Subject: Resolution Ratifying Vendors Added to Prequalification Pools During the Period Covering
January 1, 2023 through June 30, 2023

Agenda Item No. 8(P)(3)

Resolution No. R-1122-23

Summary

This item is a bi-annual report presented for ratification pursuant to Resolution No. R-395-12, sponsored by Chairman Jose "Pepe" Diaz, and adopted on May 12, 2012 by the Board of County Commissioners (Board). The report captures the addition of 129 vendors to prequalification pools from January 1, 2023 through June 30, 2023, of which 78 have a local office.

Recommendation

It is recommended that the Board of County Commissioners (Board) ratify the actions of the County Mayor or County Mayor's designee in the addition of vendors to various active open pools. This item is being presented to the Board in accordance with Resolution No. R-395-12, which requires that a report of vendors added to open pools be provided to the Board for bi-annual ratification.

The attachment to this item, covering the period from January 1, 2023, through June 30, 2023, shows the 129 vendors added to prequalification pools during that period. Of the 129 vendors, 78 have a local office. Additionally, as was requested by various Board members, the attachment includes contract number and title, the small business certification designation where applicable, vendor name, local office validation where applicable, releases (i.e., purchase orders) made to that vendor and date the vendor was added to the pool during the reporting period.

Scope

The scope of this item is countywide.

Fiscal Impact/Funding Source

There is no fiscal impact associated with this item.

Track Record/Monitor

Strategic Procurement Department (SPD) staff monitor prequalification pools.

Delegated Authority

There is no additional delegated authority requested for this item.

Due Diligence

Pursuant to Resolution No. R-187-12, due diligence was conducted in accordance with SPD's Procurement Guidelines to determine vendor responsibility, including verifying corporate status and that there are no performance and compliance issues through various vendor responsibility lists and a keyword internet search. The lists that were referenced included convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to vendor responsibility.

Background

Open prequalification pools are established to allow qualified vendors to participate in spot market competitions for specified goods and services. Open pools are advantageous in that additional vendors meeting the minimum qualification requirements, as specified in a solicitation, can be added at any time during the pool term. This provides ongoing opportunities to vendors interested in participating in the County's competitive business process. It is also an efficient and cost-effective means of contracting that reduces administrative work for staff and vendors wishing to participate in County contracts. Prequalification pools can provide enhanced competition and improved pricing for the County.
