**Date:** May 19, 2020

**To:** Honorable Chairwoman Audrey M. Edmonson  
and Members, Board of County Commissioners

**From:** Carlos A. Gimenez  
Mayor 

**Subject:** Resolution Amending Implementing Order No. 4-42 to Provide Clarification on the Collection of Fees for the Review of Specified Types of Work that Will No Longer Require a Separate Class III Permit

---

## **Recommendation**

It is recommended that the Board of County Commissioners (Board) approve the attached resolution amending Implementing Order No. 4-42: Fee Schedule for Regulatory and Economic Resources (Environmental Resources Management Services). This resolution is related to a companion ordinance and provides clarification on the collection of fees for conducting Class III permit reviews for specified types of work in County rights of way, canal easements, and canal reservations.

## **Scope**

The proposed amendment to Implementing Order No. 4-42 clarifies the fees for Class IV permits in the Rockmining Overlay Zoning Area, located in Commission Districts 11 and 12, which are represented by Commissioner Joe A. Martinez and Commissioner Jose "Pepe" Diaz, respectively.

## **Fiscal Impact/Funding Source**

The proposed amendment to Implementing Order No. 4-42 will not create a fiscal impact to the County as the accompanying ordinance does not require any additional fees and is meant only to streamline the permitting process for specified types of work.

## **Track Record/Monitor**

The Assistant Director in the Department of Regulatory and Economic Resources, Division of Environmental Resources Management (DERM), Lee N. Hefty, will be responsible for implementing the changes proposed by this resolution.

## **Background**

An accompanying ordinance recommends amending a section of the Code relating to natural resource permitting for work in certain non-tidal waterbodies and wetlands of the County. Class III permits are required for work within non-tidal lakes, canals and water areas under the direct control of Miami-Dade County, such as canal rights-of-way, canal maintenance easements and canal reservations. The Class III permit is designed to protect the access to and maintain control over County controlled canal systems for wellfield protection, water management and flood protection purposes. Class IV permits are required for work, in, on or upon wetlands anywhere in Miami-Dade County, including in the Rockmining Overlay Zoning Area (ROZA).

The accompanying ordinance would give the DERM Director the discretion to essentially issue one permit that combines the review and requirements of the Class III/Class IV permits for property within the ROZA. As such, for work located within the ROZA where a Class IV permit is issued, the applicant will no longer be required to obtain a separate Class III permit when applicable. However, the fees for a Class III permit review shall be collected from the applicant as outlined in the amendment to Implementing Order No. 4-42. This item will amend Implementing Order No. 4-42 to incorporate the Class III permit review fee as stipulated in the accompanying ordinance.

Amount of Contribution to the Miami-Dade County Stormwater Compensation Trust Fund as an alternative means of providing equivalent stormwater management within the same basin in lieu of implementing the Cut and Fill criteria on properties located within the North Trail Basin, Bird Drive Basin, and Basin B, all located in Miami-Dade County.  
 The owner of a parcel of land located in a special drainage basin, defined as the Bird Drive Basin, North Trail Basin, or Basin B, all located within Miami-Dade County, and which
  1. has continuously contained 4.5 or less acres of gross area since September 30, 1997; and
  2. is subject to the Cut and Fill criteria set forth in Chapter 24 of the Code of Miami-Dade County. Including, but not limited to, Sections 24-48.2, 24-8.3, 24-48.21; may contribute as, provided below, to the Miami-Dade County Stormwater Compensation Trust Fund as an alternative means of providing equivalent stormwater management within the same basin in lieu of implementing the Cut and Fill criteria on the parcel of land itself.

The above-referenced contribution by the property owner shall be computed according to the following formula:

- a. State Certified Property Appraised value as determined within the time period commencing 120 days prior to the date of contribution. \$\_\_\_\_\_
- b. Percent to be paid into the Stormwater Compensation Trust Fund \* \_\_\_\_\_%

Total to be paid: (a) x (b) = \_\_\_\_\_

\*The following are the percentages applicable to each basin:

| Basin:            | % Dry Retention |
|-------------------|-----------------|
| North Trail Basin | 33.25           |
| Bird Drive Basin  | 38.0            |
| Basin B           | 39.0            |

The above percentages may be modified depending upon site-specific land use and topographical conditions applicable to each project, together with an engineering report in support of the percentage modification. Any proposed modifications to the above-referenced percentages shall be substantiated by an engineering report submitted to RER by the applicant. The proposed percentages, when applied in the above formula, shall provide stormwater management equivalency to the stormwater management set forth in the Cut and Fill criteria established for the specific basin.

RER shall determine if the proposed modification meets the stormwater management equivalency aforesaid based upon the engineering report prepared by a registered professional engineer licensed in the State of Florida. The burden shall be upon the applicant to prove that the proposed modification meets the aforesaid stormwater management equivalency standard.

No plat or waiver of plan shall be approved until the amount of contribution computed pursuant to the formula above has been paid to Miami-Dade County, and said fee shall be based upon the current appraised value as determined by a State Certified Property Appraiser within the time period commencing 120 days prior to the date of contribution.

#### **X. Pollution Control Review Fees**

Fees apply to the review of assessment and remedial action plans for contaminated industrial, hazardous and solid waste sites; for construction over former solid waste sites, and other contaminated sites. The costs of reviews of site rehabilitation documents (SAR, RAP, MOP, NFAP, etc.), pursuant to Chapter 62-770, Florida Administrative Code (FAC), for petroleum contaminated sites, may be covered by contract between RER and DEP.

Upon request by the applicant, Contamination Assessment Plan review fees and Contamination Assessment Report review fees shall be waived for properties located in "brownfield areas" designated pursuant to the Florida Brownfields Redevelopment Act and the Code of Miami-Dade County, except when related to construction projects alone.
