Subject: Resolution Retroactively Authorizing the Application and Receipt of Grant Funds from the Edward Byrne Memorial Justice Assistance Grant from the U.S. Department of Justice and Authorizing the Expenditure of Awarded Funds

Executive Summary

On January 11, 2024, Miami-Dade County (County), through the Miami-Dade Police Department (MDPD), received notice of award from the FY 2023 Edward Byrne Memorial Justice Assistance Grant (JAG) Program from the U.S. Department of Justice, Office of Justice Programs, Bureau of Justice Assistance (BJA). The MDPD now desires retroactive authority to apply for and receive FY 2023 JAG Program funds in the amount of \$517,346, and authority to execute the "Certifications and Assurances by the Chief Executive of the Applicant Government" (Certifications and Assurances) attached and labeled herein as Exhibit A. Additionally, the Certifications and Assurances require that the grant application be reviewed by the Board of County Commissioners (Board) and made available for public comment. Consequently, the Program Narrative is attached and labeled herein as Exhibit B. A complete copy of the grant application is on file with the MDPD.

Recommendation

It is recommended that the Board approve the attached resolution retroactively authorizing the County Mayor or County Mayor's designee's action of applying for and receiving no-match grant funds, in the amount of \$517,346 from the FY 2023 JAG Program to support the MDPD's efforts to prevent and reduce crime. It is further recommended that the County Mayor or County Mayor's designee be authorized to expend awarded FY 2023 JAG Program funds and execute the Certifications and Assurances.

Scope

Awarded grant funds will support countywide services.

Delegation of Authority

The County Mayor or County Mayor's designee is retroactively authorized to apply for and receive FY 2023 JAG Program funds in the amount of \$517,346. The County Mayor or County Mayor's designee is further authorized to expend awarded FY 2023 JAG Program funds, and execute any contracts, agreements, and memoranda as may be required by program guidelines, after review by the County Attorney's Office for form and legal sufficiency. The County Mayor or County Mayor's designee is also authorized to exercise any cancellation or extension provisions contained therein, and to execute any amendments, provided that such amendments do not alter the purpose of such contracts, agreements, and/or memoranda.

Fiscal Impact/Funding Source

This grant will provide \$517,346 in federal funds to implement the proposed project. This grant does not require any matching or in-kind funds. The funding source is the FY 2023 JAG Program. As such, there is no negative fiscal impact to the County.

Track Record/Monitor

To ensure compliance with grant requirements, these funds will be monitored by Assistant Director Gustavo Knoepffler, of the MDPD's Fiscal & Departmental Services.

Background

The MDPD's funding priority for its FY 2023 JAG Program allocation is to reduce crime and improve public safety through training, employing additional personnel, and connecting community members with vital social services. Specifically, the MDPD will use awarded funds for its Police Cadet Training and Unite Us programs.

Individuals interested in pursuing a career as a law enforcement officer have a clear path to employment through the MDPD's Police Academy, or other accredited police training programs. However, there currently isn't a clear path to employment for individuals seeking a career as law enforcement support personnel. The MDPD recognizes that in addition to well-trained law enforcement officers, a team of well-trained civilian support personnel is essential to public safety. The MDPD's Police Cadet Training Program (PCTP) will create such a path for individuals seeking a career as law enforcement support personnel. The PCTP will target high school students residing in underserved communities. Based on interests, cadets will choose the 911 Dispatcher, Public Service Aide, or Correction Technician tracks. Each program will carry the cadet through to testing and certification, as required by law. Once cadets complete the program, they will be given hiring preference for positions within the MDPD.

The MDPD recognizes that connecting residents to vital social services will improve public safety and proposes to use FY 2023 JAG Program funding to create the Unite Us Program. Unite Us is a healthcare management system that connects residents, victims, individuals in crisis, and prior offenders reentering the community with service providers, community organizations, and governmental agencies that provide essential services to participants. Additionally, Unite Us allows for the tracking of outcomes, identification of service gaps, and empowers community members to take ownership of their own health. This network of providers will mutually benefit law enforcement and the community.

