Agenda Item No. 8(F)(8)

Subject: Request for Additional Expenditure Authority to Pre-qualification Pool No. RTQ-00578, Various Laboratory Instruments

Resolution No. R-385-20

Recommendation

It is recommended that the Board of County Commissioners (Board) authorize additional expenditure authority to *Prequalification Pool No. RTQ-00578, Various Laboratory Instruments*, for multiple County Departments. The Miami-Dade Police (MDPD) and Medical Examiner (ME) departments are requesting additional expenditure authority in the amount of \$2,100,000 to continue purchasing laboratory equipment, installation, parts, and repair and maintenance services, as needed. The Board established this pool on January 23, 2018 for a five-year term through Resolution No. R-34-18.

The pool has two groups: Group 1 - Purchase of Equipment, and Group 2 - Installation & Repair Services. The pool was established with nine vendors. Since inception, 11 vendors have been added to the pool. Outreach efforts have been made to increase the number of local vendors in this pool, including contacting local vendors under the commodity code for the pool, as well as the Beacon Council and the Greater Miami Chamber of Commerce.

County departments use this pool to purchase various instruments along with associated parts, accessories, installation, and maintenance services. The equipment purchased and maintained under this pool includes among other instruments: volumetric dispensers, solvent evaporators, automated extraction systems, and high purity gas generators and regulators.

Additional expenditure authority is needed for the following departments to ensure continuity of services:

1. ME is requesting \$1,200,000 for its Histopathology Laboratory. During Fiscal Year 2018-2019, the ME took over histology services, which were previously outsourced. As a result, a Histology Laboratory was set-up within the ME's facilities. A large portion of the existing allocation was used to purchase the equipment required for the Histology Laboratory. The initial projected allocation for the pool was based on the needs of the Toxicology Laboratory only, and did not include any Histology Laboratory needs. This additional allocation will allow ME to purchase instrumentation and related equipment for both Toxicology and Histology Laboratories, and to provide for maintenance, repair parts, components and software equipment.
2. MDPD is requesting \$900,000 to cover the projected cost of laboratory equipment and supplies for its Forensic Services Bureau (FSB) operations. Expenditures for large capital purchases are approved at the beginning of each fiscal year. In Fiscal Year 2019-2020, capital purchases in the amount of \$234,000 were approved, which will require new maintenance contracts. In addition, FSB is transitioning to a new Laboratory Information Management System (LIMS) which requires the upgrade of laboratory equipment software. This additional allocation will ensure that laboratory equipment is up-to-date and properly maintained, allowing the Department to keep current with its FSB's accreditation.

Scope

The impact of this item is countywide in nature.

Fiscal Impact/Funding Source

The pool expires on February 28, 2023 and has an existing cumulative allocation of \$3,387,000. If this request is approved, the pool will have a modified cumulative allocation of \$5,487,000.
