Memorandum

MIAMI-DADE COUNTY

Date: March 7, 2023

To: Honorable Chairman Oliver G. Gilbert, III
and Members, Board of County Commissioners

Agenda Item No. 8(A)(2)

From: Daniella Levine Cava
Mayor

Resolution No. R-151-23

Subject: Approval of a Contract Award Recommendation to Construct Repairs in Certain Areas of Terminal E at Miami International Airport, MDAD Project No. AA005A

EXECUTIVE SUMMARY

This item seeks approval from the Board of County Commissioners (Board) to award a construction contract to Allied Contractors, Inc. to repair damage caused by water intrusion to the structure and to the finishes of certain areas in Terminal E at Miami International Airport (MIA), including Lower Concourse E, E Satellite, and the DE Connector, which connects Concourse D to Concourse E. Terminal E is nearly 60 years old, as such, the wear and tear over time has resulted in water leaks that have penetrated through the surface of the exterior walls via cracks in the stucco. Additionally, there are certain stucco areas that have been identified as critical as they are in danger of detaching completely.

Because exterior modifications are required to replace the stucco walls, which include patching, painting, stucco replacement and the installation of a new lightning protection system, in order to maximize construction efficiencies and reduce impacts to gating and airport operations, other improvements have been added to the scope of work that will be performed concurrently (as appropriate) including: (i) the replacement/renovation of 36 airport operations area (AOA) security doors, frames and card readers, (ii) the addition of 20 new rooftop cameras and door cameras which are needed to view airport operations in the Lower Concourse E and E Satellite gates as well as the surrounding taxilanes/taxiways, and (iii) the installation of an "Advanced Visual Detection Guidance System" that provides guidance to pilots to support safe, efficient, and precise aircraft parking. The installation of the Advanced Visual Docking Guidance System (AVDGS) includes the procurement of 10 displays and operator panels for installation at 10 MIA gates which will be attached to the renovated exterior wall using a fabricated, steel bracket.

This construction project, known as Project No. AA005A, was advertised by the County under full and open competition resulting in two responsive bids, one from Allied Contractors, Inc, and the other from CES Construction, Inc. The Engineer of Record, MOBIO Architecture, Inc. was sent the bid information for evaluation, and it was determined that Allied Contractors, Inc., whose base bid is approximately nine (9) percent below the Engineer's Base Estimate, is the low bidder and is qualified for award of this construction contract.

RECOMMENDATION

It is recommended that the Board approve the attached resolution awarding Project No. AA005A to Allied Construction, Inc. for a construction project entitled: "E Satellite and Lower Cc E Stucco Replacement, Paint, Lightning Protection, Advanced Visual Docking Guidance System (AVDGS), Cameras, Doors/Hardware/ Access Control at Miami International Airport" pursuant to Section 2-8.1 of the Miami-Dade County Code. The County has agreed to pay Allied Contractors, Inc. a total compensation amount of $19,227,549.00, which includes a lump sum amount of $17,436,000.00, a 10 percent contingency of

$1,743,600.00 and an Inspector's General Fee of $47,949.00. The total contract term consists of 570 calendar days from the effective date of the Notice to Proceed.

Contract measures were established as part of this construction contract including a Small Business Enterprise – Construction (SBE-CON) participation goal of 20.09 percent, a Small Business Enterprise Services (SBE-S) goal of .6 percent and a 10 percent Community Workforce Participation (CWP) goal. Allied Contractor, Inc has committed to 20.24 percent SBE-CON goal, which exceeds the required participation goal.

Per the terms and conditions of this construction contract, liquidated damages at a rate of $1,500.00 per day will be deducted from the contract amount for each calendar day of a delay due to a non-excusable delay.

This recommendation to award has been prepared by the Miami-Dade Aviation Department (Aviation Department or MDAD).

SCOPE

MIA is located primarily within District 6, which is represented by Commissioner Kevin Marino Cabrera; however, the impact of this agenda item is Countywide in nature as MIA is a regional asset.

AA005A – Central Terminal, E Satellite, and Lower Concourse E Stucco Replacement, Paint, Lightning Protection, Advanced Docking Guidance System (ADVGS), Security Cameras, Doors/Hardware/Access Control Project.

