Mayor

Agenda Item No. 8(P)(11)

Subject: Request for Approval to Award an Additional Group for Location of Underground
Utilities for the Water and Sewer Department

Resolution No. R-1005-23

Summary

This item is for the award of an additional group (under an existing contract for the purchase of location of underground utilities services for the Water and Sewer Department (WASD)). WASD requires these services to accurately locate underground WASD utilities for safeguarding in the vicinity of excavation areas, and clearly mark and protect located utilities as may be required. Such utilities include, but are not limited to, asbestos/cement pipe, Polyvinyl chloride (PVC) pipe, Prestressed Concrete Cylinder Pipes (PCCP), copper tubing, polybutylene tubing, high density polyethylene, and ductile iron. In addition, this will facilitate the County's compliance with Florida Statutes Chapter 556, Underground Facility Damage Prevention and Safety Act, which requires a call to Florida's One-Call Center 811 (notification system) to provide notification before digging or excavation work is initiated. The notification system manages communications from excavators throughout the State of Florida and provides location information, as well as the specific actions required to locate underground utilities safely and effectively.

During the initial solicitation process of this contract, WASD chose to opt out and allow their employees to provide the needed services. However, WASD's demand for these services has significantly increased and currently exceeds the capacity of its employees; therefore, WASD requires a contractor for these services. Discussions with the AFSCME Local 121 (Union) were held to review whether these services could be provided via the Gainsharing Program; Union representatives declined the work, acknowledging that the necessary resources were not available and therefore the project did not proceed through the typical gainshare process. WASD employees will continue to perform the services to the full extent of their capacity and the contract will be used to avoid backlogs and expedite project completion. The need to access this contract is crucial for WASD to identify underground utilities safely and effectively prior to digging or commencement of excavation work.

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the award of an additional group to USIC Locating Services, LLC (USIC), for a total amount up to \$3,429,360 to *Contract No. FB-01761, Location of Underground Utilities* for WASD. This additional Group 2 is being added to the contract to obtain reasonable pricing for location of underground utilities services needed by WASD. A solicitation was issued under full and open competition to add these services to the contract. The department's allocation request is based on operational needs to safely and effectively locate underground utilities including, but not limited to, water transmission and distribution mains, water services, and wastewater force mains, gravity sewer mains and laterals.

Background

The Board approved the current competitively established contract through Resolution No. R-27-22 for the Department of Transportation and Public Works (DTPW) in the amount of \$2,879,280 for a five-year term. At the time of solicitation and award of this contract, WASD was using staff to provide the needed services. However, WASD's demand for these services has significantly increased and the demand exceeds the capacity of its employees; therefore, WASD requires a contractor for these services. WASD

employees will continue to perform the services to the full extent of their capacity, and the contract will be used to avoid backlogs and expedite project completion. Therefore, the need to access this contract is crucial for WASD to identify underground utilities safely and effectively prior to digging or commencement of excavation work.

An open and competitive Invitation to Quote (ITQ) for Group 2 was advertised on May 25, 2023, and two bids were received on June 28, 2023, of which USIC was the lowest bidder. A total of 150 vendors, including the incumbent vendor, were notified upon advertisement, of which nine viewed the solicitation. Upon approval of this item, the existing contract *FB-01761* will consist of two groups: Group 1 will be used to purchase location of underground utilities services for DTPW, which was previously awarded to High Tech Engineering, Inc.; and Group 2 will be used to purchase these services for WASD and USIC is being recommended for award.

Scope

The impact of this item is countywide in nature.

Delegated Authority

The County Mayor or the County Mayor's designee will have the authority to issue notice of this award to the recommended vendor, issue the appropriate purchase orders to give effect to same, and exercise all provisions of the contract, including any cancellation or extensions, pursuant to Section 2-8.1 of the County Code and Implementing Order 3-38.

Fiscal Impact/Funding Source

The contract has a current cumulative allocation of \$2,879,280 and expires on March 31, 2027. If this request is approved, the contract will have a modified cumulative allocation of \$6,308,640.

Department	Existing Cumulative Allocation	Additional Allocation Requested	Modified Cumulative Allocation	Funding Source	Contract Manager
DTPW	\$2,879,280	\$0	\$2,879,280	DTPW Operating	Rodney McMillian
WASD	\$0	\$3,429,360	\$3,429,360	Proprietary Funds	Fredrick Taylor
Total:	\$2,879,280	\$3,429,360	\$6,308,640		

Track Record/Monitor

Manuel Jimenez of the Strategic Procurement Department (SPD) is the Procurement Contracting Manager.

Awarded Vendor

Vendor	Principal Address	Local Address	Principal	Awarded Group
USIC Locating Services, LLC	9045 N River Road Suite 200 Indianapolis, IN	None	Jimmy Norred	Group 2 (WASD)

Vendor Not Recommended for Award

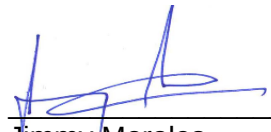

Vendor	Local Address	Reason for Not Recommending
High Tech Engineering, Inc. dba High Tech Locating	Yes	Higher than lowest bidder

Due Diligence

Pursuant to Resolution No. R-187-12, due diligence was conducted in accordance with SPD's Procurement Guidelines to determine contractor responsibility, including verifying corporate status and review of performance and compliance issues through various vendor responsibility lists and a keyword internet search. The lists referenced include convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to contractor responsibility.

Applicability of Ordinances and Contract Measures

- The two percent User Access Program applies where permitted by funding source.
- The Small Business Enterprise measures and Local Preference were applied.
- The Living Wage Ordinance does not apply.
