Subject: Resolution Ratifying the Award of Three (3) Non-Exclusive Professional Services Agreements for Project No. E23WS06 to Black & Veatch Corporation (Agreement No. 23BLVE009), HDR Engineering, Inc. (Agreement No. 23HDRE005), and Hazen and Sawyer, P.C. (Agreement No. 23HASPC006) for Engineering Planning, Design, Construction Management, and Related Services for the Water Treatment Plants Improvements Project Related to Miami-Dade Water and Sewer Department's Consent Decree and Capital Improvement Programs Acceleration Ordinance

Executive Summary

The Water and Sewer Department ("WASD") has developed a Multi-Year Capital Improvement Program ("CIP") to upgrade its infrastructure systems throughout Miami-Dade County (the "County") in order to renew and replace existing deteriorated systems and to ensure an efficient, reliable water and wastewater system throughout the County and to accommodate future growth and development. For this purpose, the attached resolution seeks the ratification of the County Mayor or County Mayor's designee's award of three (3) separate Non-Exclusive Professional Services Agreements (the "Agreements"), that were competitively solicited, under Project No. E23WS06 for engineering planning, design, construction management, and related services for water treatment plants improvements. The awarded Agreements are between Miami-Dade County (the "County") and the following firms, respectively:

- Black & Veatch Corporation ("Black & Veatch"), Agreement No. 23BLVE009;
- HDR Engineering, Inc. ("HDR"), Agreement No. 23HDRE005; and
- Hazen and Sawyer, P.C. ("Hazen"), Agreement No. 23HASPC006.

The total amount for each Agreement shall not exceed \$16,500,000.00, including a ten percent (10%) contingency allowance, for a contract term of six (6) years, with one (1) two (2) year-option to renew. Therefore, the total fiscal impact for the three agreements is \$49,500,000.00. Pursuant to the Agreements, the three (3) firms will provide planning, design, engineering services during construction, construction support, condition assessment, and renewal and replacements for the three (3) existing water treatment plants listed below:

- Alexander Orr Water Treatment Plant and South Miami-Dade Water Supply System located at 6800 SW 87th Avenue, Miami, FL 33173;
- John E. Preston Water Treatment Plant located at 700 West 2nd Avenue, Hialeah, FL 33010; and
- Hialeah Water Treatment Plant located at 1100 West 2nd Avenue, Hialeah, FL 33010.

Subject: Contract Award Recommendation for a Non-Exclusive Professional Services Agreement for Engineering Planning, Design, Construction Management, and Related Services for the Water Treatment Plants Improvements to Black & Veatch Corporation, Agreement No. 23BLVE009 – Project No. E23WS06

SUMMARY

The Miami-Dade Water and Sewer Department (WASD) is the primary provider of water and wastewater services to Miami-Dade County (the County) serving a population of over 2.7 million, making it among the largest water/wastewater utilities in the United States. WASD has developed a Multi-Year Capital Improvement Program (CIP) to upgrade its infrastructure systems throughout the County in order to renew and replace existing deteriorated systems, and to ensure an efficient, reliable water and wastewater system throughout the County in order to accommodate future growth and development or redevelopment. WASD recognizes the need for engineering planning, design, construction management, and related services for water treatment plants (WTP) improvements, and other critical projects which are an integral part of the CIP. For this solicitation under Project No. E23WS06, the County intends to retain three (3) qualified firms under three (3) separate Non-Exclusive Professional Services Agreements, including Agreement No. 23BLVE009 (Agreement). This contract award recommendation is for one of the three prepared by WASD.

WASD is requesting approval of the Agreement between the County and Black & Veatch Corporation (Black & Veatch) to provide WASD with engineering planning, design, construction management, and related services for the water treatment plants improvements, which is essential to the entire County.

A review of the County's Capital Improvements Information System (CIIS) showed the recommended vendor has 46 evaluations with an average evaluation score of 3.9 out of a possible maximum score of 4.0. (See Attachment A: Contractor Evaluation Report)

A review of CIIS, managed by the Office of Small Business Development, showed that Black & Veatch has been awarded one (1) contract with the County within the last three (3) years from the proposal submittal date, with a total contract value of \$6,000,000. (See Attachment B: Firm History Report)

RECOMMENDATION

Pursuant to the WASD Consent Decree and Capital Improvement Programs Acceleration Ordinance Section 2-8.2.12 of the County Code, it is recommended that the County Mayor or County Mayor's designee approve the attached Agreement to Black & Veatch to provide engineering planning, design, construction management, and related services for water treatment plants improvements, Agreement No. 23BLVE009; Project No. E23WS06. The total compensation amount under the Agreement will not exceed \$16,500,000, which includes a ten (10%) contingency allowance, with a contract term of six (6) years, with one (1) two (2) year option-to-renew.

