Date: May 5, 2020

and Members, Board of County Commissioners

Agenda Item No. 8(L)(6)

From: Carlos A. Gimenez
Mayor

Resolution No. R-400-20

Subject: Resolution Approving an Amendment to a Grant Agreement between Miami-Dade County and the Florida Department of Environmental Protection for the South Miami-Dade Card Sound Road Salt Intrusion Barrier Project

Recommendation

It is recommended that the Board of County Commissioners (Board) approve Amendment No. 1 (Amendment) to Grant Agreement No. LP13029 (Agreement) between the Florida Department of Environmental Protection (FDEP) and Miami-Dade County for the South Miami-Dade Card Sound Road Salt Intrusion Barrier Project, and authorize the County Mayor or his designee to execute same, and exercise any termination provisions and additional amendments for extensions of time only. The Amendment is attached as Exhibit A to the resolution.

The proposed Amendment (1) changes the expiration date of the Agreement from June 30, 2020 to June 30, 2021; (2) allows the refund of unobligated funds or excess payments from the County to FDEP; (3) requires Miami-Dade County to certify that it is not on the Scrutinized Companies that Boycott Israel List, or engaged in a boycott of Israel; (4) revises the Grant Work Plan for design and permitting requirements, construction requirements, and project timeline and budget; (5) updates the email address for the FDEP Custodian of Public Records; and (6) provides a website address to obtain a revised Payment Request Summary Form.

Scope

The project will be constructed in the Card Sound Road Canal in Commission District 9, represented by Commissioner Dennis C. Moss.

Fiscal Impact/Funding Source

The Amendment will have no fiscal impact to the County. Under the original Agreement No. LP13029 and the proposed Amendment, FDEP will reimburse the County up to \$600,000.00 toward the costs of designing and constructing the Card Sound Road Salt Intrusion Barrier Project. Initial funding will be from Miami-Dade County Stormwater Utility fees.

Track Record/Monitor

The Chief of Water Management in the Division of Environmental Resources Management, Department of Regulatory and Economic Resources (RER-DERM), Marina Blanco-Pape, P.E., will monitor the Agreement and Amendment.

Background

On June 19, 2018, the Board approved Resolution No. R-635-18, which ratified the execution of Grant Agreement No. LP13029 for a grant of \$600,000.00 to design and construct the South Miami-Dade Card Sound Road Salt Intrusion Barrier Project. Since then, the County has applied for construction permits from various regulatory agencies but encountered delays in receiving those

permits. To prevent losing the grant funds due to delays, on July 29, 2019, the County applied for an extension of time from the FDEP. The proposed Amendment allows a one-year time extension and also revises portions of the original Grant Agreement No. LP13029 as described above. The County has recently received all required permits from the South Florida Water Management District, the Miami-Dade County Water Control Section, and the United States Army Corps of Engineers. Amendment No. 1 is necessary to allow time for project construction.

REVISED GRANT WORK PLAN**

PROJECT TITLE: South Miami-Dade Salt Intrusion Barrier Project

PROJECT LOCATION: The Project is located in the Card Sound Road Canal, which is in southern Miami-Dade County (Grantee), Florida; Township 58 South, Range 39 East, Section 21. Phase 1 of the project will consist of designing and building a sheet pile barrier in the canal.

PROJECT BACKGROUND: This project will have multiple phases. Funds from this agreement will be used in Phase 1, the design and construction of sheet pile barrier in the Card Sound Road Canal. This will improve water management, restore wetlands, and reduce salt water intrusion. The Card Sound Road Canal allows salt water to intrude into and contaminate portions of the Biscayne Aquifer, near wellfields used by Miami-Dade and Monroe Counties. Salt water intrusion also degrades publicly owned wetlands acquired by Miami-Dade County's Environmentally Endangered Lands Program, which are needed for regional restoration, including the Comprehensive Everglades Restoration Plan.

