Agenda Item No. 8(P)(3)

Resolution No. R-401-24

Subject: Request for Additional Time and Expenditure Authority to Prequalification Pool for Closed-Circuit Television Camera Equipment, Maintenance and Repair Service

Summary

This prequalification pool is for the purchase of various types of closed-circuit television (CCTV) camera equipment, parts, inspection, installation, maintenance, repair, training, and software support services for the Department of Transportation and Public Works (DTPW) and Water and Sewer Department (WASD). CCTV camera equipment is used to inspect pipes for possible leaks and to assess their overall integrity. WASD uses customized vehicles equipped with remote cameras and recording devices to regularly inspect wastewater transmission systems and to perform repairs to seal pipes, joints, access points, and service connections, as required. DTPW uses this pool on an as need basis for CCTV camera equipment, maintenance, and repair services used to inspect its extensive drainage system comprised of miles of varying diameter pipes, which service the public rights-of-way. This item is requesting additional time and expenditure authority.

This is an open pool and there are no changes to the pool requirements. It is anticipated that if the pool was resolicited the same vendors would prequalify, hence a five-year extension is being requested. This extension will allow existing prequalified vendors to remain in the pool provided they continue to meet the requirements, while new vendors will be able to access the pool for additional participation, resulting in greater efficiency for both existing vendors and the County due to reduction in administrative work. Continuing with the current pool will allow existing vendors to focus on accessing bid opportunities, as opposed to repeating prequalification documentation. Thus, the pool will continue to streamline processes and reduce time to procure these goods and services, saving the County time and money and reducing administrative barriers for our vendors.

Recommendation

It is recommended that the Board of County Commissioners (Board) approve extending *Prequalification Pool No. RTQ-01327, CCTV Camera Equipment, Maintenance and Repair Services* for five years and \$5,729,100 in additional expenditure authority for DTPW and WASD. Approval of this item will allow these departments to continue purchasing CCTV camera equipment, maintenance, and repair services based on their specific needs.

This pool was established by the Board through Resolution No. R-1297-19 on December 3, 2019, for a five-year term with an allocation of \$2,860,000 for WASD. Since inception, the pool has been modified under delegated authority for \$74,250 in additional expenditure authority which allowed DTPW to access the pool. There are currently five prequalified vendors, none of which have local addresses.

To track pool expenditures by vendor, bidding under this and other prequalification pools is being conducted and monitored in a single platform, INFORMS, which allows staff to provide reports to the Board, as requested.

Background

The prequalification pool was established with two groups: Group 1: Purchase of Equipment, Software, Parts and Accessories; and Group 2: Technical Support, Training, Maintenance and Repair Services. Extending this pool will allow departments to continue to purchase various types of equipment, parts,

inspection, installation, maintenance, repair, training, and software support services for CCTV camera equipment. The extension will also allow for replacement of the current inventory of camera equipment that has surpassed its life expectancy, to include camera systems, camera lamps, camera transport systems, and cutter assemblies.

Prior to the decision to seek extension of the pool, outreach was conducted to identify potential local vendors via INFORMS and DemandStar postings, and an email blast was issued based on a list of Miami-Dade County registered vendors using the associated commodity code for specialized cameras. Twenty-three vendors downloaded the package, but only one non-local vendor responded to the announcement of the extension, expressing interest in participating in the pool. As soon as this additional vendor submits the required documentation, the vendor may be added to the pool. The pool will remain open to allow additional vendors that meet the prequalification criteria to be added.

Scope

The impact of this item is countywide in nature.

Delegated Authority

There is no additional delegation of authority sought in this item as the authority to solicit pricing and award contracts up to an aggregate amount of the allocation authorized by the Board, exercise all provisions of the solicitation documents and any resulting contracts pursuant to Section 2-8.1 of the County Code and Implementing Order 3-38, and add vendors to the pool at any time, subject to ratification by the Board on a bi-annual basis, was granted when the pool was established. Any contract award under the prequalification pool exceeding \$5,000,000 is subject to ratification by the Board.

Fiscal Impact/Funding Source

The pool term expires on January 31, 2025, and has a cumulative allocation of \$2,934,250. If this request is approved, the pool will have a modified cumulative allocation of \$8,663,350 and will expire on January 31, 2030. The requested increase in expenditure authority is based on historical use of the pool, and the departments' anticipated needs throughout the extended term.

Department	Existing Cumulative Allocation	Additional Allocation Requested	Modified Cumulative Allocation	Funding Source	Contract Manager
DTPW	\$74,250	\$89,100	\$163,350	Operating Funds	Alonzo Joseph
WASD	\$2,860,000	\$5,640,000	\$8,500,000	Proprietary Funds	Fredrick Taylor