Contract Measures		
Measure	Program	Goal Percent
Goal	SBE - A&E	16.00%
No Measure	SBE - Goods	
No Measure	SBE - Services	

Reasons for Recommendation

SMALL BUSINESS ENTERPRISE - ARCHITECTURAL & ENGINEERING (SBE-A&E).
 SBD reviewed this project pursuant to Implementing Order 3-32 for an SBE-A&E measure. Project information analyzed included the project's scope of services, estimated project cost, minimum requirements/qualifications and funding source. An attempt was made to assign this project a Set-Aside measure; however, three or more firms did not respond to the Verification of Availability to Propose as being able to meet the project's requirements. An analysis of the factors contained in the project package, as well as the factors contained in Section V. B. 2. C. of Implementing Order 3-32 indicates a 16.00% SBE-A&E Sub-Consultant Goal is appropriate for this contract in the following Technical Categories: TC 6.01 (Water and Sanitary Sewer Systems - Water Distribution and Sanitary Sewage Collection and Transmission Systems) - 2.00%, TC 6.02 (Water and Sanitary Sewer Systems - Major Water and Sanitary Sewage Pumping Facilities) - 2.00%, TC 13.00 (General Electrical Engineering) - 2.00%, TC 16.00 (General Civil Engineering) - 2.00%, TC 17.00 (Engineering Construction Management) - 2.00%, TC 15.01 (Surveying and Mapping - Land Surveying) - 2.00%, TC 14.00 (Architecture) - 2.00% and TC 20.00 (Landscape Architecture) - 2.00%.

WASD is seeking three (3) A&E consultants with a maximum compensation for this Non-Exclusive Professional Services Agreement (PSA) of \$15,000,000.00 plus a ten percent (10%) contingency allowance (\$1,500,000.00). The term for this PSA is six (6) years with one (1) two (2) year option-to-renew with no minimum amount of work or compensation guaranteed to the retained consultant.

SMALL BUSINESS ENTERPRISE - GOODS & SERVICES (SBE-Goods & SBE-Services).
 An analysis of Implementing Order 3-41 & Ordinance 16-109, as well as the project package indicates a No Measure is appropriate.

Subject: Contract Award Recommendation for a Non-Exclusive Professional Services Agreement for Engineering Planning, Design, Construction Management, and Related Services for the Water Treatment Plants Improvements to HDR Engineering, Inc., Agreement No. 23HDRE005 – Project No. E23WS06

SUMMARY

The Miami-Dade Water and Sewer Department (WASD) is the primary provider of water and wastewater services to Miami-Dade County (the County) serving a population of over 2.7 million, making it among the largest water/wastewater utilities in the United States. WASD has developed a Multi-Year Capital Improvement Program (CIP) to upgrade its infrastructure systems throughout the County in order to renew and replace existing deteriorated systems, and to ensure an efficient, reliable water and wastewater system throughout the County in order to accommodate future growth and development or redevelopment. WASD recognizes the need for engineering planning, design, construction management, and related services for water treatment plants (WTP) improvements, and other critical projects which are an integral part of the CIP. For this solicitation under Project No. E23WS06, the County intends to retain three (3) qualified firms under three (3) separate Non-Exclusive Professional Services Agreements, including Agreement No. 23HDRE005 (Agreement). This contract award recommendation is for one of the three prepared by WASD.

WASD is requesting approval of the Agreement between the County and HDR Engineering, Inc. (HDR) to provide WASD with engineering planning, design, construction management, and related services for the water treatment plants improvements, which is essential to the entire County.

A review of the County's Capital Improvements Information System (CIIS) showed the recommended vendor has 90 evaluations with an average evaluation score of 3.7 out of a possible maximum score of 4.0. (See Attachment A: Contractor Evaluation Report)

A review of CIIS, managed by the Office of Small Business Development, showed that HDR has not been awarded a contract with the County within the last three (3) years from the proposal submittal date. (See Attachment B: Firm History Report)

RECOMMENDATION

Pursuant to the WASD Consent Decree and Capital Improvement Programs Acceleration Ordinance Section 2-8.2.12 of the County Code, it is recommended that the County Mayor or County Mayor's designee approve the attached Agreement to HDR to provide engineering planning, design, construction management, and related services for water treatment plants improvements, Agreement No. 23HDRE005; Project No. E23WS06. The total compensation amount under the Agreement will not exceed \$16,500,000, which includes a ten (10%) contingency allowance, with a contract term of six (6) years, with one (1) two (2) year option-to-renew.

