Background

Castellanos Estates Subdivision T-23949

- Located in Section 2, Township 56 South, Range 39 East.
- Zoning: EU-M.
- Proposed Usage: Single family Residences.
- Number of Parcels: Three.
- This plat meets concurrency.
- Available public water lines abut the proposed subdivision. Public sanitary sewers are not within feasible distance to the subdivision. Each Parcel will be served by a septic tank and drainfield.
- On July 7, 2022, the Board adopted Ordinance No. 22-83, which institutes more rigorous standards for new and replacement onsite sewage treatment and disposal systems (OSTDSs) commonly referred to as "septic tanks" or "septic systems." After January 1, 2023, if proposed development is not within feasible distance to public sanitary sewers, development applications (including plats) that can be approved using an onsite sewage and treatment system, will be reviewed in accordance with the new advanced treatment standards.
- Pursuant to Ordinance No. 22-137, plat applications filed prior to the effective date of the ordinance may be reviewed under the feasible distance provisions of Chapter 24 that were in effect prior to the effective date of the ordinance. This plat was evaluated under the former feasible distance standards since the application was submitted prior to the effective date of the ordinance. Future applications (e.g. building permits) for this same property will be reviewed under the new feasible distance standards and may be required to connect.

Developer's Obligation

Drainage maintenance, paving, sidewalk, detectable warning surfaces, and monumentation which are bonded under bond number 8317 in the amount of \$24,381.00.
