Agenda Item No. 8(P)(1)

Resolution No. R-995-23

Subject: Recommendation for Approval to Award a Designated Purchase for FCX 400Hz Solid State Frequency Converters - Maintenance, Repair, and Parts

Summary

This item is for the award of a designated purchase contract for the Miami-Dade Aviation Department (MDAD). The department currently owns four FCX brand 400Hz solid state frequency converters at the Miami International Airport (MIA). These machines were purchased and installed by Papco Group LLC, d/b/a Volaris Aerospace, the authorized distributor for the original equipment manufacturer, FCX. The equipment design, build, and technology of these units are proprietary, and as such, only manufacturer authorized service technicians can perform the services. The services under this contract will include preventative maintenance inspections, routine and emergency repair services, field inspection services, parts, and components, to support the systems. There are six Small Business Enterprise (SBE) firms certified under the applicable commodities codes, of which Papco Group LLC, d/b/a Volaris Aerospace is one, as well as the manufacturer authorized service provider being recommended for award.

It is important to note, an FCX System 400Hz solid state frequency converter is a highly technologically complex and sophisticated unit that is designed to produce electrical power for the aircraft while the airplane is at the gate, thereby reducing the airline operating cost. Maintenance and repairs are needed to protect and preserve the quality of the equipment. For MDAD to ensure the units are fully operational and reliable, it is crucial for the department's operations to ensure only factory-trained and authorized personnel are performing service on this brand of equipment.

Recommendation

It is recommended that the Board of County Commissioners approve this request for award of a non-competitive designated purchase, *Contract No. SS-10293, FCX 400Hz Solid State Frequency Converters - Maintenance, Repair, and Parts*, to Papco Group LLC d/b/a Volaris Aerospace in the amount of \$597,080 for a five-year term for MDAD. An initial purchase of four, 400Hz solid state frequency converters was made in early 2020 in the amount of \$457,966. The scope of work included demolition and removing end-of-life motor generators, installation of the four new frequency converters, upgrading electrical distribution panels, and installation of new associated conduits. The replacement solid state frequency converters were under the manufacturer's 24-month warranty when initially purchased by the department. Approval of a designated purchase is requested, pursuant to Section 2-8.1(b)(3) of the Miami-Dade County Code, by a two-thirds vote of the Board members present, to authorize award of a contract for the quarterly maintenance, required service, repairs, and purchase of replacement parts that are not standard off-the-shelf components.

Competition for these services is not practicable at this time because the services required are proprietary to the manufacturer authorized vendor, and there are no other vendors authorized or certified to provide these services. Accordingly, it is in the County's best interest to award this designated purchase contract pursuant to Section 2-8.1(b)(3) of the County Code to ensure equipment is maintained according to manufacturer standards to maximize the 20 to 25-year life expectancy of the equipment. The County will periodically survey the market to verify if the provision of the maintenance services can be competed in the future.

Scope

The scope of this item is countywide in nature.

Fiscal Impact/Funding Source

The fiscal impact for the five-year term is \$597,080. There is no previous contract for these services. The requested allocation is based on the annual fee for preventive maintenance and the anticipated cost of parts and repairs not covered under maintenance services.