Dear Cyrus;

Pursuant to your request, this letter recommends Miami Dade Aviation Department (MDAD) the award of the Construction Contract of project AA005A – Central Terminal, E Satellite, and Lower Concourse E Stucco Replacement, Paint, Lightning Protection, Advanced Docking Guidance System (ADVGS), Security Cameras, Doors/Hardware/Access Control. We understand that two (2) prospective General Contractors were considered for selection; (1) Allied Contractors and (2) CSE Contractors, Inc. Based on the Tally Sheet, dated November 2, 2022, both General Contractor firms met Miami-Dade County ordinances and procurement requirements and provided a bid based on the Construction Contract Documents, developed by MOBIO and the Design Team. However, Allied Contractors provided the lower bid and met that specific criteria for selection. Therefore, and based on the above stated facts, MOBIO recommends you and MDAD Contracting office to proceed with contract negotiations with Allied Contractors.

Should there be any questions or if our office can be of further assistance, please do not hesitate to contact me.

Cordially,

TRADE RESTRICTION CLAUSE

Pursuant to 49 CFR, Part 30.13, FAA Order 5100.38, the Entity, by submission of a bid an offer and/or execution of a contract, certifies that it:

a. is not owned or controlled by one or more citizens of a foreign country included in the list of countries that discriminate against U.S. firms published by the Office of the United States Trade Representative (USTR);

b. has not knowingly entered into any contract or subcontract for this project with a person that is a citizen or national of a foreign country on said list, or is owned or controlled directly or indirectly by one or more citizens or nationals of a foreign country on said list;

Question No. 1
Is the below approved as an alternative?

CONDITION 01

There are sixteen (16) new hollow metal (HM) frame/door openings with the following attributes:
MARKS: ET104, ET106, E02102, E04101, E07202, E07203, E04202, E06202, E06203, E05202, E10202, E11202, ET304, ET306,
E04302 and E05301
1) located at stairwell
2) SINGLE door leaf with a transom (Frame Type "F-2" or "F-1" with transom)
3) 90 Minute Rated
4) Temp Rise requirement (Fire-Resistive per 2017 Florida Building Code 716.5)

CONDITION 02

There are two (2) new hollow metal (HM) frame/door openings with the following attributes:
MARKS: ET204 and ET206
1) located at stairwell
2) UNEQUAL PAIR door leafs with a transom (Frame Type "F-4")
3) 90 Minute Rated
4) Temp Rise requirement (Fire-Resistive per 2017 Florida Building Code 716.5)

Frame configurations with transoms and sidelites with 1 1/2 hour (90 minute) ratings are not tested by any hollow metal manufacturers in accordance with ASTM E119 or UL 263 (Fire Tests of Building Construction and Materials).

These assemblies are only tested and listed in accordance with UL10C and NFPA 252 (45 Minute max ratings at non-fire resistive locations), and are not permitted elsewhere.

CONDITION 1 and CONDITION 2 -
Both conditions have a transom and are location at a fire-resistive (not fire protective) temperature rise required condition (stairwell).

IBC/FBC Table 716.5 and Section 716.5.6 does not permit Fire Protective materials - No hollow metal manufacturers can provide fire resistive assemblies with fixed sidelites or transoms. This type of assembly is a specialty product (See below).

A Fire Resistive door with transom by a specialty manufacturer (Technical Glass Products for example) would be many times more costly - to preserve a transom that is not being used for daylight.

PROPOSED for approval:

It is being proposed for approval that the new condition at these (18) locations permit the GC to infill the transom portion with masonry, concrete, or lightage wall assembly that meets the rating required at this location.

If this were a 45MIN rating, it could be easily accommodated; however, the 90MIN rating with the requirements of these locations precludes the use of cost-effective transoms. GC infill of the transoms with acceptable materials, after demolition of the frames, would save considerable cost if approved.

CONDITION 2 –

The final condition at these (2) locations, in addition to the transom noted above, currently calls for a fixed 8" sidelite panel with a 48" door leaf. Type "G" frame on sheet AN501.1 is a single door leaf with fixed sidelite While the 48" door leaf can be easily accommodated, the 8" wide fixed sidelite panel falls under the same section of code as the transoms.

PROPOSED for approval - OPTION 1:

It is suggested here to infill the 8" panel (CMU, Concrete or lightgage assembly), as well as the transom above, to provide for a 48" X
84" egress door - all for the same reasons as noted above.
The 48" door leaf would be the maximum width able to be provided. We would like confirmation that egress calculations were run using the 48" door leaf noted; if so, we would follow this same proposed solution.

