Memorandum

Date: May 5, 2020

To: Honorable Chairwoman Audrey M. Edmonson
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor 

Subject: Resolution Recommending that Confidential Project Vent be approved for a Qualified Target Industry Tax Refund

Recommendation

The Beacon Council, on behalf of Confidential Project Vent, has submitted an application for economic development incentives from the State of Florida (State) and Miami-Dade County that require approval from the Board of County Commissioners (Board). It is recommended that the Board authorize Confidential Project Vent to be recognized by the State as a Qualified Target Industry (QTI) business and entitled to the financial benefits afforded under the QTI Tax Refund Program. It is also recommended that the Board make available \$45,000.00 in matching funds from Countywide General Fund revenues.

Scope

Confidential Project Vent is an existing business in Miami-Dade County seeking to expand its operational capacity as an advanced manufacturing company of transportation products. The proposed location is confidential at this time however, the company is looking for a facility in Commission District 12, which is represented by Commissioner Jose "Pepe" Diaz. When this project is fully operational, it will create 45 new full-time equivalent jobs, as defined in section 288.106, Florida Statutes, while retaining 21 existing jobs.

Fiscal Impact/Funding Source

Confidential Project Vent has applied for a total of \$225,000.00 in QTI Tax Refund Program incentives, of which 80 percent (\$180,000.00) would be provided by the State and 20 percent (\$45,000.00), which is the local match, will be provided by Miami-Dade County. The business has also applied for Targeted Jobs Incentive Fund award in the amount of \$325,770.00 as a separate agenda item. If approved, the County will provide a total of \$370,770.00 in economic incentives to this business.

If the accompanying resolution is approved by the Board, Miami-Dade County is committed to providing up to \$45,000.00 in matching funds from Countywide General Fund revenues to be paid over a six-year period beginning in FY 2021-22.

Based on the capital investment of \$20,200,000.00 in new real and tangible personal property taxes, the project will generate \$606,906.00 in Countywide General Fund ad valorem revenues. The combined TJIF and QTI incentives will result in a net positive fiscal impact of \$236,136.00 to the County. However, creating a net positive fiscal impact to the County's Countywide General Fund revenues is not a condition of the award.

Additionally, based on the job creation of 45 new jobs with an average salary of \$68,000.00, this project will generate \$19,208,144.00 in direct and indirect wages over the six-year period the project is eligible for the award.

Honorable Chairwoman Audrey M. Edmonson
and Members, Board of County Commissioners
Page No. 2

The County's 20 percent local match is required when the State determines that the 45 new jobs have been created and have met the average salary threshold required in the State's QTI Tax Refund Program. The disbursement schedule and the anticipated dates for job creation are subject to change at the discretion of the Florida Department of Economic Opportunity.

Track Record/Monitor

QTI funds awarded for job creation are provided on a matching basis upon the State invoicing Miami-Dade County for its 20 percent of the financial commitment for jobs created and verified by the State. The incentive amount is determined by the new jobs created and their annual salary. The State is responsible for verifying compliance with the terms of the award. Miami-Dade County's matching funds are distributed only if the applicant creates the 45 new jobs indicated in the accompanying QTI Tax Refund Program application and complies with all other conditions of the incentive program, including the 20 percent local residency requirement for new hires, pursuant to Resolution No. R-1175-16.

County staff requires access to the company's real estate and tangible personal property filings during the incentive period to monitor the fiscal impact to the Countywide General Fund from the QTI Tax Refund Program.

Background

Confidential Project Vent is proposing to build and renovate a new 45,000 square foot manufacturing facility, to expand its design and research/development operations (North American Industry Classification System Code #334413 and #541715). The company plans to commence construction during FY 2020. Alternative locations include Connecticut, Pennsylvania and New York.

Confidential Project Vent would employ 45 new workers, paying an average annual salary of \$68,000.00 which is at least 115 percent of the average annual wage in Miami-Dade County while maintaining the 21 existing jobs. The incentive includes an award of \$2,000.00 bonus per job for businesses in the High Impact Sector. Employee benefits associated with each newly created job will be \$12,020.00. The value of employee benefits is not a requirement of the tax refund agreement with the State or the County's local match.

Project details are summarized in the attached chart.