Edward Byrne Memorial Justice Assistance Grant Program FY 2023 Local Solicitation

Certifications and Assurances by the Chief Executive of the Applicant Government

On behalf of the applicant unit of local government named below, in support of that locality's application for an award under the FY 2023 Edward Byrne Memorial Justice Assistance Grant ("JAG") Program, and further to 34 U.S.C. § 10153(a), I certify to the Office of Justice Programs ("OJP"), U.S. Department of Justice ("USDOJ"), that all of the following are true and correct:

1. I am the chief executive of the applicant unit of local government named below, and I have the authority to make the following representations on my own behalf as chief executive and on behalf of the applicant unit of local government. I understand that these representations will be relied upon as material in any OJP decision to make an award, under the application described above, to the applicant unit of local government.
2. I certify that no federal funds made available by the award (if any) that OJP makes based on the application described above will be used to supplant local funds, but will be used to increase the amounts of such funds that would, in the absence of federal funds, be made available for law enforcement activities.
3. I assure that the application described above (and any amendment to that application) was submitted for review to the governing body of the unit of local government (*e.g.*, city council or county commission), or to an organization designated by that governing body, not less than 30 days before the date of this certification.
4. I assure that, before the date of this certification— (a) the application described above (and any amendment to that application) was made public; and (b) an opportunity to comment on that application (or amendment) was provided to citizens and to neighborhood or community-based organizations, to the extent applicable law or established procedure made such an opportunity available.
5. I assure that, for each fiscal year of the award (if any) that OJP makes based on the application described above, the applicant unit of local government will maintain and report such data, records, and information (programmatic and financial), as OJP may reasonably require.
6. I have carefully reviewed 34 U.S.C. § 10153(a)(5), and, with respect to the programs to be funded by the award (if any), I hereby make the certification required by section 10153(a)(5), as to each of the items specified therein.

a. Description of the Issue

Miami-Dade County (MDC), a local unit of government, is applying for its full allocation of \$517,346.00 from the Edward Byrne Memorial Justice Assistance Grant (JAG) Program. MDC will use the funding to support a law enforcement program, **2023 Crime-Fighting Toolkit: *Building Community Infrastructure***, for the Miami-Dade Police Department (MDPD), the largest public safety agency serving the local jurisdiction of MDC. In the coming fiscal year, the challenges imposed in MDC due to expanded public safety needs has resulted in budget restraints impacting MDPD operations and policing efforts. To adapt to the challenges, MDPD is continuously looking at every aspect of the organization to increase efficiency. **MDPD's strategy and funding priority for FY23 JAG funds will be to continue to refine a robust crime-fighting toolkit with an emphasis on reducing crime through investments in community infrastructure, through empowering and supporting community members. With a two-fold program, MDPD will improve public safety by (1) training and employing additional law enforcement personnel and (2) connecting residents to vital social services – which will improve both public and officer safety, use limited resources more effectively and efficiently, and leverage results from previous Byrne JAG Program investments.** Without funding from the Byrne JAG Program, the **2023 Crime-Fighting Toolkit: *Building Community Infrastructure*** will remain unfunded.

The MDPD mission statement emphasizes the public safety priority of the law enforcement agency and its commitment to the community. The resources provided by the Byrne JAG Program are vital to the Department, providing for important investments to support this

proposed **Crime-Fighting Toolkit: *Building Community Infrastructure***.

(1) Ensuring public safety and security is paramount and requires human capital that inspires and enforces criminal justice. Investing in law enforcement personnel by incentivizing and rewarding public service careers will build a community of motivated police personnel, both civilian and sworn, guiding local youth into a prosocial pipeline that will serve Miami-Dade County well into the future.

