EXECUTIVE SUMMARY

The purpose of this item is to award a Professional Service Agreement (PSA) with Stantec Consulting Services, Inc. in the amount of \$1,100,000.00 to perform design services for the Parks, Recreation and Open Spaces Department for the replacement of the Zoo Miami animal hospital.

RECOMMENDATION

This recommendation for award for a PSA, Contract Number 592500-20-008, Project Number A21-PROS-02, between Stantec Consulting Services, Inc. and Miami-Dade County (Attachment A) has been prepared by the Parks, Recreation and Open Spaces Department (PROS) for a total contract amount not to exceed \$1,100,000.00 including a contingency allowance amount of \$100,00.00 and a term of three years.

SCOPE

Zoo Miami is located at 12400 SW 152 Street, Miami FL 33177, within County Commission District 9, which is represented by Commissioner Kionne L. McGhee.

BACKGROUND

PROS operates over 278 parks and manages over 13,800 acres of land. PROS seeks a consultant committed to building a healthier, more vibrant and livable community through the implementation of the Parks and Open Space Master Plan.

Zoo Miami is the largest and oldest zoological garden in Florida and the only sub-tropical zoo environment in the continental United States. Due to the unique climate in South Florida, Zoo Miami is able to sustain and call home to a wide variety of animals from throughout the world. Zoo Miami is an award winning entity and accredited by the Association of Zoos and Aquariums (AZA) which requires a meticulous application and inspections process to meet and exceed the AZA's standards for animal health and care.

Currently Zoo Miami occupies approximately 750 acres, from which 340 acres are currently developed and is called home to approximately 3,000 animals representing over 600 different species. Zoo Miami, consistently rated one of America's top ten zoos, will build a new world-class animal hospital that will lead to more outstanding care for one of the most impressive collections of wildlife from around the world. Zoo Miami's hospital, built in 1986, contains surgical and exam rooms, radiology, a research laboratory, indoor and outdoor recovery rooms, and offices. The current facility is 35 years old and has reached a threshold where facilities and equipment are inadequate to meet the growing demands placed upon them.

The Consultant shall provide professional design services for Parks, Recreation and Open Spaces to include, but not limited to:

- PROS seeks the professional services of a prime consultant for the design and the preparation of a complete set of construction documents for a full demolition of the existing approximate 5,600 square foot animal hospital and the construction of a new approximate 20,000 square foot animal hospital. The

design shall incorporate all of the requirements set forth in the AZA guidelines, American Association of Zoo Veterinarians (AAZV) guidelines for veterinary hospitals, Florida Fish and Wildlife Conservation Commission (FWC), the Florida Building Code (FBC) and all other applicable specifications. The consultant shall incorporate resiliency and sustainable development best practices building measures into the design including but not limited to Cool Roofing, Leadership in Energy and Environmental Design (LEED) certification, anti-bird strike glass, room specific pressurization and hurricane enhancement.

- Elements of the work include, but are not limited to, preparation of a complete set of construction documents, approved by the corresponding building authority, technical specifications, preparation of the engineer's estimate of probable construction cost, technical assistance throughout the bid and award process, and technical support during construction. The scope of work shall include all the necessary coordination with all involved agencies and organizations, including but not limited to, PROS, pertinent municipalities and institutions and all the appropriate permitting agencies. Elements of the work include, but are not limited to, topographic, boundary and tree surveys, identification of setbacks, right-of-way, and easements, geotechnical study, demolitions, building architecture and engineering, site development, including existing utility identification and relocation, as required, storm water management, lighting and temporary facilities via mobile modulars.
- The new hospital features radiology and surgical suites, treatment and exam rooms, a laboratory, a pharmacy, wide hallways and secure transportation docks which will allow Zoo Miami to expand the animal health team's abilities to treat over 3,500 species at the zoo. The new zoo hospital will provide the best care and comfort of the zoo's animals and is situated in the quietest areas on the zoo campus to allow animals to recuperate without added environmental stress. Appropriate spaces for an intensive care unit, post-op recovery, and wards for hospitalized animals will be included. It will have aquatic pools for animals such as river otters and crocodilians as well as padded stalls and smooth walled pens for hoof stock to safely recover in.
- Education is always of the utmost importance in any zoo project and the veterinary hospital is designed with wide hallways and large windows offering views into treatment rooms, which will accommodate the variety of guests touring the facility. Specialized lab equipment, resources and workspaces are part of the training and education programs for the many students that the animal health department hosts year-round.
- In partnership with nationwide veterinary teaching programs, the new zoo hospital will allow Zoo Miami to bring students for internships to gain hands-on clinical experience with zoo and wildlife cases. The zoo's animal health department has also recently launched a One Health initiative with Florida International University's School of Medicine to further the training and global education of 4th year medical students. The potential impact and teaching value of this program will extend to universities and institutions throughout the U.S. and enable Zoo Miami to expand its cooperative learning programs.
- The selected consultant will report directly to the PROS Project Manager.