PROPOSED for approval - OPTION 2:

If for some reason a 48" wide door leaf were found to NOT be acceptable, the opening would be suggested to be widened by the GC to a 64-1/4" ROUGH OPENING.
This would permit an unequal door pair of 36" + 24" (min 24" for panic device) + 4" frame jambs + 1/2" shimming. The transom would still be required to be infilled in this scenario.

A new door pair and hardware set would be required to accommodate the 36" + 24" door leafs. Option 2 is more costly than Option 1.

Answer No. 1:

- Condition 1 proposed alternative is approved with the following conditions:
  Transom for doors E07203, E04202, E04302 and E5301 could be replaced for a taller door of 8'-0" in height. All other doors identified by the contractor in this question could replace transoms with an 8" U-block lintel reinforced with 2#5 for openings 6'-0" wide and 8" C.M.U. block reinforced with 2#6. Provide minimum lintel bearing 8" each end, extend bars 6" beyond face of support, finish blocks with stucco/plaster and paint.

- Condition 2 Option 1 is not approved.

- Condition 2 Option 2 is approved with the following conditions:
  Doors identified by the contractor in this question could replace transoms with an 8" U-block lintel reinforced with 2#5 for openings 6'-0" wide and 8" C.M.U. block reinforced with 2#6. Proposed option 1 with a 48" door size is acceptable for the bid. In lieu of the 8" metal door panel, provide a light gauge metal partition with gypsum board to meet required Fire rating shown on life safety plans. Follow detail 11 on sheet AN501.03 for jamb conditions.

Question No. 2
Per the approved vendor list in the ITB:

- Matrix is doing the programming
- Honeywell is doing the fire alarm
- CNP is doing the cameras

Answer NO. 2:

A. No, the Contractor is responsible for purchasing and installing the card readers and Intercom and all other equipment and associated devices (i.e. wiring and conduit, etc.) specified in the bid documents.
B. Refer to Section 3 of the solicitation for the Miami-Dade County Aviation Department approved contractors. The General Contractor shall include in their Bid price all work associated with MDAD approved contractors for the referenced scope of work.

Question No.3
According to the electrical scope of work. Most, if not all, will have to be carried out in the 3rd shift, please confirm.

Answer No. 3
Per Section 3 of the solicitation:
"Successful bidder for this contract will be required to coordinate with and schedule all work as needed with MDAD contractors, consultants and MDAD departments/offices as required or needed or directed by the MDAD project manager or his/her representative, to perform their work in conjunction with this project and to achieve the successful completion of the project."

Question No. 4

Answer No. 4
Per the Contract Summary of the Solicitation (page 28), the contract duration is 570 Calendar Days. Start Date would be identified in the NTP.

Question No. 5
What is the expectation of the contractor for the demo/removal and replacement of the doors? Specifically, the security and life safety. Would temporary walls or barricades be needed when a door is being worked on or present security guard?

Answer No. 5
The contractor is to remove and replace doors where indicated in the bid documents. Temporary walls and temporary doors are located and denoted in the demolition drawings of the bid documents. Refer to sheets AD101.18 to ad103.06, AN501.01, AN501.02, AN501.03, and project manual sections for the removal of doors, hardware, accessories, conduits, and devices. Coordinate scope of demolition and new work with electrical drawings as required.

Question No. 6
How many doors would be allowed to be worked on concurrently?

Answer No. 6
It all depends on the location of the door, its intended use, its impact on operation, where does the door lead to, etc. The contractor shall coordinate with MDAD how many doors could be worked on concurrently, if any. This can be determined after the successful bidder receives NTP.

Question No. 7
Will the owner be providing the cameras to the contractor?

Answer No. 7
No, the owner will not provide the cameras.

Question No. 8
Will the owner be providing the cameras to the contractor?

Answer No. 8
See response to No. 7 above.

Question No. 9
Does this project have an IG fee?

Answer No. 9
Yes, IG fee is applicable to this project.

Question No. 10

Page IB-13, Section 2.01 of the Instruction to Bidders calls for Bidders to submit the following items related to Small Business Goals: (a) Small Business Development Certificate of Assurance and, (b) Schedules of Intent (SOI) Affidavits. On recent and current bids for Projects at MIA and for other Miami-Dade County solicitations, we have only been required to submit with the bid the Small Business Development Certificate of Assurance, and only after the bid, if selected, we are required to upload our Small Business Utilization Plan electronically into the Small Business Development system. Please clarify if we are required to submit the Schedules of Intent (SOI) Affidavits with our bid.

