Agenda Item No. 8(P)(2)

Resolution No. R-760-24

Subject: Recommendation for Approval to Award a Contract for Hewlett Packard Enterprise Hardware and Services

Summary

This contract is for the purchase of Hewlett Packard Enterprise (HPE) hardware and services for the County. The Information Technology Department (ITD) is responsible for providing technology support, infrastructure, and integration for all departments. The purchase of HPE servers and storage will allow for further standardization of the County's network infrastructure to HPE, resulting in lower costs of ownership, greater efficiencies in product support, and reduction in administrative costs. Products and services procured through this contract will support several ongoing projects including but not limited to the 911 Computer Aided Dispatch Solution for Miami-Dade Police Department (MDPD) and Miami-Dade Fire Rescue (MDFR), Supervisory Control and Data Acquisition for Water and Sewer Department (WASD), Voter Registration System for Elections Department, and Computer Aided Dispatch Solution/ Automated Vehicle Locator for Department of Transportation and Public Works (DTPW).

Recommendation

It is recommended that the Board of County Commissioners (Board) approve a competitive contract award, *Contract No. EVN0000646, Hewlett Packard Enterprise Hardware and Services* to Agilant Solutions, Inc. (Agilant) for ITD on behalf of multiple County departments in the amount of \$19,833,810 for an initial five-year term. The contract includes one, three-year option to renew (OTR), which will require Board approval before the OTR is exercised. This contract will replace *Contract No. RFP-00912* approved by the Board on May 5, 2020, through Resolution No. R-387-20 for a four-year term.

Background

A Request for Proposals (RFP) was issued under full and open competition on August 7, 2023. On the closing date of September 15, 2023, the County received two proposals. One proposal was submitted to the County Attorney's Office (CAO) on October 2, 2023 for a responsiveness determination. On October 31, 2023, the CAO issued a finding deeming SHI International, Inc. non-responsive. An Evaluation Meeting was held on November 16, 2023 and approval to proceed with negotiations with Agilant, the sole responsive proposer, was approved on December 4, 2023. During negotiations, staff and the selected Proposer were able to achieve a contract, which included a comprehensive scope and appropriate pricing structure to ensure the best value to the County.

Agilant has the necessary experience, qualifications, personnel, and capability to provide HPE hardware and services to meet the needs of the County. As the premier HPE Reseller in the region, Agilant brings a vast level of product and service expertise while maintaining technical staff with the highest levels of certifications in a multitude of disciplines.

Through this contract, the County will maintain its ongoing efforts to standardize its network infrastructure with HPE servers and storage for reduced ownership expenses, improved product support efficiencies, and lowered administrative costs. Products and services procured through this contract will support several ongoing projects including the 911 Computer Aided Dispatch Solution, Supervisory Control and Data Acquisition, Voter Registration System, and Computer Aided Dispatch Solution/ Automated Vehicle Locator.

Scope

The scope of this item is countywide in nature.

Fiscal Impact/Funding Source

The fiscal impact for the initial five-year term is \$19,833,810. Should the County choose to exercise, at its sole discretion, a one, three-year OTR, it will be negotiated and presented to the Board for approval. The current contract is valued at \$19,660,290 for a four-year and six-month term and expires on November 30, 2024. The annualized allocation under the proposed contract is lower than the current contract and is based on the departments' anticipated operational needs. The replacement contract includes allocation for all County HPE hardware and critical projects for ITD, MDFR, MDPD, Elections, DTPW, and WASD.

Department	Allocation	Funding Source	Contract Manager
ITD	\$19,833,810	Internal Service Funds	Julian Manduley
Total	\$19,833,810		

Note: The contract contains termination for convenience and assignment provisions which can be exercised if the commodities and services in this item are affected by the establishment of the constitutional offices. Goods and services purchased under this item will be included in the inventory report as a part of the transition plan for constitutional offices. As new contracts or allocations are approved, the inventory report will be updated accordingly.

Track Record/Monitor

Subject: Responsiveness Determination for EVN0000646, Hewlett Packard Enterprise (HPE) Hardware and Services

On September 15, 2023, the Strategic Procurement Department received two proposals for RFP No. PM-EVN0000646 (Hewlett Packard Enterprise (HPE) Hardware and Services) (hereinafter "Solicitation"). You have asked this office if the proposal from SHI International, Inc. ("SHI") is non-responsive. We rely on the information provided in your e-mails regarding this subject, conversations regarding this Solicitation, the terms of the Solicitation itself, and Proposers' submissions.