DELEGATED AUTHORITY

Pursuant to the provisions of Section 2-8.2.12 of the County Code, the County Mayor or County Mayor's designee has the authority to execute, amend and terminate the Agreement, and to resolve disputes. Additionally, pursuant to the provisions of Sections 2-8.2.12 (4)(d) and (e) of the Code, the County Mayor or County Mayor's designee has the authority to amend and/or extend the Agreement to complete any unfinished work, waive liquidated damages, negotiate and settle claims, and execute change orders that do not exceed ten percent (10%) of the base/alternate Agreement amount. Pursuant to Section 2-8.2.12 (7), all actions taken pursuant to Section 2-8.2.12 are subject to ratification by the Board of County Commissioners.

SCOPE

HDR will provide engineering services including but not limited to planning, design, permitting, engineering services during construction and construction support, condition assessment, and renewal and replacements within the three existing water treatment plants (listed below) and their appurtenant facilities.

HDR will provide complete professional engineering services to include plant upgrades, plant expansions projects, facility replacement projects, facility improvement projects and other ancillary tasks. HDR will also be expected to address current and future regulatory requirements. Projects may include plant upgrades and expansion and may include renewal and replacement of existing facilities. Engineering services during the design phase may include performing preliminary site investigations; surveying; hydraulic and process modeling and analysis; coordinating with other utilities; preparing design reports; preparing drawings; and preparing contract specifications for structural, mechanical, electrical and instrumentation projects. Services during the permitting and procurement phases may include obtaining dry-run permits and participating in obtaining final environmental and building permits. Construction support services are required to provide technical support during construction, including site inspections and attendance at meetings, reviewing of shop drawings, processing payment requisitions, responding to information requests, reviewing claims and potential change orders, reviewing contract schedules and schedules of values; and reviewing as-built drawings. Project coordination services are anticipated to include establishing a plan to implement projects; establishing and tracking project schedules, budgets and deadlines; preparing status reports; and attending meetings as requested.

Additional tasks are anticipated to include, but are not limited to:

- Evaluating and formulating plans for improving or optimizing the treatment processes including designing and conducting pilot studies.
- Developing alternatives and designs to address regulatory requirements; including, but not limited to, Per- and Polyfluoroalkyl Substances (PFAS) and the lead and copper rule.
- Conducting studies and providing recommendations related to improving plant operations and efficiencies including safety, staffing, energy conservation, security, corrosion control and asset management issues. This includes site-specific staff training, preparing operation and maintenance manuals and operational practices manuals.

Goal	SBE - A&E	16.00%

Reasons for Recommendation

SMALL BUSINESS ENTERPRISE - ARCHITECTURAL & ENGINEERING (SBE-A&E).
 SBD reviewed this project pursuant to Implementing Order 3-32 for an SBE-A&E measure. Project information analyzed included the project's scope of services, estimated project cost, minimum requirements/qualifications and funding source. An attempt was made to assign this project a Set-Aside measure; however, three or more firms did not respond to the Verification of Availability to Propose as being able to meet the project's requirements. An analysis of the factors contained in the project package, as well as the factors contained in Section V. B. 2. C. of Implementing Order 3-32 indicates a 16.00% SBE-A&E Sub-Consultant Goal is appropriate for this contract in the following Technical Categories: TC 6.01 (Water and Sanitary Sewer Systems - Water Distribution and Sanitary Sewage Collection and Transmission Systems) - 2.00%, TC 6.02 (Water and Sanitary Sewer Systems - Major Water and Sanitary Sewage Pumping Facilities) - 2.00%, TC 13.00 (General Electrical Engineering) - 2.00%, TC 16.00 (General Civil Engineering) - 2.00%, TC 17.00 (Engineering Construction Management) - 2.00%, TC 15.01 (Surveying and Mapping - Land Surveying) - 2.00%, TC 14.00 (Architecture) - 2.00% and TC 20.00 (Landscape Architecture) - 2.00%.

WASD is seeking three (3) A&E consultants with a maximum compensation for this Non-Exclusive Professional Services Agreement (PSA) of \$15,000,000.00 plus a ten percent (10%) contingency allowance (\$1,500,000.00). The term for this PSA is six (6) years with one (1) two (2) year option-to-renew with no minimum amount of work or compensation guaranteed to the retained consultant.

