing, of approval for the variance by the FDEP prior to implementation of the variation (email transmission of this approval is adequate). This includes any variations in sampling procedures or quality assurance/quality control (QA/QC) protocols.
- V. The following Surface Water Quality Stations will be sampled on a quarterly basis:
1. **HIA-LR01** – Little River Canal at W. 16th Avenue and north of E. 52nd Street.
 2. **HIA-LR02** – Little River Canal at E. 8th Avenue and south of W. 53rd Street.
 3. **HIA-LR08** – Little River Canal at W. 4th Avenue and W. 53rd Terrace.
 4. **HIA-LR10** – Little River Canal at W. 28th Avenue and W. 53rd Street
 5. **HIA-RR01** – Red Road Canal at W. 4th Avenue and W. 68th Street.
 6. **HIA-RR02** – Red Road Canal at W. 4th Avenue and W. 37th Street.
- VI. The County agrees to conduct all required field collection and laboratory quality assurance measures and all necessary data validation procedures. The County will provide to the City an annual report that will include all data generated and all chain of custody forms. These results will be transmitted to the FDEP as part of the City's stormwater NPDES Permit annual report submittal.
- VII. Cost of Surface Water Sampling and Analysis. The City agrees to pay the County for the following costs incurred in performance of this agreement. The total amounts reflected in the table below for are water quality sampling and analysis.