(2) Ensuring public safety and security is paramount and requires responsive networks able to link and track outcomes, via a physical and mental health case management system to serve the most vulnerable populations, creating linkages to wraparound services for residents and fostering a culture of health that will serve Miami-Dade County well into the future.

The timeline is consistent with all Federal regulations and will be completed within four years. The following is a description of the proposed program:

Police Cadet Training Program

MDPD proposes an innovative approach to enhanced public safety through the Police Cadet Training Program (PCTP). It is increasingly clear that public safety must be a whole community approach, with multiple channels of involvement and internal/external support systems in place to fill in gaps and catch things that may fall through the cracks. JAG funds will be used to realize these critical needs. In addition to law enforcement officers, there needs to be a team of civilian support personnel assisting with the work, to include Public Safety Aides (PSAs) and 911 Dispatchers. Police officers have a clear pathway through the Police Academy. MDPD proposes the PCTP, creating a direct pathway for youth who wish to pursue law enforcement support positions, complete with the required training and certifications.

Unite Us Program

MDPD proposes a software system designed to enhance health and social care delivery, connecting residents, victims, persons in crisis, and prior offenders reentering society with human and social services they need and deserve. The referral and case management features create an accountable method of tracking the outcomes and subsequent service delivery. Screenings, assessments, and workflows direct participants to the most appropriate care settings to meet pressing needs. These networks of service providers, community, organizations, and government become a growing ecosystem of mutual benefits and resources for the community.

b. Project Design and Implementation

The Byrne JAG Program priorities recognize the economic realities and the resulting significant pressures on local criminal justice systems. MDPD's strategic planning process guides its priorities and funding strategy. The local community is engaged throughout the process through community advisory boards and opportunities for public comment at MDC Board of County Commissioners meetings. MDPD proposes to use grant funds **2023 Crime-Fighting Toolkit: Building Community Infrastructure** to improve police operations with investments in department-wide civilian support personnel to foster economic development via a pipeline of enthusiastic youth straight from high school to law enforcement careers and a physical and mental health case management system to serve the most vulnerable populations, allowing for healing and preventing negative consequences that may arise from long-term trauma or crisis. This will continue the practice of MDPD to use Byrne JAG funds strategically in consideration of law enforcement priorities for public and officer safety. The Department recognizes investments in people providing internal and external supports for the criminal justice system can significantly enhance the overall efficiency of MDPD.

Consistent with the BJA Areas of Emphasis, the MDPD is committed to promoting public trust between communities and criminal justice agencies and reducing violent crime. The MDPD Edward Byrne JAG submission presents initiatives which will advance policing operations via significant investments to combat crime while securing resources for MDPD which remain unfunded. As the 21st century continues, it is clear that law enforcement must rise to meet new and ever-evolving challenges. By investing in a generation of Police Cadets prepared to serve and inspire, MDPD plans to support the community with proactive policing innovations. The proposed project for the Byrne JAG Program will provide support for crucial public safety infrastructure which would otherwise not be supported due to the lack of local funds.

For the PCTP, high school students will be the target population. Students will complete the Summer Academy during the summer before senior year, allowing them to enroll as cadets. Based on interests, they can opt to apply to the *911 Dispatcher* track or to the Miami-Dade Public Safety Training Institute for the *Public Safety Aide/PSA* and/or *Corrections Technician* tracks. Program enrollment preference will be given to youth living in local underserved communities. The program will carry civilian cadets through to testing and certifications as required by law. The program curriculum will include both classroom and field work, such as ride-alongs, to fully immerse students in the law enforcement experience. Based on the career track selected, students will learn the basic requirements of the 911 Dispatchers, PSAs, and/or Corrections Technicians. It is expected that some students will apply to become Law Enforcement Officers after the program, as the Police Explorer Program is often a draw for youth interested in becoming sworn officers.