WHEREAS, this Board desires to accomplish the purposes outlined in the accompanying memorandum, Economic Impact Overview, and General Project Overview, copies of which are incorporated herein by reference; and

WHEREAS, the Beacon Council has submitted an application for economic development incentives from the State of Florida (“State”) and Miami-Dade County on behalf of Confidential Project Vent to be recognized by the State as a Qualified Target Industry (“QTI”) business and entitled to the financial benefits afforded under the Qualified Target Industry Tax Refund Program (“QTI Program”); and

WHEREAS, this Board approved Resolution No. R-1175-16 requiring 20 percent of the jobs created on a project to be residents of Miami-Dade County as a condition of this Board adopting a resolution recommending that a project be approved as a QTI business; and

WHEREAS, Confidential Project Vent has executed the Qualified Target Industry Local Jobs Commitment agreeing that 20 percent of its new hires are local residents of the County; and

WHEREAS, the tax refunds provided under the QTI Program to Confidential Project Vent may be prorated by the State of Florida pursuant to the terms of the General Project Overview in the event that Confidential Project Vent creates fewer than 45 full-time equivalents jobs; and

WHEREAS, the County wishes to monitor the economic and fiscal impacts of the QTI Program in Miami-Dade County,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA, that:

Section 1. This Board recommends that Confidential Project Vent be approved as a Qualified Target Industry (“QTI”) business pursuant to section 288.106, Florida Statutes, which created the Qualified Target Industry Tax Refund Program (“QTI Program”).

Section 2. This Board finds that the necessary commitment of local financial support for Confidential Project Vent, as required under the section 288.106, Florida Statutes, exists in an amount not to exceed \$45,000.00 from Miami-Dade County’s Countywide general funds and this local financial support will be available in the following increments:

Fiscal Year – 2021-22	\$7,500.00

Fiscal Year – 2026-27	<u>\$7,500.00</u>
	<u>\$45,000.00</u>

or payable over a time period and at annual amounts as determined by the State of Florida in its approval of Confidential Project Vent’s application, as long as the \$45,000.00 is not exceeded with the provision that any tax abatement granted to Confidential Project Vent under section 196.1995, Florida Statutes, reduces any QTI tax refund by the amount of any such abatement granted, in compliance with section 288.106(6)(d), Florida Statutes; and the County’s funds will be paid to the Florida Economic Development Trust Fund with the stipulation that these funds are intended to represent the “local financial support” required by section 288.106, Florida Statutes, for Confidential Project Vent in compliance with the QTI Program.

The necessary commitment of the local financial support shall be contingent upon Confidential Project Vent maintaining the jobs during the life of the incentive, demonstrating that 20 percent of new hires are local residents of the County, ensuring that its hiring practices aspire to be consistent with and reflect the diversity of the Miami-Dade County community, and providing the County with access to tax information and documents necessary to monitor economic and fiscal impacts of the designation of Confidential Project Vent as a QTI business.

The anticipated dates for the job creation and disbursement of the incentive awards are subject to change at the discretion of the Florida Department of Economic Opportunity. However, the County’s 20 percent local match will not exceed \$45,000.00.

RE: Confidential Project: Vent

Dear Mr. Osterholt:

Attached please find the applications for Confidential Project: Vent to Miami-Dade County's Targeted Jobs Incentive Fund (TJIF) and the State of Florida's Qualified Targeted Incentive (QTI). Confidential Project: Vent is an expansion of an advanced manufacturing company of transportation products and green technology into a proposed 45,000 SF Facility.

The project will create 45 direct new jobs with an average annualized salary of \$68,000 over a 3-year period with a capital investment of \$20,200,000 in Miami-Dade County. Alternate location options include Connecticut, Pennsylvania, and New York.

We are referring this application to your office for review and preparation of a resolution to the Miami-Dade Board of County Commissioners requesting a combined maximum award of \$370,770. The QTI award of \$45,000 represents Miami-Dade County's 20% portion to be paid over 6 years and which qualifies at the \$5000/job amount as a High Impact Sector business. The TJIF award of \$325,770 is to be paid over a period of 10 years. Attached is the project briefing book as well as the economic impact analysis prepared by The Beacon Council's Research Department.

We are requesting that the item be placed on the next possible BCC agenda.

