Agenda Item No. 8(F)(11)

Resolution No. R-550-21

Subject: Recommendation for Approval to Award a Legacy Contract: Maintenance Services for Automatic Doors

Recommendation

It is recommended that the Board of County Commissioners approve this request for award of Legacy *Contract No. L-10073, Maintenance Services for Automatic Doors*, to Dash Door and Closer Service, Inc. dba Dash Door & Glass (Dash Door) for the Miami Dade Aviation Department (MDAD), pursuant to Section 2-8.1(b)(2) of the Miami-Dade County Code. The contract provides for preventative maintenance, repairs, emergency and additional services, on-call technical support services, parts and components, for automatic and security doors and related equipment located throughout MDAD. This contract will replace *Contract No. BW9330-5/20*, which was awarded by the Board via Resolution No. R-1177-10 for a five-year term, with five, one-year options to renew. The contract is currently in its final option to renew term.

Preventative maintenance and support services are needed to keep approximately 1,536 door leaves functional and avoid potential security risks at Miami International Airport (MIA). These doors are installed throughout MIA including terminals, concourses, sky bridges, satellite locations, Customs Border Protection (CBP), storefronts, jet ways, bus stations, security checkpoints, and vestibules. The frequency of these services is critical as the Federal Aviation Administration (FAA) and CBP may issue penalties for unauthorized access to restricted areas caused by non-working doors. In addition, these services provide a longer life cycle for the equipment, lower replacement cost, and meet FAA and CBP requirements to keep passengers safe.

Competition for these services is not practicable at this time because of the proprietary nature of the software included within the equipment installed. Dash Door owns the patents and proprietary rights to the software and is the sole vendor currently capable of providing these services. MDAD conducted a cost analysis to replace the software and equipment. The approximate cost of replacing the current system and hardware would be \$18 million and does not include any maintenance and support services. This switch could have major operational impacts because most of the software and hardware is built into the airport buildings and facilities and the replacement will require significant renovations.

The Internal Services Department issued a Request for Information (RFI) to potential vendors able to provide similar services. The County received two submittals: 1) Atlas Door & Gate, which stated that a sub-contractor would be needed, and that they do not have the rights to the software; and 2) Dormakaba USA, Inc., which informed the County that they no longer wish to participate in the RFI and suggested to keep utilizing the services being provided by the incumbent.

The availability of competition will be continually monitored so that the need for future legacy purchases is reduced or eliminated as soon as practicable. Accordingly, it is in the County's best interest to award this legacy contract pursuant to Section 2-8.1(b)(2) of the Miami-Dade County Code to continue purchase of preventive maintenance and support services for automatic doors and related equipment.

Scope

Miami International Airport is located within District 6, which is represented by Commissioner Rebecca Sosa; however, the impact of this item is countywide.

Delegated Authority

If this item is approved, the County Mayor or County Mayor's designee will have the authority to exercise all provisions of the contract, including any cancellation, renewal or extension provisions, pursuant to Section 2-8.1 of the County Code and Implementing Order 3-38.

Fiscal Impact/Funding Source

The fiscal impact for the five-year term is \$13,198,000. The current contract, *Contract No. BW9330-5/20*, is valued at \$28,380,000 for a 10-year and six-month term, and expires on June 30, 2021. The allocation under the current contract is substantially the same as the previous contract on an annual basis.
