ISD Project No.: E20-WASD-01A

Project Title: General Land and Engineering Surveying and Mapping Services (Set-Aside)

Scope of Services Summary: Provide land surveying services for water and sanitary sewer systems, sanitary sewage collection and transmission systems, water and sanitary sewage pumping facilities, water and sanitary sewage treatment plants and any other similar surveying services for related projects. The selected consultants' responsibilities include but are not limited to performing land surveying activities during design, construction, and post-construction phases. The land surveying services consultant will facilitate the implementation of the projects being performed by program managers, design consultants, and construction contractor's surveyor, and may include underground utility locations, Quality Assurance and Quality Control (QA/QC) for topographic and as-built surveys.

Experience and Qualifications: Please refer to the attached Experience and Qualifications.

Term and Estimated Cost of Contract: The County intends to retain four (4) qualified consultants/teams for four (4) Non-Exclusive Professional Services Agreements (PSA), each with an effective term of five (5) years. Maximum compensation for each PSA is \$500,000, plus a 10% contingency in accordance with Ordinance 00-65.

Small Business Enterprise Measure: On June 24, 2020, the Internal Services Department's Small Business Development Division established a Small Business Enterprise Architectural and Engineering Tier 3 - 100% Set-Aside measure for this project.

Advertisement Date: November 12, 2020.

Number of Proposal(s) Received: Five (5) proposals were received by the submittal deadline of December 30, 2020.

Name of Proposer(s): Please refer to the attached List of Respondents.

Small Business Enterprise Compliance Review: Please refer to the attached Compliance Review Memorandum dated February 12, 2021.

Selection Process: The Architectural and Engineering professional services solicitation process is a two-tiered selection process; First Tier is the Evaluation of Experience and Qualifications, and Second Tier is the Oral Presentations. The First Tier is the evaluation of the firms' current statements of experience, qualifications and performance data. The Second Tier is the evaluation of the shortlisted firms' knowledge of project scope, qualifications of team members assigned to the project, and ability to provide the required services within schedule and budget, as demonstrated through an oral presentation from firms deemed responsive and responsible at the First Tier.

Note: The Competitive Selection Committee may waive the Second Tier selection process by a majority vote and base their selection on the results of the First Tier ranking only.

First Tier Results: The First Tier meeting was held on April 2, 2021. The Competitive Selection Committee was tasked with evaluating the experience and qualifications of the Proposers, and scoring and ranking the proposals in accordance with the evaluation criteria outlined in the solicitation. The Competitive Selection Committee scored all responsive and responsible proposals. During the evaluation process, all ties were broken using the standard tie-breaking procedure, as described in Section 3.3, Proposal Evaluation, of the Notice to Professional Consultants. Please refer to the attached First Tier Tabulation Sheet.

Second Tier Results: Based on the Competitive Selection Committee's professional judgement, the information provided in the proposals was deemed sufficient to determine the experience and qualifications of the Proposers. As a result, and by a majority vote, the Competitive Selection Committee decided to forego Second Tier proceedings.

Selection Process: The Architectural and Engineering professional services solicitation process is a two-tiered selection process; First Tier is the Evaluation of Experience and Qualifications, and Second Tier is the Oral Presentations. The First Tier is the evaluation of the firms' current statements of experience, qualifications and performance data. The Second Tier is the evaluation of the shortlisted firms' knowledge of project scope, qualifications of team members assigned to the project, and ability to provide the required services within schedule and budget, as demonstrated through an oral presentation from firms deemed responsive and responsible at the First Tier.

Note: The Competitive Selection Committee may waive the Second Tier selection process by a majority vote and base their selection on the results of the First Tier ranking only.

First Tier Results: The First Tier meeting was held on April 2, 2021. The Competitive Selection Committee was tasked with evaluating the experience and qualifications of the Proposers, and scoring and ranking the proposals in accordance with the evaluation criteria outlined in the solicitation. Please refer to the attached First Tier Tabulation Sheet.

Second Tier Results: Based on the Competitive Selection Committee's professional judgement, the information provided in the proposals was deemed sufficient to determine the experience and qualifications of the Proposers. Project Title: General Land and Engineering Surveying and Mapping Services (Set-Aside)

Scope of Services Summary: Provide land surveying services for water and sanitary sewer systems, sanitary sewage collection and transmission systems, water and sanitary sewage pumping facilities, water and sanitary sewage treatment plants and any other similar surveying services for related projects. The selected consultants' responsibilities include but are not limited to performing land surveying activities during design, construction, and post-construction phases. The land surveying services consultant will facilitate the implementation of the projects being performed by program managers, design consultants, and construction contractor's surveyor, and may include underground utility locations, Quality Assurance and Quality Control (QA/QC) for topographic and as-built surveys.

Experience and Qualifications: Please refer to the attached Experience and Qualifications.

Term and Estimated Cost of Contract: The County intends to retain four (4) qualified consultants/teams for four (4) Non-Exclusive Professional Services Agreements (PSA), each with an effective term of five (5) years. Maximum compensation for each PSA is \$500,000, plus a 10% contingency in accordance with Ordinance 00-65.

Small Business Enterprise Measure: On June 24, 2020, the Internal Services Department's Small Business Development Division established a Small Business Enterprise Architectural and Engineering Tier 3 - 100% Set-Aside measure for this project.

Advertisement Date: November 12, 2020.

Number of Proposal(s) Received: Five (5) proposals were received by the submittal deadline of December 30, 2020.

Name of Proposer(s): Please refer to the attached List of Respondents.

Small Business Enterprise Compliance Review: Please refer to the attached Compliance Review Memorandum dated February 12, 2021.

Selection Process: The Architectural and Engineering professional services solicitation process is a two-tiered selection process; First Tier is the Evaluation of Experience and Qualifications, and Second Tier is the Oral Presentations. The First Tier is the evaluation of the firms' current statements of experience, qualifications and performance data. The Second Tier is the evaluation of the shortlisted firms' knowledge of project scope, qualifications of team members assigned to the project, and ability to provide the required services within schedule and budget, as demonstrated through an oral presentation from firms deemed responsive and responsible at the First Tier.

Note: The Competitive Selection Committee may waive the Second Tier selection process by a majority vote and base their selection on the results of the First Tier ranking only.

First Tier Results: The First Tier meeting was held on April 2, 2021. The Competitive Selection Committee was tasked with evaluating the experience and qualifications of the Proposers, and scoring and ranking the proposals in accordance with the evaluation criteria outlined in the solicitation. The Competitive Selection Committee scored all responsive and responsible proposals. During the evaluation process, all ties were broken using the standard tie-breaking procedure, as described in Section 3.3, Proposal Evaluation, of the Notice to Professional Consultants. Please refer to the attached First Tier Tabulation Sheet.

Second Tier Results: Based on the Competitive Selection Committee's professional judgement, the information provided in the proposals was deemed sufficient to determine the experience and qualifications of the Proposers. As a result, and by a majority vote, the Competitive Selection Committee decided to forego Second Tier proceedings.