Executive Summary for Project Vent

Background

Confidential Project: Vent is an expansion of an advanced manufacturing company into a proposed 45,000 SF Facility. The project will create 45 direct new jobs with an average annualized salary of \$68,000 over a 3-year period with a capital investment of \$20,200,000 in Miami-Dade County. Alternate location options include Connecticut, Pennsylvania, and New York.

The proposed development of a 45,000 square foot facility will be in the NW Dade area District 12 of Miami-Dade County where the company expects to positively impact the community and surrounding communities.

Based on the capital investment of \$20,200,000 in new real property and personal property, Confidential Project: Vent will generate \$606,906 in new Miami-Dade County General Fund Taxes over a ten-year period.

Recommendation

The enclosed combined TJIF & QTI application package requests a maximum of \$370,770 to be paid by the County. The resulting net revenue benefit is 1:1.86

This is a performance-based incentive. No funds will be provided to the Company until they meet all program and job creation requirements. The incentive that is provided is not a cash grant; it is an after-the-fact, performance-based refund.

Explanation

Both the County 20% portion of the QTI and the TJIF use the general fund as the primary source of revenue to pay out the incentives. The calculations for each of the incentives is done independently through an impact model.

- The Miami-Dade 20% portion of the QTI is \$45,000, paid over 6 years.
- The TJIF is \$325,770, paid over 10 years.
- The total revenue generated by Confidential Project Vent for the use of the TJIF is \$606,906.
- When the TJIF incentive amount of \$325,770 is subtracted from the TJIF revenue of \$606,906, the net revenue to the County is \$281,136.
- This net revenue would have a TJIF ROI of 1:1.86

Section 1. Targeted Jobs Incentive Fund (TJIF) Background

- 1.1 The Targeted Jobs Incentive Fund is an initiative fashioned by The Beacon Council and Miami-Dade County and patterned after the State of Florida Qualified Target Industry Tax Refund Program (QTI). The program's intent is to attract relocating out-of-area businesses and encourage expansion of existing local companies by providing cash incentive awards. As with the QTI Program, a Company is required to create a certain number of jobs and must also generate enough new revenue to Miami-Dade County to fund its TJIF benefit.
- 1.2 The TJIF is an inducement program available only to companies from outside the County (with the exception of Palm Beach, Broward, and Monroe Counties) wishing to relocate here, and to Miami-Dade companies which undertake a business expansion and which create jobs as a result of the local expansion. Nevertheless, a Palm Beach, Broward or Monroe County-located Company that is planning to relocate outside South Florida is eligible for this program. The Company must provide verifiable documentation supporting its consideration of other locales. Any business decisions, such as leasing of space or hiring of employees, made prior to the final TJIF approval will likely be grounds for disapproval unless waived by the Miami-Dade County Mayor or Mayor's designee after a showing of good cause.
- 1.3 Although the TJIF program is available to companies countywide, it is also used to encourage investment and the creation of jobs in Designated Priority Areas (DPA) i.e. Enterprise Zones, Empowerment Zones, Targeted Urban Areas, Community Development Block Grant eligible areas, and Brownfield areas, by providing business with additional incentives if the Company locates within these specified areas.
- 1.4 The TJIF program is strictly a performance-based incentive that is disbursed to the Company after it has met all of its job creation projections, average salary commitment, capital investment commitments and all other requirements of the program.

Section 2. Eligibility Criteria

- 2.1 The Targeted Jobs Incentive Fund (TJIF) is available to companies in the following industries:
 - a. Advance Manufacturing;
 - b. Aviation/Aerospace;
 - c. Clean Energy including, but not limited to, Solar Photovoltaic and Solar Thermal Energy, Biofuels, Smart Grid Technologies, Energy Storage, and Ocean Energy;
 - d. Financial/Professional Services;
 - e. Homeland Security/Defense;
 - f. Information Technology;
 - g. Life Sciences;
 - h. Creative Industries including, but not limited to, Fashion and Lifestyles;
 - i. Global Logistics;
 - j. Headquarters including regional headquarters (NAICS Code 5511); and
 - k. Any industry designated as a "Target industry business" under the State of Florida's Qualified Target Industry ("QTI") program, Section 288.106(1) of the Florida Statutes.

The Board of County Commissioners, at its discretion, may waive the eligible industry requirement at the request and recommendation of The Beacon Council and the County Mayor and County Mayor's designee.

