Subject: Resolution Setting the Fiscal Year 2022-2023 Rate for the Medicaid Hospital Directed Payment Program

Summary

This item sets the FY 2022-2023 rate for the Medicaid Hospital Directed Payment Program, which was created via Ordinance 21-81 and adopted by the Board of County Commissioners (Board) on September 1, 2021.

Recommendation

It is recommended that the Board of County Commissioners (Board) approve a resolution pursuant to Article IV, Chapter 18, of the Code of Miami-Dade County (Code) and relating to the Medicaid Hospital Directed Payment Program (DPP). This resolution sets a rate for a mandatory payment of 0.29% of gross patient revenue. The purpose of the mandatory payment is to generate funds that would be matched by a new round of federal funds for the County's private hospitals.

Scope

This proposed mandatory payment is countywide, and it applies to private, for-profit or not-for-profit hospitals. The applicable hospital properties are located throughout multiple County Commission Districts, which are represented by several County Commissioners.

Fiscal Impact/Funding Source

Setting the rate of this mandatory payment will result in no economic impact to the County budget and no increase or decrease in County staffing. The funds collected via the mandatory payment will reimburse the County's estimated administrative costs for the management of the mandatory payment for 2022-2023 of \$48,766.55.

Social Equity Statement

The resolution, which is supported by the affected hospitals, will allow generation of federal matching dollars – a result that benefits the affected hospital properties by improving income potential and by providing funds available for investment in capital improvements. If the proposed resolution is approved, hospital property owners affected by the mandatory payments will make payments appropriately apportioned according to the special benefit they receive from the resultant service, regardless of their demographics. The total estimated amount of the mandatory payments to be levied will not exceed the benefits each owner will receive from the service provided. Pursuant to the applicable federal regulations, this service can only be provided by the County, and only if all hospitals participate by paying the mandatory payment at a uniform rate.

Track Record/Monitor

The mandatory payments will be managed by the Finance Department's Credit and Collections Division and monitored by Ms. Cristina Mekin, Director of Finance Credit and Collections Division.

Delegation of Authority

Pursuant to Section 18-52 of the County Code, the County Mayor or County Mayor's designee is authorized to execute any agreements, as required by the Florida Agency for Health Care Administration (AHCA) or the federal government in connection with the Medicaid Hospital DPP, following approval by the County Attorney's Office as to legal sufficiency.

Background

Medicaid is a joint federal-state health insurance program that provides medical coverage to a low-income population consisting of children, pregnant women, people over 65, and individuals with disabilities. See 42 U.S.C. § 1396, *et seq.* Although the program is administered by the states, Medicaid is jointly funded by states and the federal government through federal matching of state funds. See 42 U.S.C. § 1396b.

State general revenue comprises a large share of the funds receiving a federal match. Other forms of revenue collection, however, also qualify for matching. For example, local governments can collect funds and use intergovernmental transfers (IGTs) to send those funds to the state for federal matching. See Social Security Act § 1902(a)(2); 42 CFR § 433.51. IGTs have the advantage of increasing the magnitude of federal spending without a commensurate increase in state general revenue spending. So long as the collection of funds and these IGTs comply with federal rules, they are eligible for federal match. See Medicaid Voluntary Contribution and Provider-Specific Tax Amendments of 1991, PL 102-234, December 12, 1991, 105 Stat. 1793; Social Security Act § 1903(w).

As required by Section 18-53 of the County Code, the County received a petition requesting that a mandatory payment be made on all participating private hospitals, both for-profit and not-for profit, for participation in the 2022-2023 Medicaid Hospital DPP. The petition contained: (1) the boundaries or other description sufficient to identify the properties; (2) a brief description of the service requested to be provided; (3) a legal opinion, that is acceptable to the County Attorney's Office, from a duly licensed Florida attorney stating that the imposition of the mandatory payment is lawful; (4) a copy of the hold harmless and indemnification executed by a minimum of 51 percent of the institutional health care providers; and (5) an executed release, in a form acceptable to the County Attorney's Office, wherein the property owners and institutional health care providers state, among other things, that it forever releases the County and its officers, employees, and agents from any and all liability relating to the imposition of the mandatory payment. Pursuant to 18-60 of the County Code, if at any time the mandatory payments are no longer broad-based, the Board's authority to collect mandatory payments under this article shall be ineffective. If at any time one or more of the property owners or institutional health care providers objects to the mandatory payment, the Board's authority to collect the mandatory payments under this article shall cease.

The proposed resolution will set the Fiscal Year 2022-2023 rate at 0.29% of gross patient revenue. The estimated amount of funds to be collected is approximately \$128,819,294. The rate is calculated by based on the estimated non-federal share need for the DPP and the total Gross Patient Revenue of non-public hospitals in the County. Additionally, the rate will provide for the reimbursement to the County of \$48,766.55 in administrative costs involved in administering the payments within the Mandatory Payment Program. Please note that the unit of measurement applied to determine the mandatory payment is Gross Patient Revenue as identified on the 2021 Medicare cost report.

The mandatory payments involve a local government service that confers a specific, direct benefit to the payors, and this benefit also extends to the hospital properties themselves. The mandatory payment is also fairly and reasonably apportioned upon the eligible properties. The County services to be provided will consist of collecting the mandatory payments eligible for federal matching and remitting such funds through IGT, which will unlock directed payment program funds. The resultant subsidy benefits Miami-Dade County hospital properties through enhanced Medicaid payments, which may be used for many purposes, such as capital projects and hospital services. Contingent upon Board approval of this proposed resolution, the services will be accomplished pursuant to an agreement between the County and AHCA. County staff will administer the billing process.
