Resolution No. R-1143-23

Subject: Resolution approving interlocal agreement with the University of
Florida Board of Trustees for clinical and supervisory services in
the field of veterinary medicine for a four-year term

Executive Summary

The County previously entered into an Agreement on June 4, 2019, Resolution No. R-614-19 with the University of Florida Board of Trustees for clinical and supervisory services in the field of veterinary medicine. Both parties desire to continue the collaboration with a four-year term at an estimated annual County contribution beginning at \$133,792.34 and not to exceed a total cost of \$535,169.36. This partnership has helped Animal Services Department (ASD) to increase spay/neuter services, as well as to improve veterinary medical programs through the application of progressive, scientifically based methods of individual animal and shelter management – all in pursuit of ASD's lifesaving mission.

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached Resolution approving an interlocal agreement with the University of Florida Board of Trustees (Agreement) and authorizing the County Mayor or the County Mayor's designee to execute same and exercise any and all provisions contained therein. Through this collaboration, faculty and students from the University's College of Veterinary Medicine will provide veterinary services, spay/neuter surgeries, and assist with a behavioral enrichment program for animals under ASD's care.

More specifically, the Resolution authorizes the following actions:

- The University of Florida shall provide 1.25 full-time equivalent ("FTE") professional clinical and supervisory services, and 1.0 FTE Technician support. They will render clinical services, perform spay/neuter surgeries, and collaborate with ASD's behavioral enrichment program.
- University faculty and students will assist in the provision of veterinary medical care to injured or diseased dogs and cats for those shelter animals who are under the care and custody of ASD on a five-day-per-week receiving schedule at times mutually agreed-upon by the parties.

- ASD will provide all personnel, equipment, and other clinical or administrative support services as are reasonably required for faculty and students to provide services. Staff will provide technical support and share their expertise in the field of shelter medicine, provided that students shall be under the exclusive oversight and supervision of their Faculty Veterinarian(s) at all times.
- ASD will be solely responsible for scheduling all appointments and communicating, five (5) business days in advance, to the assigned Faculty Veterinarian(s) the actual days and hours when services are needed.

Scope

This service will be offered to and benefit all County residents.

Delegation of Authority

Authorizes the County Mayor or the County Mayor's designee to execute the Agreement and exercise any and all provisions therein.

Fiscal Impact/Funding Source

This four-year Agreement carries an estimated annual allocation beginning at \$133,792.34, already included in the FY 23/24 budget. However, both parties recognize that the annual amount may be subsequently adjusted, though not to exceed 5% per annum, to remain consistent with the University's personnel and payroll policies. The total fiscal impact of the Agreement will be approximately \$535,169.36.

Track Record/Monitor

Charles Scherer, Assistant Director, Animal Services Department, is the responsible party for monitoring the Agreement.

Background

The County entered into a partnership with the University of Florida Board of Trustees in 2016. This is an unparalleled collaboration between the veterinary medical profession, academic veterinary medicine, and the animal welfare community – all for the benefit of vulnerable pets in our County. Through this partnership, ASD benefits from additional support, and veterinarian students have access to clinical education in various veterinary medical disciplines to complete their professional development. Based on their shared successes, both parties wish to renew this Agreement.