- 2.2 The Company must create at least 10 new jobs and make a minimum capital investment of at least \$3 million.
- 2.3 The County Commission, recognizes its responsibility to set a community standard that permits full-time workers to live above the poverty line. Therefore, the TJIF Program will not be available to companies that pay any of their employees less than the Living Wage Rate as defined in Section 2-8.9 of the Code of Miami-Dade County, as adjusted annually by the Department of Small Business Development or its successor department. In addition, the New Jobs promised under the TJIF application/agreement must pay an estimated Average Annual Wage at least equal to the average private sector wage of the County or the statewide private sector average wage. In determining the Average Annual Wage, only New Jobs are to be included and wages for existing jobs shall be excluded from the calculation.
- 2.4 The Company's countywide ad valorem property taxes, excluding debt service, and countywide portion of sale taxes paid must generate sufficient additional general fund tax revenue to the County in order to fund the award. Additional general fund tax revenue generated by the project shall be determined by using a methodology acceptable to the County.
- 2.5 An economic impact analysis of the project will be determined using a professionally accepted econometric model such as Department of Commerce, BEA RIMS-II; Minnesota Implan Group, IMPLAN V.3; or REMI, Inc., REMI Model Pl+, and reviewed by the County's Chief Economist.
- 2.6 This Application and Agreement must be signed by the Company and Miami-Dade County stipulating the number of new jobs to be created, the projected amount of capital investment, the amount of the projected tax revenue and the date when the project will be completed. Disbursements of the TJIF award to the Company will only be made after it has achieved the capital investment and job creation benchmarks set forth in the Application and Agreement, and all other terms of the TJIF program.
- 2.7 The TJIF is an inducement program that is only available to companies considering a relocation and/or expansion in Miami-Dade County and one or more other communities. The TJIF is utilized to induce "New to Market" companies to relocate to Miami-Dade County (not available for companies located within Palm Beach, Broward and Monroe Counties unless a Company is planning to relocate outside South Florida). Companies located in other Florida counties are eligible for TJIF for any net *new* jobs being created in Miami-Dade County. The Company must identify the other metro areas being actively considered as locations for the project.

Section 3. Award Amounts Provided By Miami-Dade County

- 3.1 The TJIF Program is structured so that revenues received from the TJIF project will meet or exceed incentives paid by the County. As a result, the TJIF Program has a positive revenue impact on the countywide general fund during the incentive payout period. TJIF incentives are disbursed over a ten-year period, subsequent to the capital investment of the TJIF project appearing on the tax roll,

and may equal up to 2.140 percent of the total real property capital investment and up to 1.440 percent of the tangible personal property capital investment. The TJIF project is eligible for additional incentive amount, for both real property and tangible personal property capital investment, if it is:

- a. A Miami-Dade County “green certified” business, as applicable (an additional 0.220 percent);
- b. Located in a DPA (an additional 0.220 percent);
- c. Located in a “green certified” building pursuant to Section 2-1258 (an additional 0.063 percent); and/or
- d. Classified as having its principal business activity in the manufacturing, installation, and repair of Solar Thermal and Photovoltaic energy production or other clean energy project (an additional 0.063 percent).
- e. A project that creates more than 50 new jobs (an additional 0.015 percent of the total amount of the Project’s Capital Investment in taxable real property and tangible property for every 50 new jobs created).

In no case will TJIF incentive disbursements exceed the amount of additional countywide ad valorem generated by the TJIF project. In the event that the actual capital investment is less than the amount of capital investment stated in the application, the TJIF project will only be eligible to receive an incentive based on the approved percentage of the actual capital investment.

Applications for a TJIF award within Miami-Dade County are evaluated on a case-by-case basis.

- 3.2 A TJIF award is usually provided to a Company for a period of up to ten (10) years when the minimum number of new jobs has been created and when new capital investment by and/or for the Company exceeds \$3 million in taxable property value. This award is not applicable to the ad valorem property taxes paid-in on the subject property’s land value nor to any improvements in place prior to the project.
- 3.3 A Company may not receive award payments of more than twenty five percent (25%) of the total awards specified in the approved application/agreement in any fiscal year even if all the New Jobs are created in one (1) year. Further, a Company may not receive more than \$1.5 million in awards in any single fiscal year, or more than \$2.5 million in any single fiscal year if the project is located in a Designated Priority Area. A Company may not receive more than \$5 million in award payments in all fiscal years, or more than \$7.5 million if the project is located in a Designated Priority Area. However, the Board of County Commissioners, at its discretion, may waive the applicable \$5 million or \$7.5 million total award cap at the request and recommendation of The Beacon Council and the County Mayor or the County Mayor’s designee. However, in no event shall the total award exceed the amount of countywide general fund ad valorem property taxes paid in as a result of the project. While a Company can receive both a tax refund under the State of Florida Qualified Target Industry Program and a TJIF award at the same time, it cannot receive more than an amount equal to what it has paid-in under the project at any time.