SMALL BUSINESS ENTERPRISE - GOODS & SERVICES (SBE-Goods & SBE-Services).
 An analysis of Implementing Order 3-41 & Ordinance 16-109, as well as the project package indicates a No Measure is appropriate.

SUMMARY

The Miami-Dade Water and Sewer Department (WASD) is the primary provider of water and wastewater services to Miami-Dade County (the County) serving a population of over 2.7 million, making it among the largest water/wastewater utilities in the United States. WASD has developed a Multi-Year Capital Improvement Program (CIP) to upgrade its infrastructure systems throughout the County in order to renew and replace existing deteriorated systems, and to ensure an efficient, reliable water and wastewater system throughout the County in order to accommodate future growth and development or redevelopment. WASD recognizes the need for engineering planning, design, construction management, and related services for water treatment plants (WTP) improvements, and other critical projects which are an integral part of the CIP. For this solicitation under Project No. E23WS06, the County intends to retain three (3) qualified firms under three (3) separate Non-Exclusive Professional Services Agreements, including Agreement No. 23HASPC006 (Agreement). This contract award recommendation is for one of the three prepared by WASD.

WASD is requesting approval of the Agreement between the County and Hazen and Sawyer, P.C. (Hazen and Sawyer) to provide WASD with engineering planning, design, construction management, and related services for the water treatment plants improvements, which is essential to the entire County.

A review of the County's Capital Improvements Information System (CIIS) showed the recommended vendor has 39 evaluations with an average evaluation score of 3.9 out of a possible maximum score of 4.0. (See Attachment A: Contractor Evaluation Report)

A review of CIIS, managed by the Office of Small Business Development, showed that Hazen and Sawyer has been awarded one (1) contract with the County within the last three (3) years from the proposal submittal date, with a total contract value of \$9,600,000. The total compensation amount under the Agreement will not exceed \$16,500,000.00 which includes a ten percent (10%) contingency allowance, with a contract term of six (6) years, with one (1) two (2) year option-to-renew.

DELEGATED AUTHORITY

Pursuant to the provisions of Section 2-8.2.12 of the County Code, the County Mayor or County Mayor's designee has the authority to execute, amend and terminate the Agreement, and to resolve disputes. Received Date: 7/12/2023

Project/Contract No: E23W506

Funding Source: Other

Department: Water & Sewer

Contract Measures		
Measure	Program	Goal Percent
Goal	SBE - A&E	16.00%
No Measure	SBE - Goods	
No Measure	SBE - Services	

Reasons for Recommendation

SMALL BUSINESS ENTERPRISE - ARCHITECTURAL & ENGINEERING (SBE-A&E).
 SBD reviewed this project pursuant to Implementing Order 3-32 for an SBE-A&E measure. Project information analyzed included the project's scope of services, estimated project cost, minimum requirements/qualifications and funding source. An attempt was made to assign this project a Set-Aside measure; however, three or more firms did not respond to the Verification of Availability to Propose as being able to meet the project's requirements. An analysis of the factors contained in the project package, as well as the factors contained in Section V. B. 2. C. of Implementing Order 3-32 indicates a 16.00% SBE-A&E Sub-Consultant Goal is appropriate for this contract in the following Technical Categories: TC 6.01 (Water and Sanitary Sewer Systems - Water Distribution and Sanitary Sewage Collection and Transmission Systems) - 2.00%, TC 6.02 (Water and Sanitary Sewer Systems - Major Water and Sanitary Sewage Pumping Facilities) - 2.00%, TC 13.00 (General Electrical Engineering) - 2.00%, TC 16.00 (General Civil Engineering) - 2.00%, TC 17.00 (Engineering Construction Management) - 2.00%, TC 15.01 (Surveying and Mapping - Land Surveying) - 2.00%, TC 14.00 (Architecture) - 2.00% and TC 20.00 (Landscape Architecture) - 2.00%.

WASD is seeking three (3) A&E consultants with a maximum compensation for this Non-Exclusive Professional Services Agreement (PSA) of \$15,000,000.00 plus a ten percent (10%) contingency allowance (\$1,500,000.00). The term for this PSA is six (6) years with one (1) two (2) year option-to-renew with no minimum amount of work or compensation guaranteed to the retained consultant.

SMALL BUSINESS ENTERPRISE - GOODS & SERVICES (SBE-Goods & SBE-Services).
 An analysis of Implementing Order 3-41 & Ordinance 16-109, as well as the project package indicates a No Measure is appropriate.

The Competitive Selection Committee was tasked with evaluating the experience and qualifications of the Proposers, and scoring and ranking the proposals in accordance with the evaluation criteria outlined in the solicitation.