Because the Police Explorer Program infrastructure exists and operates successfully, MDPD plans to leverage these assets and complement them with a Police Cadet Program Manager who can integrate the additional civilian support personnel components into a cohesive whole,

funded through a previous JAG grant. MDPD will develop performance indicators to measure realistic progress towards attaining performance objectives. Student progress will be evaluated daily in both the classroom and field settings, providing students with feedback. Instructors, PEP coordinators, and/or Neighborhood Resource Officers ensure that the students understand the material being taught before progressing through the course, with instruction provided via overtime hours through JAG grant funding. Field operations and practicums serve as another evaluation method. Immediate feedback is provided after all practicums and many times scenarios are repeated to ensure that students are comprehending the material and correcting any deficiencies that are being brought to their attention. Demonstrating desired behavior/response is critical. Debriefing sessions in the field allow for instructors and other on-scene police personnel to provide immediate feedback to the students. Subsequent Q&A field sessions allow for instructors to evaluate students' comprehension of the material, while also allowing for instructors to explain and clarify the material for the students. Once students complete the program, they will be given hiring preference for positions within MDPD.

The applicant, MDPD, is the appointed sheriff's department of MDC and the largest local police department in the southeastern U.S. with more than 3,000 sworn personnel, protecting 2.8 million residents and 14 million annual visitors, responsible for public safety in a large metropolitan community. MDPD is committed to strong community partnerships with a wide range of community groups (private and public) which enhance MDPD's public safety efforts.

MDPD is known nationally as a leader in law enforcement, and is accredited by two agencies, the Commission on Accreditation for Law Enforcement Agencies (CALEA), Inc., on the national level, and the Commission for Florida Law Enforcement Accreditation, Inc., on a statewide level. The Department's focus on accreditation clearly documents its commitment to the

highest level of public safety and service.

The estimated timeline for this project is four years for completion. In consideration of MDPD's responsibilities for public safety to this community, statutory mandates, obligations for safety to its sworn officers, and continuing budget challenges, the Byrne JAG Program will provide essential support for the **2023 Crime-Fighting Toolkit: *Building Community Infrastructure***. It is imperative that the Byrne JAG Program funding opportunity be used for effective policing strategies which will continue to enhance the public safety of MDC communities and safe and effective policing by the officers of the MDPD.

c. Capabilities and Competencies

Grant management for MDPD is provided by the Fiscal Administration Bureau (FAB). The primary responsibility of grant management personnel is to ensure compliance with grant requirements through regular compliance monitoring including corrective action if and when necessary. Compliance monitoring conducted by FAB grant management personnel includes maintaining fiscal controls, regular monitoring of the grant objectives (operational and financial), and preparing and submitting operational and fiscal reports as required. MDPD's grant management is conducted by a grant manager (police sergeant) and grant accountants. FAB provides departmental budgetary and fiscal guidance, and ensures compliance with all MDC and departmental policies and procedures, as well as State and Federal guidelines. FAB's main functions include: preparation and monitoring of the departmental operating and capital budget; accounting and reporting for all grants and trust funds awarded to MDPD; coordinating and monitoring all financial activities, as well as providing purchasing, capital inventory oversight, and inventory and supply controls for the department in delivering efficient and effective police services to MDC residents. MDPD FAB has a proven record of experience in implementing a wide

array of U.S. DOJ grant-funded programs and meeting goals and objectives, on time, on budget, and in compliance with the grant agreements.

d. Plan for Collecting the Data Required for this Solicitation's Performance Measures

MDPD's FAB will report on required measures including amount of funds expended and other program measures and submit quarterly performance metrics through BJA's Performance Measurement Tool, as required by the USDOJ Bureau of Justice Assistance. If funding is awarded for **2023 Crime-Fighting Toolkit: *Building Community Infrastructure***, all work conducted using funding from this award will comply with the requirements set forth in the solicitation for all progress reports and financial reports. MDPD has a clear understanding of the performance data reporting requirements for this grant program and will gather the required data through regular communication and monitoring by identified project staff related to all aspects of purchasing, equipment usage guidelines, and personnel management.
