Memorandum

Date: July 6, 2023

To: Honorable Chairman Oliver G. Gilbert, III
and Members, Board of County Commissioners

From: Daniella Levine Cava
Mayor 

Subject: Conveyance of Utility Easements to Florida Power and Light Company to
Provide Electrical Service to the Okeechobee Metrorail Station

Executive Summary

The purpose of this item is to gain approval of the Board of County Commissioners (Board) for conveyance of two easements to Florida Power and Light Company (FPL) for \$1.00 for installation, operation and maintenance of electric power service to the Okeechobee Metrorail Station. The ongoing Metro Grande development conflicts with existing electrical service facilities to the Okeechobee Metrorail Station and the facilities must be relocated to continue servicing the Metrorail Station. The FPL facilities will be installed underground with little or no above ground appearance.

Recommendation

It is recommended that the Board authorize the conveyance of two underground utility easements to FPL to install, operate and maintain electrical power facilities to the Okeechobee Metrorail Station.

Scope

The Okeechobee Metrorail Station and the County-owned property upon which the Metro Grande development is being constructed is located in Commission District 6, represented by Commissioner Kevin Marino Cabrera. However, the impact of the conveyance of easements is countywide in nature.

Delegation of Authority

This item authorizes the County Mayor or the County Mayor's designee to execute the easement conveyances, to exercise all provisions contained therein and to amend the easement areas as described in Exhibits A and B to revise the survey and legal descriptions of the easement areas to conform with the as-built location of the electrical power facilities so long as the facilities have been positioned within 25 feet of the originally proposed locations and the total area is no larger than 25 percent greater than the originally proposed easement areas.

Fiscal Impact/Funding Source

The easements will be conveyed to FPL for a nominal sum of \$1.00. There is no other fiscal impact to Miami-Dade County associated with the conveyance of the easements.

Track Record/Monitor

The person responsible for monitoring the proposed easements serving the Okeechobee Metrorail Station is Javier Bustamante, Assistant Director of Transit Project Management and Support Services for the Department of Transportation and Public Works.

Background

On October 23, 2018, the Board adopted Resolution No. R-1081-18 awarding a ground lease to Cornerstone Group Partners, LLC or its subsidiaries for the purpose of constructing Metro Grande Apartment Homes, an affordable housing, transit-oriented development on County-owned property adjacent to the Okeechobee Metrorail Station. FPL does not allow structures to be built over the FPL underground power service lines. The existing electrical facilities currently serving the Okeechobee Station must be relocated to allow construction of the housing structure. The conveyance of the easements to FPL will allow for the installation, operation and maintenance of the FPL electrical power facilities to serve the Okeechobee Metrorail Station in an alternate location which will not conflict with the construction of the Metro Grande Apartment Homes project.

Pursuant to Resolution R-504-15, adopted by the Board on June 2, 2015, the FPL facilities will be installed underground with little or no above ground appearance. Additionally, FPL has advised that, in the event any of the utility easements are not used for a period of two consecutive years, or if the County abandons the project and no longer uses the FPL facilities, the County can request that FPL remove the electrical facilities from the easement area at the expense of the County and terminate the easement.
