Subject: Recommendation for Approval to Award a Legacy Contract: FleetFocus Licenses, Maintenance, And Support Services

Agenda Item No. 8(F)(9)

Resolution No. R-200-22

Recommendation

It is recommended that the Board of County Commissioners (Board) approve this request for approval of Legacy Contract No. L-755, *FleetFocus Licenses, Maintenance, And Support Services*, to Trapeze Software Group Inc. dba AssetWorks, LLC (AssetWorks) for the Internal Services Department (ISD) Fleet Management Division (FMD) in the amount of \$612,000, pursuant to Section 2-8.1(b)(2) of Miami-Dade County Code. The Small Business Enterprise measures and Local Preference do not apply as this is a legacy contract. Competition for these services is not practical at this time, as the licensed software is proprietary to AssetWorks, and they have not authorized any additional vendors to provide maintenance and support services for the licensed software.

Background

This contract will provide licenses, maintenance, support, interface development, and professional services for the FleetFocus Software. The current contract, No. RFP775-3(3), was awarded through Resolution No. R-898-12 and is currently valued at \$1,354,872. The FleetFocus Software was acquired through a competitive solicitation process under RFP775 for a three-year term with three, two-year option to renew terms. In addition, the contract was extended for an additional five months to align ISD-FMD’s annual maintenance renewal with the contract date.

The FleetFocus software has been essential to the success of FMD's operations and has helped streamline their fleet business processes. The software provides the technology, tools, and reporting needed to assist FMD in proactively managing the utilization and lifecycle of their customer’s fleet of vehicles. It manages every aspect of a fleet vehicle including, but not limited to, preventative maintenance scheduling, work order and labor tracking, customer billing, parts and inventory tracking, and maintenance history, as it is a fleet specific software.

Through a competitive procurement process, the County selected the best ranked fleet management software system, which played a pivotal role in ISD-FMD being a top ranked fleet amongst the 100 Best Fleets in North America Program, top 50 of Leading Fleets in Government Fleet Magazine, and NAFA Fleet Management Association—Green Garage recipient.

The awarded value of the software is \$1,354,872, which includes implementation and system maintenance. In addition to the \$1,354,872, the County has also invested approximately \$282,000 in ITD support and programmatic report functions, and a significant number of training hours (approximately 35,825 hrs) for staff to become proficient with the software, which cost approximately \$2.7 million; ITD Support and training combined amounts to \$2.9 million. Therefore, the implementation of a new software system would cost the County in excess of \$2.9 million, in addition to the acquisition cost of the new software.

The availability of competition will be continually monitored to ensure the need for future legacy purchases is reduced or eliminated as soon as practical. Accordingly, it is in the County’s best interest to award this legacy contract pursuant to Section 2-8.1(b)(2) of the Miami-Dade County Code to continue purchasing maintenance and support services for the FleetFocus software.

Scope

The scope of this item is countywide in nature.

Fiscal Impact/Funding Source

The fiscal impact for the five-year term is \$612,000. The current contract, RFP775-3(3), is valued at \$1,354,872 for a nine-year and five-month term and expires on April 30, 2022. The yearly allocation under the current contract is higher than the replacement contract as it included the initial purchase, implementation, and training services.

If required by Customer, Customer shall provide the telecommunications equipment (including the routers to be installed at the Data Center), communication line, and Services for connection from Customer's site to the Data Center.

Database Instances

AssetWorks will maintain a single Production Database instance. This Production Database will provide the daily, real-time transaction data to the Application users.

AssetWorks will complete routine maintenance on the Application according to the published schedule. AssetWorks will publish schedules for subsequent years on its Customer Support web site. AssetWorks will endeavor to provide at least 30 days notice to any changes in the schedule, except in the event of emergency maintenance.

The service levels set forth below apply to the Services provided by AssetWorks under the Agreement.

G. AVAILABILITY

AssetWorks will use commercially reasonable efforts to provide the Hosting Services with an average of 99% Availability (as such term is hereinafter defined) for each quarter during the Term. For purposes of the Agreement, "Availability" during any quarter refers to an Authorized User's ability to log into the Application during such quarter, and will be calculated in accordance with the following formula:

$$x = (y - z) / y * 100$$

Where,

- "x" is the Availability of the Application during the quarter;
- "y" is the total number of hours in such quarter minus the number of hours during such quarter that the Customer is unable to log into the Application because of (a) regularly scheduled maintenance windows for the Application and for times in which Customer has been notified in writing (including e-mail) by AssetWorks in advance thereof; (b) a Force Majeure Event; (c) non-performance of

Hardware, Software, ISP connections, and other equipment that is not provided by AssetWorks or certified by AssetWorks for use in conjunction with the Services (except as such non-performance is directly or indirectly caused by AssetWorks).

- “z” is the number of hours in such month during which the Customer is unable to log into the Application (other than for reasons set forth in the definition of “y” above); provided that AssetWorks has been notified or is otherwise aware (or reasonably should be aware) of Customer’s inability to utilize the Application.

H. FEE ADJUSTMENT

In the event that AssetWorks does not meet the Availability levels set forth , the amount of fees payable by Customer will be reduced as follows:

In the event the average Availability for the Application is less than 99% during any two consecutive quarters, Customer will receive a credit to its account with AssetWorks of 5% of the amount of a quarter’s aggregate AssetWorks Hosting Services fees paid or payable by Customer to AssetWorks.

AssetWorks’ obligation to provide Customer with fee adjustments as set forth above is conditioned on Customer providing detailed written notice to AssetWorks of its contention that AssetWorks was unable to meet the applicable Availability levels. Upon receipt of such notice, AssetWorks shall have 30 calendar days to investigate the contention. If, at the end of the 30 calendar day period it is determined that AssetWorks did in fact fail to meet the applicable Availability levels, Customer will receive the appropriate credit to its account during the next invoice cycle.

The remedies set forth in this Section of this Attachment shall be Customer’s sole remedy and AssetWorks’ entire liability in the event of a breach of the Hosting Services as described in the Hosting Scope of Services, including the failure of any Availability measurements to meet the thresholds set forth above.