Answer No. 10

All references to SOI are hereby deleted. SOI is not required for submittal, but a signed and notarized Certificate of Assurance (COA) must be submitted with the sealed bid. Refer to Section 9, Small Business Program of the Bid for instructions on the COA.

This Addendum becomes a part of the subject solicitation.

A. Article 12, Section Q. User Access Program (UAP) is hereby deleted in its entirety from this solicitation.

B. AFTER the question submittal deadline, the following questions regarding County legislation were received. No other questions will be accepted. Responses are as follow:

Question No. 1
User Access Program. Refer to Volume 1 of the Bid Documents. Article 12, Section Q (User Access Program - UAP) of the Standard Construction General Contract Condition states that a 2% UAP Fee will be deducted from each payment (including retainage) made by the County to the Contractor. There is no line item for this 2% on the Bid Form (note that the Bid Form does contain a line item for 0.25% Inspector General Fee). Are we to include this 2% UAP in the amounts for the Items we are pricing OR is this 2% included within the 10% Contingency Allowance Account on the Bid Form?

Answer No. 1
UAP is not applicable to this Bid. See letter A of this addendum.

Question No. 2
Art In Public Places. Refer to Volume 1 of the Bid Documents. Article 12, Section C.2 of the Standard Construction General Contract Conditions states we are to comply with " .... the County's Art in Public Places requirements as set forth herein.." We understand that funds for Arts in Public Places are calculated based on 1-1/2% of capital costs for a Project, including engineering fees, consulting fees, capital project management fees, construction costs, site work, allowances, and contingency allowances. Are we to include this 1-1/2% in our Bid Items or is this 1-/2% part of the 10% Contingency Allowance Account on the Bid Form or is this 1-1/2% accounted from separately and outside of our Contract?

Answer No. 2
Refer to Section 1. Definitions of the solicitation. "The cost of [the Art in Public Places] program is budgetary, funded by the Department, and shall not be included in the Contractor's bid."

Question No. 3
Residents First Training and Employment Program. On October 18, 2022, the Miami-Dade County (Agenda Item 7A) passed a resolution amending Section 2.11.17 of the Code for " .... Residents First Training and Employment Program ...". Refer to Volume 1 of the Bid Documents. Article 12, Section C.2 of the Standard Construction General Contract Condition requires us to comply with "Residents First Training and Employment programs as set forth in Sections 10-33.02, 2-10.4.01, 2-8.1.1.1.2, 2-8.1.1.1.1, 2-11.16, 2-1701, and 2-11.17 of the Code". Under this Contract, are we going to be required to comply with this newly-passed (on October 18, 2022) resolution amending Section 2.11.7 of the Code?

Answer No. 3
Per the solicitation Section 13. APPLICABLE LEGISLATION: Contractor and subcontractors are required to abide by all applicable federal, state, and local laws and ordinances, as they may be amended from time to time.

state agencies which carry out federally-approved OSHA programs. Access to this OSHA work product is being afforded via the Internet for the use of members of the public who wish to track OSHA interventions at particular work sites or to perform statistical analyses of OSHA enforcement activity. It is critical that users of the data understand several aspects of the system in order to accurately use the information.

The source of the information in the IMIS is the local federal or state office in the geographical area where the activity occurred. Information is entered as events occur in the course of agency activities. Until cases are closed, IMIS entries concerning specific OSHA inspections are subject to continuing correction and updating, particularly with regard to citation items, which are subject to modification by amended citations, settlement agreements, or as a result of contest proceedings. THE USER SHOULD ALSO BE AWARE THAT DIFFERENT COMPANIES MAY HAVE SIMILAR NAMES AND CLOSE ATTENTION TO THE ADDRESS MAY BE NECESSARY TO AVOID MISINTERPRETATION.

The Integrated Management Information System (IMIS) is designed and administered as a management tool for OSHA to help it direct its resources. When IMIS is put to new or different uses, the data should be verified by reference to the case file and confirmed by the appropriate federal or state office. Employers or employees who believe a particular IMIS entry to be inaccurate, incomplete or out-of-date are encouraged to contact the OSHA field office or state plan agency which originated the entry.
