For this purpose, the attached resolution seeks the ratification of the County Mayor or County Mayor's designee's award of three (3) separate Non-Exclusive Professional Services Agreements (the "Agreements"), that were competitively solicited, under Project No. E23WS05 for Engineering Design Services for Proposed Upgrades to Miami-Dade County's Wastewater Treatment Plants and Appurtenant Facilities. The awarded Agreements are between Miami-Dade County (the "County") and the following firms, respectively:

- Black & Veatch Corporation ("Black & Veatch"), Agreement No. 23BLVE008;
- Jacobs Engineering Group Inc. ("Jacobs"), Agreement No. 23JEGI003;
- Hazen and Sawyer, P.C. ("Hazen"), Agreement No. 23HASPC005.

The total amount for each Agreement shall not exceed \$16,500,000.00, including a ten-percent (10%) contingency allowance, for a contract term of six (6) years with a (2) year-option to renew. Therefore, the total fiscal impact for the three agreements is \$49,500,000. Pursuant to the Agreements, the three (3) firms will provide planning, design, engineering services during construction, construction support, condition assessment, and renewal and replacements for the three (3) existing wastewater treatment plants listed below, along with their appurtenant facilities.

SUMMARY

The Miami-Dade Water and Sewer Department (WASD) is the primary provider of water and wastewater services to Miami-Dade County (the County) serving a population of over 2.7 million, making it among the largest water/wastewater utilities in the United States. WASD has developed a Multi-Year Capital Improvement Program (CIP) to upgrade its infrastructure systems throughout the County in order to renew and replace existing deteriorated systems, and to ensure an efficient, reliable water and wastewater system throughout the County in order to accommodate future growth and development or redevelopment. WASD recognizes the need for engineering design services for proposed upgrades to the County's wastewater treatment plants and appurtenant facilities and other critical projects which are an integral part of the CIP. For this solicitation under Project No. E23WS05, the County intends to retain three (3) qualified firms under three (3) separate Non-Exclusive Professional Services Agreements, including Agreement No. 23HASPC005, (Agreement). This contract award recommendation was prepared by WASD.

WASD is requesting approval of the Agreement between the County and Hazen and Sawyer, P.C. (Hazen and Sawyer) to provide WASD with engineering design services for proposed upgrades to the County's wastewater treatment plants and appurtenant facilities, which is essential to the entire County.

A review of the County's Capital Improvements Information System showed the recommended vendor has 15 evaluations with an average evaluation score of 3.9 out of a possible maximum score of 4.0. (See Attachment A: Contractor Evaluation Report)

Received Date: 6/29/2023

Project/Contract No: E23WS05

Funding Source: Other

Department: Water & Sewer

Estimated Cost of Project/Bid: \$45,000,000.00

Contract Measures		
Measure	Program	Goal Percent
Goal	SBE - A&E	14.00%
No Measure	SBE - Goods	
No Measure	SBE - Services	
Reasons for Recommendation		
SMALL BUSINESS ENTERPRISE - ARCHITECTURAL & ENGINEERING (SBE-A&E). SBD reviewed this project pursuant to Implementing Order 3-32 for an SBE-A&E measure. Project information analyzed included the project's scope of services, estimated project cost, minimum requirements/qualifications and funding source. An attempt was made to assign this project a Set-Aside measure; however, three or more firms did not respond to the Verification of Availability to Propose as being able to meet the project's requirements. An analysis of the factors contained in the project package, as well as the factors contained in Section V. B. 2. C. of Implementing Order 3-32 indicates a 14.00% SBE-A&E Sub-Consultant Goal is appropriate for this contract in the following Technical Categories: TC 6.01 (Water and Sanitary Sewer Systems - Water Distribution and Sanitary Sewage Collection and Transmission Systems) - 2.00%, TC 17.00 (Engineering Construction Management) - 2.00%, TC 6.02 (Water and Sanitary Sewer Systems - Major Water and Sanitary Sewage Pumping Facilities) - 2.00%, TC 10.05 (Environmental Engineering - Contamination Assessment and Monitoring) - 2.00%, TC 15.01 (Surveying and Mapping - Land Surveying) - 2.00%, TC 14.00 (Architecture) - 2.00% and TC 20.00 (Landscape Architecture) - 2.00%. WASD is seeking three (3) A&E consultants with a maximum compensation for this Non-Exclusive Professional Services Agreement (PSA) of \$15,000,000.00 plus a ten percent (10%) contingency allowance (\$1,500,000.00). The term for this PSA is six (6) years with one (1) two (2) year option-to-renew with no minimum amount of work or compensation guaranteed to the retained consultant.		
SMALL BUSINESS ENTERPRISE - GOODS & SERVICES (SBE-Goods & SBE-Services). An analysis of Implementing Order 3-41 & Ordinance 16-109, as well as the project package indicates a No Measure is appropriate.

