Subject: Resolution Ratifying Vendors Added to Prequalification Pools During the Period Covering
July 1, 2022 through December 31, 2022

Agenda Item No. 8(P)(3)

Resolution No. R-420-23

Summary

This item is a bi-annual report presented for ratification pursuant to Resolution No. R-395-12, sponsored by Chairman Jose “Pepe” Diaz, and adopted on May 12, 2012 by the Board of County Commissioners (Board). The report captures the addition of 123 vendors to prequalification pools from July 1, 2022 through December 30, 2022, of which 59 have local addresses.

Recommendation

It is recommended that the Board of County Commissioners (Board) ratify the actions of the County Mayor or County Mayor’s designee in the addition of vendors to various active open pools. This item is being presented to the Board in accordance with Resolution No. R-395-12, which requires that a report of vendors added to open pools be provided to the Board for bi-annual ratification.

The attachment to this item, covering the period from July 1, 2022 through December 31, 2022, shows the 123 vendors added to prequalification pools during that time period. Of the 123 vendors, 59 have a local office. Additionally, as was requested by various Board members, the attachment includes the small business certification designation where applicable, the principal address of each vendor, the vendor’s local business address, where applicable, and releases (i.e., purchase orders) made to that vendor during the reporting period.

Scope

The scope of this item is countywide.

Fiscal Impact/Funding Source

There is no fiscal impact associated with this item.

Track Record/Monitor

Strategic Procurement Department staff monitor prequalification pools.

Delegated Authority

There is no additional delegated authority requested for this item.

Due Diligence

Pursuant to Resolution No. R-395-12, due diligence on each of the listed vendors was conducted in accordance with the Strategic Procurement Department’s Procurement Guidelines to determine vendor responsibility, including verifying corporate status and that there are no performance or compliance issues. The lists that were referenced include convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to vendor responsibility.

Background

Open prequalification pools are established to allow qualified vendors to participate in spot market competitions for specified goods and services. Open pools are advantageous in that additional vendors meeting the minimum qualification requirements, as specified in a solicitation, can be added at any time during the pool term. This provides ongoing opportunities to vendors interested in participating in the County's competitive business process. It is also an efficient and cost-effective means of contracting that reduces administrative work for staff and vendors wishing to participate in County contracts. Prequalification pools can provide enhanced competition and improved pricing for the County.
