Agenda Item No. 8(P)(15)

**To:** Honorable Chairman Oliver G. Gilbert, III  
and Members, Board of County Commissioners

**From:** Daniella Levine Cava  
Mayor

Resolution No. R-1134-23

**Subject:** Recommendation to Award a Non-Competitive Designated Purchase for Oil/Water Separation Equipment and Maintenance Services

### Summary

This item is for continued maintenance services of the oil/water separation equipment (System) for the Department of Solid Waste Management (DSWM), Department of Transportation and Public Works (DTPW), and the Internal Services Department (ISD). The System removes pollutants by suspending them in a filter media or pillow, housed in boxed frames inside various sizes of catch basins. The County originally purchased the System from Sorbant Environmental Corporation (Sorbant) in 1996, after researching and testing various types of filtration systems. The System has a U.S. Patent (No. 5,507,944) for Storm Water Drainage Filter System and is installed in approximately 294 storm water catch basins located throughout various County facilities. A filtration system is an important part of the Storm Water Pollution Prevention Plan and the National Pollutant Discharge Elimination System federal permit requirement. The permit requires proper maintenance of the catch basin drains and yearly sampling and analysis of the storm water run-off.

As Sorbant is the sole proprietary vendor authorized to maintain and repair the System, a designated purchase is needed to ensure product compatibility with the existing System and that the County remains in compliance with permit requirements.

### Recommendation

It is recommended that the Board of County Commissioners (Board) approve this request for a non-competitive designated purchase pursuant to Section 2-8.1(b)(3) of the Miami-Dade County Code, by a two-thirds vote of the Board members present, and award *Contract No. SS5477-0/26, Oil/Water Separation Equipment and Maintenance Services*, to Sorbant for DSWM, DTPW, and ISD in the amount of \$2,740,552 for a three-year term. This contract will replace *SS5477-1/23*, which was approved by the Board via Resolution No. R-683-13 for a five-year term, with one, five-year option to renew term.

### Background

In March 2008, a previous contract resulting from a competitive bid process was awarded to Sorbant for purchase of maintenance and repair services. Two bidders responded to the solicitation, Sorbant and another Bidder offering an alternate system. The bid offering the alternative system was not compatible with the existing system and would have required the complete replacement of all equipment. The alternative system offered was also deemed cost prohibitive as it was not necessary to replace all box frames at that time. In 2013, the County negotiated and awarded the current sole source contract to Sorbant to secure the best pricing and continue receiving uninterrupted maintenance, repair services, and parts. The expenditures for services are largely driven by the amount of rainfall, due to frequent replacement of filters. Other expenditures are for damages due to accidental and normal wear and tear to the boxed frames requiring repair or replacement, purchase of parts, and filtration systems as needed.

Based on recent feedback from Sorbant, the cost of the existing equipment today, which includes 294 drains and 1,451 box frames, is \$1,008,367. Staff reached out to other firms in the industry to gather feedback on the cost of their systems, and the feedback received indicated that pricing would be approximately over \$1 million, which is consistent with Sorbant's pricing estimate. The cost of replacing the patented system today is unnecessary, as a new vendor would need to install a different system.

The total cost to replace the System would be approximately \$2.7 million, which is inclusive of the cost of a new system, parts and labor, while the \$1 million cost is only for the frames and drains.

Competition for these goods and services is not practicable because of the investment the County has made in this patented System to date, and the System is installed at various locations to fulfill federal permit requirements. No other company is authorized by Sorbant to maintain or repair the Sorbant patented system, nor will another company take responsibility for the existing Sorbant system. The feasibility of future competition will be continually monitored.

Accordingly, it is in the County's best interest to award this designated purchase contract pursuant to pursuant to Section 2-8.1(b)(3) of the Miami-Dade County Code to continue purchasing the required equipment and maintenance and repair services.

### **Scope**

The scope of this item is countywide in nature.

### **Fiscal Impact/Funding Source**

The fiscal impact for the three-year term is \$2,740,552. The current contract is valued at \$6,591,100 for a ten-year and six-month term expires on March 31, 2024. The allocation under the replacement contract is higher than the current contract on an annualized basis due to an increase in the number of locations to be serviced and the estimated service needs therein, as well as inflation.

| Department    | Allocation         | Funding Source         | Contract Manager |
|---------------|--------------------|------------------------|------------------|
| ISD           | \$514,000          | Internal Service Funds | Scott Stephens   |
| DSWM          | \$105,000          | Proprietary Funds      | Arelys Roman     |
| DTPW          | \$2,121,552        | DTPW Operating         | Satyen Thakar    |
| <b>Total:</b> | <b>\$2,740,552</b> |                        |                  |

The effect of any decision shall not be impaired or waived by any negotiations or settlements or offers made in connection with the dispute, whether or not the County Mayor participated therein, or by any prior decision of others, which prior decision shall be deemed subject to review, or by any termination or cancellation of the Agreement. All such disputes shall be submitted in writing by the Contractor to the County Mayor for a decision, together with all evidence and other pertinent information in regard to such questions, in order that a fair and impartial decision may be made. ### 1.4 **REPAIR SERVICES**

After receiving approval from the County's Project Manager, the Contractor shall repair or replace any damaged parts of the Sorbant systems including: Aluminum Filter Frames, Stainless Steel Filtration Box, and Stainless Steel Separation Frames. In addition to all other warranties that may be supplied by the Contractor, the Contractor shall warrant its products and services against faulty labor and/or defective material for a minimum period of thirty (30) calendar days after the date of acceptance of the labor, materials and/or equipment by the County. This warranty requirement shall remain in force for the full period identified above; regardless of whether the Contractor is under contract with the County at the time of defect. Any payment by the County on behalf of the goods or services received from the bidder does not constitute a waiver of these warranty provisions.

**B. Correcting Defects Covered Under Warranty**

The Contractor shall be responsible for promptly correcting any deficiency, at no cost to the County, within one (1) calendar days after the County notifies the Contractor of such deficiency in writing. If the Contractor fails to honor the warranty and/or fails to correct or replace the defective work or items within the period specified, the County may, at its discretion, notify the Contractor, in writing, that the Contractor may be debarred as a County bidder and/or subject to contractual default if the corrections or replacements are not completed to the satisfaction of the County within five (5) calendar days of receipt of the notice. If the Contractor fails to satisfy the warranty within the period specified in the notice, the County may (a) place the Contractor in default of its contract, and/or (b) procure the products or services from another vendor and charge the Contractor for any additional costs that are incurred by the County for this work or items; either through a credit memorandum or through invoicing.
