Mayor

Agenda Item No. 8(O)(2)

Resolution No. R-300-23

Subject: Change Order No. 1 to Contract No. S-956 with Youngquist Brothers, Inc.

Executive Summary

This item seeks approval from the Board of County Commissioners (Board) to authorize extra work required to comply with the State-mandated Ocean Outfall Legislation (OOL). The extra work entails site clearing of approximately five and a quarter (5.25) acres of wetlands for geotechnical investigation and environmental sampling within the footprint of the compliance projects. Regulatory approvals and wetland permits for this work have been obtained from the Florida Department of Environmental Protection (FDEP) and the Miami-Dade Department of Regulatory & Economic Resources (RER). The site clearing work was originally slated to be performed by Water and Sewer Department (WASD) internal forces; however, it has been determined due to the specialized equipment needed, environmental compliance restrictions, and the limited timeframe that WASD is unable to perform. The cost of the extra work is \$923,685 and will be processed as Change Order 1 to contract S-956.

Recommendation

This Change Order No. 1 to Contract No. S-956 between the County and Youngquist has been prepared by WASD and is recommended for approval by the Board pursuant to Section 2-8.1 of the County Code. The Change Order is attached hereto as Exhibit 1.

Scope

The Project is located at the NDWWTP, which is within District 4 represented by Commissioner Micky Steinberg.

Change Order No. 1 is for extra work outside the original scope of the Contract and is comprised of site clearing approximately five and a quarter (5.25) acres of wetlands that are needed to perform geotechnical investigations and environmental sampling/testing.

Delegated Authority

The attached Resolution includes authority for the County Mayor or County Mayor's designee to execute the Change Order.

Fiscal Impact/Funding Source

The fiscal impact of Change Order No. 1 to the County is \$923,685.00, which WASD has determined is a fair and reasonable amount for the additional work described in Change Order No. 1.

Funding will be provided from Wastewater – Outfall Legislation project #962670, Budget Book Page # 85 in the FY 2022 - 23 Adopted Budget and Multi-Year Capital Plan. The funding sources are: WASD Revenue Bonds Sold, WASD Subordinate Debt Sold, WIFIA, Wastewater Connection Charges, Wastewater Renewal Fund, and Wastewater Special Construction Fund.

Track Record/Monitoring

WASD Deputy Director, Planning Regulatory Compliance and Capital Infrastructure, Marisela Aranguiz-Cueto, P.E., will oversee the implementation of Change Order No. 1 to Contract S-956.

Background

On May 27, 2021, Miami-Dade County awarded Contract S-956 to Youngquist for the Project. The award was ratified by the Board via Resolution No. R-819-21. The work undertaken through this Contract is for compliance with the OOL, which requires utilities in Southeast Florida to eliminate the normal use of the ocean outfalls by the end of 2025, to reduce nutrient discharges, and to implement a reuse system that is technically, environmentally, and economically feasible.

The total Contract award was \$77,763,530.00 with a contract duration of 943-calendar days for final completion and a contingency time allowance of 94-calendar days. The Notice to Proceed was issued on September 20, 2021, which established April 20, 2024 as the Contract's Final Completion Date.

To construct the new infrastructure needed to achieve compliance with the OOL, the NDWWTP needs to be expanded. Because of limited space available for expansion within the existing NDWWTP footprint, the OOL compliance projects are located at the WASD-owned parcel to the southwest of the NDWWTP. This parcel has been determined as the most feasible option available in this congested part of Miami-Dade County and will have the least environmental impacts to the region. The area proposed for the expansion contains a mixture of uplands; wetlands to be cleared, dredged, and filled; and wetlands to be preserved. The impacted wetlands in this change order are within the footprint of OOL compliance projects. Overall, 17 acres will be impacted, the majority of which are dominated by exotic vegetation.

WASD has taken steps, in coordination with USACE, FDEP, and RER, to delineate and preserve the higher quality wetlands as well as to evaluate the treatment processes to provide the design with the smallest ecological footprint. Additionally, WASD has obtained mitigation credits to offset the impacted areas necessary for OOL compliance.

The following regulatory approvals for the NDWWTP Wetland Permits have been obtained as follows:

- RER Class I (CLI-2020-0395): June 29, 2022
- FDEP Section 404 Individual Permit (13-0372409-005-SFI): December 13, 2022
- FDEP Section 404 General Permit (13-0372409-011,012-SFG): January 30, 2023
- FDEP Environmental Resource Program (ERP) Permit (13-0372409-004-EI): August 1, 2022
- Revision to FDEP ERP (13-0372409-010-EM): November 21, 2022

The first site clearing will occur in the areas where geotechnical investigations and environmental sampling/testing will be performed. These field investigations are required to complete the design for the new facilities.

