Resolution No. R-408-20

Subject: Ratification of an Interlocal Agreement Between the City of Miami and Miami-Dade County for the City to Install and Maintain Certain Wayfinding Signs within Downtown Miami on City and County Rights-of-Way

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution ratifying, pursuant to Section 2-10 of Code of Miami-Dade County (Code), the execution of an Intergovernmental Agreement between Miami-Dade County (County) and the City of Miami (City). The agreement allows the City to install and to maintain certain wayfinding signs for a one year term to be automatically extended upon Board approval of the initial agreement within City and County rights-of-way after plans have been submitted to Miami-Dade County Traffic Engineering Division for review and written approval.

Scope

The Project is located within the City of Miami and is within Commission Districts 3 and 5, represented by Chairwoman Audrey M. Edmonson and Commissioner Eileen Higgins respectively.

Fiscal Impact/Funding Source

There will be no fiscal impact to the County as the installation and maintenance of the signs will be fully funded by the City of Miami and the Florida Department of Transportation (FDOT).

Track Record/Monitor

The project will be assigned to Maurice Hardie, Sr. Construction Manager, City of Miami Capital Improvements and Transportation Program. Furthermore, the City has hired a Construction Engineering Inspector who will be responsible for ensuring the installed product meets the State's standards and all the specifications set forth in the contract. The City shall process the permits through the County Public Works Permits system. Finally, FDOT will conduct periodic inspections on the quality of the materials used for construction.

Background

Due to the increasing number of tourists in Downtown Miami, the Miami Downtown Development Authority (DDA), working in conjunction with the City, developed a wayfinding plan to provide direction and guidance to certain locations within the City. This project is part of a Local Agency Program (LAP) agreement between the City of Miami and the FDOT. Installation of the signage is ongoing and is expected to be completed prior to Super Bowl 2020. The City will be responsible for maintenance and replacement of all signs. The Intergovernmental Agreement will formalize these expectations and is a necessary step for the City to receive permitting approval from DTPW.

Dear Mr. Alfonso:

We have completed our review for the City of Miami Wayfinding Signing System plans and supporting documentation and find them to meet the criteria set forth by the Florida Administrative Code (FAC) 14-51 Part V, Community Wayfinding Guide Signs and the criteria called in the Manual on Uniform Traffic Control Devices (MUTCD).

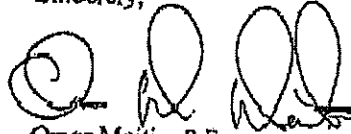

The City is being granted approval to proceed through the FDOT Local Agency Program for installation of the Wayfinding signs on the State Highway System in the City of Miami. The contractor selected to fabricate the signs shall use the lettering style and size approved during the plans review process with no compression of the lettering to accommodate a panel size. Signs are to be placed on both local and state roads. Signing on the State Highway System will include the following roadways: State Road 5 and State Road 90. All Wayfinding signs will be installed and maintained by the City of Miami.

The City of Miami is only permitted to have one Wayfinding Signing System within the city limits. Permits will be required as the city expands the Wayfinding Signing System to include new destinations and installation locations on the state roads in the future.

This letter also serves as a notice that the subject Wayfinding Signing System is solely the responsibility of the City of Miami to install and maintain. Now that the City of Miami has created a Wayfinding Signing System, all inquires for signing to destinations as part of this wayfinding system will be directed to the City.
