Resolution No. R-645-21

Subject: Recommendation to Ratify Various Emergency Purchases Associated with
Coronavirus Disease 2019 (COVID-19) Pandemic

Recommendation

It is recommended that the Board of County Commissioners (Board) approve this request for ratification of the below emergency purchases for \$386,405,983, as well as necessary contract modifications to established County contracts, which were made to mitigate against COVID-19, for multiple County Departments. Purchases of these goods and services by various County departments were necessary to ensure the health and safety of County employees and members of the public. Each department is responsible for ensuring compliance with Federal Emergency Management Agency (FEMA) and Coronavirus, Aid, Relief, and Economic Security (CARES) Act requirements for each of their purchases to ensure the greatest possible reimbursement to the County. Additionally, Section 2-8.1.1.1.1 (3)(a) of the Code of Miami-Dade County limits application of preferences on Federal procurements. As such, staff is not tracking these emergency procurements by vendor status (local/small business).

On January 20, 2021, through Resolution No. R-20-21, the Board previously approved all COVID-19 purchases from the beginning of the virus through September 21, 2020. This subsequent ratification is for all COVID-19 purchases made from September 22, 2020 through March 24, 2021. All COVID-19 related purchases issued after March 24, 2021 will be presented to the Board as a separate ratification item.

Multiple County departments have purchased a broad range of emergency response products and services related to COVID-19, including but not limited to:

- Air filtration units and filters to purify indoor air;
- Acrylic barriers such as those installed in County offices and the protective barriers in Transit vehicles to protect bus operators;
- Chemicals and disinfectants to kill COVID-19 on surfaces;
- Consulting services for FEMA disaster recovery, Veteran housing and basic needs program implementation, residential landlord rental program, Transit commuter counting analysis, feeding operations, and decontamination project monitoring and procedures;
- Personal Protective Equipment such as coveralls, masks, gloves, gowns, shields, and more;
- Decontamination and janitorial services for buildings and County vehicles to prevent the spread contamination;
- Fever detection cameras and screening equipment for County buildings;
- Hand sanitizer in various sizes including sanitizing stations mounted to walls or on stands;
- Hotel rooms to house homeless individuals or first responders that cannot otherwise self-quarantine, including associated security, janitorial, and decontamination services;
- Technology items and services such as laptops and software licenses for staff to work remotely, webcams, speakers, monitors, and printing services;
- Maintenance and repair services for Metrorail traction power train control, track fastener replacement, and repair for generators used at COVID-19 test sites;
- Since March 16, 2020, distribution of 21,511,362 million meals for elderly residents;
- School supplies and customized Personal Protective Equipment for Head Start and Early Head Start children;
- Equipment to spray and/or fog decontamination chemicals across County facilities;

- Staffing used for security at Parks locations to ensure social distancing, SURGE teams, and nurses for sheltered residents;
- Testing and laboratory services for staff and residents including tents and other supplies for testing locations;
- Transportation services to assist with on-demand transportation; and
- Vehicles such as forklifts to move COVID-19 supplies within County warehouses and Utility Terrain Vehicles (UTV) for distribution around testing sites.

It is in the County’s best interest to approve the ratification of these purchases, as they were vital to the County’s response efforts aimed at combating and containing the spread of COVID-19. The County will continue to procure goods and services to combat the ongoing state of emergency until such time as the local emergency declared by the County Mayor expires.

This item is placed for Board review pursuant to Miami-Dade County Code Section 29-124(f)(ii). Because portions of this item are transit-related procurements with a value of more than \$1 million, even though no Charter County Transportation Surtax Funds will be used to pay the costs, the Board may only consider this item if the Citizens’ Independent Transportation Trust (CITT) has forwarded a recommendation to the Board prior to the date scheduled for Board consideration or 45 days have elapsed since the issuance of this recommendation. If CITT has not forwarded a recommendation and 45 days have not elapsed since the issuance of this recommendation, a withdrawal of this item will be requested. Further, it should be noted that \$32,141,837 (or 8 percent) of the total expenditure requested in this item was spent for the Transportation and Public Works Department.