Section 4. Payment of Incentive

- 4.1 The TJIF program is a performance based incentive program; therefore, verification of the new jobs created, capital investment made by the Company, and the additional general fund tax revenue generated to Miami-Dade County must be verified by the County prior to any disbursement of funds to the Company. This procedure must be repeated each year that the Company submits a claim for the TJIF payment. The year that is applicable for consideration of taxes paid-in resulting in the additional general fund tax revenue is April 1 through March 31. Company award claims must be submitted each year during the period of April 1 through May 15. Any award appropriation, if made by the Miami-Dade County Board of County Commissioners will be paid in the County's fiscal year that begins on October 1 following the May 15 claims-submission deadline date.
- 4.2 The TJIF incentive award is paid beginning after the first year the new jobs are created. For example, if a Company committed to creating 100 new jobs by December 31, 2018, meets this benchmark (and all other conditions of the incentive award), and submits a claim for disbursement by May 15, 2020, then the first incentive payment will be disbursed in the County's fiscal year that begins on October 1, 2020. Disbursements shall occur according to the disbursement schedule set forth in the Board resolution granting the TJIF award even if all the new jobs are created prior to the end of the disbursement schedule. Payment to the Company will only be made after it has achieved all economic benchmarks. The Company's additional general fund tax revenue paid to Miami-Dade County must be equal to or greater than the Company's TJIF award less the County's portion of any Florida Qualified Target Industry incentive the Company may be receiving for the same project.
- 4.3 The Company must be current on its Miami-Dade County taxes in order to receive the disbursement of its approved TJIF incentive. Failure to meet this condition may cause that year's incentive to be forfeited.
- 4.4 No incentive amounts shall be disbursed after the last fiscal year set forth in the TJIF application agreement and the Board-approved TJIF Resolution. If a company fails to submit an application for reimbursement within three years of the first job creation benchmarks pursuant to Section 9.5 (c) in this application, the TJIF award will be cancelled without notice.
- 4.5 If in any year the applicant does not achieve the job creation schedule outlined in the applicant's approved resolution, but achieves at least 80% of the required net new jobs created, the company will receive a pro-rated incentive award less a 5% penalty of the scheduled award amount for that year. **If job creation falls below 80% of the required jobs, the company will not receive a refund and will be terminated from the program.**

Section 5. Application Process

- 5.1 Any Company that meets the criteria and objectives of the TJIF program must submit this Application and Agreement to the County through The Beacon Council for review. The Beacon Council will prepare an economic impact analysis for the project, based on the information provided by the Company and submit the application to the County Mayor or County Mayor's designee. An officer of the applying Company must sign the application.

Section 6. Review and Approval Process

- 6.1 Subsequent to an evaluation of the Application and Agreement by the County, staff will recommend its approval or denial to the County Mayor or the County Mayor's Designee and prepares an agenda item for the next available Board of County Commissioners meeting where the TJIF incentive is considered for approval. The County Mayor or the County Mayor's Designee will recommend Application and Agreement approval or denial to the Board of County Commissioners. Per Miami-Dade County Ordinance No. 00-98 creating this program as amended by Ordinance No. 18-36, the Board of County Commissioners shall have no obligation to approve any Application and Agreement that comes before it.
- 6.2 The Beacon Council staff and a Company representative (when requested) will attend the Board of County Commissioners meeting to be available to answer any questions related to the project and the TJIF Application.
- 6.3 If the Board of County Commissioners approves the Application and Agreement, the Company and the County Mayor or the County Mayor's Designee will execute said document(s). Upon request, a Company's confidentiality will be protected for any information regarding a project's location and/or expansion evaluation of any site in Florida in accordance with Sections 288.075 and 288.1066 of the Florida Statutes. If confidentiality is requested, then the Company name and identifying information shall be provided by the Company within 60 days of being approved by the County. Upon said approval, as the applying Company you will be sent a letter by The Beacon Council stipulating the conditions of the approval.
- 6.4 The Company, upon Board of County Commissioners approval, shall submit a current employee roster and tangible personal property and/or real property tax bill(s) for Miami-Dade County within 60 days after the Board's approval of the Application and Agreement.

