Agenda Item No. 8(L)(11)

From: Carlos A. Gimenez
Mayor

Resolution No. R-120-20

Subject: Resolution Authorizing the Execution of an Interlocal Agreement for Stormwater Management between the City of Opa-locka and the Miami-Dade County Stormwater Utility

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution authorizing the execution of an Interlocal Agreement (Agreement) for Stormwater Management between the City of Opa-locka (City) and the Miami-Dade County (County) Stormwater Utility. This Agreement allows the County to be reimbursed for canal maintenance services performed on County canals, and is attached as Exhibit 1 to the resolution.

Scope

The City's municipal boundaries fall within Miami-Dade County's Commission District 1, represented by Commissioner Barbara J. Jordan; District 2, represented by Commissioner Jean Monestime; and District 13, represented by Commissioner Esteban L. Bovo, Jr.

Fiscal Impact/Funding Source

The term of the proposed five-year Agreement will retroactively start October 1, 2019 and expire September 30, 2024. The Agreement allows for the reimbursement of costs incurred by the County for routine canal maintenance tasks, and for a one-time Emergency Repair Event such as a sudden canal bank collapse which poses a danger to the public.

If the Emergency Repair Event is not performed, the cost of routine canal maintenance work to be performed by the County is estimated at \$317,700.00 annually, of which the City shall reimburse the County up to \$252,162.00. The five-year cost of work by the County is estimated at \$1,588,500.00, of which the City shall reimburse the County up to \$1,260,810.00. If the Emergency Repair Event is performed once during the term of the Agreement, the County's total cost of work will increase from \$1,588,500.00 to \$1,668,500.00, and the City's total reimbursement to the County will increase from \$1,260,810.00 to \$1,323,410.00 respectively.

The County's costs will be funded by the County's Stormwater Utility pursuant to Sections 24-51 through 24-51.5 of the Code of Miami-Dade County.

Track Record/Monitor

Marina Blanco-Pape, P.E., Division Chief of Water Management within the Department of Regulatory and Economic Resources (RER), Division of Environmental Resources Management will be responsible for monitoring the proposed Agreement.

Background

On June 18, 1991, the Board adopted Ordinance No. 91-66, creating the Miami-Dade County Stormwater Utility, and establishing a uniform countywide approach to stormwater management.

Stormwater Utility fees collected in the County provide funding for the construction, operation, and maintenance of stormwater conveyance systems. County-owned canals that provide drainage and flood protection service Countywide, including in municipalities, remain the property and responsibility of the County.

On June 3, 1993, the City's Commission adopted Ordinance No. 93-6 establishing stormwater management regulations within their municipal code, and creating their own stormwater utility funding source, prior to Miami-Dade County Ordinance 95-195.

On October 17, 1995, by Ordinance 95-195, the Board amended Section 24-51.2 of the Code of Miami-Dade County, Stormwater Utility Ordinance, thereby granting municipalities the option of obtaining an exemption from the countywide Stormwater Utility, and creating their own local stormwater utility.

On January 21, 2015, the Board adopted Resolution No. R-26-15, approving the renewal of an Interlocal Agreement for Stormwater Management between the City and the County that continued the responsibilities for the operation, maintenance, and cost-sharing of stormwater systems within the City's boundaries. This five-year agreement started October 1, 2014, and expired September 30, 2019.

On July 10, 2019, the City's Commission approved Ordinance No. 19-07, authorizing the City Manager to execute a new five-year Interlocal Agreement for Shared Stormwater Management between the City and the County. Ordinance No. 19-07 is attached to this memorandum as Attachment A.

The Interlocal Agreement for Stormwater Management between the City of Opa-locka and the Miami-Dade County Stormwater Utility has been signed by the Opa-locka City Manager and is recommended for approval by the board.

WHEREAS, the Board of County Commissioners of Miami-Dade County, did, by adoption of Miami-Dade County Ordinances No. 91-66 and Ordinance No. 91-120, as amended by Ordinance Nos. 92-44 and 92-86, create a stormwater utility [hereinafter referred to as the "UTILITY"], and which UTILITY may operate within a municipality or municipalities; and

WHEREAS, it is the intent of the UTILITY and the CITY, through this Agreement, to establish relationships and responsibilities for the maintenance of shared stormwater systems by the CITY and the UTILITY; and

WHEREAS, the UTILITY and the CITY want to share these costs in proportion to the drainage area, the service provided, and the benefits received,

Now, therefore, in consideration of the mutual promises and covenants contained herein and the mutual benefits to be derived from this Agreement, the parties hereto agree as follows:

ARTICLE I PURPOSES

The UTILITY and the CITY enter into this Agreement to further the following purposes:

- (1) to protect and promote the public health, safety, and general welfare through the management of stormwater run-off;