The purpose of the Solicitation is to select strategic technology partners for the purpose of obtaining Hewlett Packard Enterprise (HPE) servers, storage, and related information technology hardware. In this Solicitation, potential proposers were required to provide pricing information through the Price Proposal Schedule where they were specifically directed to indicate a percentage discount to be applied to all purchases in accordance with section 2.0 Scope of Services during the contract term, including any renewals or extensions thereof. Proposers were also informed that such information would be used as part of the evaluation process. Specifically, a proposer's proposed percentage discount and Pricing Methodologies and Incentives represented 10% of the total points in the evaluation process.

In their proposal, SHI did not provide the County with a specific percentage discount as requested. Instead, it offered a range of "30-50%" and stated that its "[p]ricing methodologies are based off current market, volume discounts and incentives provided to SHI from manufacturer and distributor at time of purchase." As a general matter, "[i]t is an offeror's responsibility to submit a well-written proposal, with adequately detailed information which clearly demonstrates compliance with the solicitation and allows a meaningful review by the procuring agency." *Matter of: Orion Tech., Inc.*, B-405077, 2011 CPD P 159, 2011 WL 3647315 (Comp. Gen. 2011). In addition, a bid is nonresponsive if it would adversely affect competitive bidding by placing a proposer in a position of advantage over other proposers. *Glatstien v. City of Miami*, 399 So. 2d 1005 (Fla. 3d DCA 1981).

Here, the bid submitted by SHI would place it in a position of advantage over other proposers because SHI could alter its discount depending on what other proposers have offered. For example, if the highest discount percentage from other proposers was 45%, SHI could tell the County, post-bid submittal, that it would offer a 46% discount to be the highest discounted vendor. Similarly, if the highest discount percentage from other proposers was only 35%, then SHI could tell the County, post-bid submittal, that it would offer a 36% discount to be the highest discounted vendor. If the County were to allow this type of adjustment, when proposers who provided a fixed percentage discount could not, then SHI would have an unfair advantage in this competitive solicitation. Accordingly, SHI's proposal is nonresponse.

7. Trade-in Equipment

The Contractor will provide trade-in options to the County for existing hardware at the fair market value ("FMV") described below:

FMV Methodology

FMV depends upon number of drives, processors, and condition. The timing, frequency, configuration, and condition of the equipment when it is made available to the Contractor will determine the FMV at that time.

The Contractor uses a three (3) step approach:

Step 1: Audit & Diagnostics

- Make/Model
- Serial Number
- Memory
- Other identifiable information about asset
- Categorized:
 - ▶ "Category A" - status shall mean a complete, working system exhibiting "normal wear & tear"
 - ▶ "Category B" - status shall mean a working system that has minor damage
 - ▶ "Category C" - status shall mean a system that is operational, but requires technical repair and may have minor damage (broken plastics, missing parts, etc.)
 - ▶ "Recycle" - status shall mean equipment that is obsolete or not working and is missing parts, or has been stripped or damaged beyond repair.

Step 2: Evaluation of Dealer Markets, Bid Process & Resale

- Minimum of three sources

Step 3: Profit Share to Client

- If accepted, RIOS SOP procedures in place for acquiring the assets
- Product verified upon audit
- Payment is made

(30) calendar days after the documented date of initial installation for the following reasons:

- Inoperative condition: The unit is not operative at power-up or fails because of factory-configured hardware, software, or firmware.

Note 1: The quickest resolution to an inoperative condition is for the County to contact the normal service and warranty channels first. If initial service is not successful, the County can request an additional service event or replacement unit. Replacement units receive highest supply-chain priority.

- Order fulfillment condition (to be addressed by Point of Sale):

- ▶ Unit is incomplete or missing items or components;
- ▶ Unit is configured improperly by the Contractor;
- ▶ Unit received is not what was ordered; or
- ▶ Unit arrives damaged.

Note 2: Whole unit shipments typically take 7-15 days; however, whole unit replacement shipment times may vary by product line, from the date the unit is ordered to the shipment date.
