Resolution No. R-408-24

Subject: Ratification of an Interlocal Agreement with the City of South Miami for information technology maintenance and support services

Executive Summary

This item ratifies an Interlocal Agreement between Miami-Dade County (County) and the City of South Miami (City) for information technology maintenance and support services for an initial one-year term and authorizes a four-year extension. Pursuant to Sections 2.9 and 2.10 of the Code of Miami-Dade County (Code), this Agreement is subject to ratification by the Board of County Commissioners (Board). It's important to note, the City will pay the County a minimum of \$325,536 annually resulting in a minimum generated revenue amount of \$1,627,680 for the life of the contract. The County has been the sole provider of the City's information technology maintenance and support services since April 2014.

Recommendation

It is recommended that the Board of County Commissioners (Board) ratify the Interlocal Agreement between the County and the City for information technology maintenance and support services for a one-year term commencing on October 1, 2023. Additionally, this item authorizes a four-year extension commencing on October 1, 2024 and expiring on September 30, 2028.

Sections 2-9 and 2-10 of the Code allows the County Mayor or the County Mayor's designee to enter into a contract on behalf of the County with municipalities and other governmental units for joint performance with the County for a period not to exceed one year subject to ratification by the Board.

Scope

The City of South Miami is in Commission District 7, which is represented by Commissioner Raquel A. Regalado.

Delegation of Authority

This item ratifies the action of the County Mayor's designee in executing the Agreement. The accompanying resolution further authorizes the extension of this one-year Agreement by another four years and authorizes the County Mayor or County Mayor's designee to exercise all provisions of the Agreement including termination.

Fiscal Impact/Funding Source

The Interlocal Agreement will generate a minimum of \$325,536 annually in revenue to the County through the provision of information technology maintenance and support services to the City.

Track Record/Monitor

Kawal Kaimchan, Service Management Division Director in the Information Technology Department, monitors this agreement.

Background

In September 2013, the City issued a Request for Proposal (RFP) for information technology maintenance and support services because they were advised by their Information Technology contractor that the contractor would not renew the annual contract with the City. After reviewing the submitted proposals, the City determined that the respondents did not possess significant municipal and governmental experience to provide the needed on-site information technology services. Subsequently, the County's Information Technology Department was contacted by the City for an analysis and proposal for the provision of information technology services. Pursuant to a review and approval of the Information Technology Department's proposal, the City approved an Interlocal Agreement for information technology maintenance and support services.

The County has been the sole provider of the City's information technology maintenance and support services since April 2014. The County has provided significant enhancements and security improvements to the network and the City is very satisfied with the County's services. The Interlocal Agreement expired on September 30, 2023 and at the request of the City a new agreement was executed, with an effective date of October 1, 2023.