Section 10. Project Impact Information

10.1 Miami-Dade County Ordinance 00-98 as amended by Ordinance 18-36 requires that Miami-Dade County review and evaluate the Application based on the following issues. Therefore, thorough and concise responses to the items below are very important.

10.2 **Incentive Rationale:**

Provide a statement, on a separate sheet, indicating why the incentive award is needed to further the project. What role will the incentive award play in the decision of the applicant to locate or

expand in Miami-Dade County? Indicate whether there are other communities competing for this project, and if so, which communities, and what incentives are being offered by these communities. Also, specifically address the role the incentive will play in creating Miami-Dade County jobs. This statement should include an analysis of the impact of any incentive awards granted on the viability of the project and the probability that the project will occur in Miami-Dade County if such incentive awards are granted to the applicant, taking into account the expected long-term commitment of the applicant to economic growth and employment in Miami-Dade County.
(Attached)

10.3 **Project Impact:**

Provide a brief synopsis, on a separate sheet, on the impacts the project is expected to stimulate in the community, the state or regional economy, focusing on economic conditions in the area, including the unemployment rate in the community where the project will be located.
(Attached)

10.4 **Corporate Responsibility, Environmental and Growth Management:**

Submit a brief review, on a separate sheet, of the applicant's past activities in Miami-Dade County, Florida and in other states, particularly as they relate to environmental and growth management impacts and how these have been handled. Have any awards been recommended or received? (Basically, what kind of corporate citizen has the applicant been?)
(Attached)

10.5 **Capital Investment:**

a) Describe the capital investment in real and personal property (examples: construction of new facility; remodeling of facility; upgrading, replacing or buying new equipment): **Land and/or building purchase in a short-term scheme; our company aims to do its first buy in 2020. Building construction and/or renovations and improvements are highly necessary to be done in the new property; the proposed facility may require an internal restructure and renovation adapted to our business needs, and all maintenance expenses will be significant for the capital investment. Furniture and fixtures will be required to accommodate the interior of the building; we expect to increase the number of positions in the company, so we anticipate investing in office and computer equipment, devices, etc. Machinery and Equipment purchase required for the design, manufacturing and R&D processes. Software investment, because the nature of our business and our projection on R&D, we will require to do important investments in specific software to excel our designs and tests.**

b) List the amount and type (purchase of machinery/equipment, construction of buildings, etc.) of major capital investment to be made by the applicant in connection with this Miami-Dade County project:

Amount \$ <u>9,600,000.00</u>	Construction/Renovations	<u>Improvements</u>
Amount \$ <u>5,000,000.00</u>	Manufacturing Equipment	<u>Machinery</u>
Amount \$ <u>5,600,000.00</u>	Other Equipment	<u>Furniture, Devices, Computers</u>

Question 10.2 Incentive Rationale

The TJIF incentive award will help to increase Confidential Project Vent's technical and production capabilities for new business opportunities by at least 50%, including buying/constructing physical facilities and contributing to creating direct and indirect jobs. As far as research and development, it will help with new technologies that we can offer to targeted markets in a local and national level, but also on an international platform in 4 to 5 years. We believe the award will help with our supply chain contributing to the expansion of local suppliers and service providers. It will also allow for increment technical skills of our personnel through training, boosting local workers' earnings which will increasing tax revenue for the Government, thereby increasing the talented pool of professionals in the county.

According to our internal research regarding potential communities we are considering outside the state of Florida, the following cities and states are offering programs to expand and relocate our business:

Connecticut - Bristol:

- **Manufacturing Innovation Fund:** This program assists manufacturers like us with equipment, research and development, and training. It's the most complete program that could benefit our business for the proposed project.

New York - Monroe County (Rochester), Newark, Staten Island:

- **Manufacturing Assistance Program:** \$1 million capital investment machinery, equipment and related costs directly tied to production, which are necessary for the growth and efficiency of our business.
- **Industrial Effectiveness Program:** Provides technical and financial assistance to help manufacturing firms address competitiveness issues that increase productivity, efficiency and market share.