Originally, the WASD intended to perform the site clearing using internal WASD resources; however, due to the specialized equipment needed, environmental compliance restrictions, and the limited timeframe to complete this work and adhere to the OOL compliance date, WASD has requested that Youngquist perform this work as extra work that will be processed through this Change Order Number 1 to Contract S-956.

Due Diligence

Pursuant to Resolution No. R-187-12, and in accordance with the Strategic Procurement Department's guidelines, WASD exercised due diligence to determine contractor responsibility for Youngquist. There have been no violations on record for the last three years. There are no SBD measures for the Project.

CHANGE ORDER TO ORIGINAL CONTRACT

CHANGE ORDER NO: 1 CONTRACT NO: S-956
PROJECT TITLE: NDWWTP Municipal Injection Wells (NE-2)
TO CONTRACTOR: YOUNGQUIST BROTHERS LLC 15465 Pine Ridge Road Fort Myers, FL 33908

DATE: 1/25/2023

YOU ARE HEREBY REQUESTED TO MAKE THE FOLLOWING CHANGES IN THE PLANS AND SPECIFICATIONS FOR THIS PROJECT AND TO PERFORM THE WORK ACCORDINGLY, SUBJECT TO ALL CONTRACT STIPULATIONS AND COVENANTS.

Description of work authorized:

Change Order Number 1 is for extra work outside the original scope of the contract. This Change Order is comprised of site clearing approximately five and a quarter (5.25) acres of wetlands to perform geotechnical investigations and environmental sampling/testing, which is required for compliance with the state mandated Ocean Outfall Legislation. The change order amount is for \$923,685.

Monetary Justification:

Background:

On May 27, 2021, Miami-Dade County awarded Contract S-956 to Youngquist Brothers, LLC ("Contractor") for the construction of five municipal injection wells and two monitoring wells at the North District Wastewater Treatment Plant (NDWWTP). The award was ratified by the Board via Resolution No. R-819-21. The work undertaken through this contract is for compliance with the state mandated Ocean Outfall Legislation (OOL), which requires utilities in Southeast Florida to eliminate the normal use of the ocean outfalls by the end of 2025, to reduce nutrient discharges, and to implement a reuse system that is technically, environmentally, and economically feasible. (Continued below)

Time Justification:

There is no time associated with this change.

This change order includes not only all direct costs of contractor such as labor, material, job overhead, and profit markup; but also includes any costs for modifications or changes in sequence of work to be performed, delays, rescheduling, disruption, extended direct overhead or general overhead, acceleration, material or other escalation which include wages and other impact costs.

Contractor hereby waives, fully releases, discharges and acquits Miami-Dade County of any and all liability for claims, additional costs, and any requests for additional time arising out of the fulfillment of the contract and this change order from the date of the contract award to and including execution of this change order.

Monetary Justification: (Continued)

The total contract award was \$77,763,530.00 with a contract duration of 843-calendar days for final completion and a contingency time allowance of 94-calendar days. Notice to Proceed was issued on September 20, 2021, which established April 20, 2024 as the Contract's Final Completion Date. To construct the new infrastructure needed to achieve compliance with the OOL, including the injection and monitoring wells, the NDWWTP will need to be expanded. The area proposed for the expansion contains a mixture of uplands; wetlands to be cleared, dredged, and filled; and wetlands to be preserved. The first site clearing will occur in the areas where geotechnical investigations and environmental sampling/testing will be performed. These field investigations are required to complete the design for the new facilities.

Originally, the Miami-Dade Water and Sewer Department (WASD) intended the site clearing to be performed using internal WASD resources; however, due to the specialized equipment needed, environmental compliance restrictions, and the limited timeframe to complete this work and adhere to OOL compliance date, WASD has requested the Contractor to perform this work as a Change Order Number 1 to Contract S-956.

Conclusion:

To expedite the work required to meet the State-mandated OOL, through this Change Order Number 1, WASD will approve additional work under the Contract by the Contractor. Specifically, Change Order Number 1 adds site clearing of approximately five and a quarter (5.25) acres of wetlands to Contract S-956 for a total amount of \$823,665 and, thereby, increasing the Contract award from \$77,763,530.00 to \$78,687,215.00.

Time Justification Declaration:

A time extension is provided for additional work performed outside the scope of the original Contract that affects the critical path schedule of the contracted work or previously approved changes. Should additional work be required which does not affect the critical path schedule, no time extension will be granted. Should one item of additional work run concurrent with another item of additional work, only time not duplicated can be provided.
