and Members, Board of County Commissioners

Agenda Item No. 8(F)(4)

From: Daniella Levine Cava
Mayor

Resolution No. R-793-22

Subject: Recommendation for Approval to Award Contract FB-02212 - Repair, Purchase, and Maintenance of Power Generating Systems

Summary

This item is for the purchase of routine maintenance and repair services, including parts, to power generating equipment and pumping stations for multiple County departments. The generators and pumping systems support County operations by delivering power and pumping services to County facilities in the event of an electricity outage until normal power is restored. Award is recommended to the lowest priced responsive and responsible bidder and is a local vendor. A companion item is being presented to the Board in parallel to this item, recommending the establishment of a prequalification pool which will be used to solicit for various types of power generating equipment, pumping systems, parts, equipment and ancillary items and services on an as needed basis.

Recommendation

It is recommended that the Board of County Commissioners (Board) approve a competitive contract award, *Contract No. FB-02212, Repair, Purchase, and Maintenance of Power Generating Systems*, for multiple County Departments in an amount not to exceed \$4,333,200 for a five-year term. The current contract, *FB-00418, Generator, Maintenance, Repairs and Purchase*, was established by the Board on April 4, 2017, through Resolution R-360-17, for a five-year term. The contract was subsequently modified under delegated authority. The Small Business Enterprise Bid Preference and Local Preference were applied to Group A of the solicitation and does not apply to Group B due to federal funding source.

This contract will provide for the purchase of routine maintenance and repair services, including parts, to power generating equipment and pumping stations for multiple County departments through two groups: Group A for non-federally funded departments and Group B for federally funded services for the Public Housing and Community Development department. The awarded vendor will provide preventive maintenance and repairs for the power generation equipment and locations listed in the aforementioned groups in the frequencies specified in the solicitation (monthly, semiannual or annual). The generators and pumping systems support County operations by delivering power and pumping services to County facilities in the event of an electricity outage until normal power is restored.

Scope

The scope of this item is countywide in nature.

Fiscal Impact/Funding Source

The fiscal impact for the five-year term is \$4,333,200, of which \$2,897,700 is for Group A and \$1,435,500 is for Group B. The allocation under the pool Groups C, D, E, and F, on the companion item is \$36,129,000, and the cumulative fiscal impact for both items is \$40,462,200. The current pool/contract, *FB-00418*, is valued at \$37,748,700 for a five-year and six-month term and expires October 31, 2022. The allocation under this replacement contract is similar to the current contract and is based on estimated usage.

Due Diligence

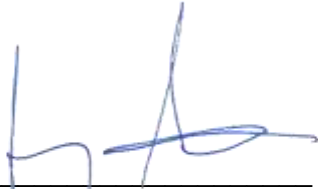

Pursuant to Resolution No. R-187-12, due diligence was conducted in accordance with the Internal Services Department’s Procurement Guidelines to determine vendor responsibility, including verifying corporate status and that there are no performance and compliance issues. The lists that were referenced included convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to vendor responsibility.

Pursuant to Resolution No. R-140-15, prior to re-procurement, a full review of the scope of services was conducted to ensure the replacement contract reflects the County’s current needs. The review included conducting market research, posting a draft solicitation for industry comment, and holding meetings and

drafting sessions with the user department. The scope of services was updated to include new generators and different groups to address the needs of the user departments.

Applicable Ordinances and Contract Measures

- The two percent User Access Program provision applies where permitted by the funding source.
- The Small Business Enterprise Bid Preference and Local Preference were applied to Group A. Group B does not include Small Business Enterprise contract measures and Local Preference due to the funding source.
- The Living Wage applies to Group A as the services are covered under the Ordinance. Group B does not include living wage due to the funding source; however, the awarded vendor will pay its employees' wages equal to or higher than the living wages.