PROJECT DESCRIPTION: The purpose of the South Miami-Dade Salt Intrusion Barrier Project is to protect and enable the continued use of drinking water wellfields located in southern Miami-Dade County, including but not limited to wellfields under the jurisdiction of Miami-Dade County Water and Sewer and others, such as the Florida Keys Aqueduct Authority Wellfield. The benefits of this project are the improvement of water management in the Card Sound Road Canal; the reduction of unintended drainage of publicly-owned wetlands adjacent to Card Sound Road, which will increase wetland quality for fish and wildlife; and the stabilization or reversal of salt water intrusion at the base of the Biscayne Aquifer.

The southernmost sheet pile barrier will constitute Phase 1 of the work. Subsequent phases will include filling an additional length of the canal upstream of the Phase 1 sheet pile barrier.

The Grantee does not anticipate that the funding under this agreement will result in a fully completed project, so this agreement will cover a portion of the work (Phase 1 only).

TASKS:

All documentation should be submitted electronically unless otherwise indicated.

Task 1: Design and Permitting

Deliverables: The Grantee will complete the design of a sheet pile barrier in the Card Sound Road Canal and obtain all necessary permits for construction of the project.

Documentation: The Grantee will submit a signed acceptance of the completed work by the Grantee and a summary of design activities to date, indicating the percentage of design completion of the time period covered in the payment request. For the final documentation, Grantee will also submit a copy of the final design and a list of all required permits identifying issue dates and issuing authorities.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables are completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly

Task 2: Construction

Deliverables: The Grantee will construct a sheet pile barrier in the Card Sound Road Canal in accordance with the construction contract documents.

Documentation: The Grantee will submit a signed acceptance of the completed work to date by the Grantee and the Engineer's Certification of Payment Request.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables are completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

PROJECT TIMELINE & BUDGET DETAIL: The tasks must be completed by, and all documentation received by, the corresponding task end date.

Task No.	Task Title	Budget Category	Budget Amount	Task Start Date	Task End Date
1	Design and Permitting	Salaries	\$60,000	07/01/2017	12/31/2020
2	Construction	Contractual Services	\$540,000	07/01/2017	12/31/2020
Total:			\$600,000		

Note that, per paragraph 8.h. of the agreement, authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the Department if the Legislature reduces or eliminates appropriations. Extending the contract end date carries the risk that funds for this project may become unavailable in the future. This should be a consideration for the Grantee with this and future requests for extension.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Revised Public Records Requirements

Attachment 4-1

1. Public Records.

- a. If the Agreement exceeds \$35,000.00, and if Grantee is acting on behalf of Department in its performance of services under the Agreement, Grantee must allow public access to all documents, papers, letters, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by Grantee in conjunction with the Agreement (Public Records), unless the Public Records are exempt from section 24(a) of Article I of the Florida Constitution or section 119.07(1), F.S.
- b. The Department may unilaterally terminate the Agreement if Grantee refuses to allow public access to Public Records as required by law.
2. **Additional Public Records Duties of Section 119.0701, F.S., If Applicable.**

For the purposes of this paragraph, the term "contract" means the "Agreement." If Grantee is a "contractor" as defined in section 119.0701(1)(a), F.S., the following provisions apply and the contractor shall:

 - a. Keep and maintain Public Records required by Department to perform the service.
 - b. Upon request, provide Department with a copy of requested Public Records or allow the Public Records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.
 - c. A contractor who fails to provide the Public Records to Department within a reasonable time may be subject to penalties under section 119.10, F.S.
 - d. Ensure that Public Records that are exempt or confidential and exempt from Public Records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the Public Records to Department.
 - e. Upon completion of the contract, transfer, at no cost, to Department all Public Records in possession of the contractor or keep and maintain Public Records required by Department to perform the service. If the contractor transfers all Public Records to Department upon completion of the contract, the contractor shall destroy any duplicate Public Records that are exempt or confidential and exempt from Public Records disclosure requirements. If the contractor keeps and maintains Public Records upon completion of the contract, the contractor shall meet all applicable requirements for retaining Public Records. All Public Records stored electronically must be provided to Department, upon request from Department's custodian of Public Records, in a format specified by Department as compatible with the information technology systems of Department. These formatting requirements are satisfied by using the data formats as authorized in the contract or Microsoft Word, Outlook, Adobe, or Excel, and any software formats the contractor is authorized to access.