Pennsylvania - Erie, Pittsburg, Philadelphia:

- **Ben Franklin Technology Partners Challenge Grant:** Invest in the transformation of the state through creation and expansion of leading and growth businesses.
- **Infrastructure and Facilities Improvement Program:** Multiyear grants to service debt that was incurred to pay the costs of certain infrastructure and facilities improvement projects.

Question 10.3 Project Impact

Confidential Project Vent will generate a positive impact to the community and will stimulate the economy in a broad swath of sectors.

1. Increasing job offers in specialized areas, our business will attract talented professionals in the high technology sector, and this will allocate us as a potential competitor to similar industries located in areas such as Silicon Valley, San Francisco, Seattle and other ones.
2. These professionals will be remunerated accordingly to their expertise and knowledge, and it is expected that such high remunerations will contribute in renting, or even better, investing in properties in Miami-Dade County. Moreover, it is expected they will expend in goods and services for themselves and their families that could subsequently contribute to Miami-Dade's economy in terms of revenues and taxes.
3. We are currently working hand-in-hand with local universities, bringing on board last year students from engineering departments; in this win-win relationship we share our experience and mentoring, giving them professional and technical tools to their future profiles.
4. Lastly, but not less importantly, Confidential Project Vent will contribute to the Government's plan on reducing the unemployment rate of the state and provide more jobs directly and indirectly to the County, significantly and positively impacting the whole community of Miami-Dade.

Human Rights, Inclusion & Diversity, Environment

Following principles found in the *Universal Human Rights Declaration*, we refuse to do business with those who do not share our commitment to equal rights for all. As a company we strive to exhibit excellence through every area of our business, we endeavor to entrust our employees with the needed tools and equipment to combat discrimination, harassment, and violence. We believe a diverse and inclusive workforce because it is our belief that we work better because of our differences, not despite them. Our employees are one of its greatest assets and therefore, it is our responsibility to ensure our employees are provided with a safe working environment. We ensure our employees are educated and trained on proper safety protocol during our onboarding process.

We focus on the following objectives to help improve the environment:

- Bring sustainability practices to customer projects.
- Reduce energy consumption
- Integrate alternative energy sources into our projects.
- Reduce carbon footprint.
- Use recycled/reused materials.

Actions:

- 1.- Lighting: Installed energy efficient lighting with LED light bulbs. Motion sensors switch on when needed and switch off when an area is unoccupied. Employees are also

instructed to switch all appliances and computers off at the power source at the end of each day.

2.- Paper/Printers/Photocopier(s): All printers are to have double sided printing set as default setting and single sided printing only when needed. Most printers can only print black & white and color printing is only used when absolutely necessary. We also encourage employees to print what is necessary. Our facility uses a digital archive system and electronic deliveries for payment/orders to reduce our paper consumption.

3.- Waste: We reduce waste where possible.

4.- Recycling: We ensure employees separate the trash from materials which are recyclable by placing two different bins one for waste and one for recyclable materials. We use recycled materials to build/furnish office furniture and donates on a regular basis any furniture not in use by our facility to charities. We reuse packaging materials for outgoing shipments, such as boxes, packing peanuts and packing paper.

5.- Drinking Water: Staff are to use glasses &/or cups from kitchen that can be washed and re-used

6.- Cars: We have established and encouraged employee carpool to reduce gas emissions.

7.- Cool Roof: We have installed a reflecting coating that thermally isolates the building reducing air conditioning energy consumption.

8.- HVAC: Our facility also uses a Smart Air Thermostat which only is in function when the motion sensors are triggered. Once the temperature has reached a certain degree the smart sensor automatically triggers the system for standby operation.

9.- Projects: We specialize in retrofitting old systems our innovative designs have increased efficiency allowing the rolling stock and the parts we assembly to endure longer than most of our competitors. This in turn reduces the amount of material which is discarded into our environment after the rolling stock has reached its performance capacity. Our engineers and laborers use as much of the viable materials found in the old system to be added to our new and improved systems this translates not only to lower costs for our clients but also a sustainable way to reuse the materials as opposed to discarding them. All the unusable materials are sent to the appropriate recycling plant.
