Agenda Item No. 8(F)(7)

Subject: Recommendation for Approval of a Designated Purchase under Contract No. EPP-RFP613 -6(6), Ballot Order Tracking System

Resolution No. R-640-21

Recommendation

It is recommended that the Board of County Commissioners authorize this request for a designated purchase under *Contract No. EPP-RFP613-6(6), Ballot Order Tracking System* for the Elections Department (Elections). Approval of the designated purchase is being requested, pursuant to Section 2-8.1(b)(3) of the Miami-Dade County Code, by a two-thirds vote of the Board members present, to authorize additional expenditure authority in the amount of \$456,000 to continue purchasing maintenance and support services, and supplies for the Ballot Order Tracking System.

The County awarded this competitively established contract on May 16, 2008 under delegated authority for a three-year term with six, two-year option to renew terms to Wireless Data Systems, Inc. for their TopShelf-WMS and TopMobile applications. The Board subsequently approved additional expenditure authority in the amount of \$315,872 through Resolution No. R-568-16. Additional expenditure authority of \$351,018 was also approved under delegated authority. The contract is currently in the final option to renew term. Elections uses this contract to purchase ballot order tracking software, maintenance and support services, and associated supplies.

To comply with Florida Statutes, it was necessary for Elections to invest in a system that would give them the ability to track the deployment of equipment and supplies. In order to conduct a successful election, there are many background processes that need to be implemented. Currently, there are over 875 precincts with over 1.6 million registered voters in Miami-Dade County. Elections has the responsibility of coordinating the distribution of all equipment and supplies to each precinct throughout the County, which includes, but is not limited to: DS200 (used to scan ballots), EVID Stations (used to check in voters), Express Vote machines (used for individuals with disabilities), USB flash drives, scanners, MiFi (used for wireless connection of EVID stations), signature pads, and ballots.

The TopShelf WMS and TopMobile applications ensure the probability of a successful election through inventory management, organizing field operations and equipment pickup, and secure media returns. It safeguards the physical security and accuracy of the process through technology, which guides the users through a series of checks and balances to ensure steps and assets are not overlooked. It gives Elections the ability to know where their assets and ballots are at all times.

Additional expenditure authority is requested to fund the current, final option to renew period, inclusive of maintenance and support services, and associated supplies. Throughout the term of the contract, Elections has purchased additional professional services, modules, and supplies in an effort to meet demand and assure compliance with all applicable laws. It is in the County's best interest to approve this request to ensure Elections has sufficient expenditure authority to continue purchasing maintenance and support services which will ensure compliance with State requirements for an efficient and fair elections process.

Competition is not practicable at this time because the additional allocation requested will be utilized to obtain services already being provided by Wireless Data Systems, Inc. Additionally, the system is a proprietary application, developed and customized by Wireless Data Systems, Inc. to meet the specific operational requirements of Elections. Accordingly, it is in the County’s best interest to award this designated purchase pursuant to Section 2-8.1(b)(3) of the County Code to ensure continuity of services.

Scope

The impact of this item is countywide in nature.

Delegated Authority

The County Mayor or the County Mayor’s designee will have the authority to exercise all provisions of the contract, including any cancellation or extensions, pursuant to Section 2-8.1 of the County Code and Implementing Order 3-38.

Fiscal Impact/Funding Source

The contract term expires on May 13, 2022. The contract has a current cumulative allocation of \$1,640,740. If this request for \$456,000 is approved, the contract will have a modified cumulative allocation of \$2,096,740. The requested increase in expenditure authority is based on the negotiated fees for maintenance and support services for the final option to renew period.

Due Diligence

Pursuant to Resolution No. R-187-12, due diligence was conducted in accordance with the Internal Services Department’s Procurement Guidelines to determine contractor responsibility, including verifying corporate status and review of performance and compliance issues through various vendor responsibility lists and a keyword internet search. The lists referenced include convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to contractor responsibility.

Applicable Ordinances and Contract Measures

- The two percent User Access Program provision applies where permitted by the funding source.
- The Small Business Enterprise Selection Factor and Local Preference do not apply.
- The Living Wage does not apply.