Background

In December 2019, a novel coronavirus, known as SARS-CoV-2, was first detected in Wuhan, Hubei Province, People’s Republic of China, causing outbreaks of the coronavirus disease, COVID-19, that has now spread globally. COVID-19 is a severe acute respiratory illness that can spread among humans through respiratory transmission and presents with symptoms similar to those of influenza.

The Secretary of Health and Human Services declared a public health emergency on January 31, 2020, under section 319 of the Public Health Service Act (42 U.S.C. 247d), in response to COVID-19. On March 1, 2020, the Governor of Florida issued Executive Order No. 20-51 directing the State Health Officer and Surgeon General to declare a Public Health Emergency due to the discovery of COVID-19 in Florida. On March 9, 2020, the Governor of Florida declared a State of Emergency as the risks posed by COVID-19 affected the entire State of Florida. On March 11, 2020, the World Health Organization announced that the COVID-19 outbreak could be characterized as a pandemic, as the rates of infection continued to rise in many locations around the world and across the United States.

On March 12, 2020, the previous County Mayor declared a State of Local Emergency as the risks posed by COVID-19 affected Miami-Dade County residents. Subsequently, there were multiple emergency orders issued, including closure of Parks, adult day care centers, restaurants, gyms, and movie theaters, or places where social distancing was difficult to maintain and in order to prevent the transmission and spread of COVID-19. Staff has worked diligently over the past year and continues to do so in taking appropriate actions for the health and safety of the public and County employees. While infection rates continue to decline and vaccination rates continue to increase, COVID-19 purchases continue to be made as approved by various department directors. These procurements have been necessary to deliver critical services to the County throughout this pandemic.

Scope

The scope of this item is countywide in nature.

Fiscal Impact/Funding Source

The fiscal impact for all emergency purchases made across 23 categories from September 22, 2020 through March 24, 2021 is \$386,405,983. A detailed breakdown for all categories, vendors, and departments for purchases made from September 22, 2020 through March 24, 2021 is included as Attachment No. 1. The County intends to pursue reimbursement for these emergency purchases under the FEMA and CARES Act, where feasible and permissible.

Track Record/Monitor

Jessica Tyrrell of the Internal Services Department is the Procurement Contracting Manager. The contract documents are on file with and available upon request from the Professional Procurement Staff in the various County Departments.

Delegated Authority

If this item is approved, the County Mayor or County Mayor's designee will have the authority to exercise all provisions of the contracts, including any cancellation or extension provisions, pursuant to Section 2-8.1 of the County Code and Implementing Order 3-38.

Awarded Vendors

See Attachment No. 1 for the list of awarded vendors, vendor addresses, award or modification amounts, user departments and purchase categories. Further information and documentation on each of the purchases identified in Attachment No. 1 are on file and available upon request from the Internal Services Department, Strategic Procurement Division.

Since the County will be actively pursuing reimbursement of all such expenses through FEMA or CARES Act; to be eligible for reimbursement, the procurements must comply with Uniform Administrative Requirements as set forth in 2 CFR 200.326 which, among several requirements, prohibits the use of local geographical preferences, except as expressly allowed by Federal statutes. Hence, to maximize the County's reimbursement from available Federal Sources, the selection of vendors for these procurements cannot take into account local and small business factors.

Due Diligence

Pursuant to Resolution No. R-187-12, due diligence was conducted in accordance with the Internal Services Department's Procurement Guidelines to determine vendor responsibility, including verifying corporate status and that there are no performance and compliance issues through various vendor responsibility lists and a keyword internet search. The lists that were referenced included convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to vendor responsibility.

Applicable Ordinances and Contract Measures

- The two percent User Access Program provision does not apply.
- The Small Business Enterprise measures and Local Preference do not apply.
- The Living Wage may apply on specific purchases.