EXPLANATION: A Notice to Professional Consultants (NTPC) was advertised on September 29, 2021. Four (4) proposals were submitted on October 29, 2021, in response to the NTPC. All four respondents were found in compliance with the Technical Certification requirements established for this solicitation.

On December 15, 2021, the Internal Services Department's Small Business Development Division (SBD) evaluated the four (4) firms and were deemed in compliance with the 5% goal.

The Competitive Selection Committee (CSC) appointed by the County Mayor conducted a First Tier Meeting on March 31, 2022, to evaluate the proposals received. The firms were evaluated in accordance with Section 2-10.4 of the Miami-Dade County Code, Implementing Order 3-34, and Administrative Order 3-39. Local Preference was applied to the First-Tier Evaluation; however, it had no effect on the ranking because all four (4) firms were local. Therefore, the final ranking was based on the total ordinal scores. The final ordinal rankings for the four firms were as follows: Firm No. 1, Gurri Matute PA; Firm No. 2, Stantec Consulting Services, Inc.; Firm No. 3, LIVS Associates, LLC. ; and Firm No. 4, EXP US Services, Inc.

On March 31, 2022, at the First-Tier meeting, the CSC was tasked with evaluating the experience and qualifications of the Proposers, and scoring and ranking the proposals in accordance with the evaluation criteria outlined in the solicitation. The CSC scored all responsive proposals and elected by majority vote, to invite the three (3) highest ranked proposers advance to the Second Tier phase.

On April 25, 2022, LIVS Associates, LLC, one of the shortlisted proposers, withdrew from participation on this solicitation. The proposer stated that it was a business decision. On May, 5 2022, at the Second Tier meeting, the CSC's professional expertise, the information provided in the proposals was deemed sufficient to determine the qualifications of the teams.

By a majority vote, the CSC recommended the following firms, in order of preference, for negotiations of Professional Service Agreements:

RANKING OF SHORTLISTED FIRMS

Stantec Consulting Services, Inc.
Final Ranking – 1
Total Ordinal Score – 6
Total Qualitative Points – 472

The following firm will serve as an alternate:

Gurri Matute PA
Final Ranking – 2
Total Ordinal Score – 9
Total Qualitative Points – 446

The County Mayor's Designee, the Director of the Internal Services Department (ISD), concurred with the CSC and on May 18, 2022 (Attachment D). The Negotiation Committee negotiated with the top ranked firm Stantec Consulting Services, Inc. on July 7, 2022 and concluded on August 10, 2022. The Negotiation Committee reached a consensus to finalize negotiations on September 14, 2022.

Pursuant to Resolution R-187-12, and in accordance with ISD's Procurement Guidelines, Parks, Recreation and Open Spaces staff exercised due diligence to determine Consultant Responsibility for Stantec Consulting Services, Inc. The lists that were referenced included, but were not limited to: convicted vendors, debarred vendors, delinquent contractors, suspended vendors, federal excluded parties and the Small Business Development (SBD) Violations report.

In addition, Parks, Recreation and Open Spaces staff compiled information regarding Stantec Consulting Services, Inc. prior experience with the County. There are twenty evaluations on record for Stantec Consulting Services, Inc. in the Capital Improvements Information System, with an average rating of 3.7 out of a possible 4.0 points. The most recent evaluation was completed May 16, 2022 (Attachment E).