Contract Measures		
Measure	Program	Goal Percent
Goal	SBE - A&E	14.00%
No Measure	SBE - Goods	
No Measure	SBE - Services	
Reasons for Recommendation		
SMALL BUSINESS ENTERPRISE - ARCHITECTURAL & ENGINEERING (SBE-A&E). SBD reviewed this project pursuant to Implementing Order 3-32 for an SBE-A&E measure. Project information analyzed included the project's scope of services, estimated project cost, minimum requirements/qualifications and funding source. An attempt was made to assign this project a Set-Aside measure; however, three or more firms did not respond to the Verification of Availability to Propose as being able to meet the project's requirements. An analysis of the factors contained in the project package, as well as the factors contained in Section V. B. 2. C. of Implementing Order 3-32 indicates a 14.00% SBE-A&E Sub-Consultant Goal is appropriate for this contract in the following Technical Categories: TC 6.01 (Water and Sanitary Sewer Systems - Water Distribution and Sanitary Sewage Collection and Transmission Systems) - 2.00%, TC 17.00 (Engineering Construction Management) - 2.00%, TC 6.02 (Water and Sanitary Sewer Systems - Major Water and Sanitary Sewage Pumping Facilities) - 2.00%, TC 10.05 (Environmental Engineering - Contamination Assessment and Monitoring) - 2.00%, TC 15.01 (Surveying and Mapping - Land Surveying) - 2.00%, TC 14.00 (Architecture) - 2.00% and TC 20.00 (Landscape Architecture) - 2.00%. WASD is seeking three (3) A&E consultants with a maximum compensation for this Non-Exclusive Professional Services Agreement (PSA) of \$15,000,000.00 plus a ten percent (10%) contingency allowance (\$1,500,000.00). The term for this PSA is six (6) years with one (1) two (2) year option-to-renew with no minimum amount of work or compensation guaranteed to the retained consultant. SMALL BUSINESS ENTERPRISE - GOODS & SERVICES (SBE-Goods & SBE-Services). An analysis of Implementing Order 3-41 & Ordinance 16-109, as well as the project package indicates a No Measure is appropriate.

Project/Contract Title: Engineering Design Services for Proposed Upgrades to Miami-Dade County's Wastewater Treatment Plants and Appurtenant Facilities

Received Date: 6/29/2023

Project/Contract No: E23WS05

Funding Source: Other

Department: Water & Sewer

Estimated Cost of Project/Bid: \$45,000,000.00

Description of Project/Bid: WASD is seeking three (3) A&E Consultants to provide engineering design services for proposed upgrades to Miami-Dade's wastewater treatment plants and appurtenant facilities.

Contract Measures		
Measure	Program	Goal Percent
Goal	SBE - A&E	14.00%
No Measure	SBE - Goods	
No Measure	SBE - Services	
Reasons for Recommendation		
SMALL BUSINESS ENTERPRISE - ARCHITECTURAL & ENGINEERING (SBE-A&E). SBD reviewed this project pursuant to Implementing Order 3-32 for an SBE-A&E measure. Project information analyzed included the project's scope of services, estimated project cost, minimum requirements/qualifications and funding source. An attempt was made to assign this project a Set-Aside measure; however, three or more firms did not respond to the Verification of Availability to Propose as being able to meet the project's requirements. An analysis of the factors contained in the project package, as well as the factors contained in Section V. B. 2. C. of Implementing Order 3-32 indicates a 14.00% SBE-A&E Sub-Consultant Goal is appropriate for this contract in the following Technical Categories: TC 6.01 (Water and Sanitary Sewer Systems - Water Distribution and Sanitary Sewage Collection and Transmission Systems) - 2.00%, TC 17.00 (Engineering Construction Management) - 2.00%, TC 6.02 (Water and Sanitary Sewer Systems - Major Water and Sanitary Sewage Pumping Facilities) - 2.00%, TC 10.05 (Environmental Engineering - Contamination Assessment and Monitoring) - 2.00%, TC 15.01 (Surveying and Mapping - Land Surveying) - 2.00%, TC 14.00 (Architecture) - 2.00% and TC 20.00 (Landscape Architecture) - 2.00%. WASD is seeking three (3) A&E consultants with a maximum compensation for this Non-Exclusive Professional Services Agreement (PSA) of \$15,000,000.00 plus a ten percent (10%) contingency allowance (\$1,500,000.00). The term for this PSA is six (6) years with one (1) two (2) year option-to-renew with no minimum amount of work or compensation guaranteed to the retained consultant.		
SMALL BUSINESS ENTERPRISE - GOODS & SERVICES (SBE-Goods & SBE-Services). An analysis of Implementing Order 3-41 & Ordinance 16-109, as well as the project package indicates a No Measure is appropriate.
